The assuming insurer shall submit to examination of its books and records by the commissioner and bear the expense of examination; (2) Credit for reinsurance shall not be granted under this subsection unless the form of the trust and any amendments to the trust have been approved by:

investments at the preceding year end and shall

(3) The following requirements shall apply to these
categories of assuming insurers:

    the trust] shall consist of [a trusteed account
    representing the] funds in trust in an amount not

    insurers, and, in addition, the assuming insurer
    shall maintain a trusteed surplus of not less
    than $20,000,000[...], except as provided in
    subparagraph (B);

(B) At any time after the assuming insurer has
    permanently discontinued underwriting new
    business secured by the trust for at least three
full years, the commissioner with principal regulatory oversight of the trust may authorize a reduction in the required trusteed surplus, but only after finding, based on an assessment of the risk, that the new required surplus level is adequate for the protection of United States ceding insurers, policyholders, and claimants in light of reasonably foreseeable adverse loss development. The risk assessment may involve an actuarial review, including an independent analysis of reserves and cash flows, and shall consider all material risk factors, including when applicable the lines of business involved, the stability of the incurred loss estimates, and the effect of the surplus requirements on the assuming insurer's liquidity or solvency. The minimum required trusteed surplus may not be reduced to an amount less than thirty per cent of the assuming insurer's liabilities attributable to reinsurance ceded by United States ceding insurers covered by the trust;

(iii) In addition to these trusts, the group shall

maintain in trust a trustee surplus of

which $100,000,000 shall be held jointly for

the benefit of United States domiciled

The incorporated members of the group shall

available] provide to the commissioner an annual
certification [of the solveney of each
underwriter] by the group's domiciliary regulator
[and its] of the solvency of each underwriter member; or if a certification is unavailable, financial statements, prepared by independent public accountants, of each underwriter member of the group;

(iv) Maintain a joint trusteed surplus[\textdagger] of which $100,000,000 shall be held jointly for the benefit of United States domiciled ceding insurers of any member of the group as additional security for [any such] these liabilities[\textdagger and each member of the group shall], and

(v) Within ninety days after its financial statements are due to be filed with the group's domiciliary regulator, make available to the commissioner an annual certification of [the] each underwriter member's solvency by the member's domiciliary regulator and financial statements of each underwriter member of the group prepared by its independent public accountant[\textdagger}
(C) The trust shall be established in a form approved by the commissioner. The trust instrument shall provide that contested claims shall be valid and enforceable upon the final order of any court of competent jurisdiction in the United States. The trust shall vest legal title to its assets in the trustees of the trust for its United States policyholders and ceding insurers, their assigns, and successors in interest. The trust and the assuming insurer shall be subject to examination as determined by the commissioner. The trust must remain in effect for as long as the assuming insurer shall have outstanding obligations due under the reinsurance agreements subject to the trust, and

(D) No later than February 28 of each year, the trustees of the trust shall report to the commissioner in writing setting forth the balance of the trust and listing the trust's investments at the preceding year-end and shall certify the date of termination of the trust, if so planned,
or certify that the trust shall not expire prior to the next following December 31).

(e) Credit shall be allowed when the reinsurance is ceded to an assuming insurer that has been certified by the commissioner as a reinsurer in this State and secures its obligations in accordance with the requirements of this subsection as follows:

(1) To be eligible for certification, the assuming insurer shall:

(A) Be domiciled and licensed to transact insurance or reinsurance in a qualified jurisdiction, as determined by the commissioner pursuant to paragraph (3);

(B) Maintain minimum capital and surplus, or its equivalent, in an amount to be determined by the rules adopted by the commissioner;

(C) Maintain financial strength ratings from two or more rating agencies deemed acceptable by the rules adopted by the commissioner;

(D) Agree to submit to the jurisdiction of this State, appoint the commissioner as its agent for service of process in this State, and agree to
provide security for one hundred per cent of the
assuming insurer's liabilities attributable to
reinsurance ceded by United States ceding
insurers if the assuming insurer resists
enforcement of a final United States judgment;

(E) Agree to meet applicable information filing
requirements as determined by the commissioner,
both with respect to an initial application for
certification and on an ongoing basis; and

(F) Satisfy any other requirements for certification
deemed relevant by the commissioner;

(2) An association including incorporated and individual
unincorporated underwriters may be a certified
reinsurer. To be eligible for certification, in
addition to satisfying the requirements of paragraph
(1):

(A) The association shall satisfy its minimum capital
and surplus requirements through the capital and
surplus equivalents (net of liabilities) of the
association and its members, which shall include
a joint central fund that may be applied to any
unsatisfied obligation of the association or any
of its members, in an amount determined by the commissioner to provide adequate protection;

(B) The incorporated members of the association shall not be engaged in any business other than underwriting as a member of the association and shall be subject to the same level of regulation and solvency control by the association's domiciliary regulator as are the unincorporated members; and

(C) Within ninety days after its financial statements are due to be filed with the association's domiciliary regulator, the association shall provide to the commissioner an annual certification by the association's domiciliary regulator of the solvency of each underwriter member; or if a certification is unavailable, financial statements, prepared by independent public accountants, of each underwriter member of the association;

(3) The commissioner shall create and publish a list of qualified jurisdictions under which an assuming insurer licensed and domiciled in a qualified
jurisdiction is eligible to be considered for
certification by the commissioner as a certified
reinsurer. In addition:

(A) To determine whether the domiciliary jurisdiction
of a non-United States assuming insurer is
eligible to be recognized as a qualified
jurisdiction, the commissioner shall evaluate the
appropriateness and effectiveness of the
reinsurance supervisory system of the
jurisdiction, both initially and on an ongoing
basis, and consider the rights, benefits, and the
extent of reciprocal recognition afforded by the
non-United States jurisdiction to reinsurers
licensed and domiciled in the United States. A
qualified jurisdiction shall agree to share
information and cooperate with the commissioner
with respect to all certified reinsurers
domiciled within that jurisdiction. A
jurisdiction may not be recognized as a qualified
jurisdiction if the commissioner has determined
that the jurisdiction does not adequately and
promptly enforce final United States judgments
and arbitration awards. Additional factors may be considered in the discretion of the commissioner;

(B) A list of qualified jurisdictions shall be published through the National Association of Insurance Commissioners committee process. The commissioner shall consider this list in determining qualified jurisdictions. If the commissioner approves a jurisdiction as qualified that does not appear on the list of qualified jurisdictions, the commissioner shall provide thoroughly documented justification in accordance with criteria to be developed under rules adopted by the commissioner;

(C) United States jurisdictions that meet the requirement for accreditation under the National Association of Insurance Commissioners financial regulation standards and accreditation program shall be recognized as qualified jurisdictions;

and

(D) If a certified reinsurer's domiciliary jurisdiction ceases to be a qualified
jurisdiction, the commissioner has the discretion to suspend the reinsurer's certification indefinitely, in lieu of revocation;

(4) The commissioner shall assign a rating to each certified reinsurer, giving due consideration to the financial strength ratings that have been assigned by rating agencies deemed acceptable pursuant to rules adopted by the commissioner. The commissioner shall publish a list of all certified reinsurers and their ratings;

(5) A certified reinsurer shall secure obligations assumed from United States ceding insurers under this subsection at a level consistent with its rating, as specified in rules adopted by the commissioner. In addition:

(A) In order for a domestic ceding insurer to qualify for full financial statement credit for reinsurance ceded to a certified reinsurer, the certified reinsurer shall maintain security in a form acceptable to the commissioner and consistent with section 431:4A-102, or in a multibeneficiary trust in accordance with
subsection (d), except as otherwise provided in this subsection;

(B) If a certified reinsurer maintains a trust to fully secure its obligations subject to subsection (d), and chooses to secure its obligations incurred as a certified reinsurer in the form of a multibeneficiary trust, the certified reinsurer shall maintain separate trust accounts for its obligations incurred under reinsurance agreements issued or renewed as a certified reinsurer with reduced security as permitted by this subsection or comparable laws of other United States jurisdictions and for its obligations subject to subsection (d). It shall be a condition to the grant of certification under this subsection that the certified reinsurer shall have bound itself, by the language of the trust and agreement with the commissioner with principal regulatory oversight of each such trust account, to fund, upon termination of any such trust account, out of the
remaining surplus of such trust any deficiency of
any other such trust account;

(C) The minimum trusteed surplus requirements
provided in subsection (d) shall not be
applicable with respect to a multibeneficiary
trust maintained by a certified reinsurer for the
purpose of securing obligations incurred under
this subsection, except that such trust shall
maintain a minimum trusteed surplus of
$10,000,000;

(D) With respect to obligations incurred by a
certified reinsurer under this subsection, if the
security is insufficient, the commissioner shall
reduce the allowable credit by an amount
proportionate to the deficiency, and has the
discretion to impose further reductions in
allowable credit upon finding that there is a
material risk that the certified reinsurer's
obligations will not be paid in full when due;
and

(E) For purposes of this subsection:
(i) A certified reinsurer whose certification has been terminated for any reason shall be treated as a certified reinsurer required to secure one hundred per cent of its obligations;

(ii) "Terminated" means revoked, suspended, voluntarily surrendered, or placed on inactive status; and

(iii) If the commissioner continues to assign a higher rating as permitted by other provisions of this section, this requirement shall not apply to a certified reinsurer in inactive status or to a reinsurer whose certification has been suspended;

(6) If an applicant for certification has been certified as a reinsurer in a National Association of Insurance Commissioners accredited jurisdiction, the commissioner has the discretion to defer to that jurisdiction's certification, and has the discretion to defer to the rating assigned by that jurisdiction, and such assuming insurer shall be considered to be a certified reinsurer in this State; and
A certified reinsurer that ceases to assume new business in this State may request to maintain its certification in inactive status to continue to qualify for a reduction in security for its in-force business. An inactive certified reinsurer shall continue to comply with all applicable requirements of this subsection, and the commissioner shall assign a rating that takes into account, if relevant, the reasons why the reinsurer is not assuming new business.

