A BILL FOR AN ACT

RELATING TO MENTAL HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that, although public
2 mental health services exist and are provided throughout the
3 State, they are delivered by many different departments and
4 agencies and consumers often experience confusion with respect
5 to how to receive care. Furthermore, the lack of outreach to
6 people with mental health problems, coupled with the absence of
7 preventive and early intervention services, exacerbates mental
8 health problems, often leading to devastating personal and
9 societal consequences.

10 The legislature also finds that the delivery of mental
11 health services requires a highly specialized, professional
12 workforce that contains adequate mental health specific
13 recruitment and retention policies and highly specialized
14 contracting, procurement, and contract oversight.

15 To address the foregoing concerns and needs, the creation
16 of an oversight body would help foster a more unified mental
17 health system to ensure greater public access to and an

1 equitable distribution of mental health services throughout the
2 State of Hawaii.

3 The legislature acknowledges that the department of health
4 has already established a mental health system and manages
5 designated mental health programs. Given the department of
6 health's existing functions, the legislature finds that mental
7 health care services currently provided by the department of
8 health should be transferred to a newly created Hawaii mental
9 health commission.

10 The purpose of this Act is to create a Hawaii mental health
11 commission that is charged with the responsibility of developing
12 a unified state mental health delivery service and to transfer
13 the authority, duties, responsibilities, and jurisdiction of the
14 department of health, with respect to mental health, mental
15 illness, drug addiction, and alcoholism, to the Hawaii mental
16 health commission on July 1, 2013.

17 SECTION 2. The Hawaii Revised Statutes is amended by
18 adding a new chapter to be appropriately designated and to read
19 as follows:

20 "CHAPTER

21 § -1 Hawaii mental health commission; establishment and

11 of office. The director of mental health services shall be paid
12 a salary set at per cent of the salary of the director of
13 health. All other commissioners shall be paid a salary set at
14 per cent of the salary of the director of health. All
15 commissioners shall be reimbursed for their actual and necessary
16 expenses, including travel expenses, incurred in carrying out
17 their duties. Commissioners shall be exempt from chapters 76
18 and 89, but shall be members of any state or federal employee
19 benefit program generally applicable to officers and employees
20 of the State, including programs under chapter 87A.

1 (g) Five commissioners shall constitute a quorum, whose
2 affirmative vote shall be necessary for all valid actions by the
3 commission.

4 (h) Meetings of the commission shall be held in accordance
5 with the public proceedings and records requirements of chapter
6 92.

7 (i) The commission may appoint and employ staff as may be
8 necessary to perform its duties.

9 § -2 Hawaii mental health commission; duties and

10 responsibilities. (a) In addition to the responsibilities

22 in the delivery of mental health services.

1 (c) The commission shall develop a comprehensive mental

5 the early signs of potentially severe and disabling

7 The commission may utilize findings obtained by the state
8 council on mental health to further the development of the
9 mental health plan.

10 (d) The commission shall establish, maintain, and review
