A BILL FOR AN ACT

RELATING TO STATE BONDS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. Declaration of findings with respect to the general obligation bonds authorized by this Act. Pursuant to the clause in Article VII, Section 13 of the State Constitution, which states: "Effective July 1, 1980, the legislature shall include a declaration of findings in every general law authorizing the issuance of general obligation bonds that the total amount of principal and interest, estimated for such bonds and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be exceeded at the time of issuance", the legislature finds and declares as follows:

(1) Limitation on general obligation debt. The debt limit of the State is set forth in Article VII, Section 13 of the State Constitution, which states in part: "General obligation bonds may be issued by the State; provided that such bonds at the time of issuance would not cause the total amount of principal and interest payable in the current or any future fiscal year,
whichever is higher, on such bonds and on all
outstanding general obligation bonds to exceed: a sum
equal to twenty per cent of the average of the general
fund revenues of the State in the three fiscal years
immediately preceding such issuance until June 30,
1982; and thereafter, a sum equal to eighteen and one-
half per cent of the average of the general fund
revenues of the State in the three fiscal years
immediately preceding such issuance." Article VII,
Section 13 of the State Constitution also provides
that in determining the power of the State to issue
general obligation bonds, certain bonds are
excludable, including "reimbursable general obligation
bonds issued for a public undertaking, improvement or
system but only to the extent that reimbursements to
the general fund are in fact made from the net
revenue, or net user tax receipts, or combination of
both, as determined for the immediately preceding
fiscal year" and bonds constituting instruments of
indebtedness under which the State incurs a contingent
liability as a guarantor, but only to the extent the principal amount of those bonds does not exceed seven per cent of the principal amount of outstanding general obligation bonds not otherwise excluded under said Article VII, Section 13 of the State Constitution.

(2) Actual and estimated debt limits. The limit on principal and interest of general obligation bonds issued by the State, actual for fiscal year 2014-2015 and estimated for each fiscal year from 2015-2016 to 2018-2019, is as follows:

For fiscal years 2014-2015, 2015-2016, 2016-2017, 2017-2018, and 2018-2019, respectively, the debt limit is derived by multiplying the average of the net
general fund revenues for the three preceding fiscal years by eighteen and one-half per cent. The net general fund revenues for fiscal years 2011-2012, 2012-2013, and 2013-2014 are actual, as certified by the director of finance in the Statement of the Debt Limit of the State of Hawaii as of July 1, 2014, dated September 29, 2014. The net general fund revenues for fiscal years 2014-2015 to 2017-2018 are estimates, based on general fund revenue estimates made as of March 12, 2015, by the council on revenues, the body assigned by Article VII, Section 7 of the State Constitution to make such estimates, and based on estimates made by the department of budget and finance of those receipts that cannot be included as general fund revenues for the purpose of calculating the debt limit, all of which estimates the legislature finds to be reasonable.

(3) Principal and interest on outstanding bonds applicable to the debt limit.
(A) According to the department of budget and finance, the total amount of principal and interest on outstanding general obligation bonds, after the exclusions permitted by Article VII, Section 13 of the State Constitution, for determining the power of the State to issue general obligation bonds within the debt limit as of April 1, 2015, is as follows for fiscal year 2015-2016 to fiscal year 2021-2022:

The department of budget and finance further reports that the amount of principal and interest on outstanding bonds applicable to the debt limit generally continues to decline each year from fiscal year 2022-2023 to fiscal year 2034-2035.
when the final installment of $53,083,719 shall be due and payable.

(B) The department of budget and finance further reports that the outstanding principal amount of bonds constituting instruments of indebtedness under which the State may incur a contingent liability as a guarantor is $233,500,000, all or part of which is excludable in determining the power of the State to issue general obligation bonds, pursuant to Article VII, Section 13 of the State Constitution.

(4) Amount of authorized and unissued general obligation bonds and guaranties and proposed bonds and guaranties.

