A BILL FOR AN ACT

RELATING TO PUBLIC PREKINDERGARTEN PROGRAMS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that the State has made steady progress in investing in early learning over the years. The legislature further finds that Hawaii's youngest children can benefit from early learning programs before they enter kindergarten at age five. Act 109, Session Laws of Hawaii 2015, set forth the history of early learning in the State of Hawaii and statutorily created the public prekindergarten program. Act 109 also authorized charter schools to use their available classrooms for public preschool programs.

The legislature additionally finds that in 2014, the Hawaii state public charter school commission applied for and received a federal grant from the United States Department of Education to establish prekindergarten classrooms in charter schools. The award provided a four year grant with funding for the first three years. There are six prekindergarten classrooms currently operating in charter schools. Twelve additional classrooms will be added beginning in the 2017-2018 school year.
