
A BILL FOR AN ACT

RELATING TO ELECTRICAL CONTRACTORS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The construction and maintenance of both
2 overhead and underground high-voltage power lines with
3 distribution and transmission voltages require the specialized
4 skills of individuals such as journeymen linemen, foremen, and
5 general foreman who are all trained certified journeyman
6 lineman. To address a need for individuals qualified to work
7 with high-voltage power lines, the legislature enacted Act 65,
8 Session Laws of Hawaii 2013. Act 65 provided a limited
9 exemption from electrician licensing requirements for
10 individuals employed by electrical contractors who were retained
11 by a public utility to perform high-voltage work and who were
12 deemed qualified by the public utility. Act 65 is scheduled to
13 be repealed on June 30, 2018. As Hawaii continues to experience
14 a shortage of electricians, splicers, and linemen in the State
15 who are experienced and qualified to work with high voltage, it
16 is necessary to extend the repeal date of Act 65.

1 The purpose of this Act is to continue to provide a limited
2 exemption from electrician licensing requirements for
3 individuals employed by electrical contractors who were retained
4 by a public utility to perform high-voltage work and who were
5 deemed qualified by the public utility by extending the repeal
6 date of Act 65, Session Laws of Hawaii 2013, for an additional
7 five years.

8 SECTION 2. Act 65, Session Laws of Hawaii 2013, is amended
9 by amending section 4 to read as follows:

10 "SECTION 4. This Act shall take effect upon its approval;
11 provided that on June 30, [~~2018,~~] 2023, this Act shall be
12 repealed and section 448E-13, Hawaii Revised Statutes, shall be
13 reenacted in the form in which it read on the day before the
14 effective date of this Act."

15 SECTION 3. Statutory material to be repealed is bracketed
16 and stricken. New statutory material is underscored.

17 SECTION 4. This Act shall take effect on January 1, 2050.

Report Title:

Electrical Contractors; Exemption; Licensing

Description:

Extends the sunset date of the limited exemption from licensing requirements for electrical contractors who are retained by a public utility within the State to perform high voltage (600 volts or higher) electrical work and are deemed qualified by the public utility. (HB1880 HD2)
