DAVID Y. IGE
GOVERNOR

LEO R. ASUNCION
DIRECTOR
OFFICE OF PLANNING

Statement of
LEO R. ASUNCION
Director, Office of Planning
before the
SENATE COMMITTEE ON WAYS AND MEANS
Monday, April 3, 2017
1:35 PM
State Capitol, Conference Room 211

in consideration of
HB 599, HD1, SD1
RELATING TO THE HAWAII STATE PLAN.

Chair Tokuda, Vice Chair Dela Cruz, and Members of the Senate Committee on Ways and Means.

The Office of Planning (OP) strongly supports HB 599, HD1, SD1 which updates the goal of the State to provide housing to households with extremely low- to above moderate-income households. OP agrees that the need for affordable rental units is particularly important for households with low incomes. Housing is considered “affordable” when a household spends less than 30 percent of their income on shelter and utilities. However, affordable housing is a serious challenge for Hawaii’s low-income residents, who face one of the highest housing costs in the county. The proposed measure will assist in focusing the State’s efforts on affordability of housing.

HB 599, HD1, SD1 also amends the process for updating of Functional Plans to be more efficient for lead agencies, and to take advantage of advisory groups or boards and commissions that many lead agencies have formed to serve as advisory committees in the update of a lead agency’s Functional Plan.

The Office of Planning notes that the proposed amendments in HB 599, HD1, SD1 were vetted and developed by the Special Action Team on Affordable Rental Housing pursuant to Act 127, Session Laws of Hawaii 2016.

Thank you for the opportunity to testify on this matter.

HB599 HD1 SD1
RELATING TO THE HAWAI'I STATE PLAN
Senate Committee on Ways and Means

April 3, 2017

1:35 p.m.

Room 211

The Office of Hawaiian Affairs (OHA) offers the following **COMMENTS** on HB599 HD1 SD1, which proposes amendments to the Hawai'i State Planning Act (Plan) to prioritize housing opportunities for extremely low to above-moderate income households, and to require periodic updates to functional plans. **This bill is consistent with OHA's strategic priority of improving the economic self-sufficiency of Native Hawaiians.**

Native Hawaiians have significant and unique housing needs and are particularly affected by the ongoing lack of affordable housing for all low income levels, including income levels that are well below the area median income (AMI). For example, research shows that Native Hawaiians are less likely to own a home, with Native Hawaiian homeownership rates lower than the state average.¹ More than half of Native Hawaiian renters, many of whom already live in overcrowded situations to reduce costs, also live in homes they are struggling to afford. **Accordingly, ensuring that Hawai'i's future affordable housing supply accommodates the full range of local income levels is necessary to meaningfully address the Native Hawaiian community's unique housing needs.**

By requiring state planning efforts to consider a more explicit range of income levels, including "extremely low-" and "very low-" income households, this measure may better address the needs of our most financially vulnerable residents – including a disproportionate number of Native Hawaiians. Currently, the prioritization of "low" and "moderate" income levels in the Plan may result in affordable housing development that only addresses the needs of a subsection of low-income earners: namely, those making close to "moderate" incomes at or above the AMI. Lower level low income earners, including a large number Native Hawaiians, may not actually benefit from such planning efforts, despite their clear and growing need for "affordable" housing. **Accordingly, this bill's explicit recognition of a wider range of income levels may ensure that those who are most impacted by our lack of affordable housing do not get left behind in "affordable" housing development.**

To provide greater clarity, OHA notes that the committee may want to either explicitly define the income terms found in this measure as specific percentages of the AMI, or expressly reference the U.S. Department of Housing and Urban Development income limits upon which these terms appear to be based.

Mahalo nui for the opportunity to comment on this measure.
