SENATE RESOLUTION

REQUESTING THE HIGH TECHNOLOGY DEVELOPMENT CORPORATION TO
ESTABLISH A WORKING GROUP TO EXAMINE THE ESTABLISHMENT OF A
FIRST RESPONDERS TECHNOLOGY CAMPUS AND COMMAND CENTER IN
CENTRAL OAHU.

1 WHEREAS, the State requires a plan to relocate public
2 safety services located within and nearby inundation zones to a
3 centralized non-inundation zone area that will provide direct
4 access to highways and be in convenient proximity to hospital
5 and military services and assistance; and
6

7 WHEREAS, in the event of a major disaster, critical systems
8 could be unavailable for months, negatively impacting the lives
9 of many tens of thousands of citizens and costing the State tens
10 of millions of dollars in unplanned system recovery and restart
11 costs; and
12

13 WHEREAS, the current data center environment is not
14 fulfilling the capacity, reliability, and security needs of the

21 breaches, resulting in the loss of confidential information
22 about our most vulnerable citizens; and
23

24 WHEREAS, compromising citizens' security and damaging the
25 reputation of the State as a trustworthy data custodian could
26 expose the State to tens of millions of dollars in liability and
27 remediation costs; and
28

29 WHEREAS, the High Technology Development Corporation, in
30 collaboration with the Department of Accounting and General
31 Services and the Chief Information Officer, has the ability to
32 oversee the design, construction, and operation of a data center
