FOR: HB180, HD1 Relating to Education Funding
DATE: Tuesday, February 14, 2017
TIME: 2:00 PM
COMMITTEE(S): House Committee on Judiciary

ROOM: Conference Room 325
FROM: Sione Thompson, Executive Director
State Public Charter School Commission

Chair Nishimoto, and Vice Chair San Buenaventura, and members of the Committee:

The State Public Charter School Commission (“Commission”) takes no position on this bill but appreciates the opportunity to provide comments only on this measure, which seeks to establish a surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

The Commission requests that language be added to this bill to ensure that charter schools are included in any allocations from the Education Special Fund created in this measure.

Thank you for the opportunity to provide this testimony.

DAVID Y. IGE

IN REPLY REFER TO:

Statement of
Craig K. Hirai
Hawaii Housing Finance and Development Corporation
Before the

HOUSE COMMITTEE ON JUDICIARY

February 14, 2017 at 2:00 p.m.
State Capitol, Room 325

In consideration of
H.B. 180, H.D. 1
RELATING TO EDUCATION FUNDING.

H.B. 180, H.D. 1, amends Chapter 302A, HRS, and establishes an education surcharge on residential investment property and visitor accommodations, specifies the uses of the surcharge for public education, sets the amount of the surcharge to be collected by the Counties, and establishes the Education Special Fund.

HHFDC opposes H.B. 180, H.D. 1 to the extent that it imposes a surcharge on Low-Income Rental Housing projects that are subject to regulatory agreements that currently allow them to be exempt from county real property taxes. These regulatory agreements restrict the amount of rents tenants can be charged, and the projects will therefore have to absorb the additional cost of the surcharge.

HHFDC would also note that Act 127, SLH 2016, acknowledges that the State has a significant shortage of affordable rental housing. By imposing an additional surcharge on residential investment properties, H.B. 180, H.D. 1, will put upward pressure on rents and have a substantial adverse impact on the affordable rental housing market. Landlords will want to pass the additional cost onto tenants in the form of increased rent.

Thank you for the opportunity to testify.

STATE OF HAWAII
DEPARTMENT OF EDUCATION
P.O. BOX 2360
HONOLULU, HAWAII 96804

Date: 02/14/2017

Time: 02:00 PM

Location: 325

Committee: House Judiciary

Department: Education

Person Testifying: Kathryn S. Matayoshi, Superintendent of Education

Title of Bill: HB 0180, HD1 RELATING TO EDUCATION FUNDING.

Purpose of Bill: Establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education. (HB180 HD1)

Department's Position:

The Department of Education (Department) would like to offer comments on this bill. The Department has made every effort to wisely spend appropriations provided but funding levels have not kept up with 2008 funding levels, adjusted for inflation (as measured by the Consumer Price Index). Education is a good investment as we continue to see positive gains. A funding increase would provide additional supports for students, teachers and schools; additional innovations; ensure compliance with federal and state laws; contract or labor agreements; and support Board of Education policies, and Department priority strategies and strategic plan initiatives.

Thank you for your continued support of education.

TESTIMONY BY WESLEY K. MACHIDA
DIRECTOR, DEPARTMENT OF BUDGET AND FINANCE
TO THE HOUSE COMMITTEE ON JUDICIARY
ON
HOUSE BILL NO. 180, H.D. 1
AND HOUSE BILL NO. 182, H.D. 1

February 14, 2017
2:00 p.m.
Room 325

HB 180, H.D. 1: RELATING TO EDUCATION FUNDING

HB 182, H.D. 1: PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION

House Bill No. 182, H.D. 1, proposes to amend the Constitution of the State of Hawaii to authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations in order to fund public education. To implement the constitutional amendments, House Bill No. 180, H.D. 1, amends Chapter 302A, HRS, and establishes an education surcharge on residential investment property and visitor accommodations, specifies the uses of the surcharge, sets the amount of the surcharge to be collected by the counties, and establishes the Education Special Fund.

The Department of Budget and Finance offers the following comments on these bills. Under the Hawaii Constitution, the State has total responsibility for many functions that are performed by or shared by local governments in most other parts of the United States. These include the public school system, libraries, public welfare, and jails, etc.

The counties' major areas of responsibility and expenditure are for primarily property-related services, such as police and fire protection, waste disposal, water and sewer facilities, streets and parks.

Because of this division of responsibilities, the Hawaii Constitution appropriately assigns to the counties the exclusive use of real property taxation. Using the property tax to fund a State function as proposed in these bills represents a fundamental departure from the current constitutional structure of functions and revenue sources.

In addition, as a technical matter regarding House Bill No. 182, H.D. 1, the applicable article and section that should be referenced is Article VIII, Section 3, of the Hawaii Constitution. Article VIII, Section 3, relates to the taxing power of the counties. Article VII, Section 3, relates to the Tax Review Commission.

Thank you for your consideration of our comments.

