
SENATE CONCURRENT RESOLUTION

REQUESTING THE HAWAII STATE CENTER FOR NURSING TO CONVENE A WORKING GROUP COMPOSED OF VARIOUS STATE AGENCIES TO IDENTIFY BARRIERS RELATING TO THE PRACTICE OF ADVANCED PRACTICE REGISTERED NURSES TO THE FULL EXTENT OF THE NURSES' EDUCATION AND TRAINING IN THE STATE.

1 WHEREAS, the Patient Protection and Affordable Care Act
2 marks the undertaking of significant health care reform
3 throughout the country; and
4

5 WHEREAS, reform efforts that increase access to care,
6 provide health care to the uninsured, and close gaps in health
7 inequalities will depend on a stable and enduring workforce that
8 can provide health care services across many settings; and
9

10 WHEREAS, in 2010, a report from the Institute of Medicine
11 of the National Academies and the Robert Wood Johnson Foundation
12 proposed a series of recommendations to advance and strengthen
13 the United States health care system during this period of
14 change; and
15

16 WHEREAS, according to the report, Advanced Practice
17 Registered Nurses should practice to the full extent of their
18 education and training, and scope of practice barriers to
19 Advanced Practice Registered Nurses should be removed; and
20

21 WHEREAS, this body is dedicated to addressing the needs and
22 interests of the people of Hawaii, including ensuring that
23 quality health care is easily accessible to consumers throughout
24 the State; and
25

26 WHEREAS, this body recognizes that Hawaii's physician-
27 primary care provider shortage has increased the need for
28 Advanced Practice Registered Nurses who can provide primary
29 health care; and
30

1 WHEREAS, this body also recognizes that national data
2 supports the fact that Advanced Practice Registered Nurses can
3 immediately increase access to quality, cost effective care if
4 restrictions to their ability to practice are removed; and
5

6 WHEREAS, in recent years, the Legislature has passed
7 legislation requiring insurers to recognize Advanced Practice
8 Registered Nurses as primary care providers and permitting
9 Advanced Practice Registered Nurses to practice within the full
10 scope of their practice; and
11

12 WHEREAS, this body finds that despite passage of these
13 barrier-breaking Acts, the provisions of these Acts have not
14 been fully implemented by the responsible executive departments
15 of the State; and
16

17 WHEREAS, simultaneous collaboration among state agencies is
18 needed to align and modernize their applicable state statutes
19 and administrative rules with recent legislation; and
20

21 WHEREAS, these obsolete statutes will continue to
22 negatively impact Hawaii consumers until state agencies align
23 and modernize their statutes and rules for the benefit of the
24 people of Hawaii; and
25

26 WHEREAS, the assistance and recommendations of the
27 Department of the Attorney General and the Legislative Reference
28 Bureau will be needed due to the scope of the required
29 revisions; and
30

31 WHEREAS, there is an immediate need to ensure that the
32 State has a stable and enduring Advanced Practice Registered
33 Nurse workforce that can provide seamless, quality care in
34 response to federal health care reform, including in medically
35 underserved rural areas; now, therefore,
