Comments:

As a property owner at the Kauai Kailani Resort, I am 100% in favor of SCR113. We are willing to invest our time and money into this beach restoration project. We have enjoyed this beach for over 40 years and want it to be restored to it's original splendor.

Comments:

I have been an owner first as time share starting in 1969 and currently own two fee simple units, KK-A 113 and KKJ-A 313.

This beach survived a direct hit from hurricane Iniki in 1992.

It is our intention to restore the public beach to it's previous condition.

We would rather not have a hardscape barrier that is currently protecting our property from further erosion.

Mahalo for your considerations,

Myer J Bornstein

Brian Mose	Individual	Support	No

Comments:

I am an owner and have spent extended time at Kauai Kailani for 35 years. The removal of the old groin caused immediate and severe lose of the beach which protected the property for nearly 60 years but also provided an important public beach which tourists enjoy and locals fished from daily. The restoration of this beach will be of no cost to the State or County and should serve as an example of best management practices for the protection of shoreline, sand beach and property in the State of Hawaii.

Respectfully, Brian Mose

Comments:

I'm a home owner at Kauai Kailani 304.

Please, approve the sea groin.

We are in danger of losing our frontage and hence our homes.

Thank you,

Dyle Henderson

Comments:

I'm in full support of this measure and hope the this will pass. Installing the groin again which was there before statehood, will once again protect this new beach which was destroyed. This will serve as an example to the rest of the state what can be done to remove temporary shoeline protections with this positive step and all at no cost to the State.
