
A BILL FOR AN ACT

RELATING TO HIGHER EDUCATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that Hawaiian is an
2 official language of the State, and the legislature has a unique
3 responsibility to assure that opportunities are available to use
4 and study the Hawaiian language. Over the past three decades,
5 the legislature has carried out this responsibility by forming
6 the basis of the State's Hawaiian language medium pathway
7 parallel to the long standing English medium pathway of
8 preschool through doctoral level education.

9 These legislative efforts began in 1986 with removal of a
10 barrier to use Hawaiian as the medium of education. Shortly
11 thereafter in 1989, the legislature mandated the creation of a
12 Hawaiian language center at the University of Hawaii at Hilo, in
13 association with its existing Hawaiian language medium
14 bachelor's degree, to produce Hawaiian language medium
15 educational materials and teacher support. In 1997, the
16 legislature required that a Hawaiian language college be
17 established at the University of Hawaii at Hilo, building on the

1 existing degree and Hawaiian language center, to expand the
2 University of Hawaii at Hilo's Hawaiian language medium
3 programming, including teacher education, preschool through
4 twelfth grade laboratory school programming, graduate education,
5 and indigenous language outreach. Before the legislature took
6 action, less than fifty children in the State were proficient in
7 Hawaiian. Today, U.S. Census data indicates Hawaiian is the
8 largest non-English language spoken in Hawaii among children
9 ages five to seventeen. Many of these children are part of the
10 preschool through twelfth grade Hawaiian medium programs
11 currently educating over three thousand students annually.

12 The legislature finds that in response to S.R. No. 97,
13 S.D. 1, regular session 2015, the office of the president of the
14 university of Hawaii system, director of the Hawaiian language
15 college, and a working group contributed to a report that
16 considered the restructuring of the Hawaiian language college
17 and examined the expansion of Hawaiian language instruction
18 throughout the University of Hawaii system. One of the issues
19 presented to the working group was that the existing structure
20 of the University of Hawaii system is not optimal for a state
21 whose official languages are English and Hawaiian. The report

1 provided to the legislature, and made available to the public,
2 delves into the data and trends in the teaching of the Hawaiian
3 language and through the offering and use of Hawaiian language
4 in the University of Hawaii system and beyond. The report also
5 references some of the challenges and barriers to expanding
6 these efforts as well as potential solutions to these
7 challenges. A noteworthy reference in the report is the
8 barriers the Hawaiian language college has encountered in
9 instituting general education courses through the medium of
10 Hawaiian. The report also highlights the underlying
11 contradictions throughout the University of Hawaii system in
12 relation to advancing strategic directions toward a Hawaiian
13 language planning vision. Relative to these barriers, the
14 report also acknowledges international tertiary education models
15 that have successfully overcome similar challenges.

16 The legislature recognizes that 2017 represents the
17 twentieth anniversary of its passage of legislation establishing
18 the Hawaiian language college. Since its inception, the
19 Hawaiian language college has not only provided key support for
20 Hawaiian language medium education throughout the State but has
21 also become a national resource for Native American language

1 revitalization and has initiated international collaborations in
2 pursuit of global indigenous language excellence. The continued
3 need for, and interest in, the programs and support provided by
4 the Hawaiian language college is evidenced in part by the
5 continued growth in Hawaiian language course enrollment at the
6 college, despite decreasing overall enrollment numbers for the
7 University of Hawaii system. The driving focus fueling the
8 Hawaiian language college's commitment to provide these much-
9 needed programs that are impacting indigenous language
10 initiatives here and abroad is the desire to establish a high-
11 functioning Hawaiian medium pathway of education alongside the
12 State's current, dominant, English medium pathway. In
13 recognition of thirty years of legislative policy supporting the
14 revitalization of Hawaiian language as well as the Hawaiian
15 language college's noted progress in creating new and
16 strengthened pathways to further the normalization of this
17 official language of the State, the legislature seeks to support
18 expanded innovative approaches to the development of a highly-
19 functioning Hawaiian medium pathway of education.

1 The legislature finds that access to education taught
2 through the Hawaiian language is a matter of statewide concern.
3 Accordingly, the purpose of this Act is to:

- 4 (1) Expand the Hawaiian language college's functions;
- 5 (2) Authorize the establishment of a pilot project in
6 pursuit of innovative strategies and approaches for
7 the development of a Hawaiian medium pathway; and
- 8 (3) Provide for an implementation plan to expand Hawaiian
9 language instruction throughout the University of
10 Hawaii system as recommended by the working group
11 created by S.R. No. 97, S.D. 1, regular session 2015.

12 SECTION 2. Section 304A-1301, Hawaii Revised Statutes, is
13 amended to read as follows:

19 section and section 304A-1301."

20 SECTION 4. The University of Hawaii system may establish a
21 pilot project to implement Hawaiian language instruction and

1 develop new ideas, practices, and processes relative to Hawaiian
2 language medium education. This pilot project may include
3 collaboration between all University of Hawaii system programs
4 and campuses, and may implement innovative strategies and
5 approaches for the development and approval of Hawaiian language
6 medium general education programs and coursework, building on
7 international models that address indigenous and minority
8 official languages as the operational medium of education. The
9 pilot project may serve as a possible model for replication for
10 other purposes in Hawaii. The pilot project may operate under
11 the jurisdiction of the president of the University of Hawaii,
12 assisted by the chancellor of the University of Hawaii at Hilo,
13 chancellor of the University of Hawaii at Manoa, chancellor of
14 the University of Hawaii West Oahu, and chancellors of the
15 University of Hawaii system community colleges while using
16 shared resources as the President deems appropriate.

17 SECTION 5. The directors of all of the University of
18 Hawaii system Hawaiian language colleges, schools, and programs
19 shall join with the president of the University of Hawaii and
20 the former working group created by S.R. No. 97, S.D. 1, regular
21 session 2015, with additional community members as deemed

1 appropriate by the president of the University of Hawaii, to
2 develop an implementation plan to address the system wide
3 Hawaiian language goals indicated in the report generated by the
4 working group created by S.R. No. 97, S.D. 1, regular session
5 2015. Once completed, the implementation plan shall be
6 submitted to the legislature.

7 SECTION 6. The University of Hawaii shall submit a
8 comprehensive report to the legislature no later than twenty
9 days before the convening of each regular session detailing:

- 10 (1) Efforts throughout the University of Hawaii system,
11 including efforts at individual campuses, to implement
12 education taught through the Hawaiian language;
- 13 (2) The status of the implementation plan that addresses