TEL (808) 241-4224 FAX (808) 241-6252

BEFORE THE HOUSE JUDICIARY COMMITTEE

TO: THE HONORABLE SCOTT Y. NISHIMOTO, CHAIR
THE HONORABLE JOY A. BUENAVENTURA, VICE CHAIR
AND MEMBERS OF THE HOUSE JUDICIARY COMMITTEE

FROM: STEVEN A. HUNT, REAL PROPERTY TAX MANAGER, COUNTY OF KAUAI

SUBJECT: TESTIMONY ON HB180 HD1, RELATING TO EDUCATION FUNDING

The County of Kaua'i wishes to express its strong opposition to HB180, which establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education. While additional investment in our public school system is sorely needed, attaching a surcharge to property taxes is not the appropriate funding source. The prolonged cap on the counties' share of the transient accommodations tax (TAT) juxtaposed to the ever-increasing collective bargaining agreements, retirement "spiking" costs, mandated OPEB ARC payments, and anticipated ERS hikes places an inordinate amount of pressure on real property taxes to balance our annual budgets. Since FY12, the average real property tax rate for properties other than owner-occupied properties in Kaua'i County has increased approximately 34.5% which is compounded further when considering the net assessed value has also increased approximately 16% during this same period of time. As a result, the annual real property taxes billed has increased over 50% and now represents a whopping 82% of our general fund revenues in FY17. There is a limit to which property taxes can be pushed and we are likely near the breaking point for many property classes already.

Visitor accommodation properties, which are represented by our Hotel & Resort and Vacation Rental tax classifications, are currently paying tax rates of \$10.85 and \$8.85, respectively. Residential investment properties, which we classify as Residential and Residential Investor, have respective tax rates of \$6.05 and \$7.05. The tax rates for these four classifications are already near the upper end of the spectrum statewide. Moreover, it is precisely these four tax classifications that have seen the largest tax rates increases in recent years. In the most extreme cases, the tax rate increase has been over 115% for vacation rental properties that were formerly classified as Residential based on zoning but reclassified as Vacation Rentals based on use.

Any proposed surcharge will likely be an added cost that will undoubtedly be passed along to tenants, including those renting affordable units. With the ongoing housing crisis and lack of modestly priced rental units, adding another barrier to entry really is in the best interests of our local citizens just trying to make ends meet?

An Equal Opportunity Employer

Moreover, the collection and distribution of the monies generated by the proposed surcharge will certainly add to the current duties of our Real Property Collections staff as well as require system modifications, especially to accommodate the tiered tax rates being suggested. We have not had the opportunity to analyze the financial impact of accommodating this request, therefore cannot be certain that the suggested five percent administrative will be sufficient to cover the actual added costs.

With respect to the proposed daily surcharges specifically for visitor accommodations, this is really just an extension of the TAT and is best suited to be collected by the Department of Taxation. The counties are not setup to monitor nor collect such additional fees as our payments are based on taxes being submit annually or semiannually.

Finally, the millage rates being proposed in this bill would literally doubling many of the current property tax rates for residential investor properties. This will not only cause extreme hardship for many existing property owners, but it will also likely impact investment capital coming into Hawai'i. These proposed millage rates combined with our state's high assessed values will severely limit the counties own ability to respond to budgetary issues, such as increased ERS payments or new debt service, as existing taxpayers are already complaining that it typically takes 2 months (or more) of rental income just to cover property taxes.

For the aforementioned reasons, the County of Kaua'i does not support House Bill 180.

Respectfully,

Steven A. Hunt

Real Property Tax Manager

BEFORE THE HOUSE COMMITTEE ON JUDICIARY
TUESDAY, FEBRUARY 14, 2017; 2:00 PM

TO: THE HONORABLE SCOTT Y. NISHIMOTO, CHAIR
THE HONORABLE JOY A. SAN BUENAVENTURA, VICE CHAIR
AND MEMBERS OF THE HOUSE COMMITTEE ON JUDICIARY

FROM: ROY K. AMEMIYA, JR., MANAGING DIRECTOR
CITY AND COUNTY OF HONOLULU

SUBJECT: COMMENTS ON HB180, HD1, RELATING TO EDUCATION FUNDING

The City and County of Honolulu (City) submits comments on HB180 HD1, which establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education. The City is profoundly aware of the burdens of taxation and will need to consider the implications for taxpayers in setting the real property tax rates. The tax on real property is the primary source of revenue for City services.

The City has a significant shortage of affordable rental housing. While this measure only imposes an additional surcharge on residential investment properties and visitor accommodations, this will have a substantial impact on the affordable rental housing market. Landlords will pass this additional cost onto tenants through the form of increased rent. While the City recognizes the need for and supports the increase of additional funds for the State's public education, the City is deeply concerned that this measure will do so at the expense of the affordable rental housing market.

The proposed additional responsibilities of administration and collection of these surcharges imposed upon the counties will be a tremendous burden. The five percent of gross proceeds may be insufficient to offset the additional costs in terms of personnel, computer system modification and other requisite costs.

The City has not been consulted on this proposal which resulted in incorporating data requirements and definitions that do not exist within the City's property tax records. To utilize data collected and valuations established for real property taxation purposes as the basis for imposing this surcharge is an improper use of the information.

The City urges this committee to consider this measure's impact on affordable rental housing and the additional burdens imposed on the counties. Thank you for your consideration of these comments.

Representative Scott Nishimoto
Judiciary Committee
Hawai'i State Capitol
Honolulu, HI 96813

Dear Chair Nishimoto and members:

RE: **HB 180, HD1**

As a former teacher myself, I fully appreciate the efforts of this Legislature to properly fund education. However, I cannot support HB180, HD1 and must speak against it.

Effect on Real property tax. The County of Hawaii, as is true of the other counties, has little or no control over its revenue except in one area, real property taxes, and the County relies overwhelmingly on real property taxes to fund its operations. The burden of that tax can be heavy for many residents, but since it is virtually the only tool we have, we use it the best we can.

A surcharge on residential investment properties would obviously limit County options and make it even more difficult to balance our budgets. Therefore, we have to jealously guard this taxing authority, and ask that you not breach this line of authority.

