A BILL FOR AN ACT

PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that article X, section 1, of the Constitution of the State of Hawaii requires the State to provide a system of public education. Compared to other states, Hawaii is unique because the State, rather than a county or local level jurisdiction, is responsible for public education. As a result, funding for public education in Hawaii is primarily sourced from the general fund of the State.

The legislature further finds that public education in Hawaii is not adequately funded. According to an analysis of real property tax in Hawaii performed by the department of business, economic development, and tourism in 2017, Hawaii's education expenditures, as a share of combined state and local government expenditures, is 27.3 per cent and ranks lowest in the nation. At $12,855 per child, Hawaii trails mainland school districts of similar size when adjusting for cost of living.
Lagging state education expenditures drive Hawaii families to compete for private school enrollment, leaving Hawaii with one of the highest rates of private school enrollment in the nation, according to the United States Census Bureau.

The legislature additionally finds that the United States Department of Education currently considers over seventy percent of Hawaii's public schools to be Title I schools. A majority of public school students are now considered "high-needs" students, meaning that the student qualifies for free or reduced price lunch, is an English language learner, or is a special education student. Hawaii public school facilities average sixty-one years in age, with the average school building over forty-four years old and fifty-three buildings being over one hundred years in age. Hawaii ranks fifty-first out of fifty states and the District of Columbia in starting and median teacher salaries adjusted for cost of living, according to a 2016 study performed by WalletHub.com.

The legislature also finds that chronic underfunding of public schools undermines the State's goal of providing a quality education to all of Hawaii's children. Insufficient education funding results in delayed repairs to school
facilities; overheated classrooms, higher class sizes, a lack of adequate classroom supplies, elimination of arts and career and technical education courses, budget cuts for special education and English language learner programs, and an increasing number of vacant teacher positions statewide. It is necessary to develop a new means of funding Hawaii's public education system to ensure that the State will be able to prepare children to meet the social and economic demands of the twenty-first century.

The purpose of this Act is to propose amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish a surcharge on residential investment property and visitor accommodations.

SECTION 2. Article VIII, section 3, of the Constitution of the State of Hawaii is amended to read as follows:

"TAXATION AND FINANCE

Section 3. The taxing power shall be reserved to the State, except so much thereof as may be delegated by the legislature to the political subdivisions, and except that all functions, powers and duties relating to the taxation of real
property shall be exercised exclusively by the counties, with
the exception of the county of Kalawao[ ]; provided that the
legislature shall not be prohibited from establishing a
surcharge on residential investment property pursuant to
Article X, Section 1. The legislature shall have the power to
apportion state revenues among the several political
subdivisions."

SECTION 3. Article X, section 1, of the Constitution of
the State of Hawaii is amended to read as follows:

"PUBLIC EDUCATION

Section 1. The State shall provide for the establishment,
support and control of a statewide system of public schools free
from sectarian control, a state university, public libraries and
such other educational institutions as may be deemed desirable,
including physical facilities therefor. There shall be no
discrimination in public educational institutions because of
race, religion, sex or ancestry; nor shall public funds be
appropriated for the support or benefit of any sectarian or
nonsectarian private educational institution, except that
proceeds of special purpose revenue bonds authorized or issued
under section 12 of Article VII may be appropriated to finance
or assist:

1. Not-for-profit corporations that provide early
childhood education and care facilities serving the general
public; and

2. Not-for-profit private nonsectarian and sectarian
elementary schools, secondary schools, colleges and
universities.

The legislature may establish a surcharge on visitor
accommodations and on residential investment property valued at
one million dollars or more for which the owner does not qualify
for a homeowner's exemption, as provided by law, to fund public
education for Hawaii's children. Proceeds from the surcharge
may be used for recruitment and retention of teachers, public
preschools, reduction in class sizes, special education
programming, career and technical education, art, music,
Hawaiian studies, Hawaiian language instruction, afterschool
programs, and such programs and projects as the legislature may
authorize by law."

SECTION 4. The question to be printed on the ballot shall
be as follows:
"Shall the legislature be authorized to establish a surcharge on visitor accommodations and on residential investment property, excluding a home that qualifies for a homeowner's exemption, valued at one million dollars or more to fund public education for Hawaii's children, as provided by law?"

SECTION 5. Constitutional material to be repealed is bracketed and stricken. New constitutional material is underscored.

SECTION 6. This amendment shall take effect upon compliance with article XVII, section 3, of the Constitution of the State of Hawaii.
Report Title:
Public Education; Residential Investment Property; Visitor Accommodations; Surcharge; Constitutional Amendment

Description:
Proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on visitor accommodations and on residential investment property. (SD1)

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.
Representative Justin H. Woodson, Chair
Committee on Education
Hawai‘i State Capitol, Room 309
Honolulu, HI 96813

Dear Chair Woodson and Committee Members:

Re: SB 2922, SD 1 Relating to Constitutional Amendment Surcharge on Property Tax
Hearing Date: 04/04/2018 – 3:00 pm; House Conference Room 309

I respectfully and urgently request that SB 2922, SD 1, amending the Constitution to authorize a State surcharge on real property, not move forward.

I recognize that SB 2922, SD 1 has some superficial political appeal, tied as it is to better funding for education. However, no matter what the potential benefits of SB 2922, SD 1, impinging on the counties’ singular source of income would be devastating to us.

As you well know, the counties have little or no control over their revenue except in one area, real property taxes, and therefore we rely overwhelmingly on real property taxes to fund our operations. For the County of Hawai‘i, a full 74% of our revenue is from property taxes.

The burden of the property tax can be heavy for many residents, but since it is virtually the only tool we have, we use it the best we can. A surcharge on residential investment properties would obviously limit County options and make it even more difficult to balance our budgets. Therefore, we have to jealously guard this taxing authority, and ask that you not break this bright line of separation.

The drafters of our Hawai‘i Constitution must have understood that it was critical to the viability of the counties that they have exclusive authority over the property tax. They provided that “The taxing power shall be reserved to the State, except...relating to the taxation of real property” which “shall be exercised exclusively by the counties...” If that wall is breached, severe damage will be done to home rule, we would be ignoring the progress the counties have made since Statehood, and there would be a crippling of the State/County partnership that has grown over the years in an imperfect but meaningful attempt to best serve the 1.4 million people of Hawai‘i.

County of Hawai‘i is an Equal Opportunity Provider and Employer.
None of these arguments are meant to downgrade the importance of education to Hawai‘i’s past, present, and future. I can and do acknowledge the value of education, and I applaud those who want to improve and enhance the educational opportunities of our future generations. I simply ask that progress not be made on the backs of the counties which have so few alternate resources to fall back on.

I ask that SB 2922, SD 1 be held.

Respectfully submitted,

[Signature]
Harry Kim
Mayor, County of Hawai‘i
TO: The Honorable Justin H. Woodson, Chair  
House Committee on Education  
FROM: Mike White  
Council Chair  
SUBJECT: HEARING OF APRIL 4, 2018; TESTIMONY IN OPPOSITION TO SB 2922, SD1, PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION

Thank you for the opportunity to testify in opposition to this measure. The purpose of this bill is to propose amendments to the Constitution of the State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations.

The Maui County Council has not had the opportunity to take a formal position on this measure. Therefore, I am providing this testimony in my capacity as an individual member of the Maui County Council.

I oppose this measure for the following reasons:

1. Although the Department of Education receives almost 20 percent of the entire budget of the State of Hawaii, the administrators, teachers, students and advocates of this bill have legitimate reasons to demand more funding to provide quality education for our keiki. But the proposed measure before you is flawed, which is why I implore the legislature to defer this bill.

2. Increasing costs of visitor-related programs like transportation, sewer and water, fire, police, and parks maintenance continue to be a challenge as the counties do not receive a fair share of the transient accommodations tax. To pay for these services, businesses and homeowners will continue to be burdened and face potential increases in real property taxes.

3. Real property taxes are counties’ primary and largest source of revenue to fund county programs. The counties must account for raising expenses such as salary increases for all bargaining units this year, which we are obligated to fund. Raising property taxes is our only reasonable option to
balance the budget.

4. In many mainland communities, local real estate taxes are used to support local schools. The communities decide for themselves what they can afford and tax their residents accordingly. In Hawaii, a decision was made decades ago to establish a statewide school and healthcare system, which differs from most of the nation, and would be funded through state tax collections. If lawmakers and the governor believe schools are underfunded, the legislature should accept the responsibility and appropriately fund education without causing financial challenges for the counties.

5. The State has far more taxing authority than the counties and should be able to handle any increased need for funds. The premise that the counties should fund schools without having a greater say in the way that monies are spent ignores the importance of the community’s right to decision making.

For the foregoing reasons, I oppose this measure.
TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

PERSON TESTIFYING: Lynn Hammonds for the Hawaii Teacher Standards Board

DATE: Wednesday, April 4, 2018

TIME: 3:00 pm

LOCATION: State Capitol Conference Room 309

TITLE OF BILL: SB2922 SD1
PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAI`I TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION.

PURPOSE OF BILL:
Proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on visitor accommodations and on residential investment property. (SD1)

Chair Woodson, Vice Chair Kong, and Members of the Committee on Education:

The Hawaii Teacher Standards Board strongly supports SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai`i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for
students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because lack of funding affects not only children and parents but all residents of Hawaii; low pay and a lack of resources are driving teachers from our schools and completely out of the profession, and teachers report they have to hold second and third jobs when they should be able to concentrate on their students instead of rushing off to an after school job just to survive in Hawaii.

To deliver the schools our keiki deserve, please support this bill.

Thank you for the opportunity to testify.
TO: THE HONORABLE JUSTIN H. WOODSON, CHAIR
THE HONORABLE SAM SATORU KONG, VICE CHAIR
AND MEMBERS OF THE HOUSE COMMITTEE ON EDUCATION

FROM: STEVEN H. TAKARA, ADMINISTRATOR
REAL PROPERTY ASSESSMENT DIVISION
CITY AND COUNTY OF HONOLULU

SUBJECT: COMMENTS ON S.B.2922, SD1

The City and County of Honolulu (City) has concerns about S.B.2922. This bill proposes amendments to Articles VII and X of the Constitution of the State of Hawaii to authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

The City is currently addressing concerns associated with the one million dollar threshold for the Residential A properties. Imposing an additional surcharge on this same group of residential investment properties may have an adverse impact on this real estate market segment. Investors may avoid these higher priced investments and may opt for more the affordable market which could result in higher prices and increased rents.

Any increase in expenses which are tied to the assessments and taxes generate an increase in tax disputes and appeals. Requisite reserves for the litigated claims fund will reduce taxable values eventually requiring an increase in the tax rates to make up for revenue losses. The long term consequences will be instability of revenue which may result in a negative effect on the City’s overall bond rating.

Article VII, section 3 of the State Constitution reserves to the State the power to tax, except all functions, powers and duties relating to the taxation of real property, which is to be exercised exclusively by the counties. Real property taxes and are the most significant source
of revenue for the City. This measure encroaches into the City's only permanent taxing authority. The State, unlike the City, has a wide range of taxing authority and can impose other taxes to increase funding for public education. Under Article X of the State Constitution, the State is solely responsible for the education of Hawaii's students.

Thank you for your consideration of these concerns.
To: The Honorable Justin H. Woodson, Chair  
The Honorable Sam Satoru Kong, Vice Chair  
And Members of the House Committee on Education  

From: Scott K. Teruya, AAS  
Real Property Tax Administrator  
County of Maui  

SUBJECT: COMMENTS OF SB 2922, SD1  

The County of Maui, Real Property Assessment Division (RPAD) **strongly opposes** SB 2922, SD1.  

Real property taxes within the State of Hawaii are based upon fair market value, various tax relief programs and a tax rate use classification system. Each county code states that assessments must be uniform and equalized throughout the county. Assessments have not been equalized throughout the state since 1981.  

Since 1981, the four counties have modified their real property tax systems to the point where they are economically unique. The differences that have evolved since the 1980’s preclude an efficient, systematic, uniform and equalized statewide real property tax base and classification system.  

Another difficulty for each county’s RPAD will be to identify what is the definition of a “residential investment property or visitor accommodation” as this is not an existing way of how Maui classifies properties. This will make it problematic when trying to identify which units would be affected.  

We urge you to defer this bill at this time as it would be devastating to not fully understand the consequences on existing operations, effect on the county’s largest revenue source, and most importantly, our bond rating.  

Thank you for the opportunity to testify on this matter.
Dear Chair Woodson and Members of the Committee,

The Special Education Advisory Council (SEAC), Hawaii’s State Advisory Panel under the Individuals with Disabilities Education Act (IDEA), strongly supports the intent of S.B. 2922, S.D. 1 to increase funding for public education in Hawaii.

Hawaii serves a smaller percentage of students with disabilities compared to the entire student population than the national average--10.6% compared to 13.0% for most states--which may indicate that we are not identifying and serving all students who are eligible for special education services. Those who are served have experienced lackluster progress and a growing achievement gap with their non-disabled peers. Hawaii also serves significantly fewer children in the general education classroom contrary to IDEA mandates for placement in the least restrictive environment.

To address these inequities will take additional resources, including higher teacher pay to attract more qualified teachers to the field, smaller class sizes to encourage greater inclusion and specialized services and supports to meet the unique learning needs of these students. An enhanced funding stream for public education would benefit ALL children in Hawaii, including those who are most vulnerable to academic failure.

Thank you for the opportunity to provide testimony on this important legislation. If you have questions or concerns, please contact us.

Sincerely,

Martha Guinan  Ivalee Sinclair
Chair    Legislative Committee Chair

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922, SD 1 - PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION

WEDNESDAY, APRIL 4, 2018

COREY ROSENLEE, PRESIDENT
HAWAII STATE TEACHERS ASSOCIATION

Chair Woodson and Members of the Committee:

The Hawaii State Teachers Association strongly supports SB 2922, SD 1, proposing amendments to Articles VIII and X of the Constitution of the State of Hawaii to authorize the Legislature to establish a surcharge to increase funding for public education.

Let the people vote.

Today, we are not asking you to vote on increasing anyone’s taxes. Rather, we are urging you to champion democracy by allowing the people of Hawaii to decide whether or not to increase funding for public education.

Hawaii still shortchanges its public schools. While our state’s per-pupil spending of $12,855 ranks 17th in the nation when compared to other states in raw dollars, comparison with school districts of similar size and demographics yields different results. Mainland districts with high costs of living are typically urban and averaged with rural districts experiencing lower costs of living in statewide analyses, a geographic and fiscal situation that is not applicable to the islands’ single statewide school district.
When comparing school districts of similar size, Hawai‘i ranked 227th in per-pupil funding before adjusting for cost of living, according to an analysis performed by Ballotpedia.org. Likewise, the Department of Business, Economic Development, and Tourism reported, in March of 2017, that Hawai‘i’s education expenditures, as a share of combined state and local government spending, is 27.3 percent, which ranks as the lowest in the nation. Hawai‘i’s major private schools, in contrast, average $15,173 in per-pupil spending. When Catholic schools, subsidized by the Roman Catholic Diocese, are removed, private school spending jumps to nearly $19,173 dollars per student, sans endowment funds that further boost private school baselines. Punahou President Jim Scott revealed, in 2014, that the “real cost of our education per student is $26,000,” with the school’s endowment standing then at $235 million and fundraising operations generating an additional $12-$15 million each year. It is no wonder, then, that Hawai‘i has one of the highest private school enrollment rates in the nation. According to U.S. Census Bureau data, for the 2016-2017 school year, approximately 20 percent of K-12 students on O‘ahu attended private schools, with that number rising to 38 percent for students living in the urban core of Honolulu.

The islands also continue to suffer from a shortage of qualified teachers. According to the DOE’s STRIVE HI accountability reports, for the 2017-2018 school year, the state saw 1,011 SATEP vacancies, up from 920 SATEP vacancies in 2016-2017, including a slight increase in SPED SATEP vacancies, from 290 in 2016-2017 to 311 in 2017-2018. SPED teacher attrition has led to a situation in which 1 out of every 6 SPED teachers have not completed a state-sanctioned teacher training program. Our teacher shortage problem is further clarified in the DOE’s 2016-2017 Employment Report, which shows that teacher resignations increased from 781 in 2015-2016 to 850 in 2016-2017. Similarly in-state SATEP hires decreased from 404 to 387 over that time span, while out-of-state SATEP hires increased from 508 to 572. Teacher attrition is even worse in high-poverty areas. In the Nanakuli-Waianae Complex Area, for example, an astounding 18 out of 19 SPED teachers hired for the 2017-2018 school year do not have a special education license.

Moreover. In 2015, the DOE released a study entitled *Equitable Access to Excellent Educators*, which found that an average of 14.48 percent of teachers in low-poverty schools are inexperienced (haven’t completed one full year of full-time teaching), unqualified (have not obtained full licensure in Hawai‘i), or teaching out of their field of expertise. In high-poverty schools, however, the study noted that an average of 21.48 percent of teachers are inexperienced, unqualified, or out-of-field. In other
words, high-poverty schools have 50 percent more teachers who are inexperienced, unqualified, or out-of-field than their low-poverty peers.
Our children deserve better. Again, please **let the people vote** on this critical issue. Authorize our state to debate the condition of our public school system, a debate that has been a long time coming. When you vote for this measure, you are not voting on the details of complex tax increase. Instead, you are voting to entrust Hawai‘i’s people with the opportunity to chart the course of their children’s future.
To deliver the schools our keiki deserve, the Hawaii State Teachers Association asks your committee to **support** this bill.
April 4, 2018

To:    Honorable Justin Woodson, Chair  
       Honorable Sam Kon, Vice Chair  
       House Committee on Education

From:  Jeannine Souki, Executive Director  
        Hawaii Public Charter Schools Network

Re:    RE: SB 2922 SD1 RELATING TO EDUCATION– SUPPORT  
        Conference Room 309 – Hawaii State Capitol – April 4, 2018, 3:00 P.M.

On behalf of the Hawaii Public Charter School Network (HPCSN), I respectfully submit our testimony in SUPPORT OF SB 2922 SD1 RELATING TO EDUCATION.

We need additional funding for our public schools, treatment of all public school students, teachers, and staff should be equitable in our state whether they attend a public charter school or a traditional Department of Education (DOE) school.

Public charter schools are serving 11,160 students in Hawai‘i in 2018. Schools in non-DOE facilities do not have adequate resources to cover facilities costs, which on average take a 10 percent of the non-facilities per pupil funding ($7383/student in SY17-18). Unlike traditional DOE schools, not all charter schools are able to provide school meals or bus transportation because often the cost of facilities expenses takes a larger percentage of the school’s annual budget, especially in urban areas of the state. We must address basic needs for all students by providing equitable access to all funding sources for public schools.

HPCSN believes every student is deserving of equity and access to the provision of non-per pupil facilities funding and state funding for school meals or bus services available to students in traditional public schools. For these reasons, we humbly ask your support for to close the gap on providing equitable funding for public charter school students.

HPCSN works to improve the operation and governance of public charter schools in Hawai‘i and to be a voice for children and families that seek educational choices and quality in an independent public-school setting. Mahalo for your consideration.
SUBJECT: REAL PROPERTY, TRANSIENT ACCOMMODATIONS, Education Surcharge on Residential Investment Properties and Visitor Accommodations

BILL NUMBER: SB 2922, SD-1

INTRODUCED BY: Senate Committee on Judiciary

EXECUTIVE SUMMARY: Constitutional amendment to allow the legislature to impose a surcharge on real property tax for residential investment property, and on transient accommodations. We question why this type of increase is being sought given that the Department of Education already has a gargantuan share of the State budget but is still beset with such issues as frustrated teachers and students roasting in our classrooms. Limits should be written into the amendment or the voters should be apprised that they are voting only on granting power to the legislature to impose a state level real property tax surcharge, with no limitations on that power.

SYNOPSIS: Empowers the legislature to establish a surcharge on residential investment property valued at one million dollars or greater and visitor accommodations for which the owner does not qualify for a homeowners’ exemption.

EFFECTIVE DATE: Upon approval by the electorate.

STAFF COMMENTS: A tax increase of any magnitude in Hawaii’s fragile economy will, no doubt, have a negative impact as costs soar due to higher taxes. As costs and overhead increase, employers must find ways to stay in business by either increasing prices to their customers or cut back on costs. This may take the form of reducing inventory, shortening business hours, reducing employee hours, or even laying off workers. A tax increase of any magnitude would send many companies, especially smaller ones, out of business taking with them the jobs the community so desperately needs at this time.

While the teachers believe that they have not been given a fair shake at the negotiating table, that is an issue that should be resolved at the table and not by asking for tax increases or an earmarked source of funding. It is up to the teachers to ask for what money is available just like any other collective bargaining units. Although public employee union leaders complain about how the public employees should not be asked to bear the brunt of the downturn in the economy, they seem to ignore the fact that employees in the private sector have taken hits early and often, with many of them either working shorter hours or having taken pay cuts if they are working at all. A recent analysis of Bureau of Economic Analysis data done by the Grassroot Institute of Hawaii, [http://www.grassrootinstitute.org/2017/01/islanders-shouldnt-be-taxed-extra-for-teacher-bonuses/] for example, showed that Hawaii teachers make low wages and benefits, 42nd in the nation, but that Hawaii’s private sector workers made the lowest wages and benefits nationally when adjusted for cost of living.
Teachers do have a legitimate complaint that should demand the attention of lawmakers and Board of Education members, namely that teachers are being asked to do more and more administrative work and are spending less and less time in the classroom. If nothing else, the funds that are being appropriated to the DOE are failing to reach the classroom because of the top-heavy administrative structure of the department that demands reports and schedules and evaluations to justify the role of administrators. The frustration of classroom teachers is that they spend too much time filling out forms and reports and not enough time in the actual classroom. Unfortunately, with more than $1.5 billion in its budget and more than 20% of the general fund budget, teachers are frustrated, and kids are roasting in the schools. The department of education still cannot get it right. It needs to be able to spend its existing resources efficiently. Until it does, there is little justification for an increase of financial resources.

Also, it is troubling that there are no limits on the proposed tax. The current version of SB 686, implementing legislation designed for last year’s version of this bill, would if approved impose a surcharge of $7.50 per $1,000 of property value on residential investment properties that are valued at $2 million or more. But if the constitutional amendment is approved, there is no reason why legislators can’t change the implementing legislation or come up with an entirely new bill. It could be the year the amendment is approved, or the next year, or the year after that. They could change it to impose the surcharge on all “residential investment” property as long as the property value is $1 million or more. They could change the surcharge rate. They could do all these things because the constitutional amendment gives the legislature this power.

In other words, once the amendment passes, the genie is out of the bottle. It may not even be under control of the members now in the legislature, because future legislators (note that this year is an election year) may have different ideas from current members.