Credit shall be allowed when the reinsurance is ceded to an assuming insurer not meeting the requirements of subsection (b), (c), (d), or (e), but only with respect to the insurance of risks located in jurisdictions where the reinsurance is required by applicable law or regulation of that jurisdiction.

If the assuming insurer is not licensed, accredited, or certified to transact insurance or reinsurance in this State, the credit permitted by subsections (c) and (d) shall not be allowed unless the assuming insurer agrees in the reinsurance agreements:
1 (A) (1) That in the event of the failure of the assuming
2 insurer to perform its obligations under the terms of
3 the reinsurance agreement, the assuming insurer, at
4 the request of the ceding insurer, shall submit to the
5 jurisdiction of any court of competent jurisdiction in
6 any state of the United States, [will] shall comply
7 with all requirements necessary to give [that] the
8 court jurisdiction, and [will] shall abide by the
9 final decision of that court or of any appellate court
10 in the event of an appeal; and
11
12 (B) (2) To designate the commissioner or a designated
13 attorney as its true and lawful attorney upon whom may
14 be served any lawful process in any action, suit, or
15 proceeding instituted by or on behalf of the ceding
16 insurer.
17 This [paragraph] subsection is not intended to conflict
18 with or override the obligation of the parties to a
19 reinsurance agreement to arbitrate their disputes, if [such
20 an] this obligation is created in the agreement.
21 (h) If the assuming insurer does not meet the requirements
22 of subsection (b) or (c), the credit permitted by subsection (d)
or (e) shall not be allowed unless the assuming insurer agrees in the trust agreements to the following conditions:

(1) Notwithstanding any other provisions in the trust instrument to the contrary, if the trust fund is inadequate because it contains an amount less than the amount required by subsection (d)(3), or if the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation, or similar proceedings under the laws of its state or country of domicile, the trustee shall comply with an order of the commissioner with regulatory oversight over the trust or with an order of any court of competent jurisdiction in any state of the United States directing the trustee to transfer to the commissioner with regulatory oversight all of the assets of the trust fund;

(2) The assets shall be distributed by and claims shall be filed with and valued by the commissioner with regulatory oversight in accordance with the laws of the state in which the trust is domiciled that are applicable to the liquidation of domestic insurance companies;
(3) If the commissioner with regulatory oversight determines that the assets of the trust fund or any part thereof are not necessary to satisfy the claims of the United States ceding insurers of the grantor of the trust, the assets or part thereof shall be returned by the commissioner with regulatory oversight to the trustee for distribution in accordance with the trust agreement; and

(4) The grantor shall waive any right otherwise available to it under United States law that is inconsistent with this subsection.

(i) If an accredited or certified reinsurer ceases to meet the requirements for accreditation or certification, the commissioner may suspend or revoke the reinsurer's accreditation or certification. In addition:

(1) The commissioner shall give the reinsurer notice and opportunity for hearing. The suspension or revocation may not take effect until after the commissioner's order after a hearing, unless:

(A) The reinsurer waives its right to a hearing;

(B) The commissioner's order is based on regulatory action by the reinsurer's domiciliary
jurisdiction or the voluntary surrender or
termination of the reinsurer's eligibility to
transact insurance or reinsurance business in its
domiciliary jurisdiction or in the primary
certifying state of the reinsurer under
subsection (e)(6); or

(C) The commissioner finds that an emergency requires
immediate action and a court of competent
jurisdiction has not stayed the commissioner's
action.

(2) While a reinsurer's accreditation or certification is
suspended, no reinsurance contract issued or renewed
after the effective date of the suspension qualifies
for credit except to the extent that the reinsurer's
obligations under the contract are secured in
accordance with section 431:4A-102. If a reinsurer's
accreditation or certification is revoked, no credit
for reinsurance may be granted after the effective
date of the revocation except to the extent that the
reinsurer's obligations under the contract are secured
in accordance with subsection (e)(5) or section
431:4A-102.
(j) A ceding insurer shall take steps to:

(1) Manage its reinsurance recoverables proportionate to its own book of business. A domestic ceding insurer shall notify the commissioner within thirty days after reinsurance recoverables from any single assuming insurer, or group of affiliated assuming insurers, exceed fifty per cent of the domestic ceding insurer's last reported surplus to policyholders, or after it is determined that reinsurance recoverables from any single assuming insurer, or group of affiliated assuming insurers, are likely to exceed this limit. The notification shall demonstrate that the exposure is safely managed by the domestic ceding insurer; and

(2) Diversify its reinsurance program. A domestic ceding insurer shall notify the commissioner within thirty days after ceding to any single assuming insurer, or group of affiliated assuming insurers, more than twenty per cent of the ceding insurer's gross written premium in the prior calendar year, or after it has determined that the reinsurance ceded to any single assuming insurer, or group of affiliated assuming insurers, is likely to exceed this limit. The
notification shall demonstrate that the exposure is safely managed by the domestic ceding insurer."

SECTION 2. Section 431:4A-102, Hawaii Revised Statutes, is amended to read as follows:

"[+]§431:4A-102[+]Reduction] Asset or reduction from liability for reinsurance ceded by a domestic insurer to an assuming insurer. [A] An asset or reduction from liability for the reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of section 431:4A-101 shall be allowed in an amount not exceeding the liabilities carried by the ceding insurer. The reduction shall be in the amount of funds held by or on behalf of the ceding insurer, including funds held in trust for the ceding insurer, under a reinsurance contract with the assuming insurer as security for the payment of obligations thereunder, if that security is held in the United States subject to withdrawal solely by, and under the exclusive control of, the ceding insurer; or, in the case of a trust, held in a qualified United States financial institution[+] as defined in section 431:4A-103(b). This security may be in the form of:

(1) Cash;
(2) Securities listed by the securities valuation office of the National Association of Insurance Commissioners, including those deemed exempt from filing as defined by the Purposes and Procedures Manual of the securities valuation office, and qualifying as admitted assets;

(3) Clean, irrevocable, and unconditional letters of credit, issued or confirmed by a qualified United States financial institution, as defined in section 431:4A-103, effective no later than December 31 of the year for which the filing is being made, and in the possession of, or in trust for, the ceding insurer on or before the filing date of its annual statement;

(4) Letters of credit [issued by issuing (or confirming) institutions] meeting applicable standards of issuer acceptability as of the dates of their issuance (or confirmation) shall, notwithstanding the issuing (or confirming) institution's subsequent failure to meet applicable standards of issuer acceptability, continue to be acceptable as security until their expiration,
extension, renewal, modification, or amendment,
whichever first occurs; or

[(4)] (5) Any other form of security acceptable to the
commissioner."

SECTION 3. Section 431:4A-105, Hawaii Revised Statutes, is
repealed.

"[§431:4A-105—Reinsurance agreements affected. Sections
431:4A-101 through 431:4A-104 shall apply to all elections after
June 12, 1992, under reinsurance agreements which have had an
inception, anniversary, or renewal date not less than six months
after June 12, 1992."

PART II

SECTION 4. Section 431:5-307, Hawaii Revised Statutes, is
amended to read as follows:

"§431:5-307 Standard valuation law; life. (a) This
section shall be known as the standard valuation law.

