
A BILL FOR AN ACT

RELATING TO THE DEPARTMENT OF LAND AND NATURAL RESOURCES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature, together with the
2 administration, recognizes that extraordinary means must be
3 employed to catch up on deferred maintenance on parks, forests,
4 and ocean recreation facilities. With a one-time, substantial
5 upgrade to our parks, trails, and ocean recreation systems, the
6 State could go from being "reactive"--where failing facilities
7 absorb our time and attention--to "proactive." With new
8 facilities, the State can become progressive and focus more on
9 the primary mission of serving the public.

10 At the same time, the legislature, together with the
11 administration, recognizes that it is not enough to do a one-
12 time upgrade, but that it is also necessary to put systems in
13 place to ensure that the facilities are maintained at a higher
14 standard. Keeping our parks, trails, and ocean recreation
15 facilities at world-class levels requires more resources than
16 have been available in the past.

1 Small boat harbors and ocean recreational areas constitute
2 significant assets of the State. Their proper maintenance and
3 operation allow Hawaii residents to benefit from the State's
4 natural resources by engaging in recreational boating,
5 commercial and personal fishing, and small business operations.
6 In addition, visitors and residents alike use small boat harbors
7 and launch ramps to participate in local, regional, and
8 international yacht races, fishing tournaments, canoe regattas,
9 surfing, and other water sports.

10 The state parks and trails systems contribute to the
11 quality of the lives of our residents. Maintaining the natural
12 resources of the State will ensure that future generations will
13 continue to enjoy these assets. In addition, the legislature
14 further finds that a connection exists between Hawaii's state
15 park system and tourism. Tourists visit our islands each year
16 to enjoy our great outdoors, including the natural beauty and
17 the cultural treasures that comprise most of the state park
18 system. Residents and visitors heavily use these facilities.

19 The department of land and natural resources is
20 fundamentally restructuring the maintenance, restoration, and
21 management of our parks and boating facilities. The
22 department's recreational renaissance plan includes:

- 1 (1) A proposed one-time \$ upgrade to park
2 and boating facilities financed by \$ in
3 general obligation bonds and \$ in reimbursable
4 general obligation bonds;
- 5 (2) Additional fee increases to better support ongoing
6 operations and maintenance at boat harbors and parks
7 (primarily for slips, boat ramp access, concessions,
8 and other commercial activities);
- 9 (3) Identification and development of specific state land
10 parcels to create a dedicated revenue source to pay
11 for the reimbursable general obligation bonds
12 issuance;
- 13 (4) Development of at least one hundred nineteen new acres
14 of light industrial space at Keehi lagoon as a long-
15 term source of revenue to support park and
16 conservation activities of the department of land and
17 natural resources; provided that the department of
18 land and natural resources is able to obtain federal
19 approval to substitute alternative mitigation projects
20 for this area, which has served as mitigation for the
21 reef runway development. The legislature finds that
22 the man-made, triangle-shaped island situated in the

1 center of Keehi lagoon more than doubles the size of
2 Ala Moana beach park and may serve as a center of
3 economic and recreational activity if properly
4 developed.

5 The purpose of this Act is to provide funding and the
6 policy tools to enable the department of land and natural
7 resources to implement its recreational renaissance plan by
8 upgrading and maintaining state parks, trails, and ocean
9 recreational facilities at world-class levels, and protecting
10 the precious natural resources of the State.

11 SECTION 2. Chapter 171, Hawaii Revised Statutes, is
12 amended by adding a new section to be appropriately designated
13 and to read as follows:

14 "§171- Recreational renaissance special fund;
15 established. (a) There is established in the department a

3 moneys were transferred.

4 (c) The department, through its chairperson, may also
5 deposit federal funds received as grants under the Federal Aid
6 in Wildlife Restoration Act (16 U.S.C. 669 et seq.; provided

10 renaissance special fund for the recreational renaissance
11 program related to:

12 (1) Information technology to support the recreational
13 renaissance program;

22 (5) Land acquisition and related costs.

1 (e) Moneys on balance in the recreational renaissance
2 special fund at the close of each fiscal year shall remain in
3 the fund."

4 SECTION 3. Chapter 206J, Hawaii Revised Statutes, is
5 amended by adding a new section to be appropriately designated
6 and to read as follows:

7 "§206J- Partnership with department of land and
8 natural resources for Keehi small boat harbor and triangle
9 island. (a) Consistent with its general powers under this
10 chapter, the development corporation shall have the authority to

12 demolition, as necessary, and expansion of facilities and
13 acquisition of lands for Keehi small boat harbor and triangle
14 island, which are under the jurisdiction of the department of
15 land and natural resources; provided that the development
16 corporation shall not proceed with substitute alternative
17 mitigation projects for the Keehi small boat harbor and triangle
18 island area, which has served as mitigation for the reef runway
19 development, unless the department receives federal approval by
20 July 1, 2011. Notwithstanding any provision in section 206J-17,
21 payments to the development corporation for its administrative
22 and operational expenses shall be made by the department of land

1 and natural resources and deposited into the Aloha Tower fund in
 2 a subaccount designated for projects related to Keehi small boat
 3 harbor and triangle island. The department of land and natural

 10 land and natural resources and the governor, the expending
 11 authority for the approved projects shall be delegated to the
 12 development corporation.

13 (b) Nothing in this section shall be interpreted to
 14 require the department of land and natural resources to proceed
 15 with the proposed development of Keehi small boat harbor and
 16 triangle island, nor shall it remove the permitting and review
 17 process that would accompany a project of this nature proposed
 18 by the department of land and natural resources."

 20 amended to read as follows:
