2. Date and location of transmission

3. Apparent activity or event that resulted in transmission

Response:
DOH is unable to determine the source of infection

Total Cases: 8,315**

Risk Factor
- Pending/Unknown
- Community
- Travel-associated contact
- Travel

*When symptom onset date is not available, test date is used
+ Illnesses that began in the past 10 days may not yet have been reported
4. Whether the individual may have infected others
Whether the individual may have infected others

- **COVID LINKED**
  - Yes: 31%
  - No: 69%

- **POSITIVE CONTACTS**
  - 0: 74%
  - 1 or more: 15%
  - Missing: 11%

“Yes” means the case has an initial case status of “Contact” and/or is recorded as having contact with a confirmed COVID case.

Based on the “number of close contacts positive” question in Maven.
5. Whether the individual was masked

Response: "DOH does not have requested data."
6. Whether the individual was symptomatic
Whether the individual was symptomatic

Based on the “symptomatic” variable in the dataset.
COVID-19 Cases by Initial Case Status-Hawaii, 2020 (N=7511)

Data as of August 26, 2020. All cases to date may not be included because of missing or pending data.

**Date of Symptom Onset**

- Orange: Contact
- Purple: Travel
- Pink: Contact with travelers
- Blue: Primary Case
- Gray: Unknown

*HI residents diagnosed outside of HI are not included.
**If onset data was not available, specimen collection data was used.