(A) As calculated from the state comptroller's bond fund report as of March 31, 2015, adjusted for:

(i) Appropriations to be funded by general obligation bonds or reimbursable general obligation bonds as provided in House Bill
No. 500, H.D. 1, S.D. 1, C.D. 1 (the General Appropriations Act of 2015);

(ii) Lapses as provided in House Bill No. 500, H.D. 1, S.D. 1, C.D. 1 (the General Appropriations Act of 2015);

(iii) Appropriations to be funded by general obligation bonds or reimbursable general obligation bonds as provided in House Bill No. 290, H.D. 2, S.D. 1, C.D. 1 (the Judiciary Appropriations Act of 2015);

(iv) Lapses as provided in House Bill No. 290, H.D. 2, S.D. 1, C.D. 1 (the Judiciary Appropriations Act of 2015); and

(v) Appropriations to be funded by general obligation bonds or reimbursable general obligation bonds as provided in Senate Bill No. 284, S.D. 2, H.D. 2, C.D. 1, Senate Bill No. 892, S.D. 2, H.D. 3, C.D. 1, and Senate Bill No. 1078, S.D. 1, H.D. 1, C.D. 1;
the total amount of authorized but unissued
general obligation bonds is $2,422,975,155. The
total amount of general obligation bonds
authorized in this Act is $944,607,497. The
total amount of general obligation bonds
previously authorized and unissued, as adjusted,
and the general obligation bonds authorized in
this Act is $3,367,582,652.

(B) As reported by the department of budget and
finance the outstanding principal amount of bonds
constituting instruments of indebtedness under
which the State may incur a contingent liability
as a guarantor is $233,500,000, all or part of
which is excludable in determining the power of
the State to issue general obligation bonds,
pursuant to Article VII, Section 13 of the State
Constitution.

(5) Proposed general obligation bond issuance. As
reported therein for the fiscal years 2014-2015, 2015-
proposed to issue $500,000,000 in general obligation bonds semiannually during fiscal year 2015-2016, $550,000,000 in general obligation bonds semiannually during fiscal year 2016-2017, and $325,000,000 in general obligation bonds semiannually during fiscal years 2017-2018 and 2018-2019. It has been the practice of the State to issue twenty-year serial bonds with principal repayments beginning in the fifth year, the bonds payable in substantially equal annual installments of principal and interest payment with interest payments commencing six months from the date of issuance and being paid semi-annually thereafter. It is assumed that this practice will continue to be applied to the bonds that are proposed to be issued.

(6) Sufficiency of proposed general obligation bond issuance to meet the requirements of authorized and unissued bonds, as adjusted, and bonds authorized by this Act. From the schedule reported in paragraph (5), the total amount of general obligation bonds that the State proposes to issue during the fiscal years
2015-2016 to 2017-2018 is $2,750,000,000. An additional $650,000,000 is proposed to be issued in fiscal year 2018-2019. The total amount of $2,750,000,000 which is proposed to be issued through fiscal year 2017-2018 is sufficient to meet the requirements of the authorized and unissued bonds, as adjusted, the total amount of which is $3,367,582,652 reported in paragraph (4), except for $617,582,652. It is assumed that the appropriations to which an additional $617,582,652 in bond issuance needs to be applied will have been encumbered as of June 30, 2018. The $650,000,000 which is proposed to be issued in fiscal year 2018-2019 will be sufficient to meet the requirements of the June 30, 2018 encumbrances in the amount of $617,582,652. The amount of assumed encumbrances as of June 30, 2018 is reasonable and conservative, based upon an inspection of June 30 encumbrances of the general obligation bond fund as reported by the state comptroller. Thus, taking into account the amount of authorized and unissued bonds,
as adjusted, and the bonds authorized by this Act versus the amount of bonds proposed to be issued by June 30, 2018, and the amount of June 30, 2018 encumbrances versus the amount of bonds proposed to be issued in fiscal year 2018-2019, the legislature finds that in the aggregate, the amount of bonds proposed to be issued is sufficient to meet the requirements of all authorized and unissued bonds and the bonds authorized by this Act.

