
A BILL FOR AN ACT

RELATING TO HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that there is a shortage
2 of long-term care beds in many areas of the State, including
3 Oahu. This shortage has placed an undue burden on acute care
4 hospitals that are experiencing a long list of patients who are
5 awaiting placement in a long-term care bed. The waitlist
6 problem presents quality of care issues for both patients who
7 are awaiting long-term care beds and patients who need acute
8 care beds.

9 The closing of Hawaii Medical Center further exacerbated
10 the shortage problem by eliminating a large number of long-term
11 care beds that had been available, along with the elimination of
12 other needed services. Furthermore, the number and types of
13 beds eliminated by the closing of Hawaii Medical Center cannot
14 be fully absorbed by existing facilities.

15 Hawaii health systems corporation, the fourth largest
16 public hospital system in the nation, operates public health
17 care facilities that provide essential safety-net hospital and
18 long-term care services throughout the State. The legislature

1 further finds that Leahi hospital, a facility of the Hawaii
2 health systems corporation, can help alleviate the shortage of
3 long-term care beds, but needs major renovation.

4 Accordingly, the legislature finds that it is in the public
5 interest to establish a public-private partnership between the
6 owners of the facility previously known as Hawaii Medical
7 Center-East, located on Liliha Street in Honolulu, and the
8 Hawaii health systems corporation, to provide long-term care and
9 other health care services in the State.

10 The purpose of this Act is to provide for the health care
11 needs of the community by authorizing the Hawaii health systems
12 corporation to bring the Hawaii Medical Center-East facility
13 under its governance through formal affiliation or acquisition.

14 SECTION 2. Chapter 323F, Hawaii Revised Statutes, is
15 amended by adding a new section to part III to be appropriately
16 designated and to read as follows:

17 "§323F- Hawaii Medical Center-East; affiliation;
18 acquisition. (a) The Hawaii Medical Center-East on Oahu may be
19 assimilated into the Hawaii health systems corporation by
20 negotiation between the corporation and the owners of the Hawaii
21 Medical Center-East. Assimilation may be accomplished with the
22 creation of a new entity, a partnership, a long-term lease, or

1 any other vehicle determined to be in the best interests of the
2 public by the corporation board and as negotiated with the
3 owners of the Hawaii Medical Center-East. After assimilation,
4 Hawaii Medical Center-East shall be operated by the corporation,
5 either directly, through contractors, or through a subsidiary.

6 (b) None of the liabilities of Hawaii Medical Center-East
7 shall become liabilities of the corporation.

8 (c) The Hawaii Medical Center-East, once assimilated,
9 shall be exempt from chapter 102 and section 103-53, and its
10 board of directors, if any, shall be exempt from part I of
11 chapter 92.

12 (d) The purchase of goods and services by or on behalf of
13 Hawaii Medical Center-East, after assimilation, shall be exempt
14 from chapters 103D and 103F.

15 (e) Assimilation of Hawaii Medical Center-East into the
16 Hawaii health systems corporation shall be exempt from part VII
17 of chapter 323D."

18 SECTION 3. There is appropriated out of the general
19 revenues of the State of Hawaii the sum of \$ or so much
20 thereof as may be necessary for fiscal year 2012-2013 to carry
21 out the purposes of this Act, including the hiring or
22 contracting of staff.

1 The sum appropriated shall be expended by the Hawaii health
2 systems corporation for the purposes of this Act.

3 SECTION 4. New statutory material is underscored.

4 SECTION 5. This Act shall take effect on July 1, 2012.

Report Title:

Hawaii Health Systems Corporation; Hawaii Medical Center-East