We need to ask ourselves if we want to or need to give the genie that much power. If we do, then we only have ourselves to blame for what happens when the genie does come out. If we don’t, then we should either kill the constitutional amendment or write strict limits into it.

Digested 4/2/2018
April 2, 2018

TO: Honorable Chair Woodson & Members of the Education Committee

RE: SB2922 RE: AMENDMENT TO CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION

Support for hearing on April 4

Americans for Democratic Action is an organization founded in the 1950s by leading supporters of the New Deal and led by Patsy Mink in the 1970s. We are devoted to the promotion of progressive public policies.

We support SB 2922 as it would propose amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

Supporting this proposal will lift Hawaii's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

Quite a few of our members and board members are educators. We know there is a serious need for greater funding to give our keiki the schools they deserve.

Thank you for your favorable consideration.

Sincerely,

John Bickel
President
TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION
RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018, 3:00 p.m.

Aloha Chair Woodson and Members of the Committee:

On behalf of the Hawai‘i Alliance for Progressive Action (HAPA), I am submitting testimony in strong support of SB2922 SD1 to increase funding for public schools.

HAPA is a statewide environmental, social and economic justice organization. HAPA engages over 10,000 local residents annually through our work.

HAPA and several of our partners have held a series of input gathering forums across the islands called the People’s Congress. Over 800 people attended forums on Kaua‘i, O‘ahu, Maui and Hawai‘i Island to discuss the most pressing issues facing their communities. The chronic underfunding of our public schools was one of the top concerns and priorities raised by residents across the state.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

Mahalo,

Anne Frederick
Executive Director
We need additional funding for our public schools, because we need to grow the next generation of civicly engaged, informed, leaders and decision-makers. Our schools must prepare our young people for the challenges they will need to face in their lifetime from climate change and food security to an increasingly globalized economy. The education of our keiki is the single most important investment we can make for a better future.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Best Regards,

Anne Frederick
Executive Director
Hawai‘i Alliance for Progressive Action

Representative Sam Satoru Kong, Vice Chair

Re: SB2922 – Constitutional Amendment on Education Funding

Hearing: Wednesday, April 4, 2018, 3:00 p.m., Room 309

Position: Strong Support

Hawai‘i suffers from the worst structure for funding public education in the entire nation, and the results show – disastrously. We have something like 1,000 chronically unfilled teacher positions; and our teachers are the worst paid in the country if cost of living is taken into account – worse than in Kentucky and West Virginia, where teachers have gone out on strike statewide for better pay and for better educational funding overall.

Hawai‘i’s structure for funding public education, such as it is, was adopted during the plantation era. Yet, year after year, no structural change is ever made. Change must be made.

If the proposal contained in this bill fails to win voter approval, then the Legislature and Governor must find a proposal that will work. The teachers should not be stuck with the burden of coming up with proposals. This is simply not fair. It is the duty of the Legislature to find the funding.

We cannot continue limping along as we have done, year after year, decade after decade. Please pass this bill and place this issue before the voters. Thank you for the opportunity to testify on this critical issue.

Comments:
Dear Chair Woodson, Vice Chair Kong, and members of the Committee:

Thank you for the opportunity to testify in SUPPORT of SB 2922 SD1, which proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

Hawai‘i is the only state in the nation that doesn't use property taxes to help fund our schools. We also have the lowest property taxes in the nation, according to the Tax Foundation. Our effective rate is 0.28 percent of home value, which is close to ten times lower than the rate in states like New Jersey, Illinois and New Hampshire.

Such low property taxes make it easier for out-of-state investors to purchase properties in Hawai‘i and leave them vacant for much of the year, which drives up home prices and reduces the amount of housing available to local residents.

Meanwhile, our state’s public school performance was graded a D-plus for K-12 achievement, C-plus for Chance-for-Success, and a C overall by Education Week. To improve these grades, our schools will need more funding.

This bill would put a question on the ballot for the public to vote to amend a specific section of the Constitution that would allow a state surcharge on investment properties valued at over a million dollars, and excluding owner-occupied homes. This bill would also add a surcharge to visitor accommodations to help fund our public schools.

For the reasons outlined above, the proposed ballot question deserves to be put before the public for a vote. We appreciate your consideration of this testimony.

House Committee on Education
Rep. Justin Woodson, Chair
Sen. Sam Satoru Kong, Vice Chair

Re: SB 2922: Proposing Amendments to Articles VIII and X of the Constitution of the State of Hawaii to Authorize the Legislature to Establish a Surcharge to Increase Funding for Public Education
Hearing: Wednesday, April 4, 2018, Conference Room 309

Dear Chair Woodson, Vice Chair Kong, and Committee members:

This testimony is in strong support for SB 2922, related to the proposed amendments to the State Constitution to authorize the legislature to establish a surcharge to increase funding for public education.

I am writing on behalf of Parents for Public Schools of Hawai‘i (PPS Hawai‘i), a non-profit organization focused on supporting and improving Hawaii’s public schools through family engagement. Our group emerged from the Furlough Friday crisis, and we have over 1,000 members statewide.

As you know, the majority, a total of 180,000 children and youth in our State, attend public schools. Public education is the bedrock of a strong democracy. It is the great equalizer—a place where children from all communities in Hawai‘i can gain the knowledge and skills to become our future leaders. In our public schools, children of all backgrounds, including those from immigrant and low income families, are exposed to new ideas, develop their talents, and discover who they are and want to become.

Our children are our greatest asset. Given what is at stake, public schools should be our State’s highest priority, and this should be reflected in our public spending. All children deserve highly qualified and caring teachers, who recognize their assets and challenge them with new and engaging curricula. Every child should walk onto their school campus in excitement of what awaits them—wonderful teachers and well-cared for and equipped facilities to engage and challenge them to learn.

Unfortunately, we know that our schools are chronically under-funded. We don’t have the resources to recruit and retain the best teachers for all of our schools. When we asked our members what concerned them the most about our public schools, we heard about the series of substitute teachers that appeared in classrooms throughout the year. Substitutes, who did not know the subjects they were there to teach. Other parents talked about dilapidated and uncomfortable facilities that made learning difficult. Many mentioned their children’s lack of access to education in the arts, music, physical education, and other subjects that engage children and are part of a well-rounded education. The situation is the worst at schools serving children in rural, low-income and neighbor island communities.
Our 1,000 members, whose children are in the public schools, want change. We want the opportunity for the public to vote on the creation of a permanent funding stream that will provide necessary resources for our schools to flourish. This is the time for us to truly invest in our children—to show them that they are our highest priority. Please support SB 2922.

Thank you for your time and consideration.

Aloha,

Lois Yamauchi, PhD
President, Parents for Public Schools of Hawai`i
The Coalition for Equal Taxation takes no position on the merit of increased education funding. The Coalition, however, OPPOSES the proposed method of achieving the additional funding.

We respectfully urge the Legislature to evaluate the fiscal and long term CONSEQUENCES of this Bill. The question is not do we want a quality education for our children. Of course everyone wants that.

The question is HOW do we achieve that goal.

1. Currently, only the Legislature is responsible for determining distribution of funds to all departments within the State operation. Question to consider:

   Is it prudent to provide a pathway where one department has the authority to source their own revenue through taxation?

If this pathway is established, the Legislature surely should expect that this will not be the last proposal of such a dedicated source of tax revenue to a department or cause.

While many look at this as an "extra" source of revenue, economic principal clearly defines it as a competing factor for a government trying to raise revenue to balance budgets.

In other governmental jurisdictions where this has occurred, the dedicated revenue stream recipient has found that the Legislature actually cuts back the amount of funds allotted from the general fund, especially in times of financial scarcity.

The proposed method of funding called for in this Bill may prove to be problematic in the long run for the Department of Education, rather than a solution.

2. This Bill significantly impacts and harms the counties. As each county has testified, a diversion of property tax revenue will adversely impact their ability to raise property taxes for their own budgeting needs. The counties are solely dependent upon property taxes for their operations.

Where do the counties spend their property tax revenue?

Primarily on county government employees, including police and firefighters. The employee expense category pays for wages, health benefits, pensions. Smaller amounts go to roads, parks, cemeteries, interest on bond debt and services for community centers for children and the elderly.

Is it reasonable to ask counties to lay off employees so that employees in the Department of Education can receive those taxing funds? That does not seem to be a reasonable solution.

3. Visitor Accommodations surcharge. The visitor industry has just been impacted by the need to pay for the Honolulu Rail System. Although the neighbor islands will not benefit from the Honolulu Rail, none the less, they are assessed a higher transient accommodation tax to pay for it.

Again, while some see this as a pass through to tourists, economic principal does not support that conclusion. Tourism is a commodity that must be competitive. If not, it loses in market share. We have no assurance that the last increase that started 1/1/18 will be completely absorbed by the tourist, or will it reduce tourism resulting in a loss of revenue to the State. That is yet to be seen.

The Coalition notes that the definitions for investment property and visitor accommodations has been removed. Good public policy necessitates full transparency so that all parties may fully understand how this would be enacted.

For the above reasons, The Coalition of Equal Taxation encourages the Department of Education and the Legislature to find solutions to budgeting that retains the revenue source from the general fund.
The Senate  
The Twenty-Ninth Legislature  
Regular Session of 2018  

To: Rep. Woodson, Chair  
Rep. Kong, Vice-Chair  

Date: April 4, 2018  

Time: 10:00 a.m.  

Place: Conference Room 309  
Hawaii State Capitol  

RE: Senate Bill 2922 SD1, Relating to Constitutional Amendment  

Chair Woodson and Members of the Committee:  

RBOAA must OPPOSE the bill.  

This Bill proposes Constitutional amendments to authorize a “Surcharge on residential investment property and visitor accommodation to fund quality public education for all of Hawaii’s children.”  

RBOAA takes no position as to the need for or the merit of additional funding for education.  

RBOAA has great concern with the proposed method of payment for additional education funding as follows:  

1. **Residential investment property that cannot claim a homeowner's exemption.**  

   Among the counties there is not a uniform definition of when a property owner can claim a homeowner’s exemption. Each county has defined the duration of use differently, therefore, without a one definition of when a homeowner’s exemption can be applied, the result will inherently be discriminatory.  

   Further, the Privileges and Immunities Clause protects against State Legislation that bears unequally on nonresidents and the Clause exempts nonresidents from any higher taxation or excises than are imposed by a State on its own citizens. It is hard to find a rational basis for taxing only certain properties to fund education which is a benefit to all who reside in the State.  

   While there are some resident owners who indeed do have residential investment property, as seen in last year’s proposal, they are likely to receive benefits and offsets that nonresidents will not. It is also noted that the Legislature has requested studies of nonresident property ownership, so it is well known to the legislature that the nonresident will be significantly more impacted by this Bill.

29 S. KUKUI PLACE, KIHEI, HI 96753
2. **Additional surcharge on visitor accommodations.**

As everyone is aware, the legislature in special session last summer increased the transient accommodation tax to pay for funding for the Honolulu transit system. It is only a few months ago that transient accommodation operators had an increase of 1% (total 10.25%). It is unknown if there will be a negative impact with this newly implemented increase. With every increase in TAT there is an increased risk that the tourists will cut back on other expenditures that are vital to the economy.

The committee is also surely aware that the term “visitor accommodation” is not defined in any existing Hawaiian statute.

3. **The Constitution of the United States**

We urge the legislature to consider both the U.S. Constitution’s Equal Protection Clause that provides for protection from discriminatory actions, and the Privileges and Immunities Clause that protects against State Legislation that bears unequally on nonresidents and exempts nonresidents from any higher taxation or excises than are imposed by a State on its own citizens.

RBOAA must question the nexus to investment property and tourist operations and education. Generally, where there is a special tax imposed on only certain sectors, there is a nexus to it which justifies having to bear the expense. There is not such connection here. Indeed, tourists do not send children to school, and investment property generally is not connected with sending children to a local school.

It is hard to find the rational basis for taxing only one or two uses of property to fund education which is a benefit to all children who reside in the State.

We ask you to please consider that money needed to fund “education for all of Hawaii’s children” should be funded by all revenue sources rather than selecting only residential investment property and visitor accommodations to fund additional revenue for education.

Thank you for the opportunity to testify on this measure.

Sincerely,

Neal Halstead
President,
Rental by Owner Awareness Association

---

*Rental By Owner Awareness Association (RBOAA) is a Hawaii non-profit corporation founded in 2011, with over 1000 members. Our mission is to provide Hawaii vacation-rental property owners with information to help them comply with the applicable State and County regulations, support the Hawaii economy by offering visitors choice in accommodation, and advocate for the rights of Hawaii vacation property owners. RBOAA members provide transient vacation rentals in full compliance with existing tax and County regulations. RBOAA fully supports enforcement of existing regulations.*
Committee on Education
Representative Justin Woodson, Chair
Representative Sam Kong, Vice Chair

April 4, 2018

Dear Chair Woodson, Vice Chair Kong, and Members of the Committee,

We support SB2922 SD1 proposing a constitutional amendment to allow the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for education.

Hui for Excellence in Education, or “HE’E,” is a statewide coalition of diverse stakeholders committed to working collaboratively to identify opportunities to improve public education in Hawai‘i. HE’E seeks to be the nexus for community and parent engagement while serving as a public resource for educational policy.

The Coalition was formed in May 2010 by parents and community members who stood up and said “no” to school furloughs and “yes” to re-establishing education as a public priority. We have been following public education policy at the Board of Education (BOE) and the Hawaii State Legislature consistently since our inception. We are thankful to the legislature for its support of public education; however, we also know that the current funding for education is insufficient to cover the needs of our students, teachers, administrators and schools. An alternative revenue stream dedicated to education is needed.

In 2016, the BOE approved an update of the BOE/DOE Strategic Plan, which puts a focus on the state’s achievement gap that has persisted over the years. We agree that help is most needed for our struggling students. We feel that the education surcharge would benefit these students.

Thank you for the opportunity to testify. Our support of these bills represents a 75% consensus or more of our voting membership.

Sincerely,

Cheri Nakamura

Honorable Chair Woodson and committee members:

I am Kris Coffield, representing IMUAlliance, a nonpartisan political advocacy organization that currently boasts over 400 members. On behalf of our members, we offer this testimony in strong support of Senate Bill 2922, SD 1, proposing amendments to Articles VIII and X of the Constitution of the State of Hawai‘i to authorize the Legislature to establish a surcharge to increase funding for public education.

In comparison to school districts of similar size and demographic composition, Hawai‘i, ranks 227th in per-pupil funding before adjusting for cost of living, at $12,855 per child. Washington D.C., New York City, Boston, Pittsburgh, and Cincinnati school districts, for example, spend nearly twice as much as Hawai‘i per pupil, at well over $22,000 to over $26,000 per student. Similarly, local private schools, discounting Catholic institutions, spend nearly $19,173 dollars per student, with Punahou President Jim Scott revealing, in 2014, “The real cost of our education per student is $26,000,” owing to the school’s then-total endowment of $235 million and fundraising operations of $12-$15 million annually.

Moreover, for the 2017-2018 school year, the Hawai‘i State Department of Education report 1,011 teacher vacancies. The number of new teachers hired who have not completed a state approved teacher education program has increased from 125 for the 2011-2012 school year to 294 for the 2016-2017 school year. Over the same period, the number of teacher resignations has increased from 624 in 2011-2012 to 850 in 2015-2016, while the total number of voluntary teacher separations has increased from 934 in 2011-2012 to 1,170 in 2016-2017. In short, hundreds of
teachers are leaving the workforce each year at an accelerating pace, while the DOE does not have enough trained and licensed teachers in waiting to fill the holes they leave. Accordingly, we must raise Hawai‘i’s last-in-the-nation teacher pay (adjusted for cost of living) as a means of addressing the problem. Studies have shown that as teacher pay increases, so, too, does student achievement. A Stanford University study found that “raising teacher wages by 10 percent reduces high school dropout rates by 3 percent to 4 percent,” while a Florida study showed that pay raises reduced teacher attrition by as much as 25 percent for hard-to-fill subject areas, with children’s learning growth gaining from more exposure to experienced educators. Recently, the Hawai‘i State Teachers Association performed a study of teacher compensation in comparison with mainland peer districts. HSTA discovered that teachers’ wages are $4,000 to $26,000 below that of their mainland peers. Put simply, to reduce teacher turnover, we must pay educators what they’re worth.

We are also heartened by this measure’s potential for making Hawai‘i more affordable. Hawai‘i residents face the highest housing costs in the nation, at more than twice the national average. Researchers who authored the National Low Income Housing Coalition’s Out of Reach 2017 report found that a full-time worker would need to earn $35.20/hour to afford a two-bedroom apartment at fair market value in our state, with Honolulu experiencing a 67 percent increase in fair market rent between 2005 and 2015. Average rent for a two-bedroom unit surpassed $2,000 in recent years, with minimum wage workers needing to log 116 hours per week to afford a modest one-bedroom apartment at fair market value and 139 hours per week to afford a two-bedroom—a number that is equivalent to working 20 hours a day with no days off year-round. In the past three years alone, Honolulu rent has increased by more than 25 percent. While 43 percent of Hawai‘i residents are renters (a number that does not include individuals and families renting outside of the regulated rental market), they earn an average wage of $15.64/hour, scarcely enough to meet their basic needs. One out of every four households in Hawai‘i report that they are “doubling up” or are three paychecks or less away from being homeless, per the Hawai‘i Appleseed Center for Law and Economic Justice. Additionally, 54 percent of households are cost-burdened, meaning that they pay more than 30 percent of their income for housing costs, a number that rises to 83 percent of extremely low-income households.

We are in the midst of an affordable housing crisis. Our state’s cost of housing has skyrocketed over the last decade, leaving many families searching for affordable alternatives, in shelters, or on the streets. For context, the median price of condominiums on O‘ahu increased 6 percent in the summer of 2017 to a record $425,000, while the median price for single-family homes increased by 3 percent to $795,000, according to the Honolulu Board of Realtors, a number that they expect to increase by at least another 5 percent in 2018. Average fair market rent for two-bedroom apartments in outlying communities in the City and County of Honolulu now exceeds $2,700, with the cost of a four-bedroom home in urban Honolulu now exceeding $1.1 million. At least 46 percent of residences in Hawai‘i are owner unoccupied, according to the National Low-
Income Housing Coalition, meaning that nearly 50 percent—and by some estimates over half—of Hawai’i’s homes are likely investment properties.

Many of those properties, in turn, are owned by mainland and foreign buyers, whose real estate market speculation is a prime driver of Hawai’i’s highest-in-the-nation cost of housing. According to a study released in May of 2016 by the Hawai’i Department of Business, Economic Development, and Tourism, there are “clear distinctions” between the average price of homes bought by local residents, mainlanders, and foreigners. Analyzing purchases made between 2008 and 2015, DBEDT found: “The average sale price was highest among foreign buyers. The average sale price of the total of 5,775 homes sold to foreign buyers from 2008 to 2015 was $786,186, 28.3 percent higher than the average sale price to the mainlanders ($612,770) and 64.7 percent higher than the average sale price to local buyers ($477,460).” Experts at DBEDT now estimate that Hawai’i needs 66,000 new housing units by the year 2025 to keep up with demand, more than 80 percent of which is needed to meet the demand of people who qualify for affordable housing. Yet, for every 100 extremely low-income renters on O’ahu, there exist only 40 affordable rentals, according to the Urban Institute, of which only 11 are “naturally affordable,” meaning they are affordable without federal subsidies.

We must ask ourselves: do we want to allow people who live outside of Hawai’i to use the islands as their private monopoly board or do we want to create a first-rate education system for our children? We submit that this constitutional amendment disincentivizes the rampant real estate speculation driving up our state’s housing and rental prices and forces those most responsible for pricing families out of paradise to pay their fair share to improve our keiki’s future.

All children deserve a chance at happiness and prosperity. Mahalo for the opportunity to testify in strong support of this bill.

Sincerely,
Kris Coffield
Executive Director
IMU Alliance
Testimony of

Mufi Hannemann
President & CEO
Hawai‘i Lodging & Tourism Association

House Committee on Education

Senate Bill 2922 SD1

Chair Woodson, Vice Chair Kong, and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of the nearly 700 members of the Hawai‘i Lodging & Tourism Association, the state’s largest private sector visitor industry organization.

Regarding Senate Bill 2922 SD1, the Hawaii Lodging & Tourism Association specifically opposes the provision on the visitor accommodation surcharge. As much as we support improving upon our state’s education system, we must seriously take into consideration the tax burden our visitor industry already bears. Moreover, the record is clear of the thousands of dollars HLTA and our individual tourism organizations and properties contribute yearly statewide towards education at all levels. We prioritize this objective.

Our respectful opposition is based on the following reasons:

**Higher taxes and fees harm our ability to compete.** Last August, the Legislature raised the TAT, to the point where guests now pay a TAT of 10.25 percent. Coupled with the general excise tax, guests pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on O‘ahu. Hawai‘i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, in both the domestic and international markets.

**Tourism already is the state’s largest revenue producer.** Tourism continues to be the largest single source of private capital for our economy. Recent reports have noted that (a) tourism accounted for 204,000 jobs; (b) visitor spending last year totaled $16.8 billion, a new high; and (c) the state’s tax take was $1.96 billion. Of that sum, TAT revenues alone generated nearly $545 million for the state’s coffers last fiscal year.

**The hospitality industry in not an infinitely prosperous, infinitely taxable entity.** Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai‘i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

**More than half of TAT revenue now goes to the general fund.** While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. Latest reports reveal that now it’s a whopping 60% of the TAT that goes
to the general fund. We would surmise that public education may already be receiving a share of TAT revenue through its general fund budget allocations.

The state government is not collecting TAT and general excise taxes on transient vacation rentals. The Hawai‘i Lodging & Tourism Association supports legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands of alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding TAT and general excise taxes. If the House and Senate could agree on a legislative measure with the Governor's concurrence, millions of dollars would find its way into the state coffers.

For these reasons, the Hawai‘i Lodging & Tourism Association continues to oppose raising taxes and extra fees on the visitor industry and we respectfully urge you to remove the establishment of a transient vacation surcharge from Senate Bill 2922 SD1.

Mahalo for the opportunity to testify.

Sincerely.

House Committee on Education

Senate Bill 2922 SDI

Chair Woodson, Vice Chair Kong, and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of the 24 Marriott Resorts throughout the state of Hawaii.

Regarding Senate Bill 2922 SDI, Marriott Resorts Hawaii specifically opposes the provision on the visitor accommodation surcharge. Once again the Legislature is proposing raising taxes for the hotel industry, this time to support public education. As much as we support providing a quality education for the children of Hawaii, we must take into consideration the tax burden the visitor industry already bears.

Higher taxes and fees harm our ability to compete. Last August, the Legislature raised the TAT to the point where guests now pay a TAT of 10.25 percent. Coupled with the general excise tax, guests pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on Oahu. Hawaii has reached the point where high business costs and tax rates make it increasingly difficult for businesses to be profitable and competitive, in both the domestic and international markets.