Effect on TAT. Given our County's limited resources, we are fortunate that the Legislature has seen fit to allow the counties to share in the TAT. That has been a great help, and we thank you for it. However, this source of revenue is under constant pressure, and even this session the Legislature will be asked to increase the counties' share of TAT so that we can better serve our constituents and visitors. The TAT pie can only be divided into so many pieces, and a surcharge on visitor accommodations, even for the most noble of purposes, will obviously limit what can be raised and spent elsewhere.

Please do not deprive the counties of this needed source of revenue, by dividing the pie even further.

Respectfully,

Harry Kim
Mayor

The Honorable Scott Y. Nishimoto, Chair

House Committee on Judiciary
State Capitol, Room 325
Honolulu, Hawaii 96813

RE: H.B. 180. H.D.1, Relating to Education Funding

HEARING: Tuesday, February 14, 2017, at 2:00 p.m.

Aloha Chair Nishimoto, Vice Chair San Buenaventura, and Members of the Committee.

I am Myoung Oh, Director of Government Affairs, here to testify on behalf of the Hawai'i Association of REALTORS® ("HAR"), the voice of real estate in Hawai'i, and its 9,000 members. HAR **strongly opposes** H.B. 180, H.D.1 which establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

The bill proposes to create a revenue stream for the Department of Education based on special surcharge to residential units used for rentals, timeshares, hotels and other accommodations.

The bill also proposes to assess visitors on a per person basis but does not state an amount necessary to address the current needs of the DOE, and thereby creates a revenue source for funding existing and future programs.

While we continue to recognize the importance of education, we are concerned that the responsibility in funding this effort will be shifted from the overall general tax paying public to those that own residential investment property and visitors to our State. Moreover, there is no clear nexus between a residential property being rented and education.

According to the Department of Business, Economic Development and Tourism, Hawai'i had a homeownership rate of about 59% in 2015, which suggests 41% are renters. Should an additional surcharge be placed on rental investment property, these additional costs may be passed on to renters. Furthermore, with rising housing costs, more homeowners today are purchasing an investment property so that their children have a

 | 808-733-7060

 | 808-737-4977

 | 1259 A'ala Street, Suite 300
Honolulu, HI 96817

place to call home or to plan for retirement. With Hawaii's high cost of living and housing, this would further burden our working individuals and families.

Educational needs must be weighed against the priorities of the State as a whole through the budgeting process and HAR does not support earmarking a new surcharge on residential investment property and visitor accommodations.

Mahalo for the opportunity to testify in opposition to this measure.

AMERICANS FOR DEMOCRATIC ACTION

February 13 , 2017

TO: Honorable Chair Nishimoto and Members of the Judiciary Committee

RE: HB 180 HD1 Relating to Education Funding
Support for hearing on Feb. 3

Americans for Democratic Action is an organization founded in the 1950s by leading supporters of the New Deal and led by Patsy Mink in the 1970s. We are devoted to the promotion of progressive public policies.

We support HB 180 as it would provide for surcharge on residential investment properties and visitor accommodations. We like that these funds would be used for increasing the education budget.

Hawaii spends about \$8,000 per year on each of its regular ed. public school students. By contrast, top private schools spend more than three times as much - between \$24,000 and \$28,000 per student per year, without having to spend much on special needs students.

Hawaii's public education expenditures are down at the bottom, rivaling Mississippi and Louisiana for example, and we have costs of living that make our expenditures actually worse than those two states.

Wallethub rated Hawaii the worst state for teachers: <https://wallethub.com/edu/best-and-worst-states-for-teachers/7159/> As a result, we have 1,600 vacancies. We had hundreds of positions last year that went without a qualified teacher.

Our real estate taxes are the lowest in the nation. This not only means we are not using them to support education; it also means it encourages real estate speculation and concomitant housing problems.

Although areas other than education need funding , the current small pie forces education to compete with other needs for limited resources. The limits will always be there; this tax would make them less limited.

Thank you for your favorable consideration.

Sincerely,

John Bickel

Dear Chair Nishimoto, Vice Chair Buenaventura, and Committee Members:

This testimony is in strong support for HB180 and HB182, relating to Education Funding.

Parents for Public Schools of Hawai'i has received comments from families whose children are in public schools across our State about what they love about their schools and their concerns. The message is clear that what they appreciate most is their child's teacher. And yet, our State does not adequately compensate teachers for the hard work that they do. Teachers are education's greatest resource, and families acknowledge that teachers are the key to our children's success. We must be able to recruit and retain teachers who are caring, well prepared, and hold high expectations for all children. Teachers are professionals and should not need to work second jobs and live paycheck to paycheck. If we would like to attract the best teachers and retain them in the profession, they need to be adequately compensated.

Kate Righter

Mary Weir

Our members would like educators to refocus education on the whole child. Families value music, the arts, dance, languages, and Hawaiian and Polynesian studies. These are subjects that are crucial for the healthy and creative development of children that are currently missing in public education. All children deserve an education that nurtures every facet of their life, one that engages them in interesting curriculum that exposes them to new, exciting and creative arenas.

We believe Hawaii public schools are underfunded and our teachers are underpaid. It is time to invest in our children's education and their future. We support HB180 establishing education surcharges on residential investment property and visitor accommodations to increase funding for public schools with surcharges used for:

1. Recruiting and retaining public school teachers.
2. Lowering public school class sizes;
3. Improving special education staffing and resources; and
4. Offering additional instruction in career and technical education, visual arts, music, theatre, dance, Hawaiian and Polynesian studies, and Hawaiian language.

