

# LATE

# SB 334

## RELATING TO ELECTIONS

Enacts voting by mail uniformly across all counties for all elections commencing in 2020. Repeals and amends provisions relating to polling places, including absentee polling places. Establishes voter service centers to accommodate personal delivery of ballots.

Appropriate funds.

TESTIMONY OF GLEN TAKAHASHI  
CITY CLERK, CITY AND COUNTY OF HONOLULU  
TO THE SENATE COMMITTEE ON JUDICIARY AND LABOR  
ON SENATE BILL NO. 334, 428, and 1066  
RELATING TO VOTING  
February 2, 2017

Chair Keith-Agaran and Committee members:

Thank you for the opportunity to provide testimony in support of Senate Bills 334, 420 and 1066, three bills that would transition Hawaii's elections into a vote-by-mail election scheme.

As evident in 2016 and in other recent elections, an increasing number of voters now cast their ballots prior to election day. In the City & County of Honolulu, absentee voting comprised 60 and 51 percent of votes cast in the 2016 primary and general elections, respectively. We expect this trend to continue, even as the State continues to expend considerable energy and expense to administer polling places statewide.

The Office of the City Clerk supports SB334 as the vote-by-mail measure going forward.

In a general consensus, our counterparts in both Oregon and Washington indicated that in their elections by mail transitions, more initial consideration should have been given to amending their entire election statutes to ensure that the election scheme functions properly and does not contain ambiguities caused by the different methods of voting. We believe that SB334 incorporates that comprehensive review of Hawaii's election statutes for transitioning to a vote-by-mail election scheme.

In addition to modifying or removing references to polling places, SB334 adds further structure to requirements that arise from the implementation and deployment of a vote-by-mail scheme. Chief among the proposals is addressing the ballot return postal "service gap" by establishing places of deposit starting five-days prior to the election. The measure also allows election officials to consider the USPS service standards for the particular mailing origin of the vote by mail ballot packets to ensure that all voters have a full 18-days to receive and return their ballots, regardless of whether the ballots may be mailed from within Hawaii or anywhere on the U.S. mainland.

# LATE TESTIMONY

That being said, the City also supports Senate Bills 420 and 1066, the contents of which have been subjected to considerable discussion, and incorporates the input provided by our office, fellow election officials, and other stakeholders. We believe both bills include the essential features that can capably transition the state to a full vote-by-mail system.

Should either of these two bills move forward, the City recommends that the Committee consider an amendment to allow more time for voters to correct deficient signatures on ballot return envelopes (e.g. blank or non-matching signatures). Upon further consideration, we are now recommending that voters be allowed a full 10 days (versus 5 days in our 2016 testimony) to cure these deficiencies. The additional time to receive notice of and remedy the signature issues is needed most in areas such as Molokai, Lanai, and other areas where postal delivery of written communication to the County Clerk's office may take a bit longer.

While these two bills recommend a phased in approach for various reasons, we urge the Committee to consider whether all voters and election stakeholders statewide should be allowed a uniform experience within the same election. Doing so would also avoid potential confusion arising from conducting a media/voter education program (a critical component of any transition) intended for only a portion of the electorate.

Thank you for the opportunity to provide testimony in support of SB 334, 428, and 1066.

SENATE JUDICIARY AND LABOR COMMITTEE

Friday, February 3, 2017 8:45 AM Conference Room 016

In SUPPORT of **SB334 SB428 SB1066** Relating to Voting

---

Aloha Chairman Keith-Agaran and members of the Judiciary and Labor Committee,

On behalf of our 20,000 members and supporters, the Sierra Club of Hawai'i strongly supports SB334, SB428, SB1066, which authorize mail-in voting for the State of Hawai'i.

For nearly 50 years, the Sierra Club of Hawai'i has helped people explore, enjoy, and protect the Hawaiian Islands. The work of our volunteers spans the spectrum of community engagement, including outdoor education, lobbying, and elections.

Our volunteers also engage people in the democratic process. From issue education to voter registration, candidate endorsements and get out the vote efforts, we know firsthand how the obstacles to public participation in our democracy.

Conducting our vote by mail is one way to lower a key barrier to voter turn-out. That is why we strongly support the passage of SB334, SB428, and SB1066.

We know that mail-in voting will save Hawai'i money, increase voter turn-out, and improve the quality of our democracy.

Thank you very much for this opportunity to provide testimony on this important issue.

Mahalo,

Marti Townsend  
Director

**To:** JDL Testimony  
**Subject:** Strong Support for SB334, SB428 and SB1066  
**Date:** Thursday, February 2, 2017 8:19:08 PM

---

Dear Chair Keith-Agaran, Vice Chair Rhoads, and Committee Members,

I am testifying in support of these three Vote By Mail bills because they are an important step forward to increasing voting and civic engagement in Hawai'i.

The convenience of voting by mail would help residents avoid long voting lines, have time to study, and vote on our own schedule.

These measures would also save the State money: the Office of Elections estimates by having Vote By Mail and service centers, the state will save approximately \$800,000 every election cycle due to the streamlining of our elections.

With proper ballot and voter identification, I believe voting by email could also be accomplished.

Please pass SB334, SB428, and SB1066.

Sincerely,  
L. Osterer  
Koloa, Hawaii

TESTIMONY OF STEWART MAEDA  
COUNTY CLERK, OF HAWAI'I COUNTY  
TO THE SENATE COMMITTEE ON JUDICIARY AND LABOR  
REGARDING SENATE BILL NO. 334, SD 1  
RELATING TO ELECTIONS  
FEBRUARY 2, 2017

Chair Keith-Agaran and members of the Senate Committee on Judiciary and Labor, thank you for the opportunity to offer testimony in support of Senate Bill No. 334, SD1. The purpose of this bill is to uniformly enact voting by mail across all counties of Hawai'i for all elections commencing in 2020.

Our office strongly supports this bill, as an all-mail election will create a more convenient voter process, increase voter turnout, and result in financial savings during election years. Additionally, this bill would allow voters more convenience and flexibility. Voters would have the convenience of voting from virtually anywhere and then simply completing the process by mailing their ballots in an appropriate mail depository. Senate Bill No. 334, SD 1, would afford voters additional time to study the candidates and issues at hand prior to Election Day. Our hope is that the passage of this measure will encourage voters who may feel disenfranchised due to isolation, lack of transportation, or disability, to feel more a part of the process due to the ability to vote by mail.

With an all-mail voting system, Hawai'i County will see financial savings in areas such as staff costs, decreased voting machines, and associated contracts as well as warehouse storage costs.

We would appreciate the ability to implement an all-mail election as early as 2018.

With more voters choosing to vote by mail, we feel it is time to transition to an all-mail election. We believe it would be more efficient to devote our resources towards an all-mail election rather than our current three system process which includes: absentee mail, absentee walk-in voting, and Election Day polling places.

Thank you for the opportunity to testify in support of Senate Bill No. 334, SD 1.
