
A BILL FOR AN ACT

RELATING TO THE TRAUMA SYSTEM SPECIAL FUND.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that trauma care in
2 Hawaii is in a state of crisis and a public health priority.

3 Injury is the leading cause of death for persons between
4 the ages of one to forty-four in Hawaii, causing more deaths
5 than are caused by cancer and heart disease combined. This
6 underscores the seriousness of traumatic injury as a public
7 health problem in the state.

8 Specialized equipment and prompt access to physicians and
9 other trained health care providers make a significant
10 difference in a trauma patient's health outcome. A weak trauma
11 system hampers the State's readiness to respond not only to the
12 critically injured on a daily basis, but to unforeseen disasters
13 and emergencies as well.

14 As the American College of Surgeons noted in its October
15 2005 report, "Hawaii Trauma System Consultation," extreme
16 isolation and limited physician re-supply capability renders
17 Hawaii uniquely vulnerable to natural disasters that may occur

1 in a mid-Pacific environment. A functional trauma system with
2 the capacity to handle a sudden surge in demand is a fundamental
3 necessity in responding to both natural and man-made disasters.

4 Typically, the cost of providing care to trauma patients is
5 far higher than the total payments received from those patients.
6 Without additional resources, it is unlikely that Hawaii's
7 trauma system will increase in capacity and is at risk of losing
8 what specialized trauma care is currently available.

9 A January 2006, report by the legislative reference bureau
10 entitled, "On-Call Crisis in Trauma Care: Government
11 Responses," noted that the rationale for public support of
12 uncompensated trauma services is the same as for critical police
13 and fire services; a trauma system is a necessary public service
14 that ought to be publicly supported.

15 In light of these findings, the State enacted Acts 305 and
16 316, Session Laws of Hawaii 2006, to ensure and encourage the
17 availability of trauma care by creating a trauma system special
18 fund and dedicating a portion of the revenues generated from
19 cigarette and tobacco tax to the special fund. However, under
20 the terms of the Acts, cigarette and tobacco tax revenues will
21 not be deposited into the trauma system special fund until
22 September 30, 2007, at the earliest.

1 The legislature acknowledges that there is a desperate need
2 to expand the resources available for trauma care in Hawaii. It
3 is also evident that additional resources are needed immediately
4 to ensure the health, welfare, and safety of the citizens of our
5 State. Accordingly, this Act provides a variety of mechanisms
6 to provide needed resources for Hawaii's trauma system.

7 Among other things, this Act:

- 8 (1) Establishes surcharges for violations of chapters 291
9 (traffic violations), 291E (use of intoxicants while
10 operating a vehicle), 707 and 708 (crimes of
11 violence), and 712, part IV (offenses related to drugs
12 and intoxicating compounds);
- 13 (2) Establishes surcharges for violations of sections
14 291C-12 (accidents involving death or serious bodily
15 injury), 291C-12.5 (accidents involving substantial
16 bodily injury), 291C-12.6 (accidents involving bodily
17 injury), and 291C-161 (statewide traffic code
18 penalties);
- 19 (3) Clarifies that the trauma system special fund consists
20 of, among other things, trauma system surcharges, and
21 cigarette tax revenues;

- 1 (4) Provides that the methodology used in calculating
2 costs incurred by hospitals providing care to trauma
3 patients takes into account:
- 4 (A) Physician on-call coverage that is demonstrated
5 to be essential for trauma services within the
6 hospital;
- 7 (B) Equipment that is demonstrated to be essential
8 for trauma services within the hospital; and
- 9 (C) The creation of overflow or surge capacity to
10 allow a trauma center to respond to mass
11 casualties resulting from an act of terrorism or
12 natural disaster;
- 13 (5) Defines "trauma center"; and
- 14 (6) Appropriates an unspecified amount for fiscal years
15 2007-2008 and 2008-2009, for the trauma system special
16 fund.

17 The purpose of this Act is to establish additional funding
18 mechanisms to enhance the availability of resources in the
19 trauma system special fund to ensure the availability of care
20 for trauma patients in the state.
