Subject Re: Rules Meeting - June 12 @ 9:00am

Dennis,

RE: Your Cancellation of the Rules Meeting Scheduled for June 12 @ 9:00am

Linda Chow, Deputy AG, scheduled this meeting. She is charged with the responsibility of writing the rules and has been pleading with all of us for over a month to meet with her. She will need input and information from BOC staff to complete this assignment.

Subsequent to learning of your family emergency, Linda asked if the meeting could take place in your absence. This project is overdue, and since it is related to a statutory requirement, Linda has decided that she is going to go ahead with the meeting as scheduled.

Therefore, Linda's meeting with key staff members and the Lange Group will not be cancelled, and all parties are still being asked to participate. Since you are unable to attend, subsequent to the meeting, Linda will brief you regarding the details.

Mahalo,

Kahala

Subject Rules for BOC - Public Access to Documents

Nicole,

I just got off the phone with Linda Chow. She has to walk up here by 9:00am so she doesn't have time to call you; however, she pointed out that I should have invited you previously because of your knowledge of the Land Court system. When this meeting was first set up, Dennis was supposed to attend. He just informed us on Thursday that he doesn't plan to be at it. That's when I confirmed Carl's attendance.

You are not only invited. Linda stated that it is important for you to be at this meeting, and quite frankly, she blamed me for not inviting you earlier. I really didn't think you wanted to be at a meeting that included Harriet and Dennis. I don't think Harriet will attend, but if she does, at least Dennis won't be present. Nani Lindsey also won't take guff from them.

This will be a good meeting. Please, please, please attend. Linda is looking forward to your being there and honestly stated that she didn't consider inviting you because Dennis and Bob Masuda didn't mention you and Carl as people to include. **Linda would like you to be there.**

She may be running a little late because she is researching what other jurisdictions are doing with public access and public access costs. She has to walk up from the corner of King and Punchbowl.

See you at 9:00 in the BOC Conference Room.

Mahalo Carl. I am trying very hard to take the "high road" but when Harriet states that she is not attending a meeting because I am present, this deeply concerns me. Also, you should know that Harriet filed a grievance, but the subject of her grievance is not known. All I know is that the subject of her grievance is female.

She wrote an email that attacks my competence.....again. I am growing tired of her, Jeff Morgan, and Dennis.
