# SENATE CONCURRENT RESOLUTION

ENCOURAGING THE DEPARTMENT OF EDUCATION TO ESTABLISH A VOLUNTARY  
FARM TO SCHOOL PROGRAM.

1           WHEREAS, farm to school programs improve the connection  
2 that communities have with fresh, nutritious food and local  
3 farmers by changing food purchasing and education practices at  
4 schools and preschools; and

5  
6           WHEREAS, across the country, an increasing number of states  
7 have established farm to school programs; and

8  
9           WHEREAS, a farm to school program supports the local  
10 economy and enriches school children's bodies and minds by  
11 bringing locally grown or raised foods into school cafeterias;  
12 providing educational activities that emphasize food, farming,  
13 and nutrition; and offering hands-on learning activities  
14 including school gardening, farm visits, and culinary classes;  
15 and

16  
17           WHEREAS, Washington State's Department of Agriculture  
18 created a tool kit to assist the implementation of a farm to  
19 school program; and

20  
21           WHEREAS, other states, including Ohio and Virginia, began  
22 farm to school programs with only one or two agricultural  
23 products; and

24  
25           WHEREAS, according to the United States Department of  
26 Agriculture's recent Farm to School Census, school districts  
27 participating in farm to school programs purchased and served  
28 over \$385,000,000 in local food during the 2011-2012 school  
29 year, and more than half of the participating schools plan to  
30 increase local food purchases; and

31

1 WHEREAS, the Department of Education requires flexibility  
2 in implementing a farm to school program due to the challenges  
3 presented by the scale of the Department's food service needs  
4 and the requirement that farmers participating in the program be  
5 food safety certified; and

6  
7 WHEREAS, there are many challenges and successes that come  
8 with the implementation of a farm to school program, and a  
9 statewide, one-size-fits-all approach may delay the  
10 implementation process; and

11  
12 WHEREAS, allowing a single Department of Education Complex  
13 Area to implement a farm to school program, rather than  
14 requiring statewide implementation, will allow a Complex Area  
15 with the resources to implement a farm to school program to  
16 partner with its local farmers without delay; now, therefore,

17  
18 BE IT RESOLVED by the Senate of the Twenty-eighth  
19 Legislature of the State of Hawaii, Regular Session of 2015, the  
20 House of Representatives concurring, that the Department of  
21 Education is encouraged to establish the Hawaii Voluntary Farm  
22 to School Program to improve school children's access to  
23 nutritious foods in public educational institutions by providing  
24 Department of Education Complex Areas with the opportunity and  
25 option to purchase locally grown food for schools from food  
26 safety certified farms in the State; and

27  
28 BE IT FURTHER RESOLVED that a farmer providing products to  
29 a Department of Education Complex Area's farm to school program  
30 provide evidence that the farmer has an adequate supply of  
31 products to supply the Complex Area's farm to school program for  
32 one year; and

33  
34 BE IT FURTHER RESOLVED that a farmer providing products to  
35 a Department of Education Complex Area's farm to school program  
36 be food safety certified and subject to all applicable state and  
37 federal food safety regulations, inspections, and audits and  
38 maintain sufficient product liability insurance; and

39  
40 BE IT FURTHER RESOLVED that certified copies of this  
41 Concurrent Resolution be transmitted to the Chairperson of the

1 Board of Education, Superintendent of Education, and Chairperson  
2 of the Board of Agriculture.
