A BILL FOR AN ACT

RELATING TO HEALTH INSURANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The Patient Protection and Affordable Care Act
2 of 2010 provides for the establishment by 2014 of health
3 insurance exchanges which will facilitate the purchase and sale
4 of federally qualified health insurance plans and provide a
5 connection between buyers and sellers of those plans. The intent
6 of the health insurance exchange is to reduce the number of
7 uninsured, to provide a transparent marketplace and consumer
8 education, and to assist individuals with access to programs,
9 premium assistance, tax credits, and cost-sharing reductions.
10 The legislature finds that the people of Hawaii will be best
11 served by a health insurance exchange that is operated in Hawaii.

12 Because a federal grant to support the operations of a
13 health insurance exchange will become available and the Secretary
14 of the United States Department of Health and Human Services will
15 determine whether Hawaii can implement a health insurance
16 exchange, the legislature finds that moving forward in the 2011
17 legislative session with an enabling statute is prudent.

S.B. NO. 1275

1 The purpose of this Act is to establish an authority to
2 implement that policy.

3 SECTION 2. This Act shall take effect upon its approval.
