
HOUSE RESOLUTION

REQUESTING THE DEPARTMENT OF HEALTH TO CONDUCT A STUDY ON THE
FEASIBILITY OF PROHIBITING SMOKING ON ALL OF HAWAII'S
BEACHES.

1 WHEREAS, tourism is the mainstay of the state economy, with
2 approximately one out of every three jobs in the State linked
3 directly or indirectly to the tourism industry; and
4

5 WHEREAS, for both residents and visitors alike, the State's
6 beautiful beaches and coastlines, clean air, and other renowned
7 natural resources make the 50th State an ideal place to live and
8 visit; and
9

10 WHEREAS, according to the 2009 study "Litter in America" by
11 Keep America Beautiful, tobacco products, consisting mainly of
12 cigarette butts, are the most littered item in America,
13 representing nearly 38 percent of all items collected; and
14

15 WHEREAS, Hawaii's famed beaches are littered with cigarette
16 filters, also known as cigarette butts; and
17

18 WHEREAS, as an example, in a recent beach cleanup at
19 Waikiki Beach, 1,500 cigarette butts were collected in a span of
20 one hour, and cigarette butts were the most reported type of
21 litter found; and
22

23 WHEREAS, cigarette butts not only contain toxins from
24 tobacco, they are also made of cellulose acetate, a plastic that
25 takes decades to degrade and leaves a toxic residue in the
26 environment that creates a hazard to Hawaii's indigenous species
27 and other wildlife; and
28

29 WHEREAS, while there are littering laws, these laws have
30 not been a deterrent to individuals who continue to violate

1 them, causing significant cost to the State and counties to
2 control litter and other pollutants; and

3
4 WHEREAS, from a health perspective, the Centers for Disease
5 Control and Prevention indicates that secondhand smoke exposure
6 causes lung cancer and cardiovascular and respiratory diseases
7 in nonsmoking adults and children, and causes an estimated
8 46,000 heart disease deaths among United States nonsmoking
9 adults each year; and

10
11 WHEREAS, there is growing concern that outdoor secondhand
12 smoke can pose a health hazard to both people and the
13 environment; and

14
15 WHEREAS, secondhand smoke concentrations in outdoor
16 settings can be comparable to smoke concentrations in indoor
17 settings; and

18
19 WHEREAS, there is a compelling basis to institute a smoking
20 ban in outdoor areas and several cities, including Chicago, Los
21 Angeles, and New York City, have enacted such smoke-free laws;
22 and

23
24 WHEREAS, to preserve Hawaii's precious natural resources,
25 natural beauty, and culture for both residents and visitors, it
26 is necessary to start by protecting Hawaii's beaches from the
27 dangers of cigarette smoking and the littering of cigarette
28 butts; now, therefore,

29
30 BE IT RESOLVED by the House of Representatives of the
31 Twenty-seventh Legislature of the State of Hawaii, Regular
32 Session of 2014, that the Department of Health is requested to
33 conduct a study that examines the feasibility of prohibiting
34 smoking on public beaches; and

35
36 BE IT FURTHER RESOLVED that this study examine:

- 37
38 (1) The effects smoking has on Hawaii's public beaches,
39 including adverse health and environmental effects
40 with regard to littering;

- 1 (2) The public health effects of secondhand smoke in
- 2 outdoor areas such as beaches;
- 3
- 4 (3) What other states are doing to address the effects of
- 5 secondhand smoke in outdoor areas such as beaches,
- 6 including legislation from other states and any plans
- 7 states have implemented to ban smoking on beaches and
- 8 the outcome of those plans; and
- 9
- 10 (4) Other options to reduce the harmful effects smoking
- 11 has on Hawaii's beaches and coastal environment; and
- 12

13 BE IT FURTHER RESOLVED that the Department of Health submit

14 a report of its findings and recommendations, including any

15 proposed legislation, to the Legislature no later than 20 days

16 prior to the convening of the Regular Session of 2015; and

17

18 BE IT FURTHER RESOLVED that a certified copy of this

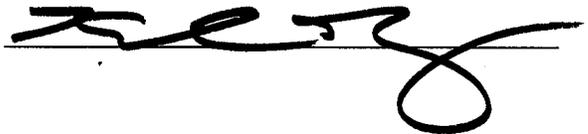

19 Resolution be transmitted to the Director of Health.