We also support HB182 proposing Amendments to the State Constitution to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. **Let the public vote on this issue.**

This is our greatest opportunity to support and promote education of all Hawai'i's keiki in ways that will significantly influence their lives. These bills can positively affect the lives of thousands of children and their families in our State for many generations to come. Thank you for your time and consideration.

Aloha,

Lois Yamauchi, PhD
President, Parents for Public Schools of Hawai'i

Parents for Public Schools Hawaii (PPSHI) is a not-for-profit 501(c)(3) volunteer organization of parents, community members, and educators working to improve and support public education through family engagement. We are committed to ensuring all children in Hawai'i have access to a quality public education.

Committee on Judiciary
Representative Scott Nishimoto, Chair
Representative Joy San Buenaventura, Vice Chair

February 14, 2016

Dear Chair Nishimoto, Vice Chair San Buenaventura, and Members of the Committee,

We support both HB180 HD1 and HB182 HD1, proposing a constitutional amendment to allow the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for education, and the implementation of the surcharge.

Hui for Excellence in Education, or "HE'E," is a statewide coalition of diverse stakeholders committed to working collaboratively to identify opportunities to improve public education in Hawai'i. HE'E seeks to be the nexus for community and parent engagement while serving as a public resource for educational policy.

The Coalition was formed in May 2010 by parents and community members who stood up and said "no" to school furloughs and "yes" to re-establishing education as a public priority. We have been following public education policy at the Board of Education (BOE) and the Hawaii State Legislature consistently since our inception. We are thankful to the legislature for its support of public education; however, we also know that the current funding for education is insufficient to cover the needs of our students, teachers, administrators and schools. An alternative revenue stream dedicated to education is needed.

The BOE recently approved an update of the BOE/DOE Strategic Plan, which puts a focus on the state's achievement gap that has persisted over the years. We agree that help is most needed for our struggling students. We are concerned for specified groups that need particular attention - students with disabilities, students who do not speak the language of instruction, students with socio-economic challenges, and racial and ethnic groups that have historically not succeeded in our schools relative to others. We feel that the education surcharge would benefit these students.

Thank you for the opportunity to testify. Our support of these bills represents a 75% consensus or more of our voting membership.

Sincerely,

Cheri Nakamura

Re: **HB 180 HD 1 – RELATING TO EDUCATION FUNDING – Support**

HB 182 HD1 – PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE STATE CONSTITUTION TO AUTHORIZE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE SUPPORT FOR PUBLIC EDUCATION– Support

Conference Room 325 – Hawaii State Capitol – Feb. 14, 2017, 2:00 P.M.

On behalf of the Hawaii Public Charter School Network (HPCSN), I am submitting testimony in support of HB 180 HD1, Relating to Education Funding, and HB 182 HD1, Proposing Amendments to Articles VII and X of the Constitution of The State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

In tandem, these bills establish an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education. We support public education in both charter schools and traditional schools as one of the highest purposes of our state.

Here are top 10 reasons why we are calling for this investment:

10. An educated population is the cornerstone of democracy. This nation's well-being depends on the decisions of its educated, informed citizens.

9. Education reduces costs to taxpayers. For every dollar spent to keep a child in school, the future costs of welfare, prison, and intervention services are reduced. It can cost less to educate a child now than to support a teenage parent or a repeat offender in the future. Education monies help to secure the future of all citizens.

8. Public schools are the only schools that must meet the needs of all students. They do not turn children or families away. Public schools serve children with physical, emotional, and mental disabilities, those who are extremely gifted and those who are learning challenged, right along with children without special needs.

7. Public schools foster interactions and understanding among people of different ethnic, religious, and socioeconomic backgrounds.

6. "Education is the best provision for old age"-- Aristotle. The future support of our aging population depends on strong public schools. In 1954, there were 17 workers to pay the Social Security cost for each retiree. By 1995, there will be only three for each retiree. It is likely that the productivity of these three workers per retiree will depend on the strength of our public school systems.

5. More than 95 percent of our future jobs will require at least a high school education. There is no question about the need for an educated work force.

4. The nation pays a high price for poorly educated workers. When retraining and remediation are needed to prepare a worker to do even simple tasks, the cost is paid by both employers and consumers. This process raises the price of American products and makes it more difficult for this nation to compete in the world marketplace.

3. The cost of dropouts affects us all. This nation loses more than \$240 billion per year in earnings and taxes that dropouts would have generated over their lifetimes. Well-supported public schools can engage all students in learning and graduate productive and competent citizens.

2. Children are our nation's future. Their development affects all of us. Good education is not cheap, but ignorance costs far more.

And the Number One reason to support public education. . .

1. Public education is a worthy investment for public funds. We can invest now, or we can pay later.

HPCSN works to support Hawaii's public charter schools and to be a voice for children and families that seek choice in an independent public school setting.

Mahalo for your support for this legislation. We appreciate the opportunity to provide testimony on behalf of HPCSN.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON
 JUDICIARY

RE: HB 180, HD 1 - RELATING TO EDUCATION FUNDING.

TUESDAY, FEBRUARY 14, 2017

COREY ROSENLEE, PRESIDENT
 HAWAII STATE TEACHERS ASSOCIATION

Chair Nishimoto and Members of the Committee:

The Hawaii State Teachers Association **strongly supports HB 180, HD 1**, relating to education funding.

