
A BILL FOR AN ACT

RELATING TO AGRICULTURE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the Hawaii livestock
2 industry consistently identifies the cost of feed as the most
3 expensive component in operational costs. This concern is in
4 line with the national and global effort to reduce feed costs by
5 replacing high-cost ingredients with lower-cost alternatives.
6 Hawaii's situation is exacerbated by the lack of local feed
7 mills, which necessitates the importation of livestock feed.
8 Years of research and local workshops to encourage and support
9 the development of locally produced feed have not improved the
10 deficient feed stock situation in the State.

11 The legislature further finds that the department of
12 agriculture is committed to reducing the cost of production for
13 the State's livestock and aquaculture industries by reducing the
14 cost of feed. Hawaii has the potential ingredients for the
15 development and production of local feedstock. The department
16 of agriculture has initiated a feed development process to
17 identify, assess, and validate available local feed ingredients.

1 The purpose of this Act is to:

2 (1) Establish and fund a grant program for qualified feed
3 developers;

4 (2) Appropriate funds to reimburse qualified producers of
5 certain products for their cost of feed; and

6 (3) Appropriate funds to reimburse feed developers for the
7 costs of feed development.

8 SECTION 2. Chapter 155D, Hawaii Revised Statutes, is
9 amended by adding a new section to be appropriately designated
10 and to read as follows:

11 "§155D- Grants; qualified feed developer. (a)
12 Applications for grants submitted by qualified feed developers
13 shall be submitted on a form furnished by the department and
14 shall be filed with accompanying documentation of feed

5 department.

6 (d) Funds shall be disbursed upon approval by the
7 department to the qualified feed developer for up to fifty per
8 cent of the development costs of feed sold to qualified
9 producers, as verified by a certified public accountant.

10 (e) In no case shall costs be reimbursed to a qualified
11 feed developer when, after evaluation and verification by the
12 department, the department determines that the amount of
13 reimbursement will result in an annual profit of more than ten
14 per cent.

15 (f) The department shall aggregate the total grant
16 applications pursuant to this section and divide and distribute
17 the available grant funds on a pro rata basis."

18 SECTION 3. Section 155D-1, Hawaii Revised Statutes, is
19 amended by adding a new definition to be appropriately inserted
20 and to read as follows:

1 "Qualified feed developer" means any person that, at the
2 time of application for and disbursement of funds under this
3 chapter, is in the business of cultivating feed crops or
4 manufacturing feed for qualified producers."

19 fiscal year. The financial statements shall be certified as
20 accurate by the applicant and the preparer of the financial
21 statement on forms prepared by the department."

1 SECTION 5. There is appropriated out of the general
2 revenues of the State of Hawaii the sum of \$2,000,000 or so much
3 thereof as may be necessary for fiscal year 2016-2017 for the
4 livestock revitalization program of the department of
5 agriculture that shall be allocated as follows:
