**Title of Bill:** SB 2613 RELATING TO EDUCATION.

**Purpose of Bill:** Expands the national board certification incentive program to provide greater monetary incentives to public school counselors and school psychologists. Authorizes continuing bonuses for teachers, counselors, and school psychologists in designated high-need schools that improve and become no longer designated as such.

**Department's Position:**

The Department of Education (Department) supports the intent of SB 2613 provided that its passage does not replace or adversely impact the priorities indicated in the Department's budget as approved by the Board of Education.

SB 2613 seeks to expand the current national board certification program pursuant to Section 302A-706, Hawaii Revised Statutes (HRS), to include counselors and school psychologists. However, the current program already includes counselors who are certified by the National Board for Professional Teaching Standards (NBPTS). The proposed revision to include "counselors" is not necessary.

Furthermore, current language states that eligible individuals would receive a \$5,000 annual bonus if they are in a focus, priority or Superintendent's zone school; a school with a high turnover rate; or in a school that is hard-to-fill. However, school psychologists are employed at the district/complex area and not assigned to a particular school. Moreover, their license fee structure is incompatible with the current statutory language for teacher incentives. Therefore, the proposed amendments to HRS Section 302A-706 may not be the appropriate vehicle to identify applicable incentives for school psychologists.

The Department also notes that employee compensation is more appropriately the subject of collective bargaining rather than legislation.

Finally, if Section (5) of the proposed revision were to be implemented or any expansion of

eligibility for the national board certification incentive program were to occur, the Department would require additional funding to cover the additional annual costs.

Leslie Baunach	Hawaii Association of School Psychologists	Support	Yes

Comments: The Hawaii Association of School Psychologists supports this bill, as it is equally important to have highly qualified mental health providers in the schools as it is to have highly qualified teachers in classrooms. The rigorous training, supervision, and testing required of school counselors and school psychologists to obtain national certification is comparable to national teacher certification. Currently there are 112 NBCC's in Hawaii and not even 1/3 are employed by the department of education (<http://www.nbcc.org/counselorfind/HI>). There are 27 NCSPs in Hawaii and not all are employed by the department of education (<http://apps.nasponline.org/standards-and-certification/ncsp-verification.aspx?lname=&state=HI>). As of 2014, there were nearly 500 teachers nationally certified in Hawaii (<http://www.htsb.org/wp-content/uploads/2015/01/2014-NBPTS-directory.pdf>), with more obtaining certification every year. Teacher certification lasts for 10 years, while school psychologists have to renew every 3 years and NBCC renew every 5 years. The expansion of this bill would really only add a maximum of 50 DOE employees to the eligibility in the state of Hawaii. The money could be paid out from leftover SBBH vacancies each year, which is already allotted for mental health personnel in the schools. Thank you, Leslie Baunach, HASP President

<b>ABOUT</b>	The National Board for Professional Teaching Standards (NBPTS) is an independent, nonprofit, nonpartisan, and nongovernmental organization. It was created in 1987, with the purpose of advancing the quality of teaching and learning by developing professional standards for accomplished teaching, and creating a voluntary system to certify teachers who meet those standards and integrating certified teachers into educational reform efforts	The NCSP is a credential awarded through the National School Psychology Certification System of the National Association of School Psychologists (NASP), which is an independent, not-for-profit professional organization who created the NCSP for the purpose of credentialing school psychologists who meet rigorous, nationally recognized standards of graduate preparation, ethical and professional practice, and continuing professional development.	The NCSC is a credential awarded through the National Board for Certified Counselors (NBCC). The NBCC is an independent, not-for-profit credentialing body, which was incorporated in 1982, whose purpose is to establish and monitor a national certification system, to identify for professionals and the public those counselors who have voluntarily sought and obtained certification, and to maintain a register of those counselors.	The American Speech-Language-Hearing Association is the professional, scientific, and credentialing association for more than 150,000 members and affiliates who are audiologists, speech-language pathologists, and speech, language, and hearing scientists in the United States and internationally.	The National Board for Certification in Occupational Therapy, Inc. (NBCOT) is a not-for-profit credentialing agency that provides certification for the occupational therapy profession. NBCOT serves the public interest by developing, administering and continually reviewing a certification process that reflects current standards of competent practice in occupational therapy. NBCOT also works with state regulatory authorities, providing information on credentials, disciplinary actions, and regulatory and certification renewal issues

	<b>NATIONAL BOARD CERTIFIED TEACHER (NBCT)</b>	<b>NATIONALLY CERTIFIED SCHOOL PSYCHOLOGISTS (NCSP)</b>	<b>NATIONALLY CERTIFIED SCHOOL COUNSELOR (NCSC)</b>	<b>ASHA CERTIFICATE OF CLINICAL COMPETENCE IN SPEECH-LANGUAGE PATHOLOGY (ASHA-CCC)</b>	<b>OCCUPATIONAL THERAPIST REGISTERED (OTR)</b>
<b>WHY BECOME NATIONALLY CERTIFIED</b>	<p>NBPTS Certification is a way for the teaching profession to define and recognize highly accomplished practice. Teachers who achieve National Board Certification have met high standards through study, expert evaluation, self-assessment and peer review.</p> <p>The process of applying for and earning National Board Certification through the NBCT:</p> <ol style="list-style-type: none"> <li>1. Strengthens practice.</li> <li>2. Helps students succeed.</li> <li>3. Builds leadership skills.</li> <li>4. Helps expand influence and expertise with regard to curricular decisions and policies.</li> <li>5. Helps advance careers.</li> <li>6. Provides portability.</li> <li>7. Offers higher salary potential.</li> <li>8. Enhances education.</li> <li>9. Meets most states' definition of "highly qualified teacher" under NCLB.</li> </ol>	<p>The NCSP credential aims to promote excellence in the field of school psychology by acknowledging school psychologists who meet rigorous nationally recognized standards of graduate preparation, ethical practice, and competency.</p> <p>Specially, national certification:</p> <ol style="list-style-type: none"> <li>1. Advances graduate preparation and practice standards to promote best practices in service to children and youth</li> <li>2. Provides uniform national standards to measure professional qualifications</li> <li>3. Encourages continuing professional growth and development</li> <li>4. Enhances professional opportunities for credentialed school psychologists</li> <li>5. Facilitates state certification through reciprocity with states that accept the NCSP</li> </ol>	<p>The National Certified School Counselor (NCSC) is a specialty credential which recognizes counselors who possess a minimum of a master's degree in counseling with coursework in school counseling and who have passed a challenging national application and examination process. NCSCs have a strong commitment to the school counseling profession and to providing high quality services to students, parents, teachers and communities.</p> <p>Some advantages of this certification include:</p> <ol style="list-style-type: none"> <li>1. Identification as master's level counseling practitioners who work in school settings</li> <li>2. Recognition by other mental health professionals as experts on the mental health needs of today's school children and adolescents</li> <li>3. Demonstration of an ongoing commitment to high quality school counseling services through continuing education</li> <li>4. Salary increases in an increasing number of states and school systems across the country</li> </ol>	<p>The Certificate of Clinical Competence (CCC) is a nationally recognized professional credential that represents a level of excellence in the field of Audiology (CCC-A) or Speech-Language Pathology (CCC-SLP). Those who have achieved the CCC—ASHA certification have voluntarily met rigorous academic and professional standards, typically going beyond the minimum requirements for state licensure.</p> <p>Why Choose ASHA Certification?</p> <ol style="list-style-type: none"> <li>1. ASHA is the nation's leading professional, credentialing, and scientific organization for speech-language pathologists, audiologists, and speech/language/hearing scientists.</li> <li>2. ASHA initiated the development of national standards for the professions, and has been certifying professional since 1952.</li> <li>3. ASHA's certification standards are based on skills validation studies and practice analyses involving employers, leaders in the discipline of communication sciences and disorders, and practitioners in the professions of speech-language pathology and audiology.</li> <li>4. ASHA provides verification of certification to state regulatory agencies.</li> <li>5. You can be sure you will meet state licensure requirements because many states use the ASHA Standards for Clinical Competence as a model for their regulatory requirements</li> </ol>	<p>NBCOT certifications are nationally recognized symbols of quality for OT professionals. The purpose of pursuing the national credentialing process is to further affirm:</p> <ol style="list-style-type: none"> <li>1. The practitioners' professional achievements</li> <li>2. The practitioner's credibility</li> <li>3. The practitioner's meeting of all national standards by a nationally recognized certification board</li> </ol>