Tourism already is the state’s largest revenue producer. Tourism continues to be the largest single source of private capital for our economy. Recent reports have noted that (a) tourism accounted for 204,000 jobs; (b) visitor spending last year totaled $16.8 billion, a new high; and (c) the state’s tax take was $1.96 billion. Of that sum, TAT revenues alone generated nearly $545 million for the state’s coffers last fiscal year.

Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawaii’i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.
More than half of TAT revenue now goes to the general fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. We would surmise that public education may already be receiving a share of TAT revenue through its general fund budget allocations.

The state government is not collecting TAT and general excise taxes on transient vacation rentals. Marriott Resorts Hawaii supports legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands of alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding TAT and general excise taxes. If the House and Senate could agree on a legislative measure with the Governor's concurrence, millions of dollars would find its way into the state coffers.

For these reasons, the Marriott Resorts Hawaii continues to oppose raising taxes and extra fees on the visitor industry and we respectfully urge you to remove the establishment of a transient vacation surcharge from Senate Bill 2922 SD1.

Mahalo for the opportunity to testify.
Testimony of
Kelvin Bloom
Aqua-Aston Hospitality, LLC

Before the House Committee on Education

Wednesday, April 4, 2018, 3:00 p.m.
State Capital, Conference Room 309

In Consideration of
SENATE BILL 2922, SD1
PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION

Dear Chair Woodson, Vice Chair Kong, and Committee Members:

I am Kelvin Bloom, Manager of Aqua-Aston Hospitality, LLC, which manages many hotels and resorts in the State of Hawaii. Aqua-Aston opposes Senate Bill 2922, SD1 which would amend the Constitution of the State of Hawaii to advance the State’s goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish a surcharge on residential investment property and visitor accommodations.

As a member of Hawaii’s hospitality industry for 70 years, Aqua-Aston Hospitality supports the education system in Hawaii, but it does not support imposing a further additional tax burden on the visitor industry. Higher taxes and fees harm our ability to compete. Last August, the state legislature raised the transient accommodation tax paid by visitors to Hawaii to 10.25% to support the mass transit special fund. Coupled with the general excise tax, visitors to Hawaii pay 14.41% in tax on the Neighbor Islands and 14.95% in tax on Oahu. Now, our legislators want to impose a tax on the owners of visitor accommodations to support our education system?

I propose that increasing the general excise tax by a half-percent would be a better revenue generating alternative which would spread the burden on all taxpayers, visitors and residents alike. Visitors and residents benefit from the state public education system. The visitor industry accounts for approximately 204,000 jobs.

Tourism is the state’s largest revenue producer and the largest single source of private capital for our economy, but it is not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and less expensive. Hawaii must remain competitive in its pricing to protect its value and appeal in the eyes of the traveler.

Senate Bill 2922, SD1 seeks to impose a burden only on those owners of real property used to support the visitor industry to support public education which benefits every person in the state. For these reasons, Aqua-Aston Hospitality opposes Senate Bill 2922, SD1. Thank you for the opportunity to testify.

Sincerely,

Kelvin Bloom, Manager
April 3, 2018

Testimony of:

Scott Ingwers
Regional Vice President and Managing Director
Trump International Hotel Waikiki

House Committee on Education
Senate Bill 2922 SD1

Chair Woodson, Vice Chair Kong, and members of the Committee:

Regarding Senate Bill 2922 SD1, my testimony specifically opposes the provision on the visitor accommodation surcharge. As much as we support improving upon our state’s education system, we must seriously take into consideration the tax burden our visitor industry already bears.

This respectful opposition is based on the following reasons:

**Higher taxes and fees harm our ability to compete.** Last August, the Legislature raised the TAT, to the point where guests now pay a TAT of 10.25 percent. Coupled with the general excise tax, guests pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on O’ahu. Hawai’i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive.

**Tourism is the state’s largest revenue producer.** Tourism continues to be the largest single source of private capital for our economy. Recent reports have noted that (a) tourism accounted for 204,000 jobs; (b) visitor spending last year totaled $16.8 billion, a new high; and (c) the state’s tax take was $1.96 billion. Of that sum, TAT revenues alone generated nearly $545 million for the state’s coffers last fiscal year.
The hospitality industry is not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai’i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

More than half of TAT revenue now goes to the general fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. Latest reports reveal that now it’s a whopping 60% of the TAT that goes to the general fund. We would surmise that public education may already be receiving a share of TAT revenue through its general fund budget allocations.

The state government is not collecting TAT and general excise taxes on transient vacation rentals. We legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands of alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding TAT and general excise taxes. If the House and Senate could agree on a legislative measure with the Governor's concurrence, tens of millions of dollars would find its way into the state coffers.

Legislative action to cripple the efforts of the HTA. There is legislation proposed that will severely hamper the HTA’s ability to continue to market this destination to the world. The assault on the visitor industry is indeed palpable at this juncture, and the fault for the detrimental results of that assault will rest squarely with those who allow it to happen.

For these reasons, please do not continue to increase taxes and place extra fees on the visitor industry.

Thank you for your consideration.
COMMITTEE ON EDUCATION
Wednesday, April 4, 2018, 3:00 PM, Conference Room 309
SB 2922, SD1 PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION

TESTIMONY
Janet Mason, Legislative Committee, League of Women Voters of Hawaii

Chair Woodson, Vice-Chair King, and Committee Members:

The League of Women Voters Hawaii offers the following comments on SB 2922 which proposes a tax surcharge on residential investment property and visitor accommodations to increase funding for public education.

1. One part of the proposed tax surcharge would be on residential investment property above $1 million in value which does not qualify for a homeowner’s exemption. We point out that no exemptions are offered for properties that may be rented for affordable rates (such as less than $1,500 per month), properties rented to low-income seniors or disabled veterans; Hawaiian homesteads; and properties used exclusively for charitable purposes. At a time when Hawaii is struggling with an inadequate supply of affordable housing this may aggravate this problem.

2. There is no tax rate proposed in the measure. Not having any limit on the proposed residential tax troubles us because not all ‘investors’ having property valued at one million dollars or greater are wealthy. Recent tax valuations can put an old, in need of repair property in Kaimuki well above one million dollars. Hawaii citizens may have inherited such a property or invested over decades in hopes of gaining retirement security. If the surcharge was large, hitting such an ‘investor’ with a new tax may cause a Hawaii citizen to lose a property or a business person to think twice about ever investing in Hawaii, defeating the intent of the bill.

3. Regarding the visitor accommodations tax, Hawaii’s economy is tourism dependent. All citizens recognize this and rely on this economic sector for employment and continued economic growth. To remain profitable, operators of tourism accommodations must always be able to estimate their operating expenses, including the transient accommodations tax, yet no tax rate is suggested for this surcharge. We also wonder whether this surcharge would provide a reliable revenue stream in the event of a recession and we think it is extremely important to have an impartial analysis of how such an increased tax would impact the visitor market.
4. It now appears unlikely that relying solely on the general fund revenue, primarily derived from our GET tax, assures adequate funding for Hawaii’s public schools. But before putting SB 2922 to the citizens for a vote that would change their Constitution, we would like to hear more discussion of the amount of revenue that could be generated under different property surcharge scenarios. A good case can be made that property taxes are relatively low throughout Hawaii, but more discussion about revenue vs. projected expenses of the Department of Education is important. For example, we do not understand why the measure lists specific types of public education expenses.

5. Hawaii’s Constitution established a single, state-wide school system, funded from the general budget (not property taxes) to ensure an egalitarian education for all students so schools in the then agricultural areas, whose citizens did not earn as much as urban residents, would have equivalent resources for education. The framers of the Constitution did this because they wanted the schools to be fairly treated in budgets, whether they were urban or agrarian. Perhaps surcharging all property owners preserves the egalitarian logic presented by the original framers of Hawaii’s Constitution, but this measure appears to discriminate against a limited class of residential property owners.

The League supports equal educational opportunity for every child in the K-12 school system and financing methods to reach this goal. To us there is no public goal more important than this, so we sincerely hope supporters of this measure can collaborate to come up with a simple but equitable plan for the much-needed investment in our public schools.

Thank you for the opportunity to submit testimony.
REAL ESTATE UPDATE, INC.

April 2, 2018

Honorable Chair Justin H. Woodson
House Committee on Education
State Capitol, Room 405
Honolulu, HI 96813

RE: SB2922 SD1  PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION

HEARING: Wednesday, April 4, 2018 at 3:00 p.m.

Aloha Chair Woodson, Vice Chair Kong and Members of the Committee:

Please hold this bill.

Communication, coordination, and understanding of everyone's effort should be taken into consideration especially with financial matters. There are always at least two sides to any story and so we need to be open to fairly hear where each one comes from in their passion for their causes. We all WANT to take care of the essentials to our family and infrastructure that we use on a daily basis for our needs. It should never be about THEM or US because we all deserve the many benefits that being a part of Hawaii offers us in terms of our land, weather, views, surrounding oceans and the aloha spirit.

I, Patti Ann Hokama, Principal Broker of Real Estate Update am writing to you as my fiduciary duty to represent and support the concerns of my clients along with being fair to all parties. It is important to clearly understand who may own a residential investment property valued at one million dollars or more for which the owner does not qualify for a homeowner's exemption.

What value is given for Hawaii when people invest in Hawaii real estate?

We should be grateful that developers are building real estate investment opportunities in Hawaii. Due to our limited land area, the highest and best use decision to go UPward seemed the logical choice and in prime preferred areas closer to the "hub" of the city for convenience and benefits of the investors influencing the entire local economy in a positive stream of new traffic and funds. Speaking of a different kind of traffic, with the use of smart growth in a centralized area where employment was centralized, it may have helped alleviate another great issue of the time and energy besides the frustration of distance driving on Hawaii roads. For those who want to still be surrounded with the local single family homes, developers do participate with their master plans that include LAND provided to the State or other monetary means towards education.

1. OUTSIDE REVENUE: Without the flow of outside money coming into our State, it would mean that the same pool of funds within our island family just gets circulated amongst ourselves. So, when one thinks that they NEED it, it takes away from another local person who may equally NEED it, too. We need to understand the basic flow of economics to have us all grow and flourish on the islands.

2. HOUSING INVENTORY  The investor who elects to buy an apartment building to allow more inventory into the rental market to make it possible for others to rent in convenient locations - this could another avenue for
island included) and desiring to attend the local universities while renting nearby. More interesting to note, it appears that stats are saying that there is a huge percentage of renters in Hawaii - well, where would they all be living if there were NO INVESTORS who owned apartment buildings?

3. **MORE POTENTIAL STATE INCOME ADDED** Just to take a look at the sample area regarding projecting revenue for our real property taxes basically in the Kakaako area, we have about 7000 new condominium units that range from a minimum of $450,000 to $2 million dollars in assessed valuation. Based on estimates comparing what was being collected on commercial parcels that have now become high rise condominiums, on a conservative estimation of unit value, it appears that tax collection is at minimum 4-5 times the dollars in revenue without taking into consideration the Residential A tax rate. Thus, this is revenue for the government BUT another given COST to the landlord. ALL those extra units from commercial space, now brings growth to the STATE economy, too. And yet, the desire is to change the Hawaii constitution to add an additional monthly burden making it a negative to invest into real estate in Hawaii.

**What may deter investment in Hawaii real estate?**

1. **RENTAL INCREASES ARE NOT A GIVEN** As in a retail store, one believes that added increased costs will get passed on to the consumer and thus the belief that the added fees/surcharges will be passed on to the tenants. Well, with all the competition out there, the retailers end up closing down or leaving our area. As to the possibility of rent increases, it is less flexible - one can't always raise the rental rate to cover the increased costs. Tenants move on. And in this current market, rental rates have actually decreased or vacancy remains high for the landlords. Thus, a consideration to own an investment in Hawaii real estate with all the additional cost adding even more to the "negative cash flow" becomes something that means not helping our local economy.

2. **LAND VALUE IS HIGH IN HAWAII** Assessed valuation (plays a large part on the value of the LAND - which is precious in Hawaii) so it does not mean that the house is a "mansion" or even a high end type of dwelling so the rental market does not adjust to cover the increased costs charged to the landlord. Please be aware that the definition of an investor for these homes could be the desire to just keep your grandma's home in the family although your current needs may not allow you to occupy it at this time. Thus, the "investor" that must pay the proposed surcharge may become a burden too high for the local family to bear besides paying the standard maintenance costs to take care of the real estate investment thus ending the dream of possibly returning back home at a later date.

3. **ADDING TO MORE COSTS** Many also have mortgages, additional insurance costs, association dues, maintenance fees, special assessments for overall capital improvements due to age of the project such as spalling repair, lanai railing, plumbing repairs, elevator upgrades and fire prevention measures besides just general wear and tear necessary for occupancy of the rental. So, additional surcharges may just make one want to invest elsewhere or in other investment options which will not necessarily benefit the local economy.

4. **GOALS OF A HOMEOWNER** One of the goals of becoming a new first time homeowner is to invest in real estate with the hopes of building equity and learning how to budget and plan as a proud homeowner. That is how clients get started in real estate investing in Hawaii. The next goal is the desire to invest in another place for your growing family and if it is possible, the desire to keep your first home as an investment was something strongly recommended because it could be a little revenue stream or a place for your nephew or nieces to rent as they attend their nearby college until your own children may attend, too. Or if at the time later in life, maybe selling the first investment becomes the best option to pay their education costs, too. So, yes although the proposed surcharge may not currently affect the value of this initial investment property, it could in the future. However, as with any newly created law or fund, once started, it unfortunately has a tendency to morph into a completely different animal over time. Thus, whenever there is a modification made to the existing laws, just having the issue "open up"
brings opportunities for undesired consequences a lot easier in the future. There currently is no limit set on the proposed surcharge and already the MINIMUM VALUE was reduced to HALF of what was proposed last year.

5. REAL ESTATE INVESTORS ARE MORE THAN OFF SHORE OWNERS The real estate investor image in Hawaii is not only the so-called rich foreign investor who wants to take advantage of the local folks as portrayed or implied whenever we see the changes made to discriminate on properties that don't qualify to have a homeowner's exemption. We already take into consideration to benefit those who are owner occupants with the exemption so the non-owner occupant should need to just pay "regular" since there are calculations already based on valuation and not a flat fee so there should not be an additional substantial increase or surcharge added in additionally. It would appear that the ultimate goal is to discourage real estate investment in Hawaii.

6. REAL ESTATE INVESTMENT IN HAWAII IS IMPORTANT As REALTORS who believe in the value of an investment into Hawaii real estate, besides recommending it for our clients, we also in turn have that desire to invest in Hawaii real estate. As independent business "owners" - we are our own employer. Thus, all of our expenses to live daily, we don't have paid vacation days, holidays or sick days and family leave time. We do participate in the local economy and are effective in the community through many of our voluntary efforts or donations to the local charities is a cost for each of us to bear individually. Being our own employer means that we are our own retirement system. So, yes, we may also fit into the definition of the Hawaii real estate investor and that is to hopefully have our investment bring us the monthly cash flow through rental income for our retirement years. It takes a long time to get to the stage of a "positive" cash flow because we did not acquire the real estate investment at no cost. As to rental income, it is what the market bears and not what we need to pay out. Our real estate investments are a part of our long term goals of being able to live in Hawaii, too. As costs unfairly exceed the potential for any return, it will become not a recommended investment in Hawaii real estate for our clients and ourselves.

Just want to share "another side" to the story. Please find another way to help us all help us all. I will be more to happy to meet and discuss this matter with you or answer any questions that you or the legislators may have regarding this issue of concern. Thank you so much for your time.

Sincerely,

Patti Ann Hokama, President
Principal Broker RB#15958
(808) 291-2568

1314 South King Street Suite 753, Honolulu, HI 96814
Dear Chair Woodson, Vice Chair Kong, and Members of the Committee,

The Maui Hotel & Lodging Association (MHLA) is the legislative arm of the visitor industry. Our membership includes 185 property and allied business members in Maui County – all of whom have an interest in the visitor industry. Collectively, MHLA’s membership employs over 25,000 residents and represents over 19,000 rooms. The visitor industry is the economic driver for Maui County. We are the largest employer of residents on the Island - directly employing approximately 40% of all residents (indirectly, the percentage increases to 75%).

MHLA opposes SB2922 SD1, which proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on visitor accommodations and on residential investment property.

Keeping our costs level is critical to our ability to compete against other sun destinations, especially now when we are seeing an increased amount of competition with new resort locations and other destinations’ deeply discounted air/hotel packages. Last August, the Legislature raised the TAT, to the point where guests now pay a TAT of 10.25 percent. Coupled with the general excise tax, guests pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on O'ahu. Hawai‘i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, in both the domestic and international markets.

Tourism continues to be the largest single source of private capital for our economy. Recent reports have noted that (a) tourism accounted for 204,000 jobs; (b) visitor spending last year totaled $16.8 billion, a new high; and (c) the state’s tax take was $1.96 billion. Of that sum, TAT revenues alone generated nearly $508 million for the state’s coffers last fiscal year. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended.

We would conclude that public education may already be receiving a share of TAT revenue through its general fund budget allocations.

Testimony of
Lisa H. Paulson
Executive Director
Maui Hotel & Lodging Association

on

PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION.
Maui Hotel & Lodging Association is opposed to raising taxes and leveraging extra fees on the visitor industry.

Thank you for the opportunity to testify.
April 4, 2018

Representative Sam Kong, Vice-Chair Education Committee  
Members of the House Education Committee

FR: AMERICAN RESORT DEVELOPMENT ASSOCIATION (ARDA) -HAWAII,  
Blake Oshiro, Executive Director

RE: SENATE BILL 2922 PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION – OPPOSE

Dear Chair Woodson, Vice-Chair Kong and Members of the Education Committee:

Thank you for the opportunity to testify on the proposed Constitutional Amendment. On behalf of the American Resort Development Association (ARDA) Hawaii, the time share association, we respectfully oppose this bill.

While the discussion and policy decisions about the proper level of funding for public education is an important one that has been ongoing for several years, the approach taken in this bill seeks to have just two sectors of the economy bear that burden, one of which being the visitor accommodations. We believe this is an unfair targeting of one type of property owners and property users being taxed. While this does not mean ARDA-Hawaii necessarily supports a broad-based tax increase, we believe that would be a much more reasonable policy discussion for the entire general public to engage in. Moreover, these proposals single-out these areas to have them pay these fees for services and programs which do not have a direct nexus to the surcharge that is sought to be imposed. Finally, the transient accommodations tax was just recently raised in this fall in the special session in order to fund the Honolulu Rail Project, as such, we do not believe that adding additional tax increases so soon and quickly is prudent as it places an undue burden on these sectors.

Our tourism industry remains the number #1 economic driver. Unfortunately, our other important economic driver, the military support and spending, is also tenuous and uncertain due to changes at the federal level in the past few years including sequestration, no longer allowing specific appropriation or "pork-barrel" projects, and loss of congressional seniority, along with an uncertain and yet to be determined approach by the new federal Administration. As such, additional targeted fees or taxes on our visitor accommodations has the potential to drag down our tourism market momentum and inhibit Hawaii’s continued cost-competitiveness as a sought-after tropical destination.

It is for these reasons that ARDA-Hawaii must respectfully oppose this bill. Thank you for the opportunity to testify.

Representative Justin Woodson, Chair
Representative Sam Kong, Vice Chair
House Committee on Education
Hawaii State Legislature

Dear Representative Woodson, Representative Kong and Members of the House Committee on Education,

Testimony in Opposition to SB2922 SD1

The Kohala Coast Resort Association (KCRA) strongly opposes SB2922 SD1, which proposes amendments to the Constitution of the State of Hawaii fund education by creating a surcharge on visitor accommodations and on residential investment property.

While we appreciate that the Hawaii State Legislature is trying to address educational needs, we do not believe that another tax on an industry already paying a disproportionately larger share of the state’s taxes overall, is the solution. If you wish to support education, please use the Transient Accommodations Taxes (TAT) that are already going into the state’s general fund. From 2007 to 2017, the amount of TAT in the state’s general fund grew from $7.8 million to $330 million. If additional resources are needed to address important maintenance and education goals, then they should come out of the state’s 60% share of the TAT.

KCRA is a collection of master-planned resorts and hotels situated north of the airport which represents more than 3,500 hotel accommodations and an equal number of resort residential units. This is approximately 35 percent of the accommodations available on the Island of Hawaii. KCRA member properties annually pay more than $20 million in TAT and $20 million in GET.

We strongly encourage your opposition to this measure.

Sincerely,

Stephanie Donoho
Administrative Director
Kenneth R. Conklin, Ph.D.

1. The public school system is a core responsibility of the State of Hawaii, and therefore it is funded by ordinary appropriations. The honest way to get more money for the schools is to simply increase the income tax rates, not to assess a surcharge or hold a car wash or bake sale.

2. State taxes are already too high. If you wish to place higher priority on the schools, then you must find a way to cut some other part of the government that has a lower priority. I recommend you repeal the statute that requires paying OHA 20% of ceded land revenue, so you can then send 100% of ceded land revenue directly to the public schools, as was done before the 1978 con-con invented OHA.
I am writing this testimony in staunch opposition to SB2922. This bill is highly discriminatory because it targets only one small segment of the population to solve a problem that is the entire population’s responsibility.

Properly funding education is an important task, but this bill is the wrong way to go about it. Any necessary increase in funds should come from the general fund with taxes that are collected from the entire population in Hawaii, including visitors. A modest increase in the income tax, GET and/or TAT would be a fairer and more effective way to accomplish this goal.

Targeting investors only will have a negative impact on many local residents. In my case, I would be forced to sell a property that has been in my family for more than 100 years. I am sure that many local families will be similarly affected.

Another bad thing about this bill is the lack of constraints on the rate of the proposed property tax surcharge. In future years it could go much higher and the threshold at which it is imposed could go much lower. There is no limit on what future legislatures might do if the constitution is amended to allow this surcharge.

Lastly, any increased funding should be preceded by an audit of the DOE to insure it is operating at maximum efficiency with minimal waste, something that is not addressed in this bill.
For these reasons, I urge the legislature to reject this bill and find a fairer method to properly fund education in Hawaii.

Aloha,

Geoffrey Avery

Comments:

Ka Ohana O Na Pua is a 501-c3 on Hawaii Island that started in 1994, and whose mission is agricultural education Keiki to Kupuna. We feel very strongly about adequate funding for teachers, programs, materials, and opportunities for our keiki. We work with many schools that are struggling to find funding to build their school garden and pay a 1/2 time teacher. These kind of programs connect our keiki with life long healthy eating habits, knowledge of their local environment, and food system, yet there is never enough funding, as schools first must pay teachers and support staff. While we recognize that we are a small state, our per pupil funding is low compared with other states. If we want quality educational programs for our keiki and youth, we must step up to the plate and invest in our educators and educational system, and not cut Principals's budgets each year forcing our educators to fund classroom materials and programs out of their own pockets. Comments:

I oppose this measure which proposes amendments to the Constitution of the State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations. I concur with the reasons stated in testimony submitted by Council Chair Mike White.

