MANOA, TO CONDUCT A STUDY ON THE CUMULATIVE HEALTH EFFECTS OF  
PERSISTENT URBAN NOISE IN HONOLULU**

Hearing: Tuesday, March 23, 2021, 9:00 a.m.

---

The Office of the Auditor takes **no position** on H.C.R. No. 4 and H.R. No. 6 and offers the following comments.

The resolutions request the Auditor, in consultation with the John A. Burns School of Medicine at the University of Hawai'i at Mānoa, to conduct a study on the cumulative health effects of persistent urban noise in Honolulu, including the extent of urban noise, its effect on residents' quality of life, and possible solutions used by other urban environments that may also be effective in Honolulu.

The Office of the Auditor was established to conduct audits of state departments, offices, and agencies. Our work primarily is performance audits, meaning we evaluate a department or program's operations against appropriate criteria, such as relevant statutes, administrative rules, policies, procedures, and best practices, to assist the Legislature and the departments with improving program performance, reducing costs, and facilitating greater efficiency in state government.

Our sister-agency, the Legislative Reference Bureau, among other things, conducts studies and impartial policy and legal research upon request by the Legislature. We respectfully suggest the study requested is better addressed by that agency.

Thank you for considering our testimony related to H.C.R. No. 4 and H.R. No. 6.