(b) [Reserve—valuation+]

(1) For policies and contracts issued prior to the
operative date of the valuation manual:

(A) The commissioner[,—annually, shall value,] shall
annually value, or cause to be valued, the
reserve liabilities, hereinafter called reserves,
for all outstanding life insurance[τ] policies
and annuity[τ] and pure endowment contracts of
every life [insurance] insurance company doing
business in this State[τ]. The commissioner may
certify the amount of any reserves, specifying
the mortality table or tables, rate or rates of
interest, and methods (net level premium method
or others) used in the calculation of the
reserves[τ] issued on or after January 1, 1956,
and prior to the operative date of the valuation
manual. In calculating the reserves, the
commissioner may use group methods and
approximate averages for fractions of a year or
otherwise. In lieu of the valuation of the
reserves required [under this section of any] of
a foreign or alien [insurance] company, the
commissioner may accept [any] a valuation made,
or caused to be made, by the insurance
supervisory official of any state or other
jurisdiction, when the valuation complies with
the minimum standard under this section[τ], and if
the official of that state or jurisdiction
accepts as sufficient and valid for all legal
purposes the certificate of valuation of the
commissioner when the certification states the
valuation to have been made in a specified manner
according to which the aggregate reserves would
be at least as large as if they had been computed
in the manner prescribed by the law of that state
or jurisdiction;

(2) The actual cost of making valuations under this
section shall be assessed on the insurer, whose
policies are so valued, by the commissioner; and

(3) Any insurer, at any time, that has adopted any
standard of valuation producing greater aggregate
reserves than those calculated according to the
minimum standard herein provided, with the approval of
the commissioner, may adopt any lower standard of
valuation, but not lower than the minimum provided in
this section;]

(B) Subsections (e) to (n) shall apply to all
policies and contracts, as appropriate, subject
to this section issued on or after January 1,
1956, and prior to the operative date of the
valuation manual; provided that subsections (o) and (p) shall not apply to those policies and contracts;

(C) The minimum standard for the valuation of policies and contracts issued prior to January 1, 1956, shall be that provided by the laws in effect immediately prior to that date;

(2) For policies and contracts issued on or after the operative date of the valuation manual:

(A) The commissioner shall annually value, or cause to be valued, the reserve liabilities, hereinafter called reserves, for all outstanding life insurance contracts, annuity and pure endowment contracts, accident and health contracts, and deposit-type contracts of every company issued on or after the operative date of the valuation manual. In lieu of the valuation of the reserves required of a foreign or alien company, the commissioner may accept a valuation made, or caused to be made, by the insurance supervisory official of any state or other
jurisdiction when the valuation complies with the minimum standard provided in this section; and

(B) Subsections (o) and (p) shall apply to all policies and contracts issued on or after the operative date of the valuation manual.

(c) For an actuarial opinion prior to the operative date of the valuation manual:

(1) Every life insurance company doing business in this State shall annually submit the opinion of a qualified actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified by the commissioner by rules are computed appropriately, are based on assumptions that satisfy contractual provisions, are consistent with prior reported amounts, and comply with the applicable laws of this State. The commissioner shall define by rules the specifics of this opinion and add any other items deemed to be necessary to its scope;

(2) For actuarial analysis of reserves and assets supporting the reserves:

(A) Every life insurance company, except as exempted by rules, shall also include annually in the
opinion required by paragraph (1), an opinion of
the same qualified actuary as to whether the
reserves and related actuarial items held in
support of the policies and contracts specified
by the commissioner by rules, when considered in
light of the assets held by the company with
respect to the reserves and related actuarial
items, including but not limited to the
investment earnings on the assets and the
considerations anticipated to be received and
retained under the policies and contracts, make
adequate provision for the company's obligations
under the policies and contracts, including but
not limited to the benefits under and expenses
associated with the policies and contracts; and

(B) The commissioner may provide by rules for a
transition period for establishing any higher
reserves that the qualified actuary may deem
necessary to render the opinion required by this
section;

(3) Each opinion required by paragraph (2) shall be
governed by the following:
(A) A memorandum, in form and substance acceptable to the commissioner as specified by rules, shall be prepared to support each actuarial opinion; and

(B) If the insurance company fails to provide a supporting memorandum at the request of the commissioner within a period specified by rules, or if the commissioner determines that the supporting memorandum provided by the insurance company fails to meet the standards prescribed by rules, or is otherwise unacceptable to the commissioner, the commissioner may engage a qualified actuary at the expense of the insurance company to review the opinion and the basis for the opinion and prepare the supporting memorandum required by the commissioner; and

(4) Every opinion required by paragraph (1) shall be governed by the following:

(A) The opinion shall be submitted with the annual statement reflecting the valuation of the reserve liabilities for each year ending on or after December 31, 1995;

(I) Neither the commissioner nor any person who
received documents, materials, or other
information while acting under the authority of
the commissioner shall be permitted or required
to testify in any private civil action concerning
any confidential documents, materials, or
information subject to subparagraph (H);

(J) To assist in the performance of the
commissioner's duties, the commissioner:

information subject to subparagraph (H) with
other state, federal, and international

and
(ii) May receive documents, materials, or

(M) The memorandum or other material may otherwise be released by the commissioner with the written consent of the company or to the American Academy of Actuaries upon request stating that the memorandum or other material is required for the purpose of professional disciplinary proceedings and setting forth procedures satisfactory to the commissioner for preserving the confidentiality of the memorandum or other material; and

(N) Once any portion of the confidential memorandum is cited by the company in its marketing or is
cited before a governmental agency other than a state insurance department or is released by the company to the news media, all portions of the confidential memorandum shall be no longer confidential.

(d) For actuarial opinions of reserves after the operative date of the valuation manual:

(1) Every company with outstanding life insurance contracts, accident and health insurance contracts, or deposit-type contracts in this State and subject to regulation by the commissioner shall annually submit the opinion of the appointed actuary as to whether the reserves and related actuarial items held in support of the policies and contracts are computed appropriately, are based on assumptions that satisfy contractual provisions, are consistent with prior reported amounts, and comply with applicable laws of this State. The valuation manual shall prescribe the specifics of this opinion including any items deemed to be necessary to its scope;

(2) Every company with outstanding life insurance contracts, accident and health insurance contracts, or
deposit-type contracts in this State and subject to
regulation by the commissioner, except as exempted in
the valuation manual, also shall annually include in

the same appointed actuary as to whether the reserves
and related actuarial items held in support of the
policies and contracts specified in the valuation
manual, when considered in light of the assets held by
the company with respect to the reserves and related
actuarial items including but not limited to the
investment earnings on the assets and the
considerations anticipated to be received and retained
under the policies and contracts, make adequate
provision for the company's obligations under the
policies and contracts including but not limited to
the benefits under and expenses associated with the

governed by the following provisions:

(A) A memorandum, in form and substance as specified
in the valuation manual and acceptable to the
commissioner, shall be prepared to support each
actuarial opinion; and

(B) If the company fails to provide a supporting
memorandum at the request of the commissioner
within a period specified in the valuation
manual, or the commissioner determines that the
supporting memorandum provided by the insurance
company fails to meet the standards prescribed by
the valuation manual, or is otherwise
unacceptable to the commissioner, the
commissioner may engage a qualified actuary at
the expense of the insurance company to review
the opinion and the basis for the opinion and
prepare the supporting memorandum required by the
commissioner; and

(4) Every opinion subject to this subsection shall be
governed by the following provisions:

(A) The opinion shall be in form and substance as
specified in the valuation manual and acceptable
to the commissioner;

(B) The opinion shall be submitted with the annual
statement reflecting the valuation of such
reserve liabilities for each year ending on or
after the operative date of the valuation manual;

(C) The opinion shall apply to all policies and
contracts subject to paragraph (2), plus other
actuarial liabilities as may be specified in the
valuation manual;

(D) The opinion shall be based on standards adopted
from time to time by the Actuarial Standards
Board or its successor and on such additional
standards as may be prescribed in the valuation
manual;

(E) In the case of an opinion required to be
submitted by a foreign or alien company, the
commissioner may accept the opinion filed by that
company with the insurance supervisory official
of another state if the commissioner determines
that the opinion reasonably meets the
requirements applicable to a company domiciled in
this State;

(F) Except in cases of fraud or wilful misconduct,
the appointed actuary shall not be liable for
damages to any person, other than the insurance
company and the commissioner, for any act, error, omission, decision, or conduct with respect to the appointed actuary's opinion; and

(G) Disciplinary action by the commissioner against the company or the appointed actuary shall be defined by rules adopted by the commissioner.

For group life insurance, life insurance issued on the substandard basis, and other special benefits—any tables that may be approved by the commissioner.

Except as provided in paragraph (4), subsection (g), the minimum standard for the valuation of all individual annuity and pure endowment contracts issued
on or after the operative date of this subsection and for all annuities and pure endowment contracts purchased on or after the operative date under group annuity and pure endowment contracts, shall be the commissioner's reserve valuation methods defined in subsections (h) and (i) and the following tables and interest rates:

If [an insurer] a company makes no election, the operative date of this [paragraph] subsection for [the insurer] that company shall be January 1, 1979; and

(4) Applicability of this section:

(A) The interest rates used in determining the minimum for the valuation of:

(i) All life insurance policies issued in a particular calendar year, on or after the operative date of section 431:10D-104(e)(8);

(ii) All individual annuity and pure-endowment contracts issued in a particular calendar year after December 31, 1982;
(iii) All annuities and pure endowments purchased in a particular calendar year after December 31, 1982, under group annuity and pure endowment contracts, and

(iv) The net increase, if any, in a particular calendar year after 1982, in amounts held under guaranteed interest contracts shall be the calendar year statutory valuation rates as defined in this paragraph.