Again, I oppose this measure.
Aloha Chair and Committee Members,

My name is Barbara Barry. I am a concerned citizen in Maui County. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because investing in our public schools is an investment in our society/future.

To deliver the schools our keiki deserve, please support this bill.

Personally, I'd like to see Hawaii legalize cannabis and use that revenue to create working class wages for our teachers and help Hawaii become the best schools in the county! Colorado and other states are leading the way!

We need your help.

Mahalo.

Chair Woodson and Members of the Committee:

My name is Aurene Padilla and I am a twenty-year veteran of the Hawaii Department of Education. I currently serve as the Induction and Mentoring Program coordinator for Central District, Leilehua, Mililani, Waialua complexes. In addition, I am the mother of a 6th grader currently attending Mililani Middle School. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

I am a proud public school teacher and parent. I strongly believe that public education is the key to a prosperous democracy. Through public education our keiki are able to fulfill their dreams an ensure that we are all able to live Aloha in our beautiful state.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We desperately need additional funding for our public schools to ensure that our keiki receive the best education. The lack of funding has meant many things to my family. As a single mother of two children, low pay means that I have had to take on additional jobs to support my family. I have taught summer school every year to supplement my income and have held part-time jobs as well. Having to work two jobs takes me away from raising my family as well as from committing my energy to my primary position with the Department of Education. Unfortunately I am not alone in this predicament. Many of the beginning teachers that I Mentor tutor after school, teach summer school, and work afternoons and on weekends to supplement their low pay. This leaves our teaching force tired, stressed, and distracted and many choose to leave the profession because of this.

However, teacher salary is not the only area that could use more funding. Our classrooms need make-overs, more educational resources, and air conditioning. Many important programs are not funded, teachers who take on additional responsibilities like mentoring should be adequately compensated. Teachers are very resilient and creative
people. I know many that have taken this lack of funding issue to cause, applying for grants and other sources of monies to give their students the best education possible.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

RE: SUPPORT FOR SB 2922, SD1 RELATING TO EDUCATION

Aloha Chair Woodson and Members of the Committee,

This committee has shown a deep understanding of the issues that have been raised by HSTA over the past three years with regards to the issue of funding of our public school. While it had been normalized and erased in public discourse for decades, for historical and political reasons, that fact that we are starving our public schools is incontrovertible. And the effects are evident everywhere, from our teacher shortage crisis to our crumbling facilities. While this long-term austerity program was written into our state constitution by Big Five plantation owners who did not want their property taxes to pay for the education of the children of plantation workers, we have the power to change this structure to create the public school system that our children deserve. The provision of public education is a state power and the state must have the means - property tax - to fulfill its responsibility. Please support this measure, which will simply let the people decide if the Hawaii State Constitution should be amended to allow very valuable non-owner occupied properties and visitor accommodations to be taxed to support our public schools. Let's spend our policy-making energy trying to figure out how to serve working families in Hawaii - and pursuing the common good.

Sincerely,
Dr. Amy Perruso
Establish a surcharge on visitor accommodations and on residential investment property.

I support increased funding for HIDOE. These surcharges may seem outrageous; however, no one is offering another method to increase the funding for Education in Hawaii. Surcharges are the easy fix. However, there will come a time when Hawaii can't expect the public, visitors, whoever to support surcharges.

That is why, I support this bill, but I also support some sort of Hawaii think tank to look at the long-term funding for HIDOE.

I hold the new superintendent accountable for this legislative session. Yes, she is offering a lot of testimony. I do not know if she has testified in person. Having said that, I will continue to hold her accountable regardless of the learning curve.

Once again, our new superintendent disappoints the State. Below is her testimony. Why defer to the Department of Taxation and the Department of Budget and Finance for implementation and fiscal impact analysis? DELAY DELAY DELAY. Either you WANT funding for our schools or you DON'T. There is no reason to DEFER.

Teachers, students, facilities, all facets of our HIDOE need funding. What she doesn't understand is that this isn't a NEW PROBLEM.

As for fiscal impact, we do NOT need an analysis. As for implementation, we already know that the HIDOE will not be the implementor. THE HIDOE is the CUSTOMER. They are supplying HIDOE with a service, that will be funded.

Again, our superintendent needs to JUST SUPPORT without all the other detail that is basically known by all.

In 8 months, the superintendent needs to be familiar with all the intricate processes and the system of our HIDOE.

Our new superintendent says,

The Department of Education supports the intent of this measure, yet respectfully defers to the Department of Taxation and the Department of Budget and Finance for implementation and fiscal impact analysis. The Department has made every effort to wisely spend appropriations provided.

However, funding has not kept pace with 2008 levels of state fiscal support, adjusted for inflation as measured by the Consumer Price Index.

Education is a key investment in the state’s economic development and an investment in its local employee base capacity for all Hawaii industries. A funding increase will provide adequate student funding and teacher pay to support an equitable high quality instructional system with respectful 21st century learning environments through quality facilities.

================================================================================

In her next Superintendent’s Update, she says, “A prominent focus for me is Special Education and English Learners so we can close the achievement gap for these student groups.” Of course, you have that as a focus, you are being measured by the progress made on “the gap” under your tutelage.

The State and HIDOE expects nothing less from you than complete SUPPORT.
Chair Woodson and Committee,

It’s time to pass this bill. Let the people decide! Our schools are struggling. How do I know? I’ve been teaching at Waiakea High School for 13 years, and what teachers are being asked to do is getting more and more difficult considering the neglect and lack of political will to truly invest in our children's futures.

The time has come. Do the right thing. Pass this measure today!

Mireille Ellsworth,

Comments:
I'm Debbie Anderson, currently Librarian at Waiakea Intermediate School in Hilo on Hawaii Island. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct students, we build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but also for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is for lower class sizes to allow teachers to connect better with students, whole child education which includes the arts and Hawaiian studies, providing professional pay that reflects the value of our hardworking teachers and more adequate resources and services for students with special needs.

We need additional funding for our public schools, because the current Weighted Student Formula (WSF) skews dollars toward larger schools while smaller rural or remote schools struggle to provide foundational funding. While 98% of Windward public schools have a school librarian, fewer than 30% of Big Island school children have access to a school librarian. To be literate, career and college ready with common core research skills, our learners need more equitable access to resources.

With the significant value of property in Hawaii, we can no longer afford to be the only state not tapping into property taxes to underpin equitable education funding.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Debbie Anderson, Hawaii
Position: SUPPORT SB 2922

Chair Woodson, Vice Chair Kong and, Members of the Committee:

My name is Kendrick Farm. I am a community stakeholder on the Island of Oahu. I am submitting testimony in support of SB 2922 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

With reference to cost analysis in the 1950s onward it was determined that for every dollar invested into education there was a seven dollar return to the coffers of the federal government. Likewise, the State of Hawai‘i should reflect of that historical performance and see if we would be able to replicate that in our own economy with untapped resources for the common benefit.
We need additional funding for our public schools, low pay and a lack of resources are driving teachers in your schools out of the profession, how teachers have (at times) to hold second and third jobs when they should be able to concentrate on their students, etc., how investing in our public schools is an investment in our society/future.

To deliver the schools our keiki deserve, please support this bill.

Mahalo,

Ken Farm

Member-At-Large
Neighborhood Board No. 15
Kalihi-Palma
Chair Woodson and Members of the Committee:

My name is Charlotte Godfrey-Romo]. I have been a secondary science teacher on Big Island for eight years but this will probably be my last. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

I love teaching science but the infrastructure of the schools is deteriorating, the buildings as well as the quality of standards for behavior and support for teachers and students. Class size matters! I like to do hands on labs and activities but I am not given the budget to provide enough supplies for so many groups. Larger group sizes means students don’t get to experience the hands on part and they are not as engaged and sometimes this leads to behavior problems. For 5 years I taught 3 grade levels (up to 6 preps!) and was given a budget of $250 per year! That is not even enough to buy the consumable products needed for labs! I wrote grants to get supplies, but all that was on my own time, during weekends, etc. This is not a fair practice. Teachers should also be given prep time to plan and grade so that they don’t have to work on their own time. This could be accomplished with lower class sizes and more teachers. Students need more services such as counselors, behavior therapists for anger management and P.E. teachers (instead of making the core teachers teach something they are not familiar with).

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because the community needs schools to be places where kids feel safe.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.
Charlotte Godfrey-Romo, Hawai’i Island
Chair Woodson, Vice Chair Satoru Kong and Members of the Committee:

The future of our State, the Country and the World is in the hands of the next generations attending schools, and their education and proper preparation to meet the challenges of the world is in the hands of teachers.

It is imperative that we provide teachers with all the proper tools and resources to allow them to do their job properly. In my opinion, teachers should be one of the most valuable professionals in every country.

My wife is a science middle school teacher and I have seen her burn out due to lack of support and funding.

Please provide them the support they need.

Mahalo for the opportunity to addressing the committee.

Comments:
Aloha Honorable Chair Kidani and members of the Education Committee,

My name is John Fitzpatrick, a teacher at Kihei Charter School on the island of Maui. I am also a member of the HSTA government relations committee and we are fighting for schools our keiki deserve.

I am writing in strong support of SB 2922 and the democratic process. I believe we should allow the people of Hawaii the opportunity this November to vote on a constitutional amendment that would allow the state of Hawaii to charge a property tax surcharge on investment properties of One Million Dollars or more in order to add additional funding to our public education system that currently ranks among the lowest in the Nation in many statistics.

Currently our property tax rates are among the lowest in the nation and do not contribute to our education system like other places in the world. In addition a majority of investment properties are owned by non-Hawaii residence which pay no income tax here in Hawaii and do not contribute to our roads, hospitals, and schools. It is time to ask those that can afford million dollar investment properties and vacation homes to help pay for the schools our keiki deserve and invest in the next seven generations.

Investing in our education system and giving our students the opportunity to a first class education is vital for our students to face the job market that is developing. We would be able to provide small class sizes that allow teachers to be more personable with students, invest in STEAM education, improve Hawaiian studies and Hawaiian language education, take care of our students with special needs, and have competitive pay for hard working teachers so we no longer have a 1100 teacher shortage here in the state of Hawaii.

As an educator, I hold two additional jobs as a captain in order to be able to make a decent salary for my family and to qualify to buy an “affordable housing apartment.” Many teachers including myself put in many hours at home grading papers and preparing for class. At our institute day nearly a year ago we asked teachers to raise their hands if they hold second jobs in order to support their family and a majority of teachers raised their hands. I am not alone! This obviously takes away from a teachers ability to attend to their families and concentrate on their students.
It is time we start funding a 21st century education system because the return on investment in our public education system yields exponential returns that will advance our society.

I look forward to working with you and all of our legislators to pass this common sense constitutional amendment that will help us adequately fund our schools and improve our education system.

Mahalo,
John Fitzpatrick “Fitz”

HSTA Government Relations Committee
Kihei Charter School Athletic Director and Science Teacher
Chair Woodson and Members of the Committee:

My name is Marybeth Baldwin. I am a teacher at University Laboratory School, a charter school on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

Thank you for your support of Hawai’i’s students and teachers.
Comments:

My name is Christine Russo. I am a Science teacher at James Campbell High School in Ewa Beach and I am submitting testimony in support of SB 2922 to increase funding for public schools. I am appaled that Hawaii's education expenditures, as a share of combined state and local government expenditures, is 27.3 per cent and ranks lowest in the nation! As an educator, we must prepare students to take on the challenges of an ever-changing world as well as create graduates who can compete in a global economy. How can Hawaii graduates compete with those from the mainland or abroad when we invest so little in their education? Not only is the lack in funding affecting students in hidden ways like students lacking a competitive edge, but it is affecting them in more conspicuous ways as well. It is painfully obvious that Hawaii schools are deteriorating. The infrastructure lacks basic accommodations such as air conditioning, auditoriums, athletic facilities, and inviting learning spaces. Additionally, Hawaii schools have safety and security flaws in regard to facilities as well as procedures & training. Schools have open campuses that are completely accessible to intruders that go largely unmonitored. Furthermore, staff/student notification systems are not clear nor easily heard and school security staffing is insufficient. Finally, DOE staff receives minimal safety training. At the beginning of the year staff is required to watch a handful of safety videos on bloodborne pathogens, fire extinguisher usage, and tsunami evacuation but that is basically the extent of our safety training yet we have the lives of Hawaii's children in our hands. As teachers, if we simply showed videos to our students and then expected them to know the content, we would be considered ineffective. For something as crucial as student safety, teachers should be well trained and well educated on how to keep kids safe.

Other ways lack of funding puts Hawaii schools far behind school districts in the mainland is our lack of investment in student well-being. We need to fund programs that educate staff and students on suicide prevention, bullying, and violence prevention. We also need to educate the whole child through art, music, and Hawaiian cultural programs. Finally, we need funding to support genuine teacher retention efforts. Going to the mainland and recruiting teachers to work here is a short-term fix. Teachers brought in from the mainland usually do not stay in Hawaii due to cost of living, culture shock, and missing home. We need to increase teacher salaries to increase retention and we need to incentivize HAWAII residents to teach--those who will likely stay in Hawaii and commit to teaching Hawaii’s keiki. Without funding, we will continue to have teacher shortages and student education will suffer. Currently, there are a huge number
of longterm subs filling in for teachers. If students are continuously in the classroom with longterm subs, the state's commitment to educate students is being broken because subs are not teachers, and they are likely not educated in the content students are supposed to be learning. I appreciate your time and I thank you for your support! Please pass SB2922.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3:00 p.m.

Chair Woodson and Members of the Committee:

My name is Anthony McCurdy. I am a Special Education teacher at James Campbell High School in the Leeward District on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because so many of our teachers, both new and experienced, need to work second jobs just to make ends meet. We need additional funding for our public schools, because so many of our students face inconsistency and disruption in the classroom when we can't find enough teachers to meet the needs in our schools. We need additional funding for our public schools, because having a competitive salary for teachers may help prevent the brain drain we experience in the state and we can help our own keiki become teachers in their communities.

To deliver the schools our keiki deserve, please support this bill.
We need your help. Mahalo.

Anthony McCurdy, Leeward District, 42nd/20th Legislative Districts, Oahu
Chair Woodson and Members of the Committee:

I strongly urge the House Education Committee to support SB 2922 SD1 to address and correct the perennial underfunding of public education in Hawai‘i.

The children of Hawai‘i are our greatest treasure. They are not only our future; as we have seen on the national stage in recent weeks, they lead where their predecessors (we!) may fear to tread. When we teachers instruct our students, we do more than just prepare them for college or career; we also build their capacity as change makers both now and going forward. Every dollar invested in our community’s public schools yields exponential returns not just for our economy, but for the promise of a more open and democratic society.

This year I applied for a $250,000 Hawai‘i Innovation Fund grant to create a space on our campus where students, staff, whole classes have access to “STEM” tools—computer-aided design workstations, 3D printers and computer controlled routers and mills, laser cutters, electronic workbenches and programming workstations, teleconference and remote collaboration facilities—all the things that make a MakerSpace a place where people apply design thinking to the creative process within diverse disciplines and interests. Such a space—something like a library annex—empowers people to make webs of connections among their studies, their interests, and their lives. My argument was and is that such opportunities should not be the sole prerogative of ‘Iolani students, and I am doing what is in my power to bring those opportunities to Baldwin.

Although we did not receive the grant, I follow the lead of the kids of #BlackLivesMatter and #NeverAgain; I am not giving up—rather I am strategizing ways to make this dream come true for future BHS students—but if schools were better funded this would be less of a lift. If a proposed room in which to build such a facility did not require $150,000 (or more) in renovation including air conditioning and even insect barriers, if there weren’t so many other more pressing demands on the extremely limited resources with which schools must do everything, if I did not have to split my attention between my teaching vocation and the side job that helps pay the bills, this dream could come true. But until schools are much better funded than they are now, it is difficult to make such dreams a reality.

Supporting SB2922 SD1 will lift Hawai‘i’s schools from the 19th to the 21st century (or at least the late 20th). A vote for this measure is a vote for:
• Lower class sizes that allow teachers to connect with their students
• Whole child education that includes the arts and Hawaiian studies
• Resources and services for students with special needs
• Professional pay that reflects the value of our hardworking teachers
• True innovation that seeks new solutions to the multifaceted challenges our keiki face

We need additional funding for our public schools, because our public school students right now:
• Look at their peers attending private schools and wonder why private school students get better and broader opportunities than do they
• See their choices of enrichment ("elective") courses like music, dance, theatre, Hawaiian studies, and vocational studies increasingly curtailed
• Try to learn in crumbling, sweltering classrooms, poorly equipped and with sharply limited resources
• Try to learn from teachers who are working multiple jobs and burning the candle at both ends is so they can remain in the classroom

To deliver the schools our keiki deserve—to redeem the dreams our keiki dream—please support this bill.

We need your help. Mahalo.

David Negaard,Baldwin-Kekaulike-Maui District, Maui
Education is the base of society. After family, schools are the institution that provides this. Where families stop schools begin. We need dollars to fund programs, purchase materials and facilities, and retain educators. Please grant the proper funding so our society in Hawaii can remain vibrant. Mahalo.

Mark Alfred Kawika Fontaine
Please step up and vote to finally put in place a reliable source of funding for our schools. This is a golden opportunity to move us in the right direction. Please lead the way. I teach a Kalahea HS and we NEED your help. Mahalo!!!!

Sent from my iPhone
Testimony for Senate Education Committee
Re: SB 2922 SD 1 - RELATING TO EDUCATION
Hearing on Wednesday, April 4, 2018
3:00pm

Chair Woodson and Members of the Committee:

I am Andy Jones, a teacher at Radford High School. I have been at Radford for eleven years; previously I taught English as a Foreign Language in Taiwan 1993-2006. I am writing to ask that you please pass SB 2922 to increase funding for public schools.

Valid arguments for increased school funding are legion. The following are among the most exigent:

1. **Teacher retention and recruitment.** When cost of living is taken into account, the average public school teacher in Hawaii earns about $10,000 less per year than the next lowest-paying American states for teachers. That is to say, it is not just that we are ranked last, but that there is in addition a significant gap between Hawaii teacher salaries and salaries in the other low-paying states. For many teachers, this gap spells non-affordability. This is the primary reason why the average Hi teacher spends fewer than five years in the classroom, and why we have the nation’s most serious teacher shortage overall. Students suffer individually and collectively when too many of their teachers are inexperienced or under-qualified, or when the doors to their classroom are constantly revolving. I believe that improving teacher retention and recruitment is beyond question the single most effective way of improving public education in our state.

2. **Unfavorable teacher to student ratios.** Teachers throughout the state are overburdened with too many students. Last year at my high school, one of my first-year Language Arts colleagues had over 210 students distributed among his six classes. That’s almost 40 students per class. Not only are 40 students per class far too many for effective teaching and learning; the sheer number of students that this teacher was responsible for seriously limited how much time he could spend devoting important individualized attention to particular students. In short, not only do teachers need to be paid more in order for them to stay beyond five years; more teachers need to be hired in order to effect more favorable teacher to student ratios.

3. **Teachers need more preparation time.** This third point is inextricably woven with the second point. The annual information gathered by the Organization for Economic Cooperation and Development (OECD) provides substantial evidence that, of approximately three dozen nations that participate in the extensive reports on education, teachers in the United States are the second-most overworked teachers in the world after Chile, spending an approximate 1100 hours in front of students per year in comparison to the international average of around 600. Most American teachers experience significant challenges in implementing educational “best practices” because they are given so little non-teaching time to developing the highest quality curriculum, instruction and assessment. Public education in Hawaii as in the rest of the United States is unlikely to improve significantly until efforts are made to decrease the number of
students teachers are responsible for each year and to build more non-teaching time into the teacher work day. Once again, this will require hiring far more teachers than we currently have.

A few final words about myself. I am currently 52 years of age, and I have been teaching since my 20s. I began my career teaching English to Chinese speakers in Taiwan for a dozen years. Since returning to the United States, I have centered my career on Advanced Placement. I teach the two AP English courses (AP Language and AP Literature), as well as AP Psychology. I am also an official AP Reader for the College Board, spending a week each year on the mainland scoring AP Language essays coming in from around the world.

I believe that, by all accounts, I am an excellent teacher. In addition to my wealth of AP experience and my quarter-century’s commitment to studying and implementing the best and most current pedagogical practices in my classroom, I bring to my teaching at Radford a degree of knowledge pertaining to my teaching area (and to various subsidiary areas helpful in high school Language Arts teaching, including the arts, philosophy, world history, and Asian and European languages) that is seldom matched among high school teachers in the United States.

In short, I am the sort of teacher that fills classrooms in top-performing educational cultures from Singapore to Finland, and the sort of teacher that has always been a rarity and is now becoming even more scarce in the United States, as fewer of the academically brightest and most ambitious students pursue college paths in education, opting instead for occupations that are both more financially attractive and less subject to the ups and downs characteristic of an profession which is so constantly subject to the arbitrary decisions of non-professionals as public education. To be sure, despite the fact that I love what I do to earn a living and have no desire at this point in my life to do anything else, I have a very hard time recommending to the many academically gifted and advanced students I work with each year that they pursue a profession in which, three and a half decades later, they may still find themselves working seven days a week as I do, and – if they end up teaching in Hawaii – struggling with chronic credit card debt to meet mortgage payments and college bills for their own children, as I do, together with my wife, who also teaches.

To attract teachers like me in the coming generation, and to deliver the schools that our keiki deserve, I ask you to please support this bill.

Mahalo.

Andy Jones
Language Arts teacher
Radford High School
Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.
Aloha Chair **Woodson** and Members of the Committee:

My name is Jenny Nomura. I am a librarian at Aiea Intermediate School in Central District on Oahu and also a secretary for the education caucus. I am submitting testimony in support of SB 2922 to increase funding for public schools.

Our children will be our future leaders and they deserve the best education possible to be prepared for this job. In order for them to become life-long learners they need to connect with their teachers in smaller class sizes. Teachers need resources (both teaching materials and people such as librarians) through adequate funding to help with enough building blocks for our kids to function at their best ability. In order to keep our children interested in furthering their education our schools need to have a whole child education approach that includes the arts, music and Hawaiian studies.

