Subject: Fw: X'mas Gift Baskets

Aloha Carlotta: It was the 29th of Nov. that I made the request for something in writing regarding the gift basket situation here. We are close to a month still waiting for a letter, and fruits in our refrigerator that are beginning to spoil and still waiting for a decision. If it is that nothing is going to be forthcoming, simply state as such and we can cancel all further training here. No sense having training if no action will be taken. There are laws that are unenforceable and I guess ethics falls in that category. Please advise. Thank you.

Subject X'mas Gift Baskets

Aloha Carlotta: Pursuant to our recent phone conversation regarding the Bureau's inquiry regarding X'mas gift baskets that are given to us, your Office's ruling is that it is unethical for us to receive such gifts. Since this practice of receiving gift baskets at the Bureau has been going on for years, I would like to request something in writing to show my staff that what has been going on is unethical conduct. I would further like to request that your instructors delve on this subject at our upcoming seminars. Mahalo for your continuing assistance.

Carlotta,

Here's the list of "Gift Baskets" that we received at the Bureau of Conveyances.
Also, we are still waiting for the letter from Ethics.

Thanks,
