
HOUSE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF HUMAN SERVICES TO CONDUCT A STUDY
ON THE STATE'S COMPLIANCE WITH THE PATIENT PROTECTION AND
AFFORDABLE CARE ACT WITH EMPHASIS ON MEDICAID PROGRAM
INTEGRITY.

1 WHEREAS, the Legislature finds that fraud, abuse of
2 systems, and waste cost state Medicaid programs an estimated
3 \$18,000,000,000 per year on a national level; and
4

5 WHEREAS, the Center for Program Integrity within the
6 Centers for Medicare and Medicaid Services said the problems
7 with improper payments arise from incorrect coding, medically
8 unnecessary services, incorrect implementation of rules through
9 improper billing practices, along with intentional deception
10 involving billing for services that were never provided; and
11

12 WHEREAS, the United States Government Accountability Office
13 on March 9, 2011, issued the report, "Medicare and Medicaid
14 Fraud, Waste, and Abuse", which indicated that improper
15 payments, including over and under payments, put social service
16 programs at risk; and
17

18 WHEREAS, as a result of the 2011 report, the United States
19 Government Accountability Office declared both Medicare and
20 Medicaid as "high-risk" programs that can be compromised by
21 fraud, waste, and abuse; and
22

23 WHEREAS, the United States Government Accountability Office
24 stressed the need to implement strategies to reduce fraud,
25 waste, and abuse, as well as strategies to reduce improper
26 payments; and

1 WHEREAS, Hawaii's Medicaid program reported an average
2 monthly enrollment of approximately 272,218 members at the end
3 of fiscal year 2010-2011; and

4
5 WHEREAS, the Med-QUEST Division shifted from a fee-for-
6 service delivery system into a robust managed-care system of
7 health care delivery with approximately one percent of Medicaid
8 clients remaining in the limited fee-for-service program; and

9
10 WHEREAS, Hawaii has contracted with managed care health
11 plans for its Medicaid populations which include both QUEST
12 health plans and QUEST Expanded Access health plans with the
13 Department of Human Services retaining federally-mandated
14 accountability and oversight of these managed care plans; and

15
16 WHEREAS, the problems of fraud, abuse, and waste within
17 Medicaid programs has led to higher costs for each state during
18 a critical time of actuarial rate analysis and the setting of
19 managed care health plan contracts; and

20
21 WHEREAS, the federal Patient Protection and Affordable Care
22 Act required each state to submit state plan amendments by
23 December 31, 2010, to detail how they will establish their
24 recovery audit contractor programs to increase post-payment
25 reviews to identify payment errors and recoup overpayments; and

26
27 WHEREAS, the recovery audit contractor programs will review
28 Medicaid provider claims to identify and recover overpayments
29 and identify underpayments made for services provided under
30 Medicaid state plans and Medicaid waivers; and

31
32 WHEREAS, in an effort to reduce Medicaid fraud, abuse, and
33 waste and ultimately improper payments, the Government
34 Accountability Office has identified these five strategies:

- 35
36 (1) Strengthening provider enrollment standards and
37 procedures, which includes designating providers by
38 levels of risk and providing more stringent review of
39 high-risk providers;
40
41 (2) Improving pre-payment review of claims, which includes
42 a Patient Protection and Affordable Care Act
43 requirement that states add automated pre-payment
44 controls within all payment systems;

- 1 (3) Focusing post-payment claims reviews on the most
2 vulnerable areas and adding new recovery audit
3 contractors, including recovery audit contractor
4 programs to increase post-payment reviews to identify
5 payment errors and recoup overpayments;
6
- 7 (4) Improving oversight of contractors which includes
8 oversight of prescription drugs and high-risk
9 providers such as home health agencies and durable
10 medical suppliers; and
11
- 12 (5) Developing a robust process for addressing identified
13 vulnerabilities; now, therefore,