We need dedicated teachers who are paid enough money which is the key to teacher retention. I know many beginning teachers who have to work at a restaurant at night in order to afford a place to live. Small schools like ours, don’t have enough money to retain support staff. My position is being eliminated next year so I will retire in June. It is the children who will suffer the consequences.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Jenny Nomura, Education Caucus Secretary
District 36, Oahu  Senate District 22
Comments:

Aloha Education Committee,

I'm a mother of a 3- and 5-year-old in Kauai. I'm very pleased that this extremely important issue is still alive in legislation. I hope you support this bill to allow voters to choose if this is a priority for them to fund our children's education. I can guarantee that it will get the support that it needs from the general public if it were to get on the ballot.

State-wide teacher strikes are happening on the mainland and we can prepare now so that it doesn't happen in Hawaii. The state of education is very somber. We are all aware that teachers are not paid a livable wage, and it's one thing to work a second job (many of us do). BUT if my children are going to spend all day with a person who's stressed out, overworked, and cannot possibly be their best self, that would worry me. And that is exactly what is happening at the moment in Hawaii.

We are the only state in the country that doesn't allocate a single penny of property tax to fund education. We should treat our educators and keiki with the respect they deserve to a quality and complete education system.

Thank you for considering my testimony and supporting this bill.

Mahalo,

Jade Moss

Aloha Chair Woodson and Members of the Education Committee,

RE: Senate Bill 2922 SD1

Wednesday, April 4, 2018
3:00 p.m.

My name is Claire Gearen, and I am a career public school educator. I write in support of Senate Bill 2922 SD1. I submitted testimony in the 2017 legislative session regarding Senate Bills 683 and 686 and on House Bills 180 and 182. I stand by my reasons for requesting a constitutional amendment be put before Hawai‘i citizens to allow a vote on this proposed new revenue stream for public education in Hawai‘i. I would also like to add more information in support of seeking additional revenue streams for public education.

2017 marked my tenth year teaching in the Hawai‘i public schools. That year I made 72% of what I would have earned in Seattle, Washington or Encinitas, California, and 81% of what I would have earned in Portland, Oregon. There is a simple reason for this; the Hawai‘i State Teachers Association (HSTA) must negotiate all step increases for teachers, and in my first ten years, there were only two step increases. While most public employees in Hawai‘i make less than the national average in their field when adjusted for cost of living, there is still a great disparity between teaching and other public sector occupations in the state. In Civil Beat’s Community Voices, Professor Lawrence Boyd explains that police officers in Hawai‘i earn a mean salary of $70,060 and firefighters a mean salary of $56,470. Adjusted for cost of living, these would become $59,782 and $48,347 respectively, or $3008 and $2172 below the national median (data from 2016). In Hawai‘i, our recent joint salary study revealed that a mid-career teacher earns between $15,000 to $26,000 less per year than in comparable districts before adjusting for cost of living. What is especially troubling is that fully two thirds of HSTA members are women, so that if we examined all public employee salaries as one category rather than distinct occupations we would likely find a large gender gap in pay for public sector workers in this state. Correcting the inadequate pay structure for career educators would require additional revenue for education.
If a new investment property surcharge is not the right future for Hawai‘i, citizens may vote against the amendment. Please ensure we all have the opportunity to decide this important question.

Thank you,

Claire Gearen
Mililani High School
Dear Hawaii Legislators,

I am a retired teacher from California now teaching in Hawaii. I LOVE teaching here!😊😍😘
However...if you want great teachers to come to Hawaii and stay...you need to pay them more.

A lot more!

Thank you,

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3 p.m.

Chair Woodson and Members of the Committee:

My name is Evette Tampos. I am a school counselor at Pahoa Elementary School in the Kea`au/Ka`u/Pahoa District on Big Island of Hawai`i. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

We need additional funding for our public schools because Pahoa Elementary is now 75 years old and does not have it's own cafeteria or covered playcourt. Our students have to trudge through many a slippery, muddy, mossy sidewalk and/or playground to access their lessons, meals and play time. Our portable/permanent buildings are over 75 years old and in need of electrical updating and heat abatement instruments more than a ceiling fan.

Other examples of our needs include but are not limited to:
* Teachers low pay and a lack of resources are driving teachers in our schools out of the profession.
* How teachers have to hold second and third jobs when they should be able to concentrate on their students instead of rushing off to second jobs, etc.

To deliver the schools our keiki deserve, please support SB 2922 SD1 RELATING TO EDUCATION

Supporting this proposal will lift Hawai`i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.
We need your help. Mahalo.

Evette Tampos, Pahoa Elementary School Counselor, KKP/ Hawaiʻi District/ Big Island
Chair Woodson and Members of the Committee:

My name is Heather Kimball. I am a parent of two public school students at Haaheo and Hilo Intermediate on Hawaii Island. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, to help us recruit and retain qualified teachers, reduce class sizes and ensure our classrooms are safe and healthy learning environments.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Heather Kimball, Hawaii Island
TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3:00 p.m.

Chair Woodson and Members of the Committee:

Please accept this testimony in strong support of SB 2922 SD1 to increase funding for public schools.

Having served at the County Council level of government for over 8 years, I am keenly familiar with the property tax structure as mechanism to increase funding. I can say with certainty that SB2922 SD1 if implemented into law will not adversely impact the counties. Our schools are severely underfunded, no other proposal has been offered to resolve the issue and SB2922 SD1 represents a solid path forward toward the goal we all share -

Unfortunately I am unable to attend the meeting in person but am offering without reservations my strongest support for this measure.

Thank you.
Gary Hooser
808-652-4279
Testimony for: House Education Committee  
SB 2922 - RELATING TO EDUCATION  
Wednesday, April 4th, 2018 3:00 PM

Aloha Chair Woodson and Members of the Committee,

My name is Michal Nowicki and I am a teacher at the University Laboratory School in Honolulu. I have been teaching in Hawaii Public Schools for 10 years. I am writing in support of SB 2922 and I strongly urge the legislators to increase funding for public schools.

Hawaii’s public schools have ranked at the bottom of our nation’s schools for too long. Our children deserve better opportunities and facilities. They deserve a teacher in every classroom. The state entrusts teachers with care for our youth, yet, year after year, has fallen short in supporting us in our profession.

I and many teachers have made a considerable effort over the course of a number of years to share our concerns with the Department of Education, the Board of Education, and our legislators. To date, very little meaningful action has been taken to avert a dangerous course on which we have stayed for far too long. We always hear that it is complicated. That something must be done. And ultimately it all comes down to the fact that there simply is not enough money for our public schools in the state budget right now. The proposed SB 2922 provides a means to address this critical issue.

Over the course of the last two years, I saw 6 of my teacher friends leave public schools. They now work for private schools, in the private sector, or have left the state for good. They were all highly educated and effective teachers. Each gave almost 10 years of their life to the public classrooms. They, like many of us in our 30’s, were forced to seriously consider the extent of the sacrifice we have made to provide our services to the public.

Although our hearts are in public education, when our wallets are empty, when we know that we won’t be able to afford a mortgage for at least a dozen years, when confronted with the fact that we just gave 10 years of our lives, sweating in hot and overcrowded classrooms, and have nothing to show for it, it is hard for us not to reconsider our commitments.

SB 2922 is a concrete, viable step we can take to start turning the tide. This is not a state vs. county issue. It is not a poor vs. wealthy issue. Public education is the responsibility of all of us. Everyone benefits from an educated society and no one should be able to opt out from the discussion simply because they can afford private school for their children, because they do not have kids, or because they “paid their dues.”

Our public schools are facing a crisis. Unless we create a working source of funding for our schools, we will see a revolving door of under-qualified educators replacing our highly effective teachers. Teacher will keep leaving to pursue opportunities that will allow them and their families to afford to live in Hawaii. Ultimately, if the state cannot pick up the tab, all of our kids will.

Michal Nowicki

University Laboratory School  
michal_nowicki@universitylaboratoryschool.org  
808-721-0657
Dear Chair Woodson, Vice Chair Kong, and Committee members:

We are Clare Hanusz and Nevzat Soguk, a married couple residing in Honolulu. Clare is a mother, attorney, and a Parents for Public Schools Hawaii board member. Nevzat is a father and tenured professor at the University of Hawaii. We reside with our two children, Ali (16) and Derya (14) in Honolulu. Both of our kids attend public schools.

We strongly urge you to pass SB 2922 so that our community has the opportunity to vote to increase funding Hawaii’s public schools.

Our education system has been in crisis for so long that crisis has been normalized. It should not be! Overcrowded hot classrooms, crumbling infrastructure, a lack of qualified teachers for our over-tested stressed out kids. These quasi-third world conditions are the reality of what kids and teachers face in Hawaii’s public schools. These issues represent the reasons that many who can choose to abandon public school education for their kids, either from the start or later in the middle school or high school years. They take their social and economic capital and political clout elsewhere. That makes our challenge harder, and we need to raise our voices louder, again.

Our kids were born in Hawaii and attended Honolulu public schools until we moved to Australia for 18 months in 2012. Exhausted and somewhat traumatized from the
furlough Friday battle, we were thrilled to find ourselves living in a place with a vibrant, healthy public education system. Only a small percentage of parents where we lived in Melbourne choose private schools for their kids, where the education system was much more robustly funded. Teachers were paid well, respected, and happy. The opportunity to live abroad highlighted again for us the shameful lack of resources devoted in Hawaii to our public school kids and teachers.

Every person we’ve spoken to – those with kids in public schools, or private schools, or without children, support the idea of paying more in taxes for better schools. The time is now- our kids have waited far too long. We owe them better. Supporting this bill is an important start.

Thank you for your commitment to Hawaii and our kids.

Clare Hanusz, 808-384-9682, chanusz@gmail.com

Nevzat Soguk
Chair and members of the Education Committee

I am Marcia Linville, testifying in support of SB2922SD1, for the Education Caucus of the Democratic Party of Hawaii.

The Education system is underfunded and unable to supply the needs of the nation. Current Teacher strikes across the nation show that this is not just a local problem. In SB2922SD1 Hawaii is being given the chance to solve a portion of the problem. This bill could not be more timely. Money alone will not solve the problem. The problem cannot be solved without money. This bill provides a possibility to obtain additional funding at a lesser cost to most of Hawaii’s tax payers than others proposed. It give the public the opportunity to have a say in the matter. Others have argued well with facts and figures and personal testimony, as have I for the last 40 years. I will not repeat that here. If passed, this bill will show the rest of the nation that Hawaii is willing and able and cares enough about it’s future to look for new ways to solve an old problem.

I ask your support for SB2922SD1.

Thank you for the opportunity to testify on this matter.

Comments:

I strongly oppose SB 2922, SD1 for reasons stated in testimony submitted by Maui County Council Chair Mike White. Thank you.
Dear Chair Woodson and Committee members,

I am the general manager of a small resort on Maui and am submitting written testimony as I am unable to attend the hearing on wednesday. Myself and my staff of approximately 160 are very much opposed to SB 2922 SD1 due to the additional financial burden it could potentially place on the visitors to our State, who are already over taxed and fee’d to death.

We support the concept of improving education in our State but not through additional taxes on the tourists who are so critical to our economic success here in Hawaii. By approving this bill you are leasing out your responsibility to make the important decisions you were elected to make and instead give it to the voters to do your job.

Tourism in Hawaii is in an extremely competitive marketplace, both nationally and internationally. The traveling public is constantly looking for the best value for their dollar and there are many other less expensive destinations which would love to have our tourist. By taxing the visitors everytime we have another difficult decision to make, i.e. funding for the rail, education funding, we are driving tourists into the arms of our competition. We beg you to be strong and make the tough decision now and defeat this bill, go back to the drawing board and look for another solution to help fund education, perhaps through the additional TAT already coming into the State’s coffers.

Mahalo for your consideration

Gregg Nelson

LYNNE J. TANAKA, Honolulu District, Oahu
TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018
3:00 p.m.

Chair Woodson and Members of the Committee:

My name is Valerie Harmon. I am a teacher at Title I School, Kalakaua Middle School, located in the Farrington District in Honolulu, Hawaii.

I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society. Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because teachers are underpaid and receive inadequate teaching supplies and poor classroom desks, supplies, and technology needs. This is why teachers such as myself pay exorbitant amounts of money each school year to supply our students with necessary supplies - including air conditioning, cleaning supplies, clothing for our students and more. Many teachers have to hold second and third jobs when they should be able to concentrate on their students instead of rushing off to second jobs, or simply having difficulties paying bills, getting ahead by saving money, and being bombarded with ridiculous evasion mandates that do nothing but lines the pockets of the test makers. Please vote to invest in our public schools, our communities, and our futures. Teachers tell their students do not go in to teaching - once a noble profession, now
even seen by students as an underpaid, unlikely prospect for their futures. A sad commentary on the direction of public education in the United States of America.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Kihei, Maui
Chair **Woodson** and Members of the Committee:

My name is Lorna Baniaga-Lee. I've been teaching at James Campbell High School in the Leeward District of Oahu for over 20 years. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

I am one of many typical teachers here in Hawaii whose been holding an additional job to teach and live in Hawaii. It is a sacrifice that I continue to make for the profession that I love. As a teacher leader and a lead mentor for my school, I want to model the dispositions of an effective educator; however, there were many times when I question if I'm truly embodying and modeling the beauty of teaching when it means one has to hold a second job to be in this profession. This is a sad reality that makes teaching less inviting to potential talented teachers our students deserve.

This additional funding could alleviate some of the financial burdens that many teachers like myself have been going through. This funding could also provide additional professional development, in and out of island or state, for teachers to grow and thrive in the profession. I ask that you invest in our children and support this bill.

Mahalo,

Lorna Baniaga-Lee

Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools because our keiki deserve the best education. My son loves to read, draw, build, experiment, and work in the school garden. Additional funding to public schools will allow schools to provide resources and materials to foster my son’s creativity and advance his skills along with thousands of public school students. Investing in our public schools is an investment in our community and future.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Chair Woodson and Members of the Committee:

My name is Dylan P. Armstrong, I am a Community Member, former Neighborhood Board member in Manoa on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields dramatic returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because quality public education is the great door to opportunity in our society, and the working people of this state are falling behind, in all manner of educational and socio-economic attainment. We have done better, and can do better once more.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

TESTIMONY BEFORE THE SENATE COMMITTEE ON EDUCATION
RE: SB 2922 RELATING TO EDUCATION
Wednesday, April 4, 2018
3:00 p.m.

Aloha Chair Woodson and Members of the Committee:

My name is Justin Hughey. I am a teacher at King Kamehameha III Elementary in District 10 on Maui.

I am submitting testimony in strong support of SB 2922 to increase funding for public schools.

If you read the book Hawaii Pono, you will see that we have made little progress since 1911. In 1911, the problems with our educational system included too few teachers, teacher salaries that were distressingly low, buildings that were overcrowded, and thus the per capita cost of education was meager. The plantation owners sent their kids to private school and didn’t want their plantation workers’ keiki to receive more than a fourth-grade education. The optimal time for this to have been addressed was when our Hawaii State Constitution was written. Yet, no one made sure there was language that would make funding a quality public education a priority.

Almost every politician campaigns on the issue of education. Every year it is a so called “top priority” of the legislature. But as this top priority has continually fallen to the wayside, maybe reason why is many who have the power to change it send their kids to private school. Almost 40 percent of kids on Oahu attend private school, the largest proportion in the United States. The last two school years have started with over 1,600 teacher vacancies, largely because Hawaii pays the lowest salary of districts that have the same cost of living.

We have the lowest percentage of taxation to public education in the country. You get what you pay for. Hawaii is 48th out of 52 in the nation for 8th grade NAEP reading scores.

The state government has failed to provide a quality public education for our keiki. Finally, we can address the funding problems that have plagued Hawaii since 1911 with passage of this bill.

Mahalo!

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3 p.m.

Chair Woodson and Members of the Committee:

My name is Stephanie Takashima. I am a Counselor at Kaiser High School on the island of Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because lack of funding affects our children/students, and therefore our community. Without adequate school funding, we are not able to provide our students with the resources necessary to educate our youth and compete in today’s global society. Educators are being driven out of the profession. Without pay commensurate to the cost of living in Hawaii, we, as educators are having to work multiple jobs to offset the high cost of living to survive. Because of this, we are unable to spend the time necessary to help those students who struggle compared to their peers and our involvement in extra-curricular activities such as clubs or sports decreases. If we want our youth to be successful and productive members of our society and to have a positive impact on our community and world, we have to invest in those who can help make a difference, we have to invest in our educators.

To deliver the schools our keiki deserve, please support this bill.

We need your help.

Mahalo,
Stephanie Takashima

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3 p.m.

Chair Woodson and Members of the Committee:

My name is Sarah Shewmaker. I am a teacher at Makawao Elementary in Kekaulike Complex on Maui. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools because many of our facilities are falling apart and are in desperate need of renovation. Makawao School is an incredibly old building, once used as a hospital during World War II. Many of the room have cabinet doors and shelves that termites have eaten through, as well as years of dust and mold.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.
Sarah Shewmaker, Kekaulike Complex, Island of Maui
Chair Woodson and Members of the Committee:

My name is Terry Low. I am a teacher at Kauai High School in Central District on Kauai. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai'i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Terry Low

Kauai High School
TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION:

Dear Chair Woodson and Members of the Committee:

My name is Debbie Heyler. I am a teacher at Olomana School in Kailua on the island of Oahu. I am submitting testimony in support of SB 2922 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers. Currently, Hawaii is the only state that does not use property taxes to fund education. Yes, it was given to the City, however, this is not a City or County responsibility, but a State since we are a one-State education system.

We need additional funding for our public schools because so many amazing, talented people would like to enter the profession, but the pay given the high cost of living in Hawaii does not make it feasible. Many teachers currently are holding second and third jobs. Investing in our public school is an investment in our society. I went into teaching because of the influence my teacher had on me. There isn't a single person who could not think of a teacher who has made a difference in their life. They are adults interacting with children and teens for much of the day; what impact teachers are making into students' lives.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Thank you,

Debbie Heyler

Aiea, Hawaii
Chair Woodson and Members of the Committee:

My name is Catherine Caine I am at Waikiki School on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society. Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

I have a firm belief that our public school system is at the heart of a thriving democracy. If we educate each of our students so that they are capable of giving their best thinking and participation for the good of all in our society, just imagine what our state could achieve. Lower crime rates, less poverty, and a focus on solving the most difficult dilemmas of our century could make our islands a real paradise.

Please help to deliver the schools our keiki deserve, please support this bill.
We need your help. Mahalo.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3 p.m.

Chair Woodson and Members of the Committee:

My name is Aaron Kubo. I am a teacher at Hilo Intermediate School in Hawaii District on the Big Island of Hawaii. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because our schools are old and dilapidated where it is unable to support new technology, cooling devices and overall not conducive to learning or teaching. If children truly are our future then why not support and fully fund them in order to reach their fullest potential.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Aaron Kubo, Hawaii District, Big Island of Hawaii
Chair Woodson and Members of the Committee:

My name is ʻIolani Kuoha. I am a Kumu (teacher) at Molokaʻi Middle School, Hawaiian Language Immersion Program, ʻO Hina i ka Malama in Maui district on the island of Molokaʻi. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawaiʻi’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because the lack of funding affects our students and community, the low pay and a lack of resources are driving teachers in our schools out of the profession, teachers have to hold on to second and third jobs when they should be able to concentrate on their students instead of rushing off to their second jobs, etc., by investing in our public schools is an important investment in our future of our community.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

ʻIolani Kuoha, Molokaʻi Government Committee Representative (GRC)
Chair **Woodson** and Members of the Committee:

My name is Piikea Kalakau. I am a teacher at Wai'anae Intermediate School. 

I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools. Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai'i's schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because our students, especially those who are most underserved, are entirely deserving. As a professional who holds multiple degrees, I think I should be paid more and not have to moonlight as a server and housekeeper to make ends meet. Our students deserve a comfortable learning environment and educational facilities that help them to learn according to their individual needs. Simply put, we need this funding badly.

To deliver the schools our keiki deserve, please support this bill.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3:00 p.m.

Chair Woodson and Members of the Committee:

My name is Shirley Yamauchi. I am a gr. 7 electives wheel teacher and Makakilo Heights community member. I have taught at Kapolei Middle School, Leeward district for the past eighteen years, here on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because I am the breadwinner to my family of three. My husband had reconstructive surgery done to his left hand and has been unable to return to his part time job as a cafeteria worker at Kapolei Middle. It has been almost a year now since he's last worked at my school. His eldest son, from a previous marriage, is a senior at Kapolei High School. There are no funds to put his son in any college, he will have to rely on financial aid and scholarships.

Over the last three weeks of my yellow track intercession break, I worked on the tv filming sets of Hawaii Five-0 and Magnum HI, to supplement my income. My three year old son was left in the care of his father, while I worked on the pilot episode of Magnum HI until past 11 pm at night. By the time I was home in bed, it was nearly 1 am. Background extra work is based upon the shows' filming needs, luckily during this past school semester, I was called in for work four times.
My husband and I cannot afford to enroll our son in preschool, with the high cost of tuition. We had to delay his enrollment for another year. I make "too much" to qualify my son for Headstart. Sadly, this past Easter Sunday, I even looked into hotel jobs, in my nearby Ko Olina area. I've lost sleep over the past two nights, worrying about my family's future. When I am not filming on local tv and movie sets, I am a Saturday school teacher at Kapolei Middle as well. I have already contacted our local Oahu Office of Elections, so that I may work at the two upcoming state elections this year. Working at multiple part time jobs does not allow me to spend time with my toddler son.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Submitted testimony for names listed below.