(g)(1) The interest rates used in determining the minimum standard for the valuation of the following shall be the calendar year statutory valuation interest rates as defined in this section:

(A) Life insurance policies issued in a particular calendar year, on or after the operative date of section 431:10D-104(e)(8);

(B) Individual annuity and pure endowment contracts issued in a particular calendar year after December 31, 1982;

(C) Annuities and pure endowment contracts purchased in a particular calendar year after December 31,
1982, under group annuity and pure endowment contracts; and

(D) The net increase, if any, in a particular calendar year after January 1, 1983, in amounts held under guaranteed interest contracts.

(2) The calendar year statutory valuation interest rates, $I$, shall be determined as follows and the results rounded to the nearer one-quarter of one per cent:

(A) For life insurance,

\[ I = 0.03 + W(R_1 - 0.03) + \frac{W(R_2 - 0.09)}{2} \]

(B) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options,

\[ I = 0.03 + W(R - 0.03) \]

where $R_1$ is the lesser of $R$ and 0.09, $R_2$ is the greater of $R$ and 0.09, $R$ is the reference interest rate defined in this subsection, and $W$ is the weighting factor defined in this subsection;
{(iii)} (C) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in [(clause—(ii)\textsuperscript{\(\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\)))] subparagraph (B), the formula for life insurance stated in [(clause—(i))] subparagraph (A) shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of ten years\textsuperscript{\(\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_\_) and the formula for single premium immediate annuities stated in [(clause—(ii))] subparagraph (B) shall apply to annuities and guaranteed interest contracts with guarantee duration of ten years or less;

{(iv)} (D) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in [(clause—(ii))] subparagraph (B) shall apply; and

{(v)} (E) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in
fund basis, the formula for single premium immediate annuities stated in [clause (ii)]

subparagraph (B) shall apply. [

However, if] If the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year determined without reference to this subsection differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than one-half of one per cent, the calendar year statutory valuation interest rate for these life insurance policies shall be equal to the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the immediately preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for 1980 (using the reference interest rate defined for 1979) and shall be determined for each subsequent calendar year regardless of when section 431:10D-104(e)(8) becomes operative;
The weighting factors referred to in the formulas stated [above] in paragraph (2) are given in the following tables:

(A) Weighting factors for life insurance:

For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy[7] or under options to convert to plans of life insurance with premium rates or nonforfeiture values[7] or both, which are guaranteed in the original policy;

(B) Weighting factor for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and
guaranteed interest contracts with cash settlement options: .80; and

Weighting factors for other annuities and for guaranteed interest contracts, except as stated in [clause (ii)], subparagraph (B), shall be as specified in the tables below, according to the rules and definitions stated below:

valuation date, the factors

Table II increased by: .05 .05 .05

For other annuities with cash settlement options and
guaranteed interest contracts with cash settlement
options, the guarantee duration is the number of years
for which the contract guarantees interest rates in
excess of the calendar year statutory valuation
interest rate for life insurance policies with
guarantee duration in excess of twenty years. For
other annuities with no cash settlement options and
for guaranteed interest contracts with no cash
settlement options, the guarantee duration is the
number of years from the date of issue or date of
purchase to the date annuity benefits are scheduled to
commence. Plan type as used in the above tables is
defined as follows:

Plan Type A: At any time the policyholder
may withdraw funds only: (1) with an adjustment
to reflect changes in interest rates or asset
values since receipt of the funds by the
insurance company; (2) without an adjustment, but
in installments over five years or more; (3) as an immediate life annuity; or (4) no withdrawal permitted;

Plan Type B: Before expiration of the interest rate guarantee, the policyholder may withdraw funds only: (1) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; (2) without an adjustment but in installments over five years or more; or (3) no withdrawal permitted. At the end of the interest rate guarantee, funds may be withdrawn without adjustment in a single sum or in installments over less than five years;

Plan Type C: The policyholder may withdraw funds before expiration of the interest rate guarantee in a single sum or in installments over less than five years either: (1) without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or (2) subject only to a fixed
surrender charge stipulated in the contract as a percentage of the fund.

A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options shall be valued on an issue year basis. As used in this section, an issue year basis of valuation refers to a subsection, "issue year basis" means a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract, and [the change in fund basis of valuation refers to] "change in fund basis" means a valuation basis under which the interest rate used to determine the minimum valuation standard
applicable to each change in the fund held under
the annuity or guaranteed interest contract is
the calendar year valuation interest rate for the
year of the change in the fund;

(4) The reference interest rate referred to in
paragraph [(4)-(B)] (2) shall be defined as follows:

(A) For life insurance, the lesser of the
average over a period of thirty-six months and
the average over a period of twelve months,
ending on June 30 of the calendar year preceding the year of issue, of
Corporate Bond Yield Average—Monthly Average

Alternative method for determining reference interest rates]

(5) In the event that [Moody's Corporate Bond Yield Average Monthly Average Corporates] the monthly average of the composite yield on seasoned corporate bonds is no longer published by Moody's Investors Service, Inc., or in the event that the National Association of Insurance Commissioners determines that [Moody's Corporate Bond Yield Average Monthly Average Corporates as published] the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc., is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate
which is adopted by the National Association of Insurance Commissioners and approved by rules adopted by the commissioner may be substituted.

{(d) Commissioner's reserve valuation methods:

{(i) Except as otherwise provided in subsections (e) and (h), (i), (l), and (n), reserves, according to the commissioner's reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of the future guaranteed benefits provided for by the policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such a policy shall be the uniform percentage of the respective contract premiums for the benefits [excluding extra premiums on a substandard policy] such that the present value, at the date of issue of the policy, of all the modified net premiums shall be equal to the sum of the then present value of the
benefits provided for by the policy and the excess of subparagraph (A) over subparagraph (B) as follows:

(A) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one [per annum] payable on the first and each subsequent anniversary of the policy on which a premium falls due; provided that the net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan for insurance of the same amount at an age one year higher than the age of issue of the policy; and

(B) A net one-year term premium for the benefits provided for in the first policy year.

(2) For a life insurance policy issued on or after January 1, 1986, for which the contract premium in the first policy year exceeds that of the second year, and for which no comparable additional benefit is provided in the first year for the excess, [which] and that
provides an endowment benefit, a cash surrender value, or a combination thereof, in an amount greater than the excess premium, the reserve, according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date, defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than the excess premium, except as otherwise provided in subsection [(1) (1)], shall be the greater of the reserve as of the policy anniversary calculated [as described above] pursuant to this paragraph and the reserve as of the policy anniversary calculated as described, but with:

[(A) The value defined in [subparagraph (A)] paragraph (1) being reduced by fifteen per cent of the amount of the excess first year premium;]

[(B) All present values of benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date;]
The policy being assumed to mature on that date as an endowment; and

The cash surrender value provided on that date being considered as an endowment benefit.

In making the above comparison, the mortality and interest bases stated in subsection (e)(2) and (3) subsections (e) and (g) shall be used; and

Reserves according to the commissioner's reserve valuation method shall be calculated by a method consistent with the principles of paragraphs (1) and (2) for:

(B) Group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the

of the respective excesses of the present values, at the date of
valuation, of the future guaranteed benefits, including
guaranteed nonforfeiture benefits, provided for by [these] the
contracts at the end of each respective contract year, over the
present value, at the date of valuation, of any future valuation
considerations derived from future gross considerations,
required by the terms of the contract, that become payable prior
to the end of [such] the respective contract year. The future
guaranteed benefits shall be determined by using the mortality
table, if any, and the interest rate, or rates, specified in the
contracts for determining guaranteed benefits. The valuation
considerations are the portions of the respective gross
considerations applied under the terms of the contracts to
determine nonforfeiture values.

[(f) Minimum aggregate reserves] (j) In no event shall

aggregate reserves calculated in accordance with the methods set
forth in subsections [(d), (e), (h), and (i),] (h), (i), (l),
and (m), and the mortality table or tables and rate or rates of
interest used in calculating nonforfeiture benefits for those

subsection (c) and (d).

[(g) Optional reserves bases] (k) With regard to
optional reserve calculation:

(1) Reserves for [any category of] policies and
contracts or benefits as established by the
commissioner, issued on or after the operative date of
section 431:10D-104, issued prior to January 1, 1956,
may be calculated, at the option of the [insurer],
company, according to any standards [which] that
produce greater aggregate reserves for [the category
than those calculated according to the minimum
standard herein provided. The rates of interest used
for policies and contracts, other than annuity and
pure endowment contracts, shall not be higher than the
corresponding rates of interest used in calculating
any nonforfeiture benefits provided for therein. Any]
all such policies and contracts than the minimum reserves required by the laws in effect immediately prior to that date;

(2) Reserves for any category of policies, contracts, or benefits established by the commissioner, issued on or after January 1, 1956, may be calculated, at the option of the company, according to any standards that produce greater aggregate reserves for the category than those calculated according to the minimum standard provided herein, but the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, shall not be greater than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided in the policies or contracts; and

(3) A company, which adopts at any time [shall have adopted any] a standard valuation producing greater aggregate reserves than those calculated according to the minimum standard [herein] provided under this section, may adopt a lower standard of valuation with the approval of the commissioner, but not lower than the minimum
[herein] provided[+] herein; provided that for the purposes of this section, the holding of additional reserves previously determined by [a-qualified] the appointed actuary to be necessary to render the opinion required by [subsection-(j)] subsections (c) and (d) shall not be deemed to be the adoption of a higher standard of valuation.

