
A BILL FOR AN ACT

RELATING TO IN VITRO FERTILIZATION INSURANCE COVERAGE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that infertility is a
2 disease of the reproductive system that impairs and
3 substantially limits an individual's major life activity of
4 reproduction. In the United States, infertility affects
5 approximately seven million women and their partners, and
6 approximately twelve per cent of women of childbearing age have
7 used an infertility service. Since 1978, in vitro fertilization
8 has provided a necessary solution for many diagnosed with
9 infertility who desire to have a child and be a parent.

10 The legislature further finds that since 1987, Hawaii has
11 required insurance coverage for the treatment of infertility
12 through in vitro fertilization. The current law only provides
13 for a one-time benefit; applies only to the insured or insured's
14 spouse; requires fertilization with the sperm from the patient's
15 spouse; requires a history of infertility for at least five
16 years; requires previous attempts at pregnancy through other
17 applicable infertility treatments for which coverage is

1 available; and applies only to a limited number of medical
2 conditions associated with infertility.

3 The purpose of this Act is to provide in vitro
4 fertilization insurance coverage equality for women who are
5 diagnosed with infertility by requiring non-discriminatory
6 coverage and ensuring quality of care in the diagnosis and
7 treatment of infertility.

8 SECTION 2. Section 431:10A-116.5, Hawaii Revised Statutes,
9 is amended to read as follows:

10 **"§431:10A-116.5 In vitro fertilization procedure coverage.**

11 (a) All individual and group accident and health or sickness
12 insurance policies which provide pregnancy-related benefits