1. Isabella Ochoa Bardwell 19. Leslie Furukawa
2. Randi Kanoelani Manasas 20. Chad Shishido
Hayashida 21. Joanna Wright
4. Audrey Shiotsu 23. Brad Tanabe
5. Kaipo Enario Cabanlet Tam 24. May Yamamoto
6. Tammy K Yagi-Banett 25. Pam Kim
8. Keith Ishihara 27. Dr. Lorna Holmes
10. Dallas Sugimoto 29. Makayla Fitzpatrick
11. T.K. Toyama 30. Carol Miller
13. Jessica O. Kaikaina 32. Victoria Oleson
15. Caleb Stroud 34. Ceannie Englar
18. Tanya Mau 37. Cheryl Nomiyama
19. Leslie Furukawa 38. Jenna Nitahara
20. Chad Shishido 39. Sandra Hasmela
21. Joanna Wright 40. Fern Agunat
22. Samuel Finder 41. Tracey Idica
23. Brad Tanabe 42. Denise Jones-Martey
24. May Yamamoto 43. Megan Rigos
25. Pam Kim 44. Jennifer Sarpi
26. Barbara Abrew 45. Lillian Shaw
27. Dr. Lorna Holmes 46. Caroline Langlais
28. Leslilyn Pauahi B. Kazunaga 47. Akenese Atonio-Figueroa
29. Makayla Fitzpatrick 48. Anthony Ferro
30. Carol Miller 49. Kristen Kane
31. Aysha M. Spencer 50. Stephanie Tsuzaki
32. Victoria Oleson 51. Ronda Goo
33. Jocelyn Olegario 52. Kelvin Tamura
34. Ceannie Englar 53. Amande M. Menifelel
35. Clarence k. Nishihara 54. Casey Palago
36. Nancy Brenner 55. Diwa Conner
37. Cheryl Nomiyama 56. Kuulei Pablo
38. Jenna Nitahara 57. Robert Lozano
39. Sandra Hasmela 58. Leonora Opunui
59. Amber Olson
60. Pamela Whitmer
61. Denise Darm Chans
62. M. Yano
63. Konowahiukapu Mamiya
64. Terrie Kamo
65. Matt Conlon
66. Tana Combe
67. Kathryn Roxberg
68. May Yamamoto
69. Gina-Marie Ramiscal
70. Wendy Green
71. Anthony Lum
72. Glenn Yoshida
73. Sheri Gushi
74. Sandra Lani Abdelahad
75. Tiffany Yanguran
76. Joyce Uyehara
77. Christy Bongo
78. Krystal Frink
79. Adriel Madamba
80. Nicholas Kam
81. Sean Wagner
82. Noel Hakoda
83. Beverly Ikalani
84. Celeste Kamiya
85. Ethan Toyota
86. Joshua Klaassen
87. Beth Hansen
88. Janet Bagby
89. Shelby DeSilva
90. Dallas Sugimot
91. Jaclyn Wills
92. Cathy Carrington
93. Helen Fong
94. Ellen Schroeder
95. Dawn Fraser
96. Kari Matadobra
97. Rosie Summers
98. Kat Nelson
99. Corey Zukeran
100. Melanie Zukeran
101. Erin Yamamoto
102. Anthony McCurdy
103. Danielle P. Niimata
104. Justine Manabat
105. Michelle Murohy
106. Lauren Wood
107. Nancy Darby
108. Nicole Maraglio
109. Suzanna MG Rivera
110. Glenene Otake
111. Sandra Bank
112. Deb Anderson
113. Tisha Gusman
114. Anne C.K. Cross
115. Tonie J Bass
116. Beth Humphrey
117. Theresa Haberstron
118. Alicia Jacobson
119. Ewa Johanos
120. Leinaala Yeudder
121. Derek Lindes
122. Bree Okamura
123. Delia Gallagher
124. Deborah Cheeseman
125. Darren Yamabe
126. D. Tam-Ogata
127. Audrey Shiotku
128. Andrew Hignite
129. Bradford Lum
130. Juliana Wichman
131. Jandi Nagasawa
132. Tammy Nagasawa
133. Jasmine Holt
134. Megan Iwanaga
135. Calvin Nakano
136. Emilie Dacanay
137. Joy Sahagun
138. Julie Tzucker-Nikolas
139. Sheryl Au Campagna
140. April Bautista
141. Britney Sabado
142. Jessica Remotap
143. Dwayne Yuen
144. Jaime Cunnane
145. Liamarie Thomas
146. Christina Chan
147. Jan Ikawa
148. Kimberly Coleman
149. Jennifer Sarpi
150. Charmhel Rarallo
151. Christina Conrad
152. Chad Mahoe
153. Miwako McDevitt
154. Shannon Kam
155. Wendy Miyahara
156. Cecilia Adres
157. Joy Nakamura
158. Stephanie Kuniyoshi
159. Debra Yamakawa
160. Sheri Yoshida
161. Christina Shelton
162. Colleen Cashman-Valdez
163. Kathleen Brizuela Absalon
164. Mark McKeague
165. Sarah Redican
166. Victoria Kamaka
167. Lauren Anderson
168. Tammy Sanekane
169. Stephanie Tsuzaki
170. Paul McDonnell
171. Troy Freitas (sorry, there is a duplicate)
172. Dean Nakamayo
173. Kelly Wadlegger
174. Theresa Johnson
175. Michal Oneal
176. Russell Abe
177. Annie Casaus
178. Jenny Migura
179. Karyn Tada
180. M. Nakamura
181. Veronica Williams
182. Hope McKeen
183. Kimberly Patterson
184. Mary Cougano
185. Gina Little
186. Pauline Stamsos-Correa
187. Shelly Grace Badua
188. Dorothea Sanford
189. Diwa Conner
190. Kuulei Pablo
191. Heather Brovsky (sorry has a duplicate)
192. MC Kealoha Curnan-Medina
193. Steven Ward
194. Roxanne Hayase
195. Joy Miyamoto
196. Michelle Bason
197. Judith Hook
198. Anne Durham
199. Benjamin Callahan
200. Jamsie Pamai Pruett
201. Debbie Hisashima
202. Juvir Martin
203. Lynette Zakabi
204. Tammy Kuwahara
205. Virgilio Viernes
206. Andrew Rego
207. C. Kapu
208. Debra Miyaki
209. Kathleen Grondin
210. Zenaida Dela Cruz
211. David Harano
212. Sherry Cassetta
213. Jingya Wu
214. Cathie Collier
215. Cynthia Ann Chong
216. Debra Lee Soneda Heyler

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

NAME: Isabella Ochoa-Bardwell

---

Being an educator (classroom) for almost 25 years, I’ve never felt that I’ve had support to do the best job I could. There is so much “red tape” and a “one size fits all” that it feels overwhelming to do my job efficiently. We need to make the teaching profession respected by the community at large. Thank you for your support.

I work in a SPED room and we are even more underfunded than general education. The needs of our kids are a life long adventure and plan for my kiddos. I want them to be successful contributing part of society but this takes a lot more instruction and community based instruction even for Elementary. The earlier we start the more successful they will be. Mahalo and SPED teachers.

To Whom It May Concern:

I am a 4th grade teacher in my first year at Naaliku Elementary in Hawaii. I would like to advocate on behalf of my students. Currently, I have 28 students in a small classroom where even fire marshalls have been forced to turn their checks. In addition, the class and room size limit the amount of small group instruction that can truly meaningfully take place. We are right on top of each other. Also, we are anticipating that class size increase w/ a neighboring charter

The state funds various initiatives for a few years. However, the programs begin to show a decline in effectiveness, the state cuts the funding and expects the school to come up with the funding. An example is the funding for the ACT test for 9th + 10th grade students. Since 9th+10th grade students do not have any standard state testing, a school has no measure until their 11th grade year.

Hawaii's teachers are the backbone of our state. We nurture our state's keiki with values of respect, aloha and integrity. We instill positive attitudes despite the negative press and public opinion against us and our education system.

We teach, we share our mana'o every day yet don't get the appreciation we deserve. Yet we continue to give. Please support our teachers. We are people too.

I teach at Dole Middle School. We have been impacted greatly by COFA. We have students with medical problems and behavior problems. One thing that does work with our students from Micronesia, are small classes where they can more easily develop a personal relationship with their teacher. It takes money to do this. We really need help. Please think of all our young people and help prepare them for successful futures. Because they are our future. Mahalo.

Thank you for your support!

I teach Deaf & Hard of Hearing students. They are 1% of the population and are therefore a minority group within the [Special Needs] population. As funds filter down through the various programs, less goes to low incidence programs like ours. Additional funds will benefit all students, particularly the students in this type of program.

Thank you for your past support of teachers. I ask for your continued support to make teaching a desirable profession for our young adults. Having taught in the public schools for 20+ years, teaching has become more and more taxing. Things are constantly being added to our already full plate. Once I hit my 30 yrs I'm done - if nothing is going to be done to retain teachers. Maybe the DOE wants a younger, cheaper teaching force but I hope they realize that many of these young teachers don't envision teaching as a lifelong career.)

What can be done on the outrageous price gouging being done by outside companies that make bids on state projects/jobs? Bids for projects like our conditioning or building a simple stage in the cafeteria appear to be overly inflated. 3 million (2 million for construction and $300,000 for design) seems ridiculous for a 20 x 300 stage!!

   Thielen, Cynthia

Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.
Thank you,

Comments: Please support public schools in Hawaii! We need our state and house representatives to support funding for public schools so that we can give our children equal opportunities.

Last time, the Speaker of the House at the time (Joe Souki), killed the bill for public funding. This time, please let SB 2922 and HB 2608 pass. My class size is so large, I am unable to fully help my students. Even though I put in 90-120 hrs. per week (even though I'm only paid to work 35 hrs. per week).

1. Thank you, Mahalo! for being a decent human being and being a voice for the people of Hawaii.

2. Hi-5! Shaka! for stepping up to the plate in running Lt. Governor. Please at least hear our teacher union or teachers from across the state, tell it like it is. We don't want we just tell it like it is. We want the best for our Keiki, with awareness comes discussions and solutions.

3. I like your hats : )
As a public high school teacher, I have over 100 students in my class roster. I wake up at 4:30 am to prepare my materials for the day. By the time I get to school, I have spent my entire morning preparing for lessons. After school, I spend my free time grading and preparing for the next day. I have very little free time to spend with my family or pursue any hobbies.

I cannot afford to pay for my own textbooks, which is why I buy illegal copies online. I have so many students, and their welfare is my primary concern. I spend every penny I earn on my students' needs.

The state cuts are affecting not only the teachers but also the students. We are trying to work around the education system, but it is unsustainable.

We need more resources and support from the state. It is not fair that our students are not getting the education they deserve. Please consider increasing the education budget and investing in our schools.

Thank you for your attention.

     Evans, Cindy

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

Comments:

I am in support of this bill because, as a seasoned teacher, I notice that we are losing teachers to private industry largely due to funding shortages and teacher evaluation. Large class sizes (34) with 10% with learning disabilities, and no support from administration or the state contributes to the decline in morale in our profession. Students will continue to suffer with fewer resources.

Thank you,

**Comments:** I am a teacher who’s in the middle of my 28th year of teaching. I love my job! Being able to help a child see his/her great worth is my greatest reward. I honestly and truly see teaching children as my life’s calling. Therefore, it saddens me immensely when I see what is happening today. The teachers who are entering the field now do not seem to share my passion for teaching. Why is that? I believe it’s because these teachers are entering the field at a very difficult time. The job demands are so high and I don’t think that these teachers are putting in enough planning time to deliver quality lessons because they’re rushing off after school to get to another job. They also get discouraged by the lack of resources and funding. I ask as a teacher who believes that our keiki deserve so much more: Please do what you can to make each public school a place that shows the worth of each child!

Thank you,

Comments: I am a full-time teacher in Hawaii and have been so for over 8 years. I find it
disturbing that HUD can consider $83,700 low income on Oahu and yet I make less than
$60,000. (http://m.hawaiinewsnow.com/hawaiinewsnow/pm_/contentdetail.htm?contentguid=od:5I9FJfG
) have been near homeless twice in the past 2 years because I can barely survive on my current
salary. It is frightening to me that I can be called a professional and be asked by the state to
take care of the youth of Hawaii and yet I am not paid enough to be considered even lower
middle-income. Do the representatives and government officials really have that little respect for
teachers? I do not feel supported by my government.

Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. **I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment** that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

Invest in the future of Hawaii by supporting the front lines—the teachers. I truly love my job. I love being one of the biggest influences in the lives of my students.

On the other hand, other obligations are forcing me to reconsider whether to remain in Hawaii and remain a teacher. Please help me continue to believe that the choice that I have made to be a teacher is the right one.

P.S. I fought hard to be a teacher.

My parents are Filipino. I was supposed to be a nurse.

Hawaii is an awesome place to visit and yes, it is important to make sure we continue to support this industry... but, we must look to the future. Where do we want our future to be? Relegated to low income jobs and forced out of the state? We need to invest in our future, which means investing seriously in our students and our schools.

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

Comments: Our state needs to support our public school students. Their educations affect the future of the state. A well educated workforce makes a healthy economy.

As a special ed teacher in West Maui, I have spent thousands of dollars on my students—including supplies, equipment, access to a handicapped bus for my student to attend a field trip, adaptive equipment and curriculum for the very specific needs of my students who cannot participate in the school's bought curriculum. Lack of adult help in my classroom affects the children's education—keeping them safe is my priority. Keiki should be the priority of our state—we need funding to support all we do!

RE: Hawai‘i’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawai‘i’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

A dedicated fund is needed so that planning isn’t contingent on the legislator’s discretion. Education is the key to solving all of the state’s problems and needs to be supported. A quality education cannot only be available to the wealthy!

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

Thank you,

**Comments:** I support SB 2922 and HB 2608. Our keiki need schools that have smaller class sizes, more teachers, better incentives to retain the teachers, and focus on special education programs, career and technical education, a focus on bringing the arts back into the schools, and appropriate Hawaiian language lessons and studies. There is also a lack of affordable after school care which is sorely needed.

---

Rep. Souki -
You told me you won’t find schools because there you’d have to give money to everybody.
When you invest in children, you give to everyone!

Fund our public schools.

Lisa Morrison
TO:  SENATOR  Gilber Keith-Agaran

REPRESENTATIVE  Joseph Souki

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. **I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment** that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

**Comments:** Hawaii Public Schools are tragically underfunded. Students sit in classrooms that are old, in buildings that are falling apart, with money being paid to testing companies instead of being passed into the classroom for authentic student learning. Please support Hawaii’s children, families, and communities by funding the schools as they deserve.

The extent of the property ownership by our state and 3rd home owners has exacerbated the housing crunch. While this supports many workers here on Maui - construction, landscaping, property management - it reduces the available housing for those who live and work here. 1st year teachers barely make enough but as it is, housing is an ongoing issue.
Let's make the property owners contribute to Hawaii's keiki.

Thank you for your strong support of this measure which will address the critical need for finding our public schools.

Our kids are counting on you!

Alone, W

PS: Please share your passion with your colleagues.
TO: SENATOR Glena Wakai

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

Thank you,

**Comments:** We have a crisis with our teacher shortage. Hawaii students are already behind nationally and when our teaching lines are filled with underpaid teachers who cannot afford to stay in the career, outer state teachers who leave after a year, and substitutes who don't know the content, we are hindering our keiki’s future success in life, creating shortages in other career fields in our state, lowering the intellectual esteem of Hawaii, and destroying the very fabric of our society.

There is such a push for our students to go to college that we are missing a whole population of kids who need vocational/career training. We still need trained plumbers, electricians, mechanics etc for our community to continue to run smoothly.

    Luke, Sylvia

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

Comments:

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. **I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment** that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.  

Thank you,

Thank you,

Comments: I spoke with a journalist from Finland a year or so ago. She was studying the educational system here. She said in Finland there are no private schools by law. Rich people send their kids to the same schools as everybody else so they make sure those schools are good. Finland is the #1 rated educational system in the world or close to it. Maybe we need a constitutional amendment to outlaw private schools so those resources can be shared more fairly and everyone will benefit.

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

    Lowen, Nicole E.

Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

Thank you,

Comments: I am asking you to support Senate Bill 2922 and House Bill 2608 which will allow for a solution to helping fund education in our state. Our teachers and schools are seriously underfunded and it is a travesty. Our children are our future. Everyday these hardworking and dedicated individuals pour into our future with not even a living wage in our state and many in conditions that are unexcuseable. These are highly trained professionals, who dedicate many hours of overtime, for which they are not fairly compensated. We need to pay our teachers a wage that makes it possible to live a comfortable existence in the communities they are pouring themselves into every day. Our teachers are paid less than most city and state administrative positions. Teachers are leaving everyday for private industry so that they can afford to live in these islands. Hawaii is the land of 2nd homes, vacation homes and the playground of the wealthy and well to do. These folks need to help support our island community they have the privilege of "playing in". Our teachers deserve to be paid a living wage for Hawaii. We cannot retain good teachers or attract new teachers with compensation levels at the low level they are in currently. Our schools need attention and resources. This comes with funding. Please show our teachers that our government is doing all they can to support them, and that our community appreciates and values the important work they do for our children every day. Thank you.

Thank you,

Comments: Aloha, thank you for your continued support of education. I am asking in these trying times to continue to support education and pass legislation that gives public education more funding. This is the only way that our students can get the education they deserve. Thank you for investing in public schools and ultimately investing in the futures of our children and our state.

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. **I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment** that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

**Comments:** I am a full time science teacher at Radford High School. I support SB2922 and HB2608 because an investment in our public schools will help to foster better world citizens. We want our keiki to have a lasting, positive impact in our global society and represent our state to the best of their ability. An increase in funding for our public school system would certainly contribute to their future success ~❤️~

Thank you,

Comments: My children are now 40 and 35. When they were in school there was not sufficient funding. I am so discouraged that we, the public, are still asking for this! Hawaii needs to support public education and pay teachers enough to live in our state. Now it is up to you to make a difference and pass bills to fully fund public education!

Thank you,

Comments: I spent over a decade in higher education and shifted my career into K12 because I could either bemoan the low quality of students feeding into our colleges or I could actively become a contributing part of the solution. Our public schools need, and our children deserve, high quality schools and educators, especially if we want our students to have brighter futures.

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2698 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

Comments: Aloha Rep Gates and Senator Shimabukuro,

Thank you for considering my thoughts regarding this bill. I am a parent of public and public charter school students, Kawaihona Public Charter School & Papahana Maililikukahi. My children are thriving in these spaces in spite of the lack of financial resources available to them. I am responsible for the transportation of my keiki because there are no funds available for Papahana Maililikukahi students. This poses a logistical and economic hardship for myself and children. Both Kawaihona & Papahanamaaililikukahi need and deserve support to build out their campuses and are able to demonstrate the need. As a parent each year I am concerned about the stability of the school. Unfortunately my son's school at Kawaihona will not build out in time for him to be a freshmen. The transition from Kawaihona to Waianae High School will be dramatic and I worry about the potential for him to fall through the cracks. My daughter is a 1st grader at Papahanamaaililikukahi the only campus that services immersion learners. I worry about her not being able to continue her education in olelo which will definitely impact her learning. Please support this bill and fight for our keiki to access a quality education complete with facilities and highly qualified educators. As a professional in the field of higher education, I work hard to recruit and retain individuals that want to be educators. Most if not all share that the cost and the lack of financial incentive make choosing and staying in this profession all the more difficult. Financial incentives, mentorship, college support and financing will alleviate the burden of attaining a degree and create meaningful and pragmatic reason for individuals to stay. Mahalo once again for all your support and contributions to the well being of our community.

Kailua HI 96734
TO:    Inouye, Lorraine R.
       Nakashima, Mark M.

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. **I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment** that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

**Comments:** Please support teachers

Thank you,

Comments: I feel that with the support of SB2922 we are able to provide a rigorous and engaging education for students from all levels and all ages. It would do so by supporting students through teacher consistency, better teacher to student ratio, and implementation of interesting subjects. It will also give teachers security and lessen financial and job stress.

          Honolulu HI 96822
TO: Taniguchi, Brian T.
  Choy, Isaac W.

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. **I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment** that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. **I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment** that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

    Thienen, Cynthia

Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. **I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment** that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

**Comments:** Support the teachers and their union. You should not get union benefits, if you don't support the union.

Thank you,

Comments: $200 a year for teachers to get supplies for their classrooms is not enough. How many other professionals "outfit" themselves and their "clients" out of pocket as teachers do for their students on a regular basis?
Also. All preK-Grade 1 teachers should have a full-time qualified aide in their classrooms. Early education is critical to a child's development.
Every school should have a designated PE, music and art teacher—smaller schools can share itinerant teachers in these specialties.

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you.

      Fukumoto, Beth

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

Comments:

        Ito, Ken

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.
Thank you,

Thank you,

Comments: I am a first grade teacher here on O'ahu. I moved back from teaching on the mainland and I had to take almost a one third pay cut to do so. I have the family and financial support to do that, but there are so many people who do not have that privilege. If we want great teachers they need to be able to make a living and survive.

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

NAME: Nathan S. Shimada

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you.

Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

Comments: As a special education teacher, it is extremely frustrating to not have the time or the funding to properly staff and prepare for my life skills class. Proper funding would encourage teachers from out of state, like myself, to stay in Hawaii and teach. Right now, my husband and I can barely afford to keep our growing family afloat on the salary that the Hawaii DOE pays and is forcing us to have to move back to the mainland.

Thank you,

Comments: Teachers have a very important role in society. Teachers are disrespected in Pay vs. most other professions and Teachers are laying the foundation of the next generation. We need to have and retain the best out there and make it financially feasible to attract the best Teachers to the profession.
Teachers are Educational Engineers having to solve many different problems throughout the day. Teachers are not even considered on par with engineers in respect for the career and in Pay. I know because I was an Engineer.

Thank you,

**Comments:** I believe our school system is underfunded and our educators are underpaid. A successful school system starts with teachers. They are the backbone of the education system and, just like any career professional, must be compensated fairly based on cost of living and on other successful state education systems. If you expect students to succeed, then teachers must succeed and strive to be great. Providing better pay will both motivate and force teachers to work hard. It will bring more and the most qualified people into the industry and allow for the education system to hold high standards with a means of backing them up and keeping accountability. Improvement starts with better pay and an income that can support a family in Hawaii. This is the only way to start creating a better public education system.

Thank you,

Comments: This tax bill is the best way to raise money for our schools. People who have expendable income to be able to afford investment properties and vacation homes in paradise can afford the taxes we are asking them to pay. And this will ensure that our schools have the necessary funding for everything, especially offering a competitive wage so we can hire enough quality teachers for our keiki!

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law. Thank you,

Comments: Please fund our schools, Support SB 2922 and HB 2608.

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

Comments: As a first year teacher that is currently enrolled in a SATEP I have felt the heavy burden of taking on this role. I love my job and working with these students is why I made this career change. However, there are many resources that are not made available to myself and other SPED teachers. We are faced with many responsibilities (some that are out of our scope of practice) and are not given the proper amount of time (no prep periods) or resources to make sure everything on our to do list is getting done. I truly believe this is a huge reason for the turn over rate in this field. We get burnt out! It’s exhausting to not be heard or understood so most teachers throw in the towel and that leaves our students in oversized FSC classes with very limited adult support. I hope these testimonies give our sped teachers a voice. Just like our students, we deserve every fair opportunity that our colleagues receive.

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our children deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

NAME: ADAM NAKOA TUIPAPU

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you.

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

Marina L Keizer

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,
NAME: Kevin Huggins

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2668 to build the schools our kōkōlī deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

NAME: Nicha Nashiyama
ADDRESS: 95-218 Amberly, Mililani, HI 96789

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2698 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you.

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2292 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawai'i's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our children deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawai'i's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

NAME: Monique Kom-Souza

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

NAME: Kali Lopez

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

RE: Hawaii's public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner's primary residence, as provided by law.

Thank you,

Kathleen Delos Santos

RE: Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

NAME: Michelle Otw

I believe continued oversight of Special Education be enacted. The yearly reduction since the conclusion of Felix endangers safety of students, faculty, and staff. Mental health services clearly need to be re-evaluated as the multitude of hoops to jump through must be closed.