[(h)—Minimum reserve:] (1) If in any contract year the gross premium charged by [any-life-insurer] a company on [any] a policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve [thereon] but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for [that] the policy or contract shall be the greater of either the reserve calculated according to the mortality table, rate of interest, and method actually used for the policy or contract, or the reserve calculated by the method actually used for the policy or contract, but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation
standards of mortality and rate of interest referred to in this
[section] subsection are those standards stated in [subsection
(e)(1), (2), and (4); provided that for any] subsections (e) and
(g). For a life insurance policy issued on or after January 1,
1986, for which the gross premium in the first policy year
exceeds that of the second year and for which no comparable
additional benefit is provided in the first year for the excess
and [which] that provides an endowment benefit or a cash
surrender value, or a combination thereof, in an amount greater
than the excess premium, this subsection shall be applied as if
the method actually used in calculating the reserve for the
policy were the method described in subsection [(d)] (h),
ignoring [the second paragraph of that] subsection[(-)] (h)(2).
The minimum reserve at each policy anniversary of such a policy
shall be the greater of the minimum reserve calculated in
accordance with subsection [(d)] (h), including subsection
[(d)-(2)] (h)(2) and the minimum reserve calculated in accordance
with this subsection.

[(m)] In the case of any plan of life insurance
[which] that provides for future premium determination, the
amounts of which are to be determined by the insurance company
based on then estimates of future experience, or in the case of
any plan of life insurance or annuity [which] that is of such a nature that the minimum reserves cannot be determined by the methods described in subsections [(d), (e), and] (h), (i), and (l), the reserves [which] that are held under [any such] the plan [must+] shall:

(1) Be appropriate in relation to the benefits and the pattern of premiums for that plan; and

(2) Be computed by a method [which] that is consistent with the principles of this section, as determined by rules adopted by the commissioner.

[(j)—The actuarial opinion of reserves and this subsection shall become effective December 31, 1995.]

The commissioner, by rules, shall
define the specifics of this opinion and add any other items deemed to be necessary to its scope.

(2) Actuarial analysis of reserves and assets supporting the reserves:

{(B) The commissioner may provide, by rules, for a
transition period for establishing any higher
reserves which the qualified actuary may deem
necessary in order to render the opinion required
by this section;}

{(2) Each opinion required by paragraph (2) shall be
governed by the following:}

{(A) A memorandum, in form and substance acceptable to
the commissioner as specified by rules, shall be
prepared to support each actuarial opinion; and

{(B) If the insurance company fails to provide a
supporting memorandum at the request of the
commissioner within a period specified by rules
or if the commissioner determines that the
supporting memorandum provided by the insurer
fails to meet the standards prescribed by rules
or is otherwise unacceptable to the commissioner,
the commissioner may engage a qualified actuary
at the expense of the insurer to review the
opinion and the basis for the opinion and prepare
any supporting memorandum that is required by the
commissioner; and}
(4) Every opinion shall be governed by the following:

(A) The opinion shall be submitted with the annual statement reflecting the valuation of reserve liabilities for each year ending on or after December 31, 1995;

(B) The opinion shall apply to all business in force including individual and group health insurance plans, in form and substance acceptable to the commissioner as specified by rules;

(C) The opinion shall be based on standards adopted from time to time by the Actuarial Standards Board and on any [additional] standards that the commissioner may prescribe by rules;

(D) In the case of an opinion required to be submitted by a foreign or alien insurer, the commissioner may accept the opinion filed by that insurer with the insurance supervisory official of another state if the commissioner determines that the opinion reasonably meets the requirements applicable to an insurer domiciled in this State.
(E) For the purposes of this section, "qualified actuary" means a member in good standing of the American Academy of Actuaries who meets the requirements set forth in the regulations adopted by the American Academy of Actuaries;

(F) Except in cases of fraud or wilful misconduct, the qualified actuary shall not be liable for damages to any person, other than the insurer and the commissioner, for any act, error, omission, decision, or conduct with respect to the actuary's opinion; and

(G) Any memorandum in support of the opinion, and any other material provided by the insurer to the commissioner in connection therewith, shall be kept confidential by the commissioner and shall not be made public and shall not be subject to subpoena, other than for the purpose of defending an action seeking damages from any person by reason of any action required by this section, or by rules adopted hereunder, provided that the memorandum or other material may otherwise be released by the commissioner with the written
consent of the insurer or be released to the
American Academy of Actuaries upon request
stating that the memorandum or other material is
required for the purpose of professional
disciplinary proceedings and setting forth
procedures satisfactory to the commissioner for
preserving the confidentiality of the memorandum
or other material. Once any portion of the
confidential memorandum is cited by the insurer
in its marketing material or is cited before any
governmental agency, other than a state insurance
department, or is released by the insurer to the
news media, all portions of the confidential
memorandum shall no longer be confidential.]}

valuation manual, the minimum standard of valuation is the
standard adopted by the commissioner by rule.

(A) The change to the valuation manual has been adopted by the National Association of Insurance Commissioners by an affirmative vote representing:

(i) At least three-fourths of the members of the National Association of Insurance...
Commissioners voting, but not less than a majority of the total membership; and (ii) Members of the National Association of Insurance Commissioners representing jurisdictions totaling greater than seventy-five per cent of the direct premiums written as reported in the following annual statements most recently available prior to the vote in clause (i): life, accident and health annual statements; health annual statements; or fraternal annual statements; and

(E) Other requirements including but not limited to those relating to reserve methods, models for measuring risk, generation of economic scenarios, assumptions, margins, use of company experience, risk measurement, disclosure, certifications,
reports, actuarial opinions and memorandums, transition rules, and internal controls; and

contracts with significant tail risk, the
valuation shall reflect conditions appropriately
adverse to quantify the tail risk;

(B) Incorporate assumptions, risk analysis methods
and financial models, and management techniques

assumptions or methods;

(A) Establish procedures for corporate governance and
oversight of the actuarial valuation function

included in the valuation, and that valuations
are made in accordance with the valuation manual.
The certification shall be based on the controls
in place as of the end of the preceding calendar year; and

commissioner;

(D) The commissioner may receive documents,
materials, data, and other information, including
otherwise confidential and privileged documents,

(C) Once any portion of a memorandum in support of an opinion submitted under subsections (c) and (d) or a principle-based valuation report developed under subsection (p)(2)(c) is cited by the company in its marketing, is publicly volunteered to or before a governmental agency other than a state insurance department, or is released by the company to the news media, all portions of the memorandum or report shall no longer be confidential; and

and method used in calculating cash surrender 
values and the paid-up nonforfeiture benefits 
available under the policy. In the case of all 
other policies, a statement of the mortality 
table and interest rate used in calculating the 
cash surrender values and the paid-up 
nonforfeiture benefits available under the 
policy, together with a table showing the cash 
surrender value, if any, and paid-up 
nonforfeiture benefit, if any, available under
the policy on each policy anniversary either
during the first twenty policy years or during
the term of the policy, whichever is shorter,
[such] the values and benefits to be calculated
upon the assumption that there are no dividends
or paid-up additions credited to the policy and
that there is no indebtedness to the [insurer]
company on the policy.
(F) A statement that the cash surrender values and
the paid-up nonforfeiture benefits available
under the policy are not less than the minimum
values and benefits required by or pursuant to
the insurance law of the jurisdiction in which
the policy is delivered; an explanation of the
manner in which the cash surrender values and the
paid-up nonforfeiture benefits are altered by the
existence of any paid-up additions credited to
the policy or any indebtedness to the [insurer]
company on the policy; if a detailed statement of
the method of computation of the values and
benefits shown in the policy is not stated
therein, a statement that the method of
computation has been filed with the insurance supervisor official of the jurisdiction in which the policy is delivered; and a statement of the method to be used in calculating the cash surrender value and a paid-up nonforfeiture benefit available under the policy on any policy anniversary beyond the last anniversary for which such values and benefits are consecutively shown in the policy.

(2) Any of the foregoing provisions in paragraph (1) or portions thereof not applicable by reason of the plan of insurance may, to the extent inapplicable, be omitted from the policy.

(3) The insurer company shall reserve the right to defer the payment of any cash surrender value for a period of six months after demand therefor with surrender of the policy.