Hawai'i shortchanges its public schools. While our state's per-pupil spending of \$11,823 ranks 17th in the nation when compared to other states in raw dollars, comparison with school districts of similar size and demographics yields different results. Mainland districts with high costs of living are typically urban and averaged with with rural districts experiencing lower costs of living in statewide analyses. When comparing school districts of similar size, Hawai'i, the nation's only statewide school district, ranks 227th in per-pupil funding *before* adjusting for cost of living. A comparison of spending per pupil in America's largest school districts shows the following:

DISTRICT	Wash. D.C.	New York City, NY	Boston, MA	Pittsburgh, PA	Cincinnati, OH	Detroit, MI
AMOUNT	\$26,661	\$25,061	\$22,762	\$22,600	\$22,157	\$18,361

Hawaii's major private schools, on the other hand, average \$15,173 in per-pupil spending. When Catholic schools, subsidized by the Roman Catholic Diocese, are removed, private school spending jumps to nearly \$19,173 dollars per student, sans endowment funds that further boost private school baselines. As Punahou President Jim Scott revealed in 2014, "The real cost of our education per student is \$26,000,"

with the school's endowment standing then at \$235 million and fundraising operations generating an additional \$12-\$15 million each year.

At the same time, we are facing a teacher shortage crisis. Insufficient funding has led to a teacher shortage crisis. From 2011 to 2014, the DOE suffered an average of 359 unfilled vacancies per year. Yet, departmental data showed 531 vacancies for the 2016-2017 school year, a 45 percent increase from the 2013-14 school year.

While many factors influence teachers' decisions about whether or not to remain in their classrooms, low salaries are undoubtedly a primary driver of teacher turnover. In an analysis performed by HSTA, Hawai'i's beginning teacher salaries were found to be approximately \$4,000 lower than average, while our state's highest salaries are roughly \$15,000 lower than average. We found that the biggest salary disparity encapsulates teachers with 10 to 20 years of service, whose salaries are \$15,000 to \$20,000 lower than their counterparts in comparable districts. When comparing the

overall average of teacher salaries adjusted for cost of living, both nationwide and in comparable districts, Hawai'i teachers are the lowest paid in the nation.

By levying a surcharge on residential investment properties and visitor accommodations, we can raise over \$500 million each year for education without placing an unfair financial burden on local residents. We can create class sizes that allow teachers to connect with their students, expand whole child education to include career and technical education and the arts, increase resources for special needs students, and provide professional pay that reflects the value of our hardworking teachers.

We can also make Hawai'i more affordable. Over the past two decades, the pricing of housing in the islands has skyrocketed. Townhomes have increased nearly 400 percent since 2001, with the average cost of a single-family home now exceeding \$720,000. According to the Department of Business, Economic Development, and Tourism, foreign nationals pay roughly 64 percent more than Hawai'i residents for homes, with luxury apartment buildings being built in Kaka'ako advertising prices that, in some cases, average to over \$3 million per unit. Our state's high cost of housing and renting is driven by real estate speculators using the islands as their personal Monopoly board. In levying a surcharge on investment properties and incentivizing low-income rentals, we are not only advancing our children's future, but ensuring that they aren't priced out of paradise.

The time for talking about the problems in our school system is over. It is time to act. To build the schools our keiki deserve, the Hawaii State Teachers Association asks your committee to **support** this bill.

The House of Representatives
The Twenty-Ninth Legislature
Regular Session of 2017

To: Rep. Scott Nishimoto, Chair
Rep. Joy San Buenaventura, Vice Chair

Date: February 14, 2017

Time: 2:00 p.m.

Place: Conference Room 325
Hawaii State Capitol

RE: House Bill 180 HD1, Relating to Education Funding

Chair Nishimoto, Vice Chair San Buenaventura and Members of the Committee:

Rental By Owner Awareness Association (RBOAA) is a Hawaii non-profit corporation founded in 2011, with over 1000 members. Our mission is to provide Hawaii vacation-rental property owners with information to help them comply with the applicable State and County regulations, support the Hawaii economy by offering visitors choice in accommodation, and advocate for the rights of Hawaii vacation property owners. RBOAA members provide transient vacation rentals in full compliance with existing tax and County regulations. RBOAA fully supports enforcement of existing regulations.

RBOAA must **OPPOSE** the bill.

This bill puts the onus on to the Counties to collect a tax on transient vacation rentals which is then remitted to the State. The irony is not lost on us.

1. All counties already charge a higher property tax rate on properties being used as transient vacation rentals and those not owner-occupied. To be clear, transient accommodation owners are not objecting to the current property tax structure. However, these new surtaxes will add an onerous burden on to property owners already taxed at a higher rate.

This chart provides examples of the difference in rates charged per \$1000 of value for owner-occupied dwellings and non-owner occupied dwellings, including those in resort zones.

2 | HB 180 HD1 RELATING TO EDUCATION FUNDING

	Current Owner Occupied	Current Non-owner occupied		HB180 Non-owner occupied (\$500K property)	HB180 Non-owner occupied (\$500K, vacation rental)	
CC Honolulu	\$3.50	\$12.90	3.7x	\$17.40	\$19.23	5.5x
Maui	\$2.70	\$8.71	3.2x	\$13.21	\$15.04	5.6x
Kauai	\$3.05	\$8.85	2.9x	\$13.35	\$15.18	5.0x
Hawaii	\$6.15	\$10.85	1.8x	\$15.35	\$17.18	2.8x

2. This new property tax applies to residential property but does not apply to hotels and inns. As a result, a hotel located next door to a vacation rental property will not be subject to this new property tax surcharge but the vacation rental property will be. RBOAA objects to this lack of fairness.
3. The bill should be clarified to confirm that vacation rental properties are not subject to both the residential investment surcharge as well as the visitor accommodation surcharge by amending the definition of residential investment property to exclude transient accommodation. As it is currently worded, vacation rental property owners are the only taxpayers to bear the burden of both the residential surcharge and the visitor accommodation surcharge.
4. The proposed new surcharge on visitor accommodation is administratively burdensome. There is already a mechanism to collect taxes on transient accommodation. There is no benefit to setting up a second tax collection system when the existing system could be expanded.