Aloha

Please consider having an overview of the teacher licensing procedure so that it is not as prohibitive to hiring already credentialed teachers from other US States. Additionally, the educational credit system is terribly complicated and should not require so many forms for teachers to get pay increases.

Thank you,

**Comments:** Please support this important bill toward funding public education. Our students deserve well-educated, happy teachers, as well safe and attractive facilities. The only reason I can afford to be a teacher; a profession I adore and believe to be of the UTMOST importance, is because we are a 2-income family with much higher paid spouse. MANY teachers/teacher families struggle to pay rent, utilities, etc. with their low salaries. No state can afford to pay teachers what they’re worth but we should try. And you can help narrow that gap by working to pass this ConAM. Thank you.

       Keohokalole, Jarrett

Hawaii’s public schools are chronically underfunded, leading to teacher shortages, large class sizes, and a failure to prepare our special needs students. I am asking you to support SB 2922 and HB 2608 to build the schools our keiki deserve by supporting a Constitutional Amendment that would allow the legislature to fund a quality public education for all of Hawaii’s children, including the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and after school programs by establishing a surcharge on visitor accommodations and residential investment property valued at one million dollars or greater, excluding a homeowner’s primary residence, as provided by law.

Thank you,

LATE
TESTIMONY
LATE
TESTIMONY OF ALAN M ARAKAWA
MAYOR
COUNTY OF MAUI

BEFORE THE HOUSE COMMITTEE ON EDUCATION

Wednesday, April 4, 2018, 3:00 PM, Conference Room 309

SB 2922, SD1, PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION.

Honorable Justin H. Woodson, Chair
Honorable Sam Satoru Kong, Vice Chair
Honorable Members of the House Committee on Education

Thank you for this opportunity to testify in STRONG OPPOSITION to SB2922 SD1.

The purpose of this bill is to propose amendments to the Constitution of the State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations.

Although the Department of Education receives almost 20 percent of the entire budget of the State of Hawaii, the administrators, teachers, students and advocates of this bill have legitimate reasons to demand more funding to provide quality education for our keiki. But the proposed measure before you is flawed.

Real property taxes are counties’ primary and largest source of revenue to fund county programs. The counties must account for raising expenses such as salary increases for all bargaining units this year, which we are obligated to fund. Raising property taxes is our only reasonable option to balance our budget. If lawmakers and the governor believe schools are underfunded, the legislature should accept the responsibility and appropriately fund education without causing financial challenges for the counties.

In addition, adding the capability of the state to tax real estate can damage Maui County’s bond rating.

I agree with and echo Mayor Kim’s comments:

The drafters of our Hawai‘i Constitution must have understood that it was critical to the viability of the counties that they have exclusive authority over the property tax. They provided that "The taxing power shall be reserved to the State, except... relating to the taxation of real property" which "shall be exercised exclusively by the counties ... " If that wall is breached, severe damage will be done to home rule, we would be ignoring the progress the counties have made since Statehood, and there would be a crippling of the State/County partnership that has grown over the years in an imperfect but meaningful attempt to best serve the 1.4 million people of Hawai‘i.

Therefore I strongly OPPOSE SB2922 SD1.

Respectfully yours,

Alan M Arakawa
Mayor
To: Honorable Justin H. Woodson  
Chairman House Committee on Education  

From: Riki Hokama  
Councilmember  

SUBJECT: Testimony in opposition to SB 2922  

I write in strong opposition to SB 2922, proposing amendments to the State Constitution. While a review of Articles VIII and X of the Constitution may be appropriate, the entire document should be reviewed. As a former delegate to the State Constitutional Convention, I feel a partial review is inadequate. Therefore I support a 2018 State Constitutional Convention. Questions relating to funding a quality education must be addressed by looking at the entire document.

Sincerely,

RIKI HOKAMA  
Councilmember
Department: Education

Person Testifying: Dr. Christina M. Kishimoto, Superintendent of Education

Title of Bill: SB 2922, SD1 PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION.

Purpose of Bill: Proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on visitor accommodations and on residential investment property. (SD1)

Department's Position:
The Department of Education supports the intent of this measure.

The Department has made every effort to wisely spend appropriations provided. However, funding has not kept pace with 2008 levels of state fiscal support, adjusted for inflation as measured by the Consumer Price Index.

Education is a key investment in the state's economic development and an investment in its local employee base capacity for all Hawaii industries. A funding increase will provide adequate student funding and teacher pay to support an equitable high quality instructional system with respectful 21st century learning environments through quality facilities.

Thank you for the opportunity to provide testimony on this measure.

The Hawaii State Department of Education seeks to advance the goals of the Strategic Plan which is focused on student success, staff success, and successful systems of support. This is achieved through targeted work around three impact strategies: school design, student voice, and teacher collaboration. Detailed information is available at www.hawaiipublicschools.org.
PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION

Senate Bill No. 2922, S.D. 1, proposes to amend the Constitution of the State of Hawai‘i to authorize the Legislature to establish a surcharge on residential investment property valued at $1 million or greater and visitor accommodations in order to fund public education including, but not limited to, the recruitment and retention of teachers, public preschools, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, and afterschool programs.

The Department of Budget and Finance offers the following comments on this measure. Under the Hawai‘i Constitution, the State has assumed administrative and financial responsibility for providing compulsory public education services in accordance with applicable State and federal laws. This exclusive jurisdiction is unlike that of any other public education system across our nation, where administrative and fiscal responsibility is exclusively assigned to, or shared with, local governments.
Our State is also solely responsible for such core government services as the public library system, public housing, Med-Quest health insurance coverage, and correctional facilities, amongst many others. Because the State has assumed many of these core functions that are usually administered by local governments, the Hawai‘i Constitution appropriately assigns to the counties the exclusive use of real property taxation for county functions such as water, sewer, waste disposal, and law enforcement to be paid by property owner taxes and assessments. While we appreciate the Legislature’s intent to find additional revenues to fund our public education system, using the property tax to support a State function, as proposed in Senate Bill No. 2922, S.D. 1, represents a fundamental departure from the current constitutional structure of functions and revenue sources.

Finally, the proposed language in Section 3 essentially earmarks and/or restricts the use of these revenues for specific purposes and binds future Legislatures from directing these revenues within the public education system as part of their constitutional responsibility for the appropriation of all public funds. To address our concerns about earmarking, we recommend that the Legislature amend the language in Section 3 to match the question articulated in Section 4, which would still allow for funds to be used for public education. This clarification will also assist voters when they are considering their decision on this proposed amendment to the Hawai‘i Constitution.

Thank you for your consideration of our comments.
Chair Woodson, Vice Chair Kong, and members of the Committee:

The State Public Charter School Commission (“Commission”) appreciates the opportunity to submit this testimony in SUPPORT OF THE INTENT of SB 2922 SD1, which ultimately seeks to increase funding for public education.

Increased funding for public education is an investment in the children that attend public charter schools, as well as children that attend Department of Education public schools. The Commission looks forward to working with the Legislature and the larger community of supportive stakeholders who strive to better the lives of all our public school students.

Thank you for the opportunity to provide this testimony.
COUNTY OF KAUA‘I
BEFORE THE COMMITTEE ON EDUCATION

WEDNESDAY, APRIL 4, 2018, 3:00PM.
CONFERENCE ROOM 309

TO:  THE HONORABLE CHAIR JUSTIN H. WOODSON,
THE HONORABLE VICE CHAIR SAM SATORU KONG,
AND MEMBERS OF THE COMMITTEES

FROM:  KEN M. SHIMONISHI, DIRECTOR OF FINANCE
COUNTY OF KAUA‘I

SUBJECT:  OPPOSITION TO S.B. No. 2922 S.D.1

The County of Kaua‘i strongly opposes S.B. No. 2922, which proposes amendments to the Constitution of the State of Hawai‘i to authorize the Legislature to establish a surcharge on real property categories classified as residential investment property and visitor accommodations.

In 1978, the public ratified the decision to give the power to impose and collect real property taxes solely to the counties through a constitutional amendment. Real property taxes currently make up 84% of our county’s general fund revenues, with the lion’s share of these funds used to provide essential government functions such as police, fire, emergency management services, public transportation, parks, and landfill operations. We believe that the counties are carrying out their duties responsibly and have managed tax rates appropriately. Further, the Legislature has restricted the revenue flow of the counties’ by capping the counties’ share of Transient Accommodations Tax (TAT).

By amending the State Constitution for a state surcharge, this bill seeks to weaken counties' authority on the main source of revenue to the counties’, and thereby undermine the counties ability to fund essential services. As such, we must strongly oppose the intent and passage of S.B No. 2922. Thank you for your consideration of this testimony.
Chair Woodson  
Vice Chair Kong  
House Committee on Education  

Wednesday, April 4, 2018  
3:00 P.M.  

TESTIMONY IN STRONG SUPPORT OF SB2922 SD1 PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAI'I TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION  

Aloha Chair Woodson, Vice Chair Kong, Members of the House Committee on Education,  

My name is Jun Shin, a freshman at the University of Hawaii at Manoa. I serve as a board member at-large for Young Progressives Demanding Action – Hawaii, an organization that is a member of the Common Good Coalition. I am testifying in strong support of SB2922 SD1, proposing amendments to Articles VIII and X of the Constitution of the State of Hawai‘i to authorize the Legislature to establish a surcharge to increase funding for public education.  

With living in Hawaii being a very difficult task, this needs to happen now. However, this measure is not asking to increase taxes right here and right now. It’s asking the 29th Legislature of the State of Hawaii to let the citizens of this state vote. Entrust the future course of the keiki and their education into the hands of the individuals who know them the best, the parents who work long hours to create better lives for their keiki. We need to include the most important stakeholders into this discussion.  

As the only state that doesn’t use property taxes to help fund our schools, we have a horrible structure for funding our public school educations, and that results in people refusing to take on crucial jobs as educators, and problems like humongous class sizes and below subpar services for students eligible for special educational services not being worked on. The strength and perseverance of our democracy depends on education. Education provides the job opportunities that in turns allow workers to have enough money to invest in small businesses and the economy in general. It is simply wrong for a society to forsake educators; we need to never forget how important they are. Educators nurture the future of our society and they have a huge role in helping us to succeed. We have the opportunity to change the tide here. Let’s show people feeling apathy that their government is working for them by taking this step, and let’s bring more people into the process and show them that the people in power are willing to listen to the people and fight for their best interests.
I strongly support SB2922 SD1 and request for it to be passed through this committee. However in the event that the people of Hawaii decide that this is not the right solution when it comes time to vote, it is my sincere hope that our government works hard to find other solutions to funding and fast because education is not a commodity and our teachers and our keiki deserve better. We are asking and we are going to keep asking our government to take the lead as they should have done a long time ago, and no longer make teachers continue to come up with the solutions. We need bold action and change now. Invest in the future leaders and innovators of Hawaii. We need to create an environment where they can succeed and thrive. As a young person who loves Hawaii and hopes to live here for the rest of my life and contribute to society, I hope that you will fight for me and the future that I will be living in. I hope you will fight for a better Hawaii which you will be proud to pass on to those who will come after.

Mahalo for the opportunity to testify on this measure,

Jun Shin,
Board Member At-Large
Young ProgressivesDemanding Action – Hawaii

From: Bruce Broisman, Policy Fellow
Hawaii Children’s Action Network

Re: S.B. 2922, SD1 – Proposing Amendments to Articles VIII and X of the Constitution of the State of Hawaii to Authorize the Legislature to Establish a Surcharge to Increase Funding for Public Education – SUPPORT
Hawaii State Capitol, Room 309, April 4th, 2018, 3:00 PM

On behalf of Hawaii Children’s Action Network (HCAN), we are writing in SUPPORT of S.B. 2922, SD1, which would allow voters the opportunity to authorize the Legislature to establish a surcharge on visitor accommodations and residential investment property to fund education.

Hawaii is currently fighting two interrelated crises with significant impacts on quality of life, cost of living, and future economic development: Housing and education. Current law restricts the State’s ability to dedicate new funding streams to the education system. As a result, funding levels have not kept pace with the rest of the country. With inflation, the State’s educators have experienced a 6.5% pay cut since 2009.

Educator pay is eroded in part by the dearth of affordable housing available throughout the State. When adjusted for the cost of living, Hawaii teachers rank 50th out of 51 for k-12 teacher pay. This—alongside insufficient facilities and limited resources—drives teacher turnover, reduces systemic expertise, and constricts access to early childhood education and intervention services. High housing costs also contribute to housing insecurity among Hawaii’s most vulnerable keiki. These factors result in higher costs and lower results. Adequately funding early childhood and k-12 education and alleviating the current housing crisis are key to producing better outcomes for our keiki.

The benefits of early learning and intervention are critically important in ensuring academic success. This fact has been recognized by the Legislature through their collaboration with the early learning community in securing the funds necessary for such a system, and in searching for new ways to guarantee that education is adequately funded above current levels. S.B. 2922, SD1, provides just that—a new revenue stream designed to provide all keiki with high-quality early learning and k-12 education.

For these reasons, HCAN respectfully requests that the committee pass this bill.

HCAN is committed to building a unified voice advocating for Hawaii’s children by improving their safety, health, and education.
Testimony of
Kelly Sanders
Vice President of Operations
Highgate Hotels & Resorts Hawaii

House Committee on Education

Senate Bill 2922 SD1

Chair Woodson, Vice Chair Kong, and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of the nearly 2000 of my associates who live and work in tourism in Waikiki.

Regarding Senate Bill 2922 SD1, the Hawaii Lodging & Tourism Association specifically opposes the provision on the visitor accommodation surcharge. As much as we support improving upon our state’s education system, we must seriously take into consideration the tax burden our visitor industry already bears. Moreover the record is clear of the thousands of dollars HLTA and our individual tourism organizations and properties contribute yearly statewide towards education at all levels. We prioritize this objective.

Our respectful opposition is based on the following reasons:

**Higher taxes and fees harm our ability to compete.** Last August, the Legislature raised the TAT, to the point where guests now pay a TAT of 10.25 percent. Coupled with the general excise tax, guests pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on O‘ahu. Hawai‘i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, in both the domestic and international markets.

**Tourism already is the state’s largest revenue producer.** Tourism continues to be the largest single source of private capital for our economy. Recent reports have noted that (a) tourism accounted for 204,000 jobs; (b) visitor spending last year totaled $16.8 billion, a new high; and (c) the state’s tax take was $1.96 billion. Of that sum, TAT revenues alone generated nearly $545 million for the state’s coffers last fiscal year.

**The hospitality industry in not an infinitely prosperous, infinitely taxable entity.** Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai‘i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers. We are already seeing Mexico gaining share on Hawaii due to increased costs and this situation could be very damaging to sustained tourism for the state.

**More than half of TAT revenue now goes to the general fund.** While the TAT was established to promote and market the visitor industry, it has since become a major source of
revenue for purposes other than originally intended. Latest reports reveal that now it's a whopping 60% of the TAT that goes to the general fund. We would surmise that public education may already be receiving a share of TAT revenue through its general fund budget allocations.

The state government is not collecting TAT and general excise taxes on transient vacation rentals. Highgate Hawaii supports legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands of alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding TAT and general excise taxes. If the House and Senate could agree on a legislative measure with the Governor's concurrence, millions of dollars would find its way into the state coffers.

For these reasons, Highgate Hawaii continues to oppose raising taxes and extra fees on the visitor industry and we respectfully urge you to remove the establishment of a transient vacation surcharge from Senate Bill 2922 SD1.

Mahalo for the opportunity to testify.

RE: Senate Bill 2922, SD1 - PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION.

HEARING: Wednesday, April 4, 2018, at 3:00 p.m. in Room 309

Aloha Chair Woodson, Vice Chair Kong, and Members of the Committee,

I am Jim Mee, an attorney with the law firm of Ashford & Wriston, appearing on behalf of the Hawai‘i Association of REALTORS® (“HAR”) the voice of real estate in Hawai‘i, and its over 9,500 members. HAR strongly opposes Senate Bill 2922, SD1. This measure proposes to amend the Constitution of the State of Hawai‘i to establish a surcharge on residential investment property valued at a million dollars or more as well as on visitor accommodations.

Although HAR recognizes the importance of public education, HAR is concerned about the negative impacts that could result to our State’s tourism industry as well as on rental housing. This testimony will focus on the negative impacts on housing.

HAR believes this is the wrong vehicle for supporting public education for the following reasons:

1. There is a lack of legal nexus between residential investment property and the need for more funding of public education. There has been no showing that there is any correlation between residential investment property and public education. The measure would simply shift responsibility for funding public education from the general public to a smaller group of property owners who are being singled out without any justifying rationale. This could fall afoul of constitutional standards (see discussion at point 4 below).

2. This measure will hurt the ability to provide affordable rentals. Many of Hawaii’s residential investment properties are used as rentals. Taxes are typically passed on to renters as a cost, so this measure will have the practical impact of increasing rents and negatively affecting renters. Rental units are typically already also hit with higher county real property taxes for non-owner occupants, and in the case of the City & County of Honolulu, many are also subject to the “Residential A” classification, which has had the effect of doubling or even tripling real property taxes on these properties. This measure would impose yet another tax
and further contribute to making rentals unaffordable. Especially hard hit would be affordable rental properties, since by definition they would all have a value of $1 million or greater.

3. The measure would hurt Hawaii’s families and the ability to keep properties in the family. For estate planning purposes, properties are often taken out of parents’ names and put into various estate planning vehicles such as family limited partnerships or limited liability companies. Doing this, however, could convert these properties into “residential investment properties” and subject these properties to being hit by the surcharge under this measure. This is true even if the parents are still living in the home, because the legal ownership has been transferred into another entity.

4. The constitutionality and legality of this type of tax is being challenged and litigated in the Hawaii state courts. In 2013, the City and County of Honolulu approved Ordinance 13-33, which amended Section 8-7.1 of the Revised Ordinances of Honolulu to impose a higher tax rate on “Residential A” properties, defined as being non-owner-occupant residential dwellings or condominiums with an assessed value of $1 million or more. The definition is basically the same as that being proposed in this measure.

A number of taxpayers have filed challenges to the new classification in the State Tax Appeal Court, which were then consolidated as In re Tax Appeal of Cole, Case No. 1 T.X. 15-1-0243. The tax appeals challenged the Residential A classification on the basis that it was unlawfully discriminatory. The taxpayers alleged that the classification did not meet the United States Supreme Court’s requirements that, in order for a tax to be constitutional, it must: (1) be applied to an activity with a substantial nexus with the taxing State; (2) be fairly apportioned; (3) not discriminate against interstate commerce; and (4) be fairly related to the services provided by the State. See Complete Auto Transit, Inc. v. Brady, 430 U.S. 274, 279 (1977).

The Tax Appeal Court initially granted summary judgment in favor of the taxpayers, but subsequently reversed its prior ruling and entered judgment for the City. The taxpayers filed a motion for reconsideration on August 1, 2017, which is still pending before the court. Depending on the outcome of the case before the Tax Appeal Court, the taxpayers may consider further appealing the issue to the Hawaii Intermediate Court of Appeal to continue to challenge the classification.

The tax classification being challenged in In re Cole and the classification established by this measure are virtually identical. A ruling in favor of the taxpayers on appeal would also call into question the validity of this “surcharge tax.” We do not think it is appropriate to present such a classification to the voters for approval while there is pending litigation, and the possibility that such a classification would be invalidated by the courts.

For these reasons we would strongly urge that this measure be held in committee. Thank you for the opportunity to testify on this measure.
Tuesday April 3, 2018

Testimony of
Steve Yannarell
General Manager at The Waikoloa Beach Marriott Resort and Spa

&
Hawaii Island Chair Hawai‘i Lodging & Tourism Association

House Committee on Education

 Senate Bill 2922 SD1

Chair Woodson, Vice Chair Kong, and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of the Hawai‘i Lodging & Tourism Association, the state’s largest private sector visitor industry organization.

Regarding Senate Bill 2922 SD1, the Hawaii Lodging & Tourism Association specifically opposes the provision on the visitor accommodation surcharge. As much as we support improving upon our state’s education system, we must seriously take into consideration the tax burden our visitor industry already bears. Moreover the record is clear of the thousands of dollars HLTA and our individual tourism organizations and properties contribute yearly statewide towards education at all levels. We prioritize this objective.

Our respectful opposition is based on the following reasons:

Higher taxes and fees harm our ability to compete. Last August, the Legislature raised the TAT, to the point where guests now pay a TAT of 10.25 percent. Coupled with the general excise tax, guests pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on O‘ahu. Hawai‘i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, in both the domestic and international markets.
Tourism already is the state’s largest revenue producer. Tourism continues to be the largest single source of private capital for our economy. Recent reports have noted that (a) tourism accounted for 204,000 jobs; (b) visitor spending last year totaled $16.8 billion, a new high; and (c) the state’s tax take was $1.96 billion. Of that sum, TAT revenues alone generated nearly $545 million for the state’s coffers last fiscal year.

The hospitality industry in not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai’i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

More than half of TAT revenue now goes to the general fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. Latest reports reveal that now it’s a whopping 60% of the TAT that goes to the general fund. We would surmise that public education may already be receiving a share of TAT revenue through its general fund budget allocations.

The state government is not collecting TAT and general excise taxes on transient vacation rentals. The Hawai’i Lodging & Tourism Association supports legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands of alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding TAT and general excise taxes. If the House and Senate could agree on a legislative measure with the Governor’s concurrence, millions of dollars would find its way into the state coffers.

For these reasons, the Hawai’i Lodging & Tourism Association continues to oppose raising taxes and extra fees on the visitor industry and we respectfully urge you to remove the establishment of a transient vacation surcharge from Senate Bill 2922 SD1.

Mahalo for the opportunity to testify.
Testimony of
Harris Chan
Area Vice President
Marriott International, Inc.

House Committee on Education

Senate Bill 2922 SD1

Chair Woodson, Vice Chair Kong, and members of the Committee, thank you for the opportunity to offer this testimony on behalf of our over 9000 associates, the state’s largest hotel company.

Regarding Senate Bill 2922 SD1, Marriott International specifically opposes the provision on the visitor accommodation surcharge. As much as we support improving upon our state’s education system, we must seriously take into consideration the tax burden our visitor industry already bears. Moreover the record is clear of the thousands of dollars our individual associates and properties contribute yearly statewide towards education at all levels. We prioritize this objective.

Our respectful opposition is based on the following reasons:

Higher taxes and fees harm our ability to compete. Last August, the Legislature raised the TAT, to the point where guests now pay a TAT of 10.25 percent. Coupled with the general excise tax, guests pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on O‘ahu. Hawai‘i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, in both the domestic and international markets.

