

MAR 10 2023

SENATE RESOLUTION

REQUESTING THE DEPARTMENT OF HUMAN SERVICES TO STUDY PROVIDING CERTAIN HEALTH INSURANCE COVERAGE FOR ALL CHILDREN AND PREGNANT PERSONS WHO WOULD OTHERWISE QUALIFY FOR COVERAGE IF NOT FOR THEIR IMMIGRATION STATUS.

1 WHEREAS, it is in the public interest that all pregnant
2 persons and children receive high quality health care that is
3 accessible, affordable, and equitable; and
4

5 WHEREAS, limitation of access to health care based solely
6 on immigration status results in many immigrants and their
7 families being unable to obtain affordable health care coverage
8 through Medicaid, the Children's Health Insurance Program
9 (CHIP), and health insurance exchanges established under part II
10 of the federal Patient Protection and Affordable Care Act
11 (PPACA); and
12

13 WHEREAS, low-income immigrants without prenatal care are
14 seven times more likely to give birth prematurely and five times
15 more likely to experience neonatal death; and
16

17 WHEREAS, the average cost of medical care for health
18 problems resulting from premature birth is \$79,000, compared to
19 \$1,000 for a healthy birth; and
20

21 WHEREAS, the cost of hospitalizations during a severely
22 premature newborn's first year of life can exceed \$500,000, and
23 the cost of intensive care can exceed \$1,000,000; and
24

25 WHEREAS, lack of prenatal care results in health care costs
26 being passed on to taxpayers; and
27

28 WHEREAS, low-income immigrant children without access to
29 health insurance face persistent inequities in the prevention,
30 diagnosis, and treatment of health conditions, including routine
31 health problems and those commonly addressed with necessary
32 specialty care and mental health, substance abuse, and oral
33 health services; and
34

1 WHEREAS, children with special needs, including
2 difficulties with hearing, vision, mobility, self-care,
3 cognitive function, and work limitations may qualify for
4 Medicaid through various disability related pathways; and
5

6 WHEREAS, a 2021 study published in *Academic Pediatrics*
7 found that for each dollar spent on children through Medicaid,
8 the government saved \$4 on future costs, including
9 hospitalizations and emergency visits, and when the benefits to
10 children themselves are included, each dollar spent on Medicaid
11 coverage generates at least \$12.66; and
12

13 WHEREAS, state and federal laws deny access to Medicaid,
14 CHIP, and health insurance exchanges established under part II
15 of PPACA to all Deferred Action for Childhood Arrivals (DACA)
16 recipients; undocumented persons; and applicants without work
17 authorization attached to the applicant's request for registry,
18 order of supervision, cancellation of removal or suspension of
19 deportation, legalization under the Immigration Reform and
20 Control Act, legalization under the Legal Immigration Family
21 Equity Act, and asylum, except asylee children under fourteen
22 years old; and
23

24 WHEREAS, the State is home to an estimated 41,246
25 undocumented persons; and
26

27 WHEREAS, the State's undocumented and DACA-eligible
28 residents were born in the Philippines (54.6 percent); Japan
29 (9.3 percent); China (8.8 percent); Korea (6.2 percent); Mexico
30 (4.6 percent); and Europe, Canada, and other countries (16.5
31 percent) and paid an estimated \$66,000,000 in federal income
32 taxes and nearly \$45,000,000 in state and local taxes in 2018;
33 and
34

35 WHEREAS, approximately eleven thousand of the State's
36 undocumented persons are uninsured, and many who are insured
37 receive individual and family health insurance through the
38 Prepaid Health Care Act; and
39

40 WHEREAS, twenty-five states provide or will soon provide
41 health care coverage for prenatal care for all persons,
42 regardless of immigration status, and eleven states provide or

1 will soon provide CHIP benefits or coverage similar to Medicaid
2 to all children, regardless of immigration status; now,
3 therefore,
4

5 BE IT RESOLVED by the Senate of the Thirty-second
6 Legislature of the State of Hawaii, Regular Session of 2023,
7 that the Department of Human Services is requested to study
8 providing Medicaid, the Children's Health Insurance Program, or
9 similar health insurance coverage for all children and pregnant
10 persons who would otherwise qualify for coverage under these
11 programs if not for their immigration status; and
12

13 BE IT FURTHER RESOLVED that the study include the health
14 care opportunities, resources, and costs relating to providing
15 the described coverages; and
16

17 BE IT FURTHER RESOLVED that the Department of Human
18 Services is requested to engage applicable stakeholders in the
19 study, including immigrant health care providers, social service
20 providers, and advocacy groups; and
21

22 BE IT FURTHER RESOLVED that the Department of Human
23 Services is requested to submit a report regarding the findings
24 of the study, including any proposed legislation, to the
25 Legislature no later than October 31, 2023; and
26

27 BE IT FURTHER RESOLVED that certified copies of this
28 Resolution be transmitted to the Governor, Attorney General,
29 Director of Human Services, and President of the Inter-Agency
30 Council for Immigrant and Refugee Services.
