
A BILL FOR AN ACT

RELATING TO THE STRATEGIC PLAN TO INCREASE FOOD PRODUCTION AND
FOOD SECURITY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the department of
2 agriculture's 2020 report entitled, "Report on the Strategic
3 Plan to Double Local Food Production and Exports by 2030",
4 prepared in accordance with Act 151, Session Laws of Hawaii
5 2019, provides suggested actions to achieve substantial
6 individual or cumulative increases in local food production and
7 export. This strategic plan must be updated with supplemental
8 benchmarks to measure progress toward goals quantitatively and
9 qualitatively and to address the changing landscape of the
10 agriculture industry, including the changes sustained by the
11 global and local food systems due to the COVID-19 pandemic.

12 The legislature further finds that it is an urgent
13 necessity for Hawaii to be more food secure. The COVID-19
14 pandemic showed the fragility of the State's food system as food
15 manufacturing plants throughout the world shut down, shipping
16 lessened, and food shortages were experienced by retailers and
17 consumers. Unprecedented stresses were observed on the
