Department: Education

Person Testifying: Kathryn S. Matayoshi, Superintendent of Education

Title of Bill: HB 0880, HD1

Purpose of Bill:

Department's Position:

The Department of Education strongly supports HB 0880, HD1 to authorize the Department to establish a service mark licensing agreement program.

HB0880 HD1 will allow the Department and Department schools to register and maintain control of their service marks through licensing agreements. A service mark licensing agreement program will provide Department programs and schools a means of controlling the use of their service marks by third parties. It will also allow Department programs and schools to engage in commercial activities including sponsorships, as long as these activities support the primary educational mission of the school and Department.

These sponsorships can provide valuable financial resources for a host of educational activities, such as scholarships, field trips, sports teams, and clubs--activities that bear an expense, that currently exist outside the realm of educational funding to schools, but are part of the full complement of learning experiences for our students.

Thank you for the opportunity to provide testimony on this measure.