An impact study should be prepared before such an extensive restructuring of the tax regime and determine whether or not there are less burdensome methods for the counties.

An impact study should also be performed on the tourism industry to determine the price point where tourism volume is negatively impacted by additional surcharges. While most industries are subject only to GET, tourism is subjected to both the GET and the TAT, as well as paying already higher property taxes.

Thank you for the opportunity to testify on this measure.

Sincerely,

Neal Halstead

**TESTIMONY FOR HOUSE BILL 180, HOUSE DRAFT 1, RELATING TO EDUCATION
FUNDING**

**House Committee on Judiciary
Hon. Scott Y. Nishimoto, Chair
Hon. Joy A. San Buenaventura, Vice Chair**

**Tuesday, February 14, 2017, 2:00 PM
State Capitol, Conference Room 325**

Honorable Chair Nishimoto and committee members:

I am Kris Coffield, representing IMU Alliance, a nonpartisan political advocacy organization that currently boasts over 350 members. On behalf of our members, we offer this testimony in support of House Bill 180, HD 1, relating to education funding.

In comparison to school districts of similar size and demographic composition, Hawai‘i, ranks 227th in per-pupil funding *before* adjusting for cost of living, at \$11,823 per child. Washington D.C., New York City, Boston, Pittsburgh, and Cincinnati school districts, for example, spend nearly twice as much as Hawai‘i per pupil, at well over \$22,000 to over \$26,000 per student. Similarly, local private schools, discounting Catholic institutions, spend nearly \$19,173 dollars per student, with Punahou President Jim Scott revealing, in 2014, “The real cost of our education per student is \$26,000,” owing to the school’s then-total endowment of \$235 million and fundraising operations of \$12-\$15 million annually.

Moreover, at the beginning of the 2015-2016 school year, media outlets widely reported that the DOE faced 625 vacant teaching positions. While the Department of Education currently includes the percentage of teaching positions filled on the first day of school as a statewide indicator in its strategic plan, this statistic does not detail the quality or competency of the teachers filling vacant positions. The number of new teachers hired who have not completed a teacher education program has increased from 125 for the 2011-2012 school year to 241 for the 2015-2016 school year. Over the same period, the number of teacher resignations has increased from 624 in 2011-2012 to 781 in 2015-2016, while the total number of voluntary teacher separations has increased from 934 in 2011-2012 to 1,075 in 2015-2016. In short, hundreds of teachers are leaving the workforce each year at an accelerating pace, while the DOE does not have enough trained and licensed teachers in waiting to fill the holes they leave. Accordingly, we must raise Hawai‘i’s last-in-the-nation cost of living adjusted teacher pay as a means of

addressing the problem. Studies have shown that as teacher pay increases, so, too, does student achievement. A Stanford University study found that “raising teacher wages by 10 percent reduces high school dropout rates by 3 percent to 4 percent,” while a study of Florida showed that pay raises reduced teacher attrition by as much as 25 percent for hard-to-fill subject areas, with children’s learning growth gaining from more exposure to experienced educators. Recently, the Hawai’i State Teachers Association performed a study of teacher compensation in comparison with mainland peer districts. HSTA found that teachers’ wages are \$4,000 to \$20,000 below that of their mainland peers *before* adjusting for cost of living. Put simply, to reduce teacher turnover, we must pay educators what they’re worth.

We are especially heartened by this measure’s possibilities for making Hawai’i more affordable. Hawai’i residents face the highest housing costs in the nation, at more than twice the national average. According to the National Low Income Housing Coalition’s *Out of Reach 2016* report, a full time worker would need to earn \$34.22/hour to afford a two-bedroom apartment at fair market value in our state, with Honolulu experiencing a 67 percent increase in fair market rent between 2005 and 2015. Average rent for a two-bedroom unit surpassed \$2,100 in 2015, with average rent for a 900-square-foot exceeding \$2,200 in 2016. In the past three years alone, Honolulu rent has increased 23.5 percent. While 47 percent of Hawai’i residents are renters (a number that does not include individuals and families renting outside of the regulated rental market), they earn an average wage of \$14.49/hour, scarcely enough to meet their basic needs. One out of every four households in Hawai’i report that they are “doubling up” or are three paychecks or less away from being homeless, according to the Hawai’i Appleseed Center for Law and Economic Justice. Moreover, 54 percent of households are cost-burdened, meaning that they pay more than 30 percent of their income for housing costs.

We are in the midst of an affordable housing crisis. For context, our state’s cost of housing has skyrocketed over the last decade, leaving many families searching for affordable alternatives, in shelters, or on the streets. The median price of condominiums on O’ahu increased 8.3 percent in 2016 to \$390,000, while the median price for single-family homes increased by 6.5 percent to \$735,000, according to the Honolulu Board of Realtors. The cost of a four-bedroom home in urban Honolulu now exceeds \$1.1 million. At least 40 percent of residences in Hawai’i are owner unoccupied, according to the Hawai’i Housing Finance and Development Corporation, meaning that nearly 50 percent—and by some estimates well over half—of Hawai’i homes are investment properties. Many of those properties are owned by mainland and foreign buyers, whose real estate market speculation is a prime driver of Hawai’i’s highest-in-the-nation cost of housing.

