REQUESTING THE ESTABLISHMENT OF A GLOBAL EDUCATION STUDENT EXCHANGE PROGRAM BETWEEN CHINA AND HAWAII FOR LOW-INCOME MINORITY STUDENTS.

WHEREAS, the Legislature finds that intermediate and high school students who live in poverty and who are members of racial and ethnic minority groups have lower high school graduation rates and lower levels of achievement, especially in science and mathematics; and

WHEREAS, the academic disparity is especially prevalent with minority male high school students who are reported to be at a high risk of dropping out of high school; and

WHEREAS, low-income minority students from Hawaii are rarely exposed to transformative academic ideas from other countries and can benefit from a global education student exchange program that offers eligible students the opportunity to study at private international schools that have high graduation rates and desegregated environments that promote mentorship among students, teachers, and business people; and

WHEREAS, a China-based global education student exchange pilot program offered to eligible American high school students in 2018 through 2023 and endorsed by the Education Advancement Fund International (EAFI), a United States based nonprofit organization founded and run by a professor of political science at the University of Hawaii, has gained approval from nearly 100 participating schools in China, Japan, Singapore, Malaysia, Korea, Taiwan, and Hong Kong; and

WHEREAS, EAFI's mission is to educate poor rural minority children, promote gender equity, and further the ideals of world peace by creating international understanding on a personal basis; and
WHEREAS, EAFI has created innovative and cost-efficient
solutions to educate girls and handicapped students living in
rural China, provided free meals and scholarships to needy
students in China, and founded an art gallery in rural
Guangdong, China that is dedicated to help disabled students
gain an education; and

WHEREAS, the State needs to increase low-income minority
students' access to experiences provided in student exchange
programs, such as the China-based global education student
exchange pilot program that offers eligible American high school
students the opportunity to learn mathematics, entrepreneurship,
and foreign languages at private international schools with the
goal of gaining college admission; and

WHEREAS, it is in the best interest of the State to assist
low-income minority students from Hawaii so they may achieve
educational success and live healthy and productive lives; now,
therefore,

BE IT RESOLVED by the House of Representatives of the
Twenty-ninth Legislature of the State of Hawaii, Regular Session
of 2018, that the Department of Education is requested to
establish a global education student exchange program between
Hawaii and China for low-income minority students; and

BE IT FURTHER RESOLVED that certified copies of this
Resolution be transmitted to the Superintendent of Education and
the Director of the Education Advancement Fund International.