Comments: Dear Senators Kidani and Harimoto, SB 2613 Wednesday, February 3, 2016 at 1 pm in Room 229 The 17 Community Children's Councils (CCCs) of Hawaii supports SB2613 relating to education. Expands the national board certification incentive program to provide greater monetary incentives to public school counselors and school psychologists in high-need schools. Authorizes continuing bonuses for teachers, counselors and school psychologists in designated high-need schools that improve and become no longer designated as such. The CCC Legislative Committee recommends that you add speech pathologists, Occupational Therapists and Physical Therapists that work in high-need areas as well. The mission of our CCCs is to provide local forums statewide for all community members to come together as equal partners to discuss and positively affect multiple systems' issues for the benefit of students, families and communities. Thank you. Tom Smith and Jessica Wong-Sumida, Chairs for CCC Leg Committee

Comments: Recently reauthorization of the Elementary and Secondary Education Act of 1965 adopted as the Every Student Succeeds Act (ESSA) describes SCHOOL-BASED MENTAL HEALTH SERVICES PROVIDER.—as a State-licensed or State-certified professional to ensure that every child achieves. It is equally important to have highly qualified mental health providers in the schools as it is to have highly qualified teachers in classrooms. The rigorous training, supervision, and testing required of school counselors and school psychologists to obtain national certification is comparable to national teacher certification. This fulfillment of accepting the National Certification as our state-certification here in Hawaii will ensure that our students obtain optimal services provided by our well trained and educated professionals.

<b>ABOUT</b>	The National Board for Professional Teaching Standards (NBPTS) is an independent, nonprofit, nonpartisan, and nongovernmental organization. It was created in 1987, with the purpose of advancing the quality of teaching and learning by developing professional standards for accomplished teaching, and creating a voluntary system to certify teachers who meet those standards and integrating certified teachers into educational reform efforts	The NCSP is a credential awarded through the National School Psychology Certification System of the National Association of School Psychologists (NASP), which is an independent, not-for-profit professional organization who created the NCSP for the purpose of credentialing school psychologists who meet rigorous, nationally recognized standards of graduate preparation, ethical and professional practice, and continuing professional development.	The NCSC is a credential awarded through the National Board for Certified Counselors (NBCC). The NBCC is an independent, not-for-profit credentialing body, which was incorporated in 1982, whose purpose is to establish and monitor a national certification system, to identify for professionals and the public those counselors who have voluntarily sought and obtained certification, and to maintain a register of those counselors.	The American Speech-Language-Hearing Association is the professional, scientific, and credentialing association for more than 150,000 members and affiliates who are audiologists, speech-language pathologists, and speech, language, and hearing scientists in the United States and internationally.	The National Board for Certification in Occupational Therapy, Inc. (NBCOT) is a not-for-profit credentialing agency that provides certification for the occupational therapy profession. NBCOT serves the public interest by developing, administering and continually reviewing a certification process that reflects current standards of competent practice in occupational therapy. NBCOT also works with state regulatory authorities, providing information on credentials, disciplinary actions, and regulatory and certification renewal issues