Housing costs are driven largely by real estate speculators, who use Hawai’i as their personal luxury row. We must ask ourselves: do we want to continue catering to people who live outside of Hawai’i, but have the resources to maintain a home here, too? Or do we want to create a first-rate education system for our children? According to a study released in May of 2016 by

the Hawai'i Department of Business, Economic Development, and Tourism, there are "clear distinctions" between the average price of homes bought by local residents, mainlanders, and foreigners. Analyzing purchases made between 2008 and 2015, DBEDT found: "The average sale price was highest among foreign buyers. The average sale price of the total of 5,775 homes sold to foreign buyers from 2008 to 2015 was \$786,186, 28.3 percent higher than the average sale price to the mainlanders (\$612,770) and 64.7 percent higher than the average sale price to local buyers (\$477,460)." Thus, this constitutional amendment directly impacts real estate speculators driving up housing and, in turn, rental prices in Hawai'i, i.e. those most responsible for pricing families keiki out of paradise.

All children deserve a chance at a brilliant future. Mahalo for the opportunity to testify in support of this bill.

Sincerely,
Kris Coffield

Submitted By	Organization	Testifier Position	Present at Hearing
Marcia Linville	Education Caucus DPH	Support	Yes

Comments: JUD 2-14-17 HB180 Chair Nishimoto and members of the House Judiciary Committee: I am Marcia Linville, speaking for the Education Caucus of the DPH in support of HB 180. Hawaii's Education has long suffered from inadequate funding. In part this is because we are the only state which tries to fund the education of an entire state. There are many competing needs within a state. Hawaii's legislature has tried for many years to overcome this limitation. Many proposals have been made. But Hawaii' public schools and libraries remain seriously underfunded. HB 180 offers a new and original method to fund Hawaii's educational needs without putting additional strain on Hawaii's working people. I therefor ask your support for HB 180. Thank you Marcia Linville 536-4466

RE: HB 180, HD 1 and HB 182, HD 1 - Relating to Education

Dear Chair Nishimoto and Members of the Committee,

The Special Education Advisory Council (SEAC), Hawaii's State Advisory Panel under the Individuals with Disabilities Education Act (IDEA), **supports the intent** of the above bills to increase funding for public education in Hawaii.

Hawaii serves a smaller percentage of students with disabilities compared to the entire student population than the national average--10.4% compared to 12.9% for most states--which may indicate that we are not identifying and serving all students who are eligible for special education services. Those who are served have experienced lackluster progress and a growing achievement gap with their non-disabled peers. Hawaii also serves significantly fewer children in the general education classroom contrary to IDEA mandates for placement in the least restrictive environment.

To address these inequities will take additional resources, including higher teacher pay to attract more qualified teachers to the field, smaller class sizes to encourage greater inclusion and specialized services and supports to meet the unique learning needs of these students. An enhanced funding stream for public education would benefit ALL children in Hawaii, including those who are most vulnerable to academic failure.

Thank you for the opportunity to provide testimony on this important legislation. If you have questions or concerns, please contact me.

Respectfully,

Martha Guinan
Chair

Ivalee Sinclair
Legislative Committee Chair

Dear Representatives;

This letter is written to voice Opposition to this proposed bill. The bill is an attack solely on investment property and vacation rental owners which add great value to your tourism industry. My business provides accommodations for visitors travelling to the beautiful island of Maui. With the collapse of the pineapple industry and now the end of the sugar cane industry, the only viable but fragile industry left is Tourism. The tourism industry provides a high income for the state and local businesses. When there is a hit to the tourism industry there is an extreme ripple effect that hits every business on the island. Currently, the GE Tax is 4% and the TA Tax is 9.25%. These bills will increase the TA Tax to 17.25%, which will result in a total tax of 21.25%. These increases in tax do not take into account the added surcharges and fees proposed which will add a substantial increase. An increase such as this will now cause some tourists to re-think their vacation destination. Let us not forget that Cuba is now open to the U.S traveler and the Canadian dollar is very low. Vacationers look to Maui for beach, sun, water and security. Cuba offers all of this for 1/3 – ¼ of the price and is mainly an all-inclusive destination, which is an invitation to the travelling public not a deterrent. This bill also limits the short-term rental to 60 days per year, and the total number of properties an owner can own is one. This is unbelievable. On one hand you state that the increases are necessary, because there are insufficient funds. Then you proceed to limit the number of days the property can be rented, which will result to 1/6 the amount of taxes you would receive. Limiting the number of properties one can own, well I must state I cannot comprehend the rationale behind that.

