

MAR 13 2008

SENATE CONCURRENT RESOLUTION

REQUESTING THE BOARD OF EDUCATION TO EVALUATE THE NECESSITY OF
MANDATORY HEALTH EDUCATION THAT INCLUDES MEDICALLY ACCURATE
SEX EDUCATION IN INTERMEDIATE AND MIDDLE SCHOOLS.

1 WHEREAS, health education, including sex education for
2 fifth graders, is an important part of a student's education in
3 the elementary schools; and
4

5 WHEREAS, one semester of health education is a graduation
6 requirement for students in public high schools and is usually
7 offered in the ninth or tenth grades; and
8

9 WHEREAS, health education in intermediate and middle
10 schools, however, is increasingly becoming an elective instead
11 of a mandatory course because schools are placing much greater
12 emphasis on attaining Adequate Yearly Progress under the federal
13 No Child Left Behind Act; and
14

15 WHEREAS, sexual health and responsibility, mental and
16 emotional health, personal health and wellness, and promoting
17 safety and preventing violence and unintentional injury are
18 topics that should be covered under the Hawaii Content and
19 Performance Standards III; and
20

21 WHEREAS, the goal of standards-based school health
22 education is to help adolescents develop the essential skills
23 necessary to adopt and maintain healthy behaviors; and
24

25 WHEREAS, this goal cannot be met if health education is
26 considered an elective course of study; and
27

28 WHEREAS, teen pregnancy, abstinence, birth control,
29 sexually transmitted diseases, HIV/AIDS, and how to deal with
30 peer pressure are topics that are covered under the health
31 standards; and
32

1 WHEREAS, students need to receive these kinds of
 2 information early and have it reinforced during their formative
 3 and transitional years, from elementary to intermediate or
 4 middle school to high school; now, therefore,
 5

6 BE IT RESOLVED by the Senate of the Twenty-fourth
 7 Legislature of the State of Hawaii, Regular Session of 2008, the
 8 House of Representatives concurring, that the Board of Education
 9 is requested to evaluate the necessity of mandatory health
 10 education, which would include medically accurate sex education
 11 in the intermediate and middle schools; and
 12

13 BE IT FURTHER RESOLVED that the Board of Education is
 14 requested to submit a report on its findings and
 15 recommendations, including information on implementation for a
 16 mandatory course of study in health education in intermediate
 17 and middle schools, to the Legislature no later than twenty days
 18 prior to the convening of the Regular Session of 2009; and
 19

20 BE IT FURTHER RESOLVED that certified copies of this
 21 Concurrent Resolution be transmitted to the Chairperson of the
 22 Board of Education and the Superintendent of Education.