(c) [Cash surrender value—life] With regard to the computation of cash surrender value:

(1) Any cash surrender value available under the policy in the event of default in a premium payment due on any policy anniversary, [whether or not required by]
regardless of subsection (b), shall be an amount not less than the excess, if any, of the present value, on the anniversary, of the future guaranteed benefits that would have been provided for by the policy, including any existing paid-up additions, if there had been no default, over the sum of:

(A) The then present value of the adjusted premiums as defined in subsection (e) corresponding to premiums that would have fallen due on and after the anniversary; and

(B) The amount of any indebtedness to the [insurer] company on [account-of-or-secured-by] the policy [provided that]

(2) For any policy issued on or after the operative date of subsection (e)(8) that provides supplemental life insurance or annuity benefits at the option of the insured and for an identifiable additional premium by rider or supplemental policy provision, the cash surrender value referred to in [this] paragraph (1) shall be an amount not less than the sum of the cash surrender value for an otherwise similar policy issued
at the same age without [such] the rider or

supplemental policy provision and the cash surrender

value as defined in paragraph (1) for a policy that

provides only the benefits otherwise provided by

[such] the rider or supplemental policy provision[+]

[(+++)] (3) For any family policy issued on or after the

operative date of subsection (e)(8) that defines a

primary insured and provides term insurance on the

life of the spouse of the primary insured expiring

before the spouse's seventy-first birthday, the cash

surrender value referred to in [this] paragraph (1)

shall be an amount not less than the sum of the cash

surrender value for an otherwise similar policy issued

at the same age without [such] term insurance on the

life of the spouse and the cash surrender value [for

an otherwise similar policy issued at the same age

without such rider or supplemental policy provision

and the cash surrender value] as defined in paragraph

(1) for a policy that provides only the benefits

otherwise provided by [such] term insurance on the

life of the spouse.
(4) Any cash surrender value available within thirty days after any policy anniversary of the future guaranteed benefits provided for by the policy including any existing paid-up additions, shall be decreased by any indebtedness to the insurer on account of or secured by the policy under any policy paid up by completion of all premium payments or any policy continued under any paid-up nonforfeiture benefit, regardless of subsection (b), shall be an amount not less than the present value, on the anniversary, of the future guaranteed benefits provided for by the policy, including any existing paid-up additions, decreased by any indebtedness to the company on the policy.

(d) [Paid-up nonforfeiture benefit—life: Any] With regard to the computation of paid-up nonforfeiture benefits, for any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment due on any policy anniversary shall be such that its present value as of the anniversary shall be at least equal to the cash surrender value then provided for by the policy or, if none is provided for, that cash surrender value [which] that would have been required.
by this section in the absence of the condition that premiums
shall have been paid for at least a specified period.

(e) [The adjusted premium—life:

(1) This paragraph] With regard to the calculation of
adjusted premiums:

(1) This section shall not apply to policies issued on or
after the operative date of paragraph (8) [as defined
therein]. Except as provided in paragraph (4), the
adjusted premiums for any policy shall be calculated
on an annual basis and shall be [such] a uniform
percentage of the respective premiums specified in the
policy for each policy year, excluding [extra premiums
on a substandard policy, that the present value, at
the date of issue of the policy,] amounts stated in
the policy as extra premiums to cover impairments or
special hazards of the present value at the date of
issue of the policy, of all such adjusted premiums
shall be equal to the sum of:

(A) The then present value of the future guaranteed
benefits provided for by the policy;

(B) Two per cent of the amount of insurance, if the
insurance is uniform in amount, or of the
equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy;

(C) Forty per cent of the adjusted premium for the first policy year; and

(D) Twenty-five per cent of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less.

(2) [This paragraph shall not apply to policies issued on or after the operative date of paragraph (8)] In applying the percentages specified in paragraph (1)(C) and (D), no adjusted premium shall be deemed to exceed four per cent of the amount of insurance or [uniform level amount equivalent [thereeto. Whenever the plan or term of a policy has been changed, either by request of the insured or automatically in accordance with the policy, the date of inception of the changed policy for the purposes of determining a nonforfeiture]
benefit or cash surrender value shall be the date as of which the age of the insured is determined for the purposes of the changed policy. The date of issue of a policy for the purpose of this subsection shall be the date as of which the rated age of the insured is determined.

(3) This paragraph shall not apply to policies issued on or after the operative date of paragraph (8). In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent [uniform level amount thereof] for the purpose of this [paragraph] subsection shall be deemed to be the [uniform level amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the [date of issue as the benefits under the policy. In the case of a policy providing a varying amount of insurance issued on the life of a child under age ten, the equivalent uniform amount may be computed as though
the amount of insurance provided by the policy prior
to the attainment of age ten was the amount provided
by the policy at age ten.

(4) This paragraph shall not apply to policies issued on
or after the operative date of paragraph (6).]  
inception of the insurance as the benefits under the
policy.

(4) The adjusted premiums for any policy providing term
insurance benefits by rider or supplemental policy
provision shall be equal to [the]:

(A) The adjusted premiums for an otherwise similar
policy issued at the same age without [such] the
term insurance benefits, increased, during the
period for which premiums for [such] the term
insurance benefits are payable, by [the]

(B) The adjusted premiums for the term insurance.
The foregoing amounts in [paragraph (1)(A)]
subparagraphs (A) and (B) being calculated separately
and as specified in paragraphs (1)[1, (2)], and (3),
except that, for the purposes of paragraph (1)(B),
(C), and (D), the amount of insurance or equivalent
uniform amount of insurance used in the calculation of
the adjusted premiums referred to in paragraph (1)(B) shall be equal to the excess of the corresponding amount determined for the entire policy over the amount used in the calculation of the adjusted premiums in [paragraph (1)(A)] subparagraph (A).

(5) [This paragraph shall not apply to policies issued on or after the operative date of paragraph (8).] Except as otherwise provided in paragraphs (6) and (7), all adjusted premiums and present values referred to in this section shall for all policies of ordinary insurance be calculated on the basis of the Commissioners 1941 Standard Ordinary Mortality Table; provided that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to [an] any age not more than three years younger than the actual age of the insured and [such] the calculations for all policies of industrial insurance shall be made on the basis of the 1941 Standard Industrial Mortality Table. All calculations shall be made on the basis of the rate of interest, not exceeding three and one-half per cent a year, specified in the policy for calculating
cash surrender values and paid-up nonforfeiture benefits.

In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than one hundred thirty per cent of the rates of mortality according to the applicable table.

For insurance issued on a substandard basis, the calculation of any [such] adjusted premiums and present values may be based on [such] any other table of mortality as may be specified by the [insurer] company and approved by the commissioner.

(6) This paragraph shall not apply to ordinary policies issued on or after the operative date of paragraph (8). In the case of ordinary policies issued on or after the operative date of this paragraph, all adjusted premiums and present values referred to in this section shall be calculated on the basis of the Commissioners 1958 Standard Ordinary Mortality Table[—]. The and the rate of interest specified in the policy for calculating cash surrender values and paid-
up nonforfeiture benefits; provided that the rate of interest shall not exceed three and one-half per cent a year, except that:

(A) A rate of interest not exceeding four per cent a year may be used for policies issued after June 1, 1976, and prior to June 1, 1979;

(B) A rate of interest not exceeding five and one-half per cent a year may be used for policies issued on or after June 1, 1979; and

(C) For any single premium whole life or endowment insurance policy, a rate of interest not exceeding six and one-half per cent a year may be used.

For any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than six years younger than the actual age of the insured.

In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1958 Extended Term Insurance Table.
For insurance issued on a substandard basis, the
calculation of any adjusted premiums and present
values may be based on such other table of mortality
as may be specified by the [insurer] company and
approved by the commissioner.

After June 1, 1959, any [insurer] company may
file with the commissioner a written notice of its
election to comply with [the provisions of] this
paragraph after a specified date before January 1,
1966. After the filing of such notice, [then upon
[such] the specified date (which shall be the
operative date of this paragraph for [such insurer],
that company), this paragraph shall become operative
with respect to the ordinary policies thereafter
issued by [such insurer] the company. If [an
insurer] a company makes no such election, the
operative date of this paragraph for [such insurer]
the company shall be January 1, 1966.

(7) This paragraph shall not apply to industrial policies
issued on or after the operative date of paragraph
(8). In the case of industrial policies issued on or
after the operative date of this paragraph, all
adjusted premiums and present values referred to in
this section shall be calculated on the basis of the
Commissioners 1961 Standard Industrial Mortality
Table[—

The] and the rate of interest specified in the
policy for calculating cash surrender values and paid-
up nonforfeiture benefits; provided that the rate of
interest shall not exceed three and one-half per cent
a year, except that:

(A) A rate of interest not exceeding four per cent a
year may be used for policies issued on or after
June 1, 1976, and prior to June 1, 1979;

(B) A rate of interest not exceeding five and one-
half per cent a year may be used for policies
issued on or after June 1, 1979; and

(C) For any single premium whole life or endowment
insurance policy a rate of interest not exceeding
six and one-half per cent a year may be used.

In calculating the present value of any
paid-up term insurance with accompanying pure
endowment, if any, offered as a nonforfeiture
benefit, the rates of mortality assumed may be
not more than those shown in the Commissioners 1961 Industrial Extended Term Insurance Table.

For insurance issued on a substandard basis, the calculation of any adjusted premiums and present values may be based on such other table of mortality as may be specified by the [insurer] company and approved by the commissioner.

