**Before the Senate Committee on
AGRICULTURE AND ENVIRONMENT**

**Friday, February 1, 2019
1:20 PM
State Capitol, Conference Room 224**

**In consideration of
SENATE BILL 1150
RELATING TO THE DEPARTMENT OF AGRICULTURE**

Senate Bill 1150 would provide funds to the Hawaii Department of Agriculture (DOA) to assist farmers in the exclusion or control of feral pigs impacting agricultural lands. **The Department of Land and Natural Resources (Department) supports this measure provided that its passage does not replace or adversely impact priorities indicated in the Executive Budget request and offers the following comments.**

The Department recognizes feral pigs as both an invasive species and a game mammal in Hawaii. The Department has a long history of excluding or controlling pigs from native forests in Hawaii in order to support watershed function and supports similar efforts by DOA to minimize the impacts of feral pigs on agricultural lands. The Department defers to the DOA on the best approach to support farmers and can assist the DOA with provision of permits for wildlife control where necessary.

Thank you for the opportunity to comment on this measure.

**TESTIMONY OF JAMES J. NAKATANI
EXECUTIVE DIRECTOR
AGRIBUSINESS DEVELOPMENT CORPORATION**

**BEFORE THE COMMITTEE ON AGRICULTURE AND ENVIRONMENT
Friday, February 1, 2019
1:20 p.m.**

**SENATE BILL NO. 1150
RELATING TO THE DEPARTMENT OF AGRICULTURE**

Chairperson Gabbard and Members of the Committee:

My name is James Nakatani, Executive Director of the Agribusiness Development Corporation (“ADC”). The ADC supports Senate Bill No. 1150, which appropriates funds for feral pig control.

Feral pigs are, and continue to be, a nuisance to agriculture operations across the State. A prime example is the destruction to agriculture caused by feral pigs on ADC lands in Kalepa, Kauai. An added danger is the trespassing by hunters on State lands as they track the animals.

As such, the ADC fully supports the Department of Agriculture in developing and implementing an effective control plan to reduce the populations of feral pigs.

Thank you for the opportunity to testify, and for your consideration of this bill.

TESTIMONY OF THE DEPARTMENT OF AGRICULTURE
BEFORE THE SENATE COMMITTEE ON AGRICULTURE & ENVIRONMENT

FEBRUARY 1, 2019
1:20 P.M.
CONFERENCE ROOM 224

SENATE BILL NO. 1150
RELATING TO THE DEPARTMENT OF AGRICULTURE

Chairperson Gabbard and Members of the Committee:

Thank you for the opportunity to present testimony on Senate Bill 1150 which appropriates funds to the Department to develop an effective control plan for reducing the population of feral pigs statewide. The Department of Agriculture supports the intent of this bill provided it does not impact the Department's priorities listed in the Executive Budget.

Feral pigs can have devastating impacts on farmers statewide. From crop loss to irrigation damages, these feral animals can subject farmers to additional costs associated with agricultural production. Game management, through wildlife control permits through the Department of Land and Natural Resources, is an option that agriculturalists may be able to pursue. With the funding allotted in this measure, the Department will work with the community to determine effective control measures to reduce costs to the agricultural community.

Thank you for the opportunity to testify on this measure.

Board of Directors 2018 - 2020

TESTIMONY FROM BENNETTE MISALUCHA, EXECUTIVE DIRECTOR

President
Joshua Uyehara

In Support of SB1150
Relating to the Department of Agriculture

Vice-President
Warren Mayberry

SENATE COMMITTEE ON AGRICULTURE AND ENVIRONMENT
February 1, 2019, 1:20 p.m.
Conference Room 224

Secretary
Dawn Bicoy

Chair Gabbard and members of the committee:

Treasurer
Laurie Yoshida

The Hawaii Crop Improvement Association (HCIA) is in support of SB1150, which appropriates funds to the Department of Agriculture to develop an effective control plan for reducing the population of feral pigs statewide.

Directors-at-Large
Alan Takemoto
Adolf Helm
Leslie Campaniano
Dan Clegg
Joshua Uyehara
Warren Mayberry

Feral pigs are a substantial threat to agriculture in Hawaii. Over the years, local farmers have watched as the population of these environmental and agricultural pests have grown. The risk to agricultural crops and livestock is substantial. Invasive feral hogs destroy agriculture crops by digging up the soil for food and creating niche spaces for other non-native species. The requested funding will allow the Department of Agriculture to develop a much-needed control plan to limit the negative impacts produced by these animals.

President Emeritus
Alan Takemoto

HCIA respectfully requests that this committee vote yes on SB1150 to help local farmers protect their businesses and livelihoods.

Executive Director
Bennette Misalucha

Mahalo for your consideration.

Respectfully submitted,

Bennette Misalucha
Executive Director, Hawaii Crop Improvement Association

The Hawaii Crop Improvement Association is a Hawaii-based non-profit organization that promotes modern agriculture to help farmers and communities succeed. Through education, collaboration, and advocacy, we work to ensure a safe and sustainable food supply, support responsible farming practices, and build a healthy economy.

January 29, 2019

Senator Mike Gabbard, Chair
Senator Russell E. Ruderman, Vice-Chair
Senate Committee on Agriculture and Environment

**Support of SB 1150, Relating to the Department of Agriculture (DOA)
(Appropriates funds to the DOA for feral pig control.)**

Friday, February 1, 2019, 1:20 p.m., in Conference Room 224

The Land Use Research Foundation of Hawaii (LURF) is a private, non-profit research and trade association whose members include major Hawaii landowners, developers and a utility company. LURF's mission is to advocate for reasonable, rational and equitable land use planning, legislation and regulations that encourage well-planned economic growth and development, while safeguarding Hawaii's significant natural and cultural resources, and public health and safety.

LURF appreciates the opportunity to express its **support of SB 1150.**

SB 1150. This bill proposes to appropriate funds to the DOA to develop an effective control plan for reducing the population of feral pigs statewide.

LURF's Position. LURF understands that feral pigs are destructive animals, destroying farm crops throughout the State, and now extending their reach into urban areas. These invasive animals destroy agriculture crops by digging up the soil for food and creating niche spaces for other non-native species.

Invasive species and animals such as insects, disease-bearing organisms, snakes, weeds, and other pests pose the greatest threat to Hawaii's economy, tourism, agriculture, the natural environment, and to the health and lifestyle of Hawaii's people, and already cause millions of dollars in crop losses, the extinction of native species, the destruction of native wet, moist and dry land forests, and the spread of disease. More harmful animals and pests increasingly threaten to invade all the Hawaiian Islands and wreak further damage.

Support of and assistance to local farmers is essential to mitigate the threats and impacts of invasive animals in Hawaii and to effectively protect Hawaii's natural resources and native species. SB 1150 will assist local agricultural stakeholders by appropriating funds to the DOA for feral pig control including grants for fencing and corral traps; and introduction of a program to reduce feral pig populations, thereby aiding in the prevention and control of these invasive animals and ultimately, the protection of Hawaii's environment and economy.

For the above reasons, LURF **supports SB 1150** and respectfully urges your favorable consideration.

Thank you for the opportunity to present testimony regarding this matter.

February 1, 2019

HEARING BEFORE THE
SENATE COMMITTEE ON AGRICULTURE AND ENVIRONMENT

TESTIMONY ON SB 1150
RELATING TO DEPARTMENT OF AGRICULTURE

Room 224
1:20 PM

Aloha Chair Gabbard, Vice Chair Ruderman, and Members of the Committee:

I am Brian Miyamoto, Executive Director of the Hawaii Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,900 farm family members statewide, and serves as Hawaii's voice of agriculture to protect, advocate and advance the social, economic and educational interests of our diverse agricultural community.

The Hawaii Farm Bureau supports SB 1150, which appropriates funds to the department of agriculture for feral pig control.

Feral pigs can cause major damage to property, agriculture (crops and livestock), Hawaii's native species and ecosystems, and Hawaii's cultural and historic resources. Feral pigs can also threaten the health of people, wildlife, pets, and other domestic animals. As Hawaii's feral pig populations continue to expand, these damages, costs, and risks will only keep rising.

Feral pigs cause tremendous damage to agriculture, including crops, nursery, livestock, and pasture. They damage crops by consuming them or by their rooting and trampling of crops. They will eat almost any crop. Feral pigs damage pasture grasses, killing desired plant species and often encouraging the growth of undesired weed species. They can also devastate orchards by consuming fruit, citrus, and nuts and their rooting can severely damage, or even kill saplings, shrubs, and vines directly or by facilitating the spread of soil-based fungal diseases. Feral pigs can also break irrigation lines, rip or tear nets, drying racks, and other agricultural structures and equipment.

Hawaii's farmers and ranchers appreciate any effort to help control the feral pig population and the negative impacts that feral pigs have on Hawaii's agriculture industry.

Thank you for this opportunity to testify on this important subject.

Comments:

Aloha...we desperately need help controlling feral pigs.However...if people continue feeding them the help will not last very long...Also if the list the DNLR has of hunters who charge money for mileage and a fee for every pig caught...people will not employ them...my neighbor is feeding 26 feral pigs...I have called the health dept...they came and emptied standing water but other than that my neighbors continued feeding them.I have spoken to many people who have the same situation...the Hunter I spoke with said there would be 200 pigs in my neighborhood next year...this bill does not go far enough if there is no provision to stop this practice.
