NEIL ABERCROMBIE
Governor, State of Hawaii
A BILL FOR AN ACT

RELATING TO UTILITIES REGULATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The purpose of this Act is to align statutory
language regarding utility ratemaking with widely accepted
utility ratemaking principles and ratemaking practices already
applied in Hawaii. The legislature intends that this Act be
prospective in nature so that existing judicial and regulatory
decisions are considered in accordance with this Act. The
legislature further intends that specific application of the
used and useful standard in rate making be left to the
discretion of the public utilities commission.

SECTION 2. Section 269-16, Hawaii Revised Statutes, is
amended by amending subsection (b) to read as follows:

"(b) No rate, fare, charge, classification, schedule,
rule, or practice, other than one established pursuant to an
automatic rate adjustment clause previously approved by the
commission, shall be established, abandoned, modified, or
departed from by any public utility, except after thirty days'
otice to the commission as prescribed in section 269-12(b), and
prior approval by the commission for any increases in rates,
fares, or charges. The commission, in its discretion and for
good cause shown, may allow any rate, fare, charge,
classification, schedule, rule, or practice to be established,
abandoned, modified, or departed from upon notice less than that
provided for in section 269-12(b). A contested case hearing
shall be held in connection with any increase in rates, and the
hearing shall be preceded by a public hearing as prescribed in
section 269-12(c), at which the consumers or patrons of the
public utility may present testimony to the commission
concerning the increase. The commission, upon notice to the
public utility, may:

(1) Suspend the operation of all or any part of the
proposed rate, fare, charge, classification, schedule,
rule, or practice or any proposed abandonment or
modification thereof or departure therefrom;

(2) After a hearing, by order:

(A) Regulate, fix, and change all such rates, fares,
charges, classifications, schedules, rules, and
practices so that the same shall be just and
reasonable;
(B) Prohibit rebates and unreasonable discrimination between localities or between users or consumers under substantially similar conditions;

(C) Regulate the manner in which the property of every public utility is operated with reference to the safety and accommodation of the public;

(D) Prescribe its form and method of keeping accounts, books, and records, and its accounting system;

(E) Regulate the return upon its public utility property;

(F) Regulate the incurring of indebtedness relating to its public utility business; and

(G) Regulate its financial transactions; and

(3) Do all things that are necessary and in the exercise of the commission's power and jurisdiction, all of which as so ordered, regulated, fixed, and changed are just and reasonable, and provide a fair return on the property of the utility and useful for public utility purposes."

SECTION 3. Section 269-134, Hawaii Revised Statutes, is amended by amending subsection (c) to read as follows:
"(c) Notwithstanding any requirements to the contrary, a high-voltage electric transmission cable system may be deemed "used and useful for public utility purposes" upon commencing commercial operations, subject to the commission's determination and approval."

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This Act shall take effect upon its approval.

APPROVED this 16 day of JUN, 2014