After May 8, 1965, any [insurer] company may file with the commissioner a written notice of its election to comply with [the provisions of] this paragraph after a specified date before January 1, 1968. After the filing of [such] the notice, [then] upon [such] the specified date (which shall be the operative date of this paragraph for [such insurer] that company), this paragraph shall become operative with respect to the industrial policies thereafter issued by [such insurer] the company. If [an insurer] a company makes no such election, the operative date of this paragraph for [such insurer] the company shall be January 1, 1968.
This paragraph shall apply to all policies issued on or after the operative date of this paragraph. Except as provided in subparagraph (G), the adjusted premiums for any policy shall be calculated on an annual basis and shall be a uniform percentage of the respective premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments or special hazards and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the date of issue of the policy, of all adjusted premiums shall be equal to the sum of:

(i) The then present value of the future guaranteed benefits provided for by the policy;

(ii) One per cent of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance.
at the beginning of each of the first ten policy years; and

(iii) One hundred twenty-five per cent of the nonforfeiture net level premium as hereinafter defined.

In applying the percentage specified in clause (iii), no nonforfeiture net level premium shall be deemed to exceed four per cent of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years. The date of issue of a policy for the purpose of this paragraph shall be the date as of which the rated age of the insured is determined.

(B) The nonforfeiture net level premium shall be equal to the present value, at the date of issue of the policy, of the guaranteed benefits provided for by the policy divided by the present value, at the date of issue of the policy, of an annuity of one per annum payable on the date of issue of the policy and on each anniversary of such the policy on which a premium falls due.
(C) In the case of policies that cause, on a basis guaranteed in the policy, unscheduled changes in benefits or premiums, or that provide an option for changes in benefits or premiums other than a change to a new policy, the adjusted premiums and present values shall initially be calculated on the assumption that future benefits and premiums do not change from those stipulated at the date of issue of the policy [immediately after the change]. At the time of any such change in the benefit or premiums, the future adjusted premiums, nonforfeiture net level premiums and present values shall be recalculated on the assumption that future benefits and premiums do not change from those stipulated by the policy immediately after the change.

(D) Except as otherwise provided in subparagraph (G), the recalculated future adjusted premiums for any [such] policy shall be [such] the uniform percentage of the respective future premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to
cover impairments and special hazards, and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, that the present value, at the time of change to the newly defined benefits or premiums, of all [such] the future adjusted premiums shall be equal to the excess of the sum of:

1. The then present value of the then future guaranteed benefits provided for by the policy; and
2. The additional expense allowance, if any, over the then cash surrender value, if any, or present value of any paid-up nonforfeiture benefit under the policy.

(E) The additional expense allowance, at the time of the change to the newly defined benefits or premiums, shall be the sum of:

1. One per cent of the excess, if positive, of the average amount of insurance at the beginning of each of the first ten policy
years subsequent to the change over the average amount of insurance prior to the change at the beginning of each of the first ten policy years subsequent to the time of the most recent previous change, or, if there has been no previous change, the date of issue of the policy; and

(ii) One hundred twenty-five per cent of the increase, if positive, in the nonforfeiture net level premium.

(F) The recalculated nonforfeiture net level premium shall be equal to the result obtained by dividing the value defined in clause (i) by the value defined in clause (ii):

(i) The nonforfeiture net level premium applicable prior to the charge times the present value of an annuity of one per annum payable on each anniversary of the policy on or subsequent to the date of the charges on which a premium would have fallen due had the change not occurred, plus the present
value of the increase in future guaranteed
benefits provided for by the policy; and

(ii) The present value of an annuity of one per
annum payable on each anniversary of the
policy on or subsequent to the date of
charge on which a premium falls due.

(G) Notwithstanding any other provision of this
paragraph to the contrary, in the case of a
policy issued on a substandard basis that
provides reduced graded amounts of insurance so
that, in each policy year, such policy has the
same tabular mortality cost as an otherwise
similar policy issued on the standard basis that
provides higher uniform amounts of insurance,
adjusted premiums and present values for [such]
the substandard policy may be calculated as if it
were issued to provide such higher uniform
amounts of insurance on the standard basis.

(H) All adjusted premiums and present values referred
to in this section shall: for all policies of
ordinary insurance be calculated on the basis of
either the Commissioners 1980 Standard Ordinary
Mortality Table[\textt] or, at the election of the
company for any one or more specified plans of
life insurance, the Commissioners 1980 Standard
Ordinary Mortality Table with Ten-Year Select
Mortality Factors; for all policies of industrial
insurance be calculated on the basis of the
Commissioners 1961 Standard Industrial Mortality
Table; and for all policies issued in a
particular calendar year be calculated on the
basis of a rate of interest not exceeding the
nonforfeiture interest rate as defined in this
paragraph for policies issued in that calendar
year; provided that:

(i) At the option of the company, calculations
for all policies issued in a particular
calendar year may be made on the basis of a
rate of interest not exceeding nonforfeiture
interest rate, as defined in this paragraph,
for policies issued in the immediately
preceding calendar year;

(ii) Under any paid-up nonforfeiture benefit,
including any paid-up dividend additions,
any cash surrender value available, [whether or not required by] regardless of subsection (b), shall be calculated on the basis of the mortality table and rate of interest used in determining the amount of such paid-up nonforfeiture benefit and paid-up dividend additions, if any;

(iii) A company may calculate the amount of any guaranteed paid-up nonforfeiture benefit, including any paid-up additions under the policy on the basis of an interest rate no lower than that specified in the policy for calculating cash surrender values;

(iv) In calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1980 Extended Term Insurance Table for policies of ordinary insurance and not more than the Commissioners 1961 Industrial Extended Term
Insurance Table for policies of industrial insurance;

(v) For insurance issued on a substandard basis, the calculation of any [sueh] adjusted premiums and present values may be based on appropriate modifications of the aforementioned tables;

(vi) [Any] For policies issued prior to the operative date of the valuation manual, any commissioners standard ordinary mortality tables, adopted after 1980 by the National Association of Insurance Commissioners, that are approved by rule by the commissioner for use in determining the minimum nonforfeiture standard may be substituted for the Commissioners 1980 Standard Ordinary Mortality Table with or without Ten-Year Select Mortality Factors or for the Commissioners 1980 Extended Term Insurance Table.[\text{---and}]_

For policies issued on or after the operative date of the valuation manual, the
valuation manual shall provide the commissioners standard mortality table for use in determining the minimum nonforfeiture standard that may be substituted for the Commissioners 1980 Standard Ordinary Mortality Table with or without Ten-Year Select Mortality Factors or for the Commissioners 1980 Extended Term Insurance Table. If the commissioner approves by rule any commissioners standard ordinary mortality table adopted by the National Association of Insurance Commissioners for use in determining the minimum nonforfeiture standard for policies issued on or after the operative date of the valuation manual, then that minimum nonforfeiture standard supersedes the minimum nonforfeiture standard provided by the valuation manual; and

(vii) [Any] For policies issued prior to the operative date of the valuation manual, any commissioners standard industrial mortality
tables, adopted after 1980 by the National Association of Insurance Commissioners, that are approved by rule by the commissioner for use in determining the minimum nonforfeiture standard may be substituted for the Commissioners 1961 Standard Industrial Mortality Table or the Commissioners 1961 Industrial Extended Term Insurance Table.

For policies issued on or after the operative date of the valuation manual, the valuation manual shall provide the commissioners standard mortality table for use in determining the minimum nonforfeiture standard that may be substituted for the Commissioners 1961 Standard Industrial Mortality Table or the Commissioners 1961 Industrial Extended Term Insurance Table.

If the commissioner approves by rule any commissioners standard industrial mortality table adopted by the National Association of Insurance Commissioners for use in determining the minimum nonforfeiture
standard for policies issued on or after the
operative date of the valuation manual, then
that minimum nonforfeiture standard
supersedes the minimum nonforfeiture
standard provided by the valuation manual.

(I) [The nonforfeiture interest rate per annum for
any policy issued in a particular calendar year]
As used in this paragraph, "nonforfeiture
interest rate" means:

(i) For policies issued prior to the operative
date of the valuation manual, the
nonforfeiture interest rate per annum for
any policy issued in a particular calendar
year shall be equal to one hundred twenty-
five per cent of the calendar year statutory
valuation interest rate for such policy as
defined in the Standard Valuation Law,
rounded to the nearer one quarter of one per
cent[\(\%\)]; provided that the nonforfeiture
interest rate shall not be less than four
per cent; and
(ii) For policies issued on or after the operative date of the valuation manual, the nonforfeiture interest rate per annum for any policy issued in a particular calendar year shall be as provided by the valuation manual.

(J) Notwithstanding any other provision in this [eeed] chapter to the contrary, any refiling of nonforfeiture values or their methods of computation for any previously approved policy form that involves only a change in the interest rate or mortality table used to compute nonforfeiture values shall not require refiling of any other provisions of that policy form.

(K) After the effective date of this paragraph, any company may file with the commissioner a written notice of its election to comply with this paragraph after a specified date before January 1, 1989, which shall be the operative date of this paragraph for [such] the company. If a company makes no [such] election, the
operative date of this paragraph for such the
company shall be January 1, 1989.

(L) In the case of any plan of life insurance that
provides for future premium determination, the
amounts of which are to be determined by the
insurance company based on [then] estimates of
future experience, or in the case of any plan of
life insurance that is of such a nature that
minimum values cannot be determined by the
methods described in this subsection and
subsections (b) to (d) and subsection (c), then:

(i) The commissioner shall be satisfied that the
benefits provided under the plan are
substantially as favorable to policyholders
and insureds as the minimum benefits
otherwise required by subsections (b) to (d) and this subsection;

(ii) The commissioner shall be satisfied that the
benefits and the pattern of premiums of that
plan are not such as to mislead prospective
policyholders or insureds; and
(iii) The cash surrender values and paid-up nonforfeiture benefits provided by the plan shall not be less than the minimum values and benefits required for the plan computed by a method consistent with the principles of this Standard Nonforfeiture Law for Life Insurance, as determined by rules adopted by the commissioner.

(f) [Calculation of values—life:] Any cash surrender value and any paid-up value and any paid-up nonforfeiture benefit, available under the policy in the event of default in a premium payment due at any time other than on the policy anniversary, shall be calculated with allowance for the lapse of time and the payment of fractional premiums beyond the last preceding policy anniversary. All values referred to in subsections (c), (d), and (e) may be calculated upon the assumption that any death benefit is payable at the end of the policy year of death. The net value of any paid-up additions, other than paid-up term additions, shall be not less than the amounts used to provide such additions. Notwithstanding subsection (c) to the contrary, additional benefits payable:
(1) In the event of death or dismemberment by accident or accidental means;
(2) In the event of total and permanent disability;
(3) As reversionary annuity or deferred reversionary annuity benefits;
(4) As term insurance benefits provided by a rider or supplemental policy provision to which, if issued as a separate policy, this section would not apply;
(5) As term insurance on the life of a child or on the lives of children provided in a policy on the life of a parent of the child, if [such] the term insurance expires before the child's age is twenty-six, is uniform in amount after the child's age is one, and has not become paid up by reason of the death of a parent of the child; and
(6) As other policy benefits additional to life insurance and endowment benefits, and premiums for all such additional benefits,
shall be disregarded in ascertaining cash surrender values and nonforfeiture benefits required by this section, and no such additional benefits shall be required to be included in any paid-up nonforfeiture benefits.
(g) This subsection, in addition to all other applicable subsections [of this section], shall apply to all policies issued on or after January 1, 1985. Any cash surrender value available under the policy in the event of default in a premium payment due on any policy anniversary shall be in an amount that does not differ by more than two-tenths of one per cent of either the amount of insurance, if the insurance be uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years, from the sum of the greater of zero and the basic cash value hereinafter specified, and the present value of any existing paid-up additions less the amount of any indebtedness to the company under the policy.

The basic cash value shall be equal to the present value, on [some] the anniversary, of the future guaranteed benefits that would have been provided for by the policy, excluding any existing paid-up additions and before deduction of any indebtedness to the company, if there had been no default, less the then present value of the nonforfeiture factors, as hereinafter defined, corresponding to premiums that would have fallen due on and after [some] the anniversary. The effects on the basic cash value of supplemental life insurance or annuity benefits or of family coverage, as described in subsection (c)
or (e)(1), (2), (3), (4), and (5), whichever is applicable,
shall be the same as are the effects specified in subsection (c)
or (e)(1), (2), (3), (4), and (5), whichever is applicable, on
the cash surrender values defined in that subsection.

The nonforfeiture factor for each policy year shall be an
amount equal to a percentage of the adjusted premium for the
policy year, as defined in subsection (e)(1), (2), (3), (4), and
(5) or subsection (e)(8), whichever is applicable. Except as is
required by the next succeeding sentence of this paragraph,

[such] the percentage:

(1) Shall be the same for each policy year between the
second policy anniversary and the later of:

(A) The fifth policy anniversary; and

(B) The first policy anniversary at which there is
available under the policy a cash surrender value
in an amount, before including any paid-up
additions and before deducting any indebtedness,
of at least two-tenths of one per cent of either
the amount of insurance, if the insurance be
uniform in amount, or the average amount of
insurance at the beginning of each of the first
ten policy years; and
(2) Shall be such that no percentage after the later of
the two policy anniversaries specified in paragraph
(1) may apply to fewer than five consecutive policy
years.

No basic cash value may be less than the value that would be
obtained if the adjusted premiums for the policy, as defined in
subsection (e)(1), (2), (3), (4), and (5) or subsection
(e)(8), [whichever is applicable,] were substituted for the
nonforfeiture factors in the calculation of the basic cash
value.

All adjusted premiums and present values referred to in
this subsection shall for a particular policy be calculated on
the same mortality and interest bases as are used in
demonstrating the policy's compliance with [the other
subsection[s] of] this section. The cash surrender values
referred to in this subsection shall include any endowment
benefits provided for by the policy.

Any cash surrender value available other than in the event
of default in a premium payment due on a policy anniversary, and
the amount of any paid-up nonforfeiture benefit available under
the policy in the event of default in a premium payment shall be
determined in manners consistent with the manners specified for
determining the analogous minimum amounts in subsections (b), (c), (d), (e)(8), and (f). The amounts of any cash surrender values and of any paid-up nonforfeiture benefits granted in connection with additional benefits such as those listed [as paragraphs (1) through (6)] in subsection [(f)] (f)(1) to (6) shall conform with the principles of this subsection.

(h) [Exception:] This section shall not apply to any of the following:

(1) Reinsurance;

(2) Group insurance;

(3) Pure endowment;

(4) Annuity or reversionary annuity contract;

(5) Term policy uniform amount, which provides no guaranteed nonforfeiture or endowment benefits, or renewal thereof, of twenty years or less expiring before age seventy-one, for which uniform premiums are payable during the entire term of the policy;

(6) Term policy of decreasing amount, which provides no guaranteed nonforfeiture or endowment benefits, [issued at the same age and for the same initial amount of insurance and for a term of twenty years or less expiring before age seventy-one, for which]

subsection (a) with the National Association of

[(2)] (1) A purchase of securities solely for investment
purposes, so long as those securities are not used by
voting or otherwise to cause or attempt to cause the
substantial lessening of competition in any insurance
market in this State. If a purchase of securities
results in a presumption of control as defined in
section 431:11-102, it is not solely for investment
purposes unless the commissioner of the insurer's
state of domicile accepts a disclaimer of control or
affirmatively finds that control does not exist and
the disclaimer action or affirmative finding is
communicated by the domiciliary commissioner to the
commissioner;
(2) The acquisition of a person by another person when both persons are neither directly nor through affiliates primarily engaged in the business of insurance, if preacquisition notification is filed with the commissioner in accordance with section 431:11-104.3 thirty days prior to the proposed effective date of the acquisition. However, the preacquisition notification is not required for exclusion from this section and sections 431:11-104.3 through 431:11-104.6 if the acquisition would otherwise be excluded by any other paragraph of this subsection;

For the purpose of this paragraph, [a market] "market" means direct written insurance premiums in this State for a line of business as contained in the annual statement required to be filed by insurers licensed to do business in this State;

(5) An acquisition for which a preacquisition notification would be required pursuant to this section due solely to the resulting effect on the ocean marine insurance line of business; and

(6) An acquisition of an insurer whose domiciliary commissioner affirmatively finds that the insurer is in failing condition; there is a lack of feasible alternative to improving such condition; the public benefits of improving the insurer's condition through the acquisition exceed the public benefits that would arise from not lessening competition; and those
findings are communicated by the domiciliary
commissioner to the commissioner[.] of this State."

SECTION 10. Section 431:11-105, Hawaii Revised Statutes,
is amended to read as follows:

(c) All registration statements shall contain a summary outlining all items in the current registration statement representing changes from the prior registration statement.

(d) No information need be disclosed on the registration statement filed pursuant to subsection (b) if the information is not material for the purposes of this section. Unless the commissioner by rule or order provides otherwise, sales, purchases, exchanges, loans or extensions of credit, investments, or guarantees involving one-half of one per cent or less of an insurer's admitted assets as of the [thirty-first day of] December 31 next preceding shall not be deemed material for purposes of this section.

[After a disclaimer has been filed, the insurer shall be relieved of any duty to register or report under this section which may arise out of the insurer's relationship with the person unless and until the commissioner disallows the disclaimer. The commissioner shall disallow a disclaimer only after furnishing all parties in interest with notice and opportunity to be heard and after making specific findings of fact to support the disallowance.] A disclaimer of affiliation shall be deemed to have been granted unless the commissioner, within thirty days following receipt of a complete disclaimer, notifies the filing party that the disclaimer is disallowed. In the event of disallowance, the disclaiming party may request an administrative hearing, which shall be granted. The disclaiming party shall be relieved of its duty to register under this section if approval of the disclaimer has been granted by the commissioner, or if the disclaimer is deemed to have been approved.

the insurer cannot obtain the information and the

appears to the commissioner that the detailed
explanation is without merit, the commissioner may
require, after notice and hearing, the insurer to pay
a penalty of not less than $100 and not more than $500
