The Honorable Ronald D. Kouchi  
President of the Senate  
Twenty-Ninth State Legislature  
State Capitol, Room 409

The Honorable Scott K. Saiki  
Speaker of the House of Representatives  
Twenty-Ninth State Legislature  
State Capitol, Room 431  
Honolulu, Hawai'i 96813

Dear President Kouchi and Speaker Saiki:

In accordance with Section 9, Article VII of the Constitution of the State of Hawaii, I respectfully request your expeditious consideration of the following bill:

H.B.1147 HD1 / S.B.80 PROPOSED SD1 – RELATING TO TRANSPORTATION

The Harbors Division of HDOT requests the inclusion of an emergency CIP appropriation with \$3,000,000 in general obligation bond funds to finance the cost for plans, land acquisition, design, construction, and equipment for the relocation, in part, of the "I Heart Radio" Aerial (Tower) located near the Kapalama Canal on Dillingham Blvd. to an appropriate location or locations; provided that such relocation may be done in phases. This project will mitigate safety and economic concerns shared by both the airline and maritime industries. The Tower is considered an obstruction by the airline industry based on an adjusted One Engine Inoperable (OEI) flight path that would accommodate the taller cranes that maritime industry intends to install and operate in Honolulu Harbor. This project is in the public interest and for the public's health, safety, and general welfare of the State.

Should you have any questions, please don't hesitate to contact Darrell Young, Deputy Director of Harbors Division.

Your consideration of this request is appreciated.

Sincerely,

A handwritten signature in black ink that reads "David Y. Ige".

DAVID Y. IGE  
Governor, State of Hawai'i
