
A BILL FOR AN ACT

RELATING TO THE HAWAII HEALTH SYSTEMS CORPORATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State's
2 community hospital system, Hawaii health systems corporation,
3 provides essential safety-net hospital and long-term care
4 services throughout the State and are often the only hospitals
5 in many rural communities. Due to rapid changes taking place in
6 the health care industry, the legislature acknowledges that the
7 governing structure of our public hospital system must provide
8 the appropriate flexibility and autonomy needed to compete and
9 remain viable and respond to the needs of the specific
10 communities served by furthering the development of centers of
11 excellence in health care.

12 The legislature acknowledges that the current
13 administrative arrangement places the public hospital system in
14 a single statewide public agency, the Hawaii health systems
15 corporation, which operates with some autonomy from the
16 executive branch. This arrangement is the result of landmark
17 legislation, Act 262, Session Laws of Hawaii 1996, which was
18 passed after years of study. Act 262 was largely the result of

1 the work of a task force established pursuant to Act 266,
2 Session Laws of Hawaii 1994, charged with studying the
3 establishment of an agency for community hospitals, then a
4 division of the department of health. On December 20, 1994, the
5 task force issued its report to the governor and the legislature
6 entitled, "The Preliminary Report of the Governor's Task Force
7 on the Establishment of an Agency for Community Hospitals".
8 Many of the recommendations of the task force were adopted by
9 the legislature, resulting in passage of Act 262, and the
10 creation of the Hawaii health systems corporation in 1996.

11 One significant recommendation of the task force included
12 the establishment of regional system boards of directors, along
13 with the system-wide board. This was accomplished by Act 290,
14 Session Laws of Hawaii 2007, which established a two-tiered
15 board system, giving the regional boards custodial control over
16 the operations, facilities, and personnel, to be exercised
17 within corporate policy.

18 In 2009, the legislature determined through Act 182,
19 Session Laws of Hawaii 2009, that it was in the State's best
20 interest to limit the authority of the corporation by
21 prohibiting the corporation from granting mortgages on
22 corporation real property in order to secure loans and revenue

1 bonds. However, the legislature finds that the economic
2 downturn, coupled with the inability to leverage its biggest
3 asset of real property by pledging it as collateral, has
4 hindered the ability of the system to obtain outside financing
5 and refinance loans for more favorable terms.

6 In addition, Act 182 (2009) put a dollar cap on the
7 facilities' authority to enter into municipal leases. The
8 language is ambiguous because it is not clear if the aggregate
9 limit is on the entire corporation as a whole, or each region.
10 Again, this restriction is a hindrance on the ability of the
11 system to obtain outside financing.

12 The purpose of this Act is to advance the State's
13 commitment to provide quality health care for the people of
14 Hawaii by lifting the prohibition on mortgages of Hawaii health
15 systems corporation real property in order to give the
16 corporation the ability to fully utilize the asset for the
17 benefit of the community and by clarifying that the \$25,000,000
18 limit on municipal leases is per region, annually.

19 SECTION 2. Section 323F-7, Hawaii Revised Statutes, is
20 amended by amending subsections (c) and (d) to read as follows:

1 "(c) Notwithstanding any other law to the contrary, the
2 corporation and any of the regional system boards shall exercise
3 the following duties and powers:

14 with regard to matters solely within that regional