(7) Bonds excludable in determining the power of the State to issue bonds. As noted in paragraph (1), certain bonds are excludable in determining the power of the State to issue general obligation bonds.

(A) General obligation reimbursable bonds can be excluded under certain conditions. It is not possible to make a conclusive determination as to the amount of reimbursable bonds which are excludable from the amount of each proposed bond issued because:

(i) It is not known exactly when projects for
which reimbursable bonds have been 
authorized in prior acts and in this Act 
will be implemented and will require the 
application of proceeds from a particular 
bond issue; and 

(ii) Not all reimbursable general obligation 
bonds may qualify for exclusion.

However, the legislature notes that with respect 
to the principal and interest on outstanding 
general obligation bonds, according to the 
department of budget and finance, the average 
proportion of principal and interest which is 
excludable each year from the calculation against 
the debt limit is 0.67 per cent for approximately 
ten years from fiscal year 2014-2015 to fiscal 
year 2023-2024. For the purpose of this 
declaration, the assumption is made that 0.50 per 
cent of each bond issue will be excludable from 
the debt limit, an assumption that the legislature 
finds to be reasonable and conservative.
(B) Bonds constituting instruments of indebtedness under which the State incurs a contingent liability as a guarantor can be excluded, but only to the extent the principal amount of those guaranties does not exceed seven per cent of the principal amount of outstanding general obligation bonds not otherwise excluded under subparagraph (A) of this paragraph (7); and provided that the State shall establish and maintain a reserve in an amount in reasonable proportion to the outstanding loans guaranteed by the State as provided by law. According to the department of budget and finance and the assumptions presented herein, the total principal amount of outstanding general obligation bonds and general obligation bonds proposed to be issued, which are not otherwise excluded under Article VII, Section 13 of the State Constitution for the fiscal years 2014-2015, 2015-2016, 2016-2017, 2017-2018, and 2018-2019 are as follows:

Based on the foregoing and based on the assumption that the full amount of a guaranty is immediately due and payable when such guaranty changes from a contingent liability to an actual liability, the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which does not exceed seven per cent of the average amount set forth in the last column of the above table and for which reserve funds have been or will have been established as heretofore provided, can be excluded in determining the power of the State to issue general obligation bonds. As it is not possible to predict with a reasonable degree of certainty when a guaranty will change from a contingent liability to
an actual liability, it is assumed in conformity with fiscal conservatism and prudence, that all guaranties not otherwise excluded pursuant to Article VII, Section 13 of the State Constitution will become due and payable in the same fiscal year in which the greatest amount of principal and interest on general obligation bonds, after exclusions, occurs. Thus, based on such assumptions and on the determination in paragraph (8), all of the outstanding guaranties can be excluded.

(8) Determination whether the debt limit will be exceeded at the time of issuance. From the foregoing and on the assumption that all of the bonds identified in paragraph (5) will be issued at an interest rate not to exceed 6.00 per cent in fiscal years 2016 through 2019, it can be determined from the following schedule that the bonds which are proposed to be issued, which include all authorized and unissued bonds previously authorized, as adjusted, general obligation bonds, and instruments of indebtedness under which the State
incurs a contingent liability as a guarantor authorized in this Act, will not cause the debt limit to be exceeded at the time of such issuance:

for all bonds issued and outstanding, and all

Section 2. The legislature finds the bases for the
declaration of findings set forth in this Act are reasonable.

principal amount of general obligation bonds which will be
issued, the amount of principal and interest on reimbursable
general obligation bonds which are assumed to be excludable, and
the assumed maturity structure shall not be deemed to be
binding, it being the understanding of the legislature that such
matters must remain subject to substantial flexibility.
