
A BILL FOR AN ACT

RELATING TO AIR POLLUTION CONTROL.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. Under the current federal and state law,
2 crematoriums constructed prior to March 20, 1972, are exempt
3 from air pollution control permit requirements, including those
4 contained in chapter 342B, Hawaii Revised Statutes. The
5 legislature finds that it is in the interest of the public
6 health to require all crematoriums operating within the State to
7 be subject to air pollution control permitting requirements.

8 SECTION 2. Chapter 342B, Hawaii Revised Statutes, is
9 amended by adding a new section to be appropriately designated
10 and to read as follows:

11 "§342B- Crematoriums. All crematoriums of human remains
12 operating within the State shall be subject to the permit
13 requirements of this chapter; provided that owners or operators
14 of crematoriums constructed before March 20, 1972, and operating
15 within the State without a permit shall submit permit
16 applications to the department by December 31, 2012. The
17 department may adopt rules pursuant to chapter 91 to effectuate

1 the purposes of this section or to impose permit conditions to
2 minimize ambient air quality impacts caused by crematoriums."

3 SECTION 3. New statutory material is underscored.

4 SECTION 4. This Act shall take effect upon its approval.

Report Title:

Air Pollution Control; Permit; Crematoriums

Description:

Requires all crematoriums operating without air pollution control permits and which were constructed prior to March 20, 1972, to submit permit applications to the Department of Health by December 31, 2012. (HB2656 HD1)
