
A BILL FOR AN ACT

RELATING TO FOOD SAFETY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. Good agricultural practices are guidelines
2 designed by the United States Food and Drug Administration and
3 Department of Agriculture to produce safe products and eliminate
4 potential for product contamination. Good agricultural
5 practices, among other things, include guidance on human
6 hygiene, animals and their manures, water quality for irrigation
7 and produce rinse, and agricultural pesticides. These standards
8 are being adopted by the world's leading farmers, who understand
9 that they have a responsibility to provide the safest food
10 possible to consumers.

11 The Food Safety Modernization Act was recently signed into
12 law. The law authorizes the Food and Drug Administration and
13 the Secretary of Human Services to increase inspections of many
14 domestic food facilities and enhance detection of food borne
15 illnesses.

16 Safe production, distribution, and consumer handling of
17 food requires knowledge of food borne pathogens, chemical
18 toxins, food quality, and labeling. Our current system of

1 regulation is understaffed, and the remaining staff are
2 unprepared or untrained for the rapid changes that have occurred
3 in risk assessment, changes in production and distribution
4 methodologies, and new foods and emerging pathogens. Food
5 safety programs are also not integrated among government
6 agencies, hampering communication and cooperation.

7 In addition, many of Hawaii's growers are not implementing
8 good agricultural practices. This failure to follow
9 science-based, risk-adverse food production practices is
10 worsened by the existence of the rat lungworm nematode in
11 Hawaii. When consumed, this nematode can cause serious illness,
12 as has happened numerous times during the past couple years.

13 The purpose of this Act is to:

- 14 (1) Establish a food safety and security program within
15 the department of agriculture; and
16 (2) Make an appropriation to the department of agriculture
17 for the food safety and security program.
