
A BILL FOR AN ACT

RELATING TO THE REPEAL OF SECTION 325-15, HAWAII REVISED
STATUTES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that mandatory testing
2 for tuberculosis of United States citizens returning from
3 certain areas after absences of five or more years provides
4 marginal benefits to tuberculosis control in Hawaii and is
5 costly to maintain and impractical to enforce. Repealing this
6 requirement will diminish burdens for travelers without
7 significant risk to public health.

8 The purpose of this Act is to repeal section 325-15, Hawaii
9 Revised Statutes, which requires United States citizens or
10 nationals upon returning to the State after five or more years
11 residence in any United States territory or possession, or any
12 foreign country, with a high occurrence of infectious and
13 communicable diseases, to submit a medical examination report
14 that shall include a tuberculin skin test or a chest x-ray
15 examination, and in the case of a positive skin test, a chest x-

1 ray report, to the department of health within sixty days of
2 returning to the State.

3 SECTION 2. Section 325-15, Hawaii Revised Statutes, is
4 repealed.

5 ~~["§325-15] Infectious and communicable diseases,~~

14 ~~within sixty days of return to this State. The department of~~
15 ~~health shall cooperate with public and private authorities,~~
16 ~~where feasible, in implementing this section."]~~

17 SECTION 3. Statutory material to be repealed is bracketed
18 and stricken.