Tourism already is the state’s largest revenue producer. Tourism continues to be the largest single source of private capital for our economy. Recent reports have noted that (a) tourism accounted for 204,000 jobs; (b) visitor spending last year totaled $16.8 billion, a new high; and (c) the state’s tax take was $1.96 billion. Of that sum, TAT revenues alone generated nearly $545 million for the state’s coffers last fiscal year.

The hospitality industry in not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai‘i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

More than half of TAT revenue now goes to the general fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of
revenue for purposes other than originally intended. Latest reports reveal that now it's a whopping 60% of the TAT that goes to the general fund. We would surmise that public education may already be receiving a share of TAT revenue through its general fund budget allocations.

The state government is not collecting TAT and general excise taxes on transient vacation rentals. Marriott International supports legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands of alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding TAT and general excise taxes. If the House and Senate could agree on a legislative measure with the Governor's concurrence, millions of dollars would find its way into the state coffers.

For these reasons, Marriott International continues to oppose raising taxes and extra fees on the visitor industry and we respectfully urge you to remove the establishment of a transient vacation surcharge from Senate Bill 2922 SD1.

Again, thank you for the opportunity to testify.
Chair Woodson, Vice Chair Kong, and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of Highgate Hotels who currently operates 6 hotels in Waikiki with a combined 3,000 guestrooms.

Regarding Senate Bill 2922 SD1, we specifically opposes the provision on the visitor accommodation surcharge. As much as we support improving upon our state’s education system, we must seriously take into consideration the tax burden our visitor industry already bears. Moreover the record is clear of the thousands of dollars HLTA and our individual tourism organizations and properties contribute yearly statewide towards education at all levels.

Our respectful opposition is based on the following reasons:

**Higher taxes and fees harm our ability to compete.** Last August, the Legislature raised the TAT, to the point where guests now pay a TAT of 10.25 percent. Coupled with the general excise tax, guests pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on O‘ahu. Hawai‘i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, in both the domestic and international markets.

**Tourism already is the state’s largest revenue producer.** Tourism continues to be the largest single source of private capital for our economy. Recent reports have noted that (a) tourism accounted for 204,000 jobs; (b) visitor spending last year totaled $16.8 billion, a new high; and (c) the state’s tax take was $1.96 billion. Of that sum, TAT revenues alone generated nearly $545 million for the state’s coffers last fiscal year.

**The hospitality industry in not an infinitely prosperous, infinitely taxable entity.** Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai‘i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.
More than half of TAT revenue now goes to the general fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. Latest reports reveal that now it's a whopping 60% of the TAT that goes to the general fund. We would surmise that public education may already be receiving a share of TAT revenue through its general fund budget allocations.

The state government is not collecting TAT and general excise taxes on transient vacation rentals. Highgate Hotels supports legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are tens of thousands of alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding TAT and general excise taxes. Mahalo for the opportunity to testify.
Written Testimony of
Glenn Vergara
General Manager
WAIKIKI RESORT HOTEL

Senate Committee on Education

SB2922 SD1: Proposing Amendments to Articles VIII and X of the Constitution of the State of Hawaii to Authorize the Legislature to Establish a Surcharge to Increase Funding for Public Education

Chair Kidani, Vice-Chair Kahele and members of the Committee on Education, mahalo for the opportunity to offer testimony on behalf of Waikiki Resort Hotel, a 275 room property that employs 125 people.

While we recognize the importance of education and support improving the state’s education system, we are concerned about the responsibility in funding this effort being placed on the hospitality industry as opposed to the overall tax paying public without establishing a clear nexus between visitors to the state and education. As such, we respectfully **OPPOSE Senate Bill 2922 SD1**.

Coupled with the general excise tax, guests already pay a 14.41 percent tax on the Neighbor Islands and 14.96 percent on O'ahu. In our opinion, Hawaii’i has reached a point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, particularly as more and more other destinations become more appealing in the eyes of potential travelers. If we are to remain competitive, we must be careful in placing any further tax burden on an industry that supplies over 200,000 jobs to the state and already generates over half a billion in TAT revenues to the state.
As we’ve stated in previous written testimonies, we contend that increasing the general excise tax by a half percent would be a better revenue-generating alternative, in that it would be broad-based and borne by visitors as well as residents who benefit from the public-school system.

We oppose raising taxes and extra fees on the visitor industry and as such respectfully urge you to remove the establishment of a transient vacation surcharge from Senate Bill 2922.

Mahalo for the opportunity to testify.

State Capitol, Room 309

RE:  SB 2922 – Proposing Amendments to Articles VIII and X of the Constitution of the State of Hawaii to Authorize the Legislature to Establish a Surcharge to Increase Funding for Public Education

Chair Woodson, Vice-Chair Kong, & members of the Committee:

My name is Gladys Quinto-Marrone, CEO of the Building Industry Association of Hawaii (BIA-Hawaii). Chartered in 1955, the Building Industry Association of Hawaii is a professional trade organization affiliated with the National Association of Home Builders, representing the building industry and its associates. BIA-Hawaii takes a leadership role in unifying and promoting the interests of the industry to enhance the quality of life for the people of Hawaii.

BIA-HAWAII is opposed to S.B. 2922 S.D. 1 which proposes to amend the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on visitor accommodations and on residential investment property valued at one million dollars or more for which the owner does not qualify for a homeowner's exemption, as provided by law, to fund public education for Hawaii's children. Proceeds from the surcharge may be used for recruitment and retention of teachers, public preschools, reduction in class sizes, special education programming, career and technical education, art, music, Hawaiian studies, Hawaiian language instruction, afterschool programs, and such programs and projects as the legislature may authorize by law.

While we wholeheartedly support the need to fund public education in Hawaii, we believe that the Department of Education (DOE) has not fully utilized existing tools that the Legislation has provided them to generate more funds for public education.

Act 245, 2007 SLH, established a process for the DOE to impose school impact fees on new, greenfield residential developments that were determined to have an impact on public schools in the area.

The legislature also passed Act 155, 2013 SLH. The purpose of Act 155 was to optimize the use of public school lands to generate opportunities to improve public school facilities and infrastructure to meet the challenges of the twenty-first century and to improve the overall quality of education in Hawaii. In particular, the Act was to establish a pilot program to generate revenue from uses for public purposes, such as workforce housing, to build and retrofit twenty-first century schools and create more school-centered communities.

We understand that the DOE is in the process of developing impact fees for all new "in-fill” residential developments that is intended to address the need for schools for all of the planned density along the Honolulu Rail Transit corridor.
We also understand the DOE has been implementing Act 155 through the development of a process which would allow them to redevelop underutilized school properties. In its efforts to redevelop or "monetize" its land assets, the DOE has submitted a bill this session (HB 2679) that would transfer the ownership of school lands from the City and County of Honolulu and the State Department of Land and Natural Resources under a consolidated ownership of the DOE.

The funds generated thru Impact Fees and redevelopment of real estate assets should be used to offset legislative appropriations that could then be redirected toward the programs listed in the bill. We firmly believe that these other sources of revenue need to be fully vetted and applied by the DOE to determine if there is a need for additional funding sources. This should be done before considering creating other sources of revenue to benefit the DOE. We believe that this is a prudent course and should be considered prior to increasing taxes on visitors and absentee homeowners.

We are opposed to S.B. 2922, SD 1, and appreciate the opportunity to express our views on this matter.
Comments:

Chair **Woodson** and Members of the Committee:

My name is Shanell Kagamida. I am a Teacher at Mililani Uka Elementary School in Central District on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because teachers often pay out of pocket to support the needs of our students. The low pay and lack of funding often drive highly qualified people away from our profession or force us to leave this profession in order to support our families.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Chair Woodson and Members of the Committee:

My name is Danielle Fujii. I am a library media specialist at Kalaheo High School in the Windward District on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society. Investing in our public schools is an investment in our future.

Supporting this proposal will lift Hawaii’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, updating and maintaining school infrastructure, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because school infrastructure is falling so far behind with even basic maintenance, let alone fixing things that are already broken. Just a few years ago, my library’s aging air conditioner finally failed. Due to the age of the air conditioner, the repair company recommended it be replaced. Instead, it was determined that it would be fixed. Unfortunately, since the device was so old, a part had to be custom made. It took an entire school year to get it fixed, while the books, computers, and students sat in a hot, windowless space. My library has also faced many leaks. A few leaks were in the library for YEARS before they were addressed and often would re-occur.

Additional funding is also needed to provide schools and students with the technology resourced needed to ensure our students are career and college ready in the 21st Century. We must provide students with the basic information literacy skills needed to be well-prepared once they graduate. This means providing updated technology for both staff and students, an expanded WiFi network, more online resources, and highly trained staff such as certified librarians/library media specialists.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Unless we want a teachers strike we need to do this. I strongly support SB2922.
TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3 p.m.

Chair Woodson and Members of the Committee:

My name is Lynn Otaguro. I am a teacher at Lincoln School on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

In this day and age, we see the importance of strong public schools in providing an understanding of our governmental institutions and in giving our students the strength and the ability to speak out for what they believe is right. We need additional funding for our public schools so that our teachers don’t have to take on second or third jobs to support their families and so that they can better focus on their classrooms and their students. We want to be able to attract and retain our young people in the teaching profession and to build expertise in our staffs.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Lynn Otaguro

Oahu, Hawaii
My name is Leslie Lopez. I am a proud parent of two children: a Hawai‘i public school graduate; and a public school student at Kaimuki Intermediate in Honolulu District on O‘ahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

We need additional funding for our public schools, because the majority of children in Hawai‘i attend public school - not private - this disparity is unjust. All children should have clay and paint in their art classes, instruments in music, microscopes and bunsen burners in science, a school nurse, smaller class sizes, a PE teacher, enough counselors and advisors, clean grounds and facilities, healthy lunches, field trips - this must be our priority. Our hardworking teachers are working several jobs to make ends meet and spending their own money on supplies for students.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Leslie Lopez
Honolulu District
O‘ahu
House District 23
Chair Woodson and Members of the Committee:

My name is Carol Ann Bushey. I am a teacher at Lana'i High and Elementary School in Canoe on Lana'i. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we cannot keep up with the rapid changes in the society. Technological changes, societal changes, biological changes. Lanai is a unique and wonderful place. But the students are not offered the same technological advances that the other islands much less the mainland has to offer. To make the most of increased any new equipment, the teachers need inservice on how to grow with the technology. As time goes on, change is usual. There are many negative aspects creeping into the aloha of former days. Our sweet children have to be exposed to walk outs to emplore legislatures to protect them from military, repeating weapons. They have to hide under desks, as we used to during the days of the cold war. They are assailed with internet messages that they do not have the sophistication to determine the validity or propriety. They have to fund raise for every extra on and off island, as well as the funds to go off island. Our community is very generous: parents work two and three jobs to do the best for their children. Many members have had to relocate due to constrictions on earning. Housing is so
expensive with comparison to the mainland. Teachers cannot afford to relocate in order to settle here. The attrition rate leaves a sense of abandonment by students and teachers alike. It is hard to build a sense of trust when important people in your circle keep leaving. Please help us to keep the students feeling safe and valued by funding their needs. To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Aloha,
I am a retired DOE special education teacher. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

After 32 years of teaching, I have seen financial support for my class dwindle to almost nothing. Like many other teachers, I sacrificed not only time but a lot of my money to teach my students. Fortunately, I have a supportive husband who also believes in public education.

Now that I am a substitute teacher, I see how sad some schools are with damaged books, furniture, and classrooms that need a lot of improvement. Please support this bill.

Aloha,
Vera Arita, M.Ed.
Retired teacher

Chair Woodson and Members of the Committee:

My name is Micah Pregitzer. I am a teacher at Kalaheo High School in Kailua in Windward district on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting this proposal will lift Hawai’i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because as a teacher I see first hand how a lack of proper funding in Hawaii negatively impacts Hawaii’s children and our future. I see first hand how the low pay for teachers, along with high cost of living and a lack of support due to monetary restrictions drive amazing teachers out of the profession and prevent others from ever starting. I see first hand how deteriorating buildings and equipment put teachers and students in danger every day in our labs. The best way to ensure a prosperous future for our state is to invest in its public education, and the best way to do that is by securing a dedicated source of funding for it! Please pass this bill!

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo,

Micah Pregitzer,

Chair Woodson and Members of the Committee:

My name is Romeo Eleno. I am a teacher at Lana'i High & Elementary School on the Island of Lana'i. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

We need additional funding for our public schools because education as a whole cannot provide quality education without sufficient resources for the classroom as well as trying to attract and retain teachers on the lowest salary of ALL educators in the Continental US when factoring in the cost of living.

Teaching on Lana'i for over 20 years, the Weighted Student Formula doesn't provide equality to isolated and small schools such as LHES as compared to larger schools. We are not able to attract qualified teachers year after year which affects our student test scores yearly.

To deliver the schools our keiki deserve, please do the right thing and support this bill.

Mahalo,
Romeo Eleno
Maui District, Island of Lana'i
Chair and members of the Education Committee

I am Marcia Linville, testifying in support of SB2922SD1, for the Education Caucus of the Democratic Party of Hawaii.

The Education system is underfunded and unable to supply the needs of the nation. Current Teacher strikes across the nation show that this is not just a local problem. In SB2922SD1 Hawaii is being given the chance to solve a portion of the problem. This bill could not be more timely. Money alone will not solve the problem. The problem cannot be solved without money. This bill provides a possibility to obtain additional funding at a lesser cost to most of Hawaii’s tax payers than others proposed. It give the public the opportunity to have a say in the matter. Others have argued well with facts and figures and personal testimony, as have I for the last 40 years. I will not repeat that here. If passed, this bill will show the rest of the nation that Hawaii is willing and able and cares enough about it’s future to look for new ways to solve an old problem.

I ask your support for SB2922SD1.

Thank you for the opportunity to testify on this matter.

Marcia Linville

RE: SB 2922 SD1 RELATING TO EDUCATION

WEDNESDAY, APRIL 4, 2018

3 p.m.

Chair Woodson and Members of the Committee:

My name is Danielle Fujii. I am a library media specialist at Kalaheo High School in the Windward District on Oahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

Our children are our future. When teachers instruct their students, we/they build the foundation for equality and prosperity for tomorrow’s generations. Every dollar invested in our community’s public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society. Investing in our public schools is an investment in our future.

Supporting this proposal will lift Hawaii’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, updating and maintaining school infrastructure, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because school infrastructure is falling so far behind with even basic maintenance, let alone fixing things that are already broken. Just a few years ago, my library’s aging air conditioner finally failed. Due to the age of the air conditioner, the repair company recommended it be replaced. Instead, it was determined that it would be fixed. Unfortunately, since the device was so old, a part had to be custom made. It took an entire school year to get it fixed, while the books, computers, and students sat in a hot, windowless space. My library has also faced many leaks. A few leaks were in the library for YEARS before they were addressed and often would re-occur.

Additional funding is also needed to provide schools and students with the technology resourced needed to ensure our students are career and college ready in the 21st Century. We must provide students with the basic information literacy skills needed to be well-prepared once they graduate. This means providing updated technology for both staff and students, an expanded WiFi network, more online resources, and highly trained staff such as certified librarians/library media specialists.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Danielle Fujii, Windward District, Oahu
Chair Woodson and Members of the Committee:

Aloha, my name is Crystal Stafford. I am a science teacher at Kalaheo High School in Windward O‘ahu. I am submitting testimony in support of SB 2922 SD1 to increase funding for public schools.

I am not only a teacher, but a parent. I am saddened by the lack of funding and support for education in Hawaii. My brother moved away from O‘ahu to Oregon so that his children could have access to an educational system that values children and teachers. Our children are our future. Hawaii is unique in many ways. We need to keep and retain quality teachers to educate and inspire our youth to solve the many challenges that Hawaii faces. We need to let the families of Hawaii know that we value their keiki and will do our best to see them succeed.

Supporting this proposal will lift Hawai‘i’s schools into the 21st Century. A vote for this measure is a vote for lower class sizes that allow teachers to connect with their students, access to technology and resources that will make our students competitive on a global scale, whole child education that includes the arts and Hawaiian studies, providing support and services for students with special needs, and providing professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools and we need it NOW.

To deliver the schools our keiki deserve, please support this bill.

We need your help. Mahalo.

Comments:

Having a dedicated tax to fund anything is a bad idea. Look at rail.

Changing the constitution to allow this is a bad idea.

THIS BILL NEEDS TO BE OPPOSED as Hawaii residents and homeowners should not be penalized with more taxes.

NO NEW TAXES. VOTE NO ON SB 2922 SD1.

Mel

Re: SB 2922, SD1 (SSCR2754) PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE TO INCREASE FUNDING FOR PUBLIC EDUCATION Hearing: Wed., April 4, 2018, Room 309

Dear Chair Woodson, Vice Chair Kong and Committee Members,

We are Rev. Deborah Bond-Upson and Rev. Leland Bond-Upson, Unitarian Universalist ministers living in Kailua, Hawaii. Deborah works in education, serving education organizations across the country such as the National Board for Professional Teaching Standards, ACT, and NBC. She is a board member of Parents for Public Schools of Hawaii and the Social Justice Council of the First Unitarian Church of Honolulu. Leland serves churches across the country as an interim minister. Our four children all attended public schools and we are committed to quality public education for all.

We are writing in strong support for SB 2922.

We are struck by three distinct characteristics of the Hawaii public school system:

1) Hawaii does not have permanent funding for schools and does not receive funding from property taxes. Every other state has property tax revenues to support schools.

2) Hawaii has greater potential to efficiently accomplish change, equity, and excellence in all its public schools since the state is one school district instead of many districts and there is strong support for quality public education. This was especially clear during the year of ESSA and Governor’s Blueprint community meetings.

3) Hawaii has devastating rates of teacher turnover and classes without permanent teachers—mainly caused by comparatively low wages relative to cost of living.

It is critical for the welfare of all young people and their families that they have access to a quality education with skilled teachers, trained in their fields. Quality education is not only critical for those students and their families, but it also is critical to Hawaii economic and social health. We must develop educated workers to attract and retain industry, for existing industries to thrive, and to avoid heavy social costs of unemployment, criminal activity, and homelessness.

Every person we have discussed this with is in support of permanent property tax funding for education. Please support SB2922 to give voters the opportunity to consider and vote on this critical issue.

Thank you for your attention and for your support of Hawaii schools!

Rev. Deborah Bond-Upson and Rev. Leland Bond-Upson
Comments:

Yes, please pass this measure and finally give education in Hawaii the support it needs. It is also especially important to tax high-end investment property very heavily, both to discourage off-island money from coming in and raising the property values so high, and to require that those benefiting from property in Hawaii are contributing their share to the society.
Aloha,
Rep. Justin H. Woodson, Chair
Rep. Sam Satoru Kong, Vice Chair
And members of the House Education Committee

I would like you to strongly support SB 2922, SD 1. My name is Brayden Kaleo Ramos and I am a teacher in a Hawaiian charter school, an associate family teacher for a prominent agency contracted by the state, a master’s student, outreach worker, community service agent, activist, son, brother, partner and parent. Teachers in Hawai’i serve many roles in our community, some of them as agents of change and others as employees to other capacities separate of our career as teachers.

My current role in the many positions above are what I juggle on a daily basis. What has become my normal is working 7-days a week and on somedays like Mondays and Fridays I work a double shift. The other days like Tuesdays, Wednesdays and Thursdays, I attend classes at night for my graduate program in education. On this last paycheck of my second job, which incorporated spring break, when I should have been relaxing and planning for the next quarter, I worked a total of 94 hours. More than what is considered full-time. I, like many of my colleagues have to work second jobs in order to make ends meet while living in the State of Hawai’i. The cost of living in Hawai’i rose so high that we cannot even retain our very own teachers on the currently DOE salary, teachers who would understand our students and their unique needs the most. Instead, the DOE is trying to recruit teachers from other states, enticing them with false promises that Hawai’i is a great career move for any teacher. Why not invest in our own teachers? The teachers who when they stand in front of a classroom, students see a reflection of someone with shared experiences of growing up and living in Hawai’i, someone who understands this unique “local” culture, that when we travel to far-a-way places and see people from Hawai’i, we instantly feel at home, this commonality between strangers from a same place.

As far as my school, we operate on a very limited budget. We don’t have much money for extras and for the last 17 years we have struggled with always having less, thus, hindering our ability to financially support our students 100% of what they truly deserve. Many of us in our school wear multiple hats to save on money, for example, I have two roles, I teach 6th grade and I am one of only two allocated special education teachers in our entire school of grades 4-12. On several occasions I’ve had to leave my students with another teacher during their prep time, armed with a lesson plan, in order to run-a-way to take care of special education needs.

What many people do not know is that of the money allocated to our school for the students; half of that money must be put toward maintaining facilities, utilities and other school expenses, which is unlike regular DOE schools who have come already equip with these necessities. Our staff and students have been the custodial staff at our school, which means we clean our own classrooms and campus every day before and after school. At our school, our 7-hour school days are long, on a campus that is laden with dirt, rocks, mold, and rust and our principal is forced to constantly rework our budget to finance the upkeep of our fragile campus.
This year we found that we could no longer use and have to replace one of our classroom trailers due to a mold infestation—another cost to our school. These classes have since been relocated to under an easy up tent in another section of campus. The weekly norm for me has been spending much of my 55-minute prep period standing in front of a copy machine, copying from standards-based, student textbooks that I’ve purchased through Amazon over the summer. These prep periods have become not enough time for valuable planning and grading, forcing me to take work home. In addition to books, I’ve also had to purchase supplies for my classroom. This summer I saved my receipts, which totaled nearly $900—much greater than the $250 slap-in-the-face teacher tax credit. However, it shouldn’t have to be like this, our teachers are constantly expected to make everything work for our students without compensation, another way teachers are taken advantage of. Please do not ‘take our kindness for weakness.’

Sacrificing a lot of ourselves and time has become the life and culture of our schools, a reflection of the love we have for our students and our investment in the State of Hawai‘i, but this love and sacrifice cannot be exchanged or passed off as living expenses, therefore our government must find another way to factor teacher salary to cost of living and invest more money in our schools as if education is and should be a priority.

Each of my students to me is a personal investment in the State of Hawai‘i as it should be yours. These are our children, and when we invest in our teachers, we invest in our schools, and when we invest in our schools, we invest in our students. They will thrive. These are our children and deserve the very best that education has to offer.
I feel badly for you, having to split up a pie when there are more guests than pie. It seems everyone wants a piece of the pie and I can’t imagine how difficult it is to be the ones making decisions as to who gets what, knowing that many worthy groups, individuals and causes aren’t getting what they need, simply because there isn’t enough to go around.

As an educator and as a parent of a current public school student a few public school graduates, I hope you will agree that children and public education should be a priority. Yet, every year, we are back asking for funding.

I hope you will pass this amendment and set up a reasonable and realistic source of regular funding for public education so Hawaii can truly have the best public education system! Make more pies, instead of giving out smaller pieces!

Thank you!
