CITY & COUNTY OF HONOLULU:

Eight years - Director, Department of Parks & Recreation
Two years - Administrator, Civil Defense Agency
Two years - Special Assistant, Department of Parks & Recreation
One year - Superintendent, Department of Facilities Maintenance

WATER EXPERIENCE:

- 1960-63 Irrigation Division Overseer, Lihue Plantation Company
- 1963-73 Irrigation Superintendent, Lihue Plantation Company
- Two years President and Manager, East Kauai Irrigation System
- 17 years President and Manager, Waiahole Irrigation System

1. I have walked the East Kauai Irrigation System from Hanalei intake to Waita Reservoir.
2. I coordinated major repairs to the East Kauai Irrigation System following the 1973-74 winter storm.
3. I have walked the Waiahole Ditch System and rafted through the Koolau Tunnel.
4. I have spent many a day and night playing water, water, where to put the water during heavy rains as division overseer and irrigation superintendent closing intakes, opening outlets and pulling throw away gates.
5. As President and Manager of Oahu Sugar Company, I worked with the U. S. Navy, Department of Land and Natural Resources, and Board of Water Supply in the proceedings that led to the designation of the Pearl Harbor aquifer.
6. I possess a genuine appreciation of water, its value and its fragile state in many areas of Hawaii. Water has many competing demands and requires thoughtful and rational management to which I believe I can contribute.
