Christy MacPherson	Individual	Support	No

Comments:

I am a resident of `Alewa Heights and am in strong support of SR77. When I worked as a program manager of a homeless shelter, one of our regular expenses was for period products. As we are all too aware, some families are struggling and are simply unable to afford these products. No student should feel shame or be bullied because of their ma`i. Instead, they should be able to live in dignity when they are in school.
