A BILL FOR AN ACT

RELATING TO TAXATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that private sector
2 investment and development into a depressed or economically
3 deprived area in the State enhances and revitalizes that area
4 and its surrounding neighborhoods through stimulating growth in
5 the business, agricultural, or industrial segments of the
6 economy. The legislature also finds that the tax incentives
7 provided under the State's enterprise zones law are an existing
8 mechanism that encourages and spurs private sector investment in
9 those designated areas.

10 Senate Concurrent Resolution No. 132, S.D. 1 (2009),
11 established a task force to determine the economic contributions
12 of the construction industry in Hawaii. As directed in the
13 concurrent resolution, the task force developed a series of
14 proposals for state actions to preserve and create new jobs in
15 the local construction industry. The intent of this measure is
16 to implement one of the task force's proposals.

17 The purpose of this Act is to broaden the scope of the
18 State's existing enterprise zones law so that it will further

1 encourage private sector investment to begin projects that will
2 lead to the construction, development, or rehabilitation of new
3 or existing buildings or structures in those designated
4 enterprise zones.

5 SECTION 2. Section 209E-2, Hawaii Revised Statutes, is
6 amended as follows:

7 1. By adding two new definitions to read:

11 the Hawaii register of historic places.

12 "Multi-family dwelling" means any building or structure for
13 sale, lease, or rent that provides shelter for more than two
14 dwelling."

15 2. By amending the definition of "eligible business
16 activity" to read:

17 "Eligible business activity" means the:

18 (1) Manufacture of tangible personal property, the
19 wholesale sale of tangible personal property as
20 described in section 237-4, or a service business as
21 defined in this section;

- 1 (2) Production of agricultural products where the business
2 is a producer as defined in section 237-5, or the
3 processing of agricultural products, all or some of
4 which were grown within an enterprise zone;
- 5 (3) Research, development, sale, or production of all
6 types of genetically-engineered medical, agricultural,
7 or maritime biotechnology products; [~~or~~]
- 8 (4) Production of electric power from wind energy for sale
9 primarily to a public utility company for resale to
10 the public[~~+~~]; or
- 11 (5) Construction or remodeling costs associated with the
12 development or rehabilitation of a:
- 13 (A) New or existing health care facility, as defined
14 in section 323D-2;
- 15 (B) Historic property;
- 16 (C) New or existing single family residence; or
- 17 (D) Multi-family dwelling."

18 SECTION 3. Section 209E-4, Hawaii Revised Statutes, is
19 amended by amending subsection (b) to read as follows:

20 "(b) The governor, upon the recommendation of the
21 director, shall approve the designation of up to [~~six~~] twelve
22 areas in each county as enterprise zones for a period of twenty

1 years. Any such area shall be located in one United States
2 census tract or two or more contiguous United States census
3 tracts in accordance with the most recent decennial United
4 States Census. The census tract or tracts within which each
5 enterprise zone is located also shall meet at least one of the
6 following criteria:

7 (1) Twenty-five per cent or more of the population have
8 incomes below eighty per cent of the median family
9 income of the county; or

10 (2) The unemployment rate is 1.5 times the state average."