<b>WHY BECOME NATIONALLY CERTIFIED</b>	<p>NBPTS Certification is a way for the teaching profession to define and recognize highly accomplished practice. Teachers who achieve National Board Certification have met high standards through study, expert evaluation, self-assessment and peer review.</p> <p>The process of applying for and earning National Board Certification through the NBCT:</p> <ol style="list-style-type: none"> <li>1. Strengthens practice.</li> <li>2. Helps students succeed.</li> <li>3. Builds leadership skills.</li> <li>4. Helps expand influence and expertise with regard to curricular decisions and policies.</li> <li>5. Helps advance careers.</li> <li>6. Provides portability.</li> <li>7. Offers higher salary potential.</li> <li>8. Enhances education.</li> <li>9. Meets most states' definition of "highly qualified teacher" under NCLB.</li> </ol>	<p>The NCSP credential aims to promote excellence in the field of school psychology by acknowledging school psychologists who meet rigorous nationally recognized standards of graduate preparation, ethical practice, and competency.</p> <p>Specially, national certification:</p> <ol style="list-style-type: none"> <li>1. Advances graduate preparation and practice standards to promote best practices in service to children and youth</li> <li>2. Provides uniform national standards to measure professional qualifications</li> <li>3. Encourages continuing professional growth and development</li> <li>4. Enhances professional opportunities for credentialed school psychologists</li> <li>5. Facilitates state certification through reciprocity with states that accept the NCSP</li> </ol>	<p>The National Certified School Counselor (NCSC) is a specialty credential which recognizes counselors who possess a minimum of a master's degree in counseling with coursework in school counseling and who have passed a challenging national application and examination process. NCSCs have a strong commitment to the school counseling profession and to providing high quality services to students, parents, teachers and communities.</p> <p>Some advantages of this certification include:</p> <ol style="list-style-type: none"> <li>1. Identification as master's level counseling practitioners who work in school settings</li> <li>2. Recognition by other mental health professionals as experts on the mental health needs of today's school children and adolescents</li> <li>3. Demonstration of an ongoing commitment to high quality school counseling services through continuing education</li> <li>4. Salary increases in an increasing number of states and school systems across the country</li> </ol>	<p>The Certificate of Clinical Competence (CCC) is a nationally recognized professional credential that represents a level of excellence in the field of Audiology (CCC-A) or Speech-Language Pathology (CCC-SLP). Those who have achieved the CCC—ASHA certification have voluntarily met rigorous academic and professional standards, typically going beyond the minimum requirements for state licensure.</p> <p>Why Choose ASHA Certification?</p> <ol style="list-style-type: none"> <li>1. ASHA is the nation's leading professional, credentialing, and scientific organization for speech-language pathologists, audiologists, and speech/language/hearing scientists.</li> <li>2. ASHA initiated the development of national standards for the professions, and has been certifying professional since 1952.</li> <li>3. ASHA's certification standards are based on skills validation studies and practice analyses involving employers, leaders in the discipline of communication sciences and disorders, and practitioners in the professions of speech-language pathology and audiology.</li> <li>4. ASHA provides verification of certification to state regulatory agencies.</li> <li>5. You can be sure you will meet state licensure requirements because many states use the ASHA Standards for Clinical Competence as a model for their regulatory requirements</li> </ol>	<p>NBCOT certifications are nationally recognized symbols of quality for OT professionals. The purpose of pursuing the national credentialing process is to further affirm:</p> <ol style="list-style-type: none"> <li>1. The practitioners' professional achievements</li> <li>2. The practitioner's credibility</li> <li>3. The practitioner's meeting of all national standards by a nationally recognized certification board</li> </ol>

Comments: To Whom it May Concern: I am writing to express my support for Senate Bill #2613, which would extend national certification incentives to school counselors and school psychologists in the State of Hawaii. The Nationally Certified School Psychologist (NCSP) credential from the National Association of School Psychologists identifies school psychologists who have not only completed a rigorous graduate training program, but who have devoted themselves to extensive ongoing professional education and adherence to strict ethical guidelines. By earning and maintaining the NCSP credential, school psychologists commit to the highest standards of practice in the field. The NCSP credential requires school psychologists to demonstrate that they have completed a specialist- or doctoral-level graduate program that included at least three years of study/60 semester hours, supervised practicum experiences, and a year-long supervised internship (consisting of at least 1200 hours, at least 600 of which occurred in a school setting). To be awarded the certification, school psychologists must also earn a passing score on the Praxis School Psychologist Examination. To preserve their NCSP status, school psychologists must complete a minimum of 75 continuing professional development hours every three years. School psychologists provide direct services and consultation to children, families, and teachers to increase individual and school-wide academic achievement, support emotional health, improve student behavior, and promote school safety. Senate Bill #2613 offers recognition to highly qualified school psychologists who strive for continued professional excellence. Please lend your support to its approval. Sincerely, Courtney D. Pratt, Ed.S. Nationally Certified School Psychologist
