
A BILL FOR AN ACT

RELATING TO THE HAWAII CHILDREN'S HEALTH CARE PROGRAM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 PART I

2 SECTION 1. Although estimates of the number of uninsured
3 children in the state vary, it is widely acknowledged that there
4 is a gap group that is ineligible for any state or federal
5 health care coverage. The majority of children in this gap
6 group are those whose family income is at or just over three
7 hundred per cent of the federal poverty level. Others in this
8 group may include infants born to uninsured mothers, immigrants
9 with temporary visas, and undocumented immigrants who have been
10 in Hawaii for less than six months. The total number of those
11 who fall into the gap group could be as high as three thousand
12 five hundred children.

13 A study performed by the Urban Institute, a nonpartisan
14 economic and social policy research organization, found that
15 regardless of age, race, ethnicity, income, or health status,
16 uninsured children were much less likely to have received a
17 well-child checkup within the past year and were more likely

1 than insured children to report an unmet need for medical care
2 that was associated with concerns about cost. Children who lack
3 a source of care or regularly use a hospital emergency
4 department are unlikely to receive preventive care or early and
5 regular management of acute or chronic health conditions.

6 Local health care coverage providers offer children's plans
7 that cover certain preventive services, immunizations, doctor
8 visits, diagnostic tests, emergency care, mental health
9 benefits, and some prescription drugs.

10 The State has the opportunity to help provide health care
11 coverage for children in the gap group through partnerships with
12 mutual benefit societies such as the Hawaii Medical Service
13 Association. Such partnerships will allow the State to offer
14 coverage to uninsured children under the existing children's
15 plans offered by these mutual benefit societies. The cost of
16 the premium will be split equally between the partner managed
17 care plan and the State.

18 The purpose of this part is to ensure health care for all
19 of Hawaii's children by establishing the Hawaii children's
20 health care program as a temporary three-year pilot program to
21 provide health care coverage to uninsured children.

1 SECTION 2. **Hawaii children's health care program.** (a)

2 There is established the Hawaii children's health care program
3 as a temporary three-year pilot program to provide health care
4 coverage to uninsured children. The pilot program shall provide
5 health care coverage through a public-private partnership,
6 established as a contract to provide health and human services
7 pursuant to chapter 103F, Hawaii Revised Statutes, between the
8 department of human services and a managed care plan operating
9 in the state under chapter 432, Hawaii Revised Statutes, that
10 offers accident and health or sickness insurance plans.

11 (b) To qualify for this pilot program, a child shall:

12 (1) Be between thirty-one days to eighteen years old;

13 (2) Have been uninsured continually for at least six
14 months; provided that infants between thirty-one days
15 and six months of age shall have been uninsured
16 continually since birth; and

17 (3) Have been ineligible during the six months the child
18 was uninsured for any other state or federal health
19 care coverage, and be currently ineligible for such
20 coverage; provided that all children enrolled in a
21 mutual benefit society's children's plan as of the
22 effective date of this Act shall be eligible for

1 enrollment into the Hawaii children's health care
2 program; provided further that children between
3 thirty-one days to eighteen years of age who become
4 ineligible for QUEST due to an increase in family
5 income may enroll in the Hawaii children's health care
6 program upon disenrollment from QUEST.

7 (c) The department of human services and the managed care
8 plan shall share equally in the cost of the premium for each
9 child enrolled in the pilot program.

10 (d) The department of human services shall pay the State's
11 share of the premiums under the pilot program on a quarterly
12 basis.

13 (e) The managed care plan participating in the pilot
14 program shall be responsible for determining the eligibility of
15 applicants for the Hawaii children's health care program and of
16 enrolling applicants into the program.

17 (f) The managed care plan participating in the pilot
18 program shall provide a quarterly report to the department of
19 human services and the legislature on the number of children
20 enrolled in the pilot program.

21 (g) Other private organizations may partner with the State
22 to offer coverage to uninsured children under the pilot program;

1 provided that plan benefits to be provided shall be equal to or
2 better than those offered through the pilot program established
3 by the State and a managed care plan under subsection (a).

4 (h) The department of human services and any participating
5 managed care plan shall report to the legislature no later than
6 twenty days prior to the start of the 2008 and 2009 regular
7 sessions on:

- 8 (1) Any problems experienced with the program involving
9 crowding out eligible participants;
- 10 (2) Instances of people dropping their previous coverage
11 to receive this free coverage;
- 12 (3) The amount of funding used and for what purposes;
- 13 (4) Any other problems encountered in the administration
14 of the program; and
- 15 (5) Any proposed legislation necessary to improve
16 administration of the program.

17 (i) The Hawaii children's health care program shall
18 terminate on June 30, 2010.

19 PART II

20 SECTION 3. The purpose of this part is to provide access
21 to medical care free-of-charge for children nineteen years of

1 age or younger whose family income is at or below three hundred
2 per cent of the federal poverty level.

3 SECTION 4. Section 346-59.4, Hawaii Revised Statutes, is

14 health and human services pursuant to chapter 103F between the
15 department and private health care providers to continue to