There are several bills being presented this year that relate to Vacation Rental Accommodations. Let me present a short synopsis of this:

- HB 1470, 4% increase in TA Tax
60 day Rental limit
Ownership kept to only 1 property
- HB 546, 4% increase in TA Tax
- HB 180/SB 686, property surcharge ranging from \$3.50 - \$7.50 per \$1000 of property value
\$5.00 per night tax
- HB 1453/SB 1143, \$20 per night per guest fee

To sum this up, a vacationing couple staying for 14 nights in a property valued at \$380,000 and at a rental rate of \$150/night would currently pay \$2378.25. After all proposed increases, the same couple would pay \$2724.15 which relates to an increase of \$345.90. Remember, this is based on the accommodation being able to rent for 365 days of the year, not the 60 days as per HB 1470. An income for 60 days verses 365 days, the vacationer would now have to pay 6 times the amount as the owners still have their expenses to pay (\$154/day based on a full year of rental verses \$924/day based on 60 days of rental). I would think that the majority of you have gone on a vacation at one time or another; would you be willing to pay \$924.00/night (for a \$154/night room) plus food, air fare, car rental, tours, groceries and souvenirs? Do you think that raising the nightly fee to \$924/night is outrageous; I do its incomprehensible without effects to the tourism industry. I would not pay it and I don't think you would either, but someone would have too or the owners would be forced to sell.

Metaphorically speaking, you are loading a gun with these proposed changes and you will shoot yourself in the foot. These proposals will collapse the tourist industry, which will result in businesses closing, causing unemployment to rise and there will be NO money going to the state. The burden of financing the state will rest solely on the residents. You will see numerous vacation properties go up for sale, which will in turn saturate the market with an abundance of properties causing a collapse of property values.

The majority of Vacation Rental Owners have fully supported Hawaii for many years. With these continuous unrelenting attacks on the Vacation Rental Industry every year, I think many owners and companies may think it is time to liquidate their properties in Hawaii and invest in a country or state that appreciates the support of their tourism industry.

In closing, let me be clear, I understand the problem with some Vacation Rental owners not paying the taxes they have collected or should be collecting on behalf of the state. If they are collecting taxes on behalf of the state and then keeping it, they are blatantly committing Fraud and Theft, and should be charged as per the law and charges under the tax evasion laws. There are many Vacation Rental Owners that do comply with the states wishes and yet they are the ones that are being punished. There are laws in place already yet they do not seem to be enforced.

I believe if you criticize you should also provide a solution. My suggestions are as follows:

1. Legislate that all resort properties are legally responsible to supply a list of all Vacation Rentals within their resort plus provide a list of the rental dates for each unit. This is easy to do, as a tourist notifies the resort that they are there, and the resort keeps a log.
2. Give an incentive to people who report non-compliant owners and companies.
3. Apply to the Federal Government for increased education transfer payments.
4. Government should look within itself and stop unnecessary and wasteful spending. Then redirect the funds to Education and Homeless Programs
5. Create a 10% Education surcharge on all alcohol purchases.

We need to work together for a solution that takes all parties into consideration and provides for a less invasive result to the tourism industry.

Yours Truly;

Ronald Bridges, President

Bridges to Paradise Rentals Inc.

Moreover, 54 percent of households are cost-burdened, meaning that they pay more than 30 percent of their income for housing costs.

We are in the midst of an affordable housing crisis. For context, our state’s cost of housing has skyrocketed over the last decade, leaving many families searching for affordable alternatives, in shelters, or on the streets. The median price of condominiums on O’ahu increased 8.3 percent in 2016 to \$390,000, while the median price for single-family homes increased by 6.5 percent to \$735,000, according to the Honolulu Board of Realtors. The cost of a four-bedroom home in urban Honolulu now exceeds \$1.1 million. At least 40 percent of residences in Hawai’i are owner unoccupied, according to the Hawai’i Housing Finance and Development Corporation, meaning that nearly 50 percent—and by some estimates well over half—of Hawai’i homes are investment properties. Many of those properties are owned by mainland and foreign buyers, whose real estate market speculation is a prime driver of Hawai’i’s highest-in-the-nation cost of housing.

Housing costs are driven largely by real estate speculators, who use Hawai’i as their personal luxury row. We must ask ourselves: do we want to continue catering to people who live outside of Hawai’i, but have the resources to maintain a home here, too? Or do we want to create a first-rate education system for our children? According to a study released in May of 2016 by

the Hawai'i Department of Business, Economic Development, and Tourism, there are "clear distinctions" between the average price of homes bought by local residents, mainlanders, and foreigners. Analyzing purchases made between 2008 and 2015, DBEDT found: "The average sale price was highest among foreign buyers. The average sale price of the total of 5,775 homes sold to foreign buyers from 2008 to 2015 was \$786,186, 28.3 percent higher than the average sale price to the mainlanders (\$612,770) and 64.7 percent higher than the average sale price to local buyers (\$477,460)." Thus, this constitutional amendment directly impacts real estate speculators driving up housing and, in turn, rental prices in Hawai'i, i.e. those most responsible for pricing families keiki out of paradise.

All children deserve a chance at a brilliant future. Mahalo for the opportunity to testify in support of this bill.

Sincerely,
Kris Coffield

DATE: February 13, 2017

TO: Representative Scott Nishimoto
Chair, Committee on Judiciary
Submitted via Capitol Website

RE: **H.B. 180, H.D.1 – Relating to Education Funding**
Hearing Date: Tuesday, February 14, 2017 at 2:00 p.m.
Conference Room: 325

Dear Chair Nishimoto and Members of the Committee on Judiciary:

We submit this testimony on behalf of Wyndham Vacation Ownership. Wyndham offers individual consumers and business-to-business customers a broad suite of hospitality products and services through its portfolio of world-renowned brands. Wyndham Vacation Ownership has a substantial presence in Hawaii through its Wyndham Vacation Resorts, WorldMark by Wyndham and Shell Vacations brands.

Wyndham **opposes** H.B. 180, H.D.1 which would establish a \$3 per day surcharge on visitor accommodations that cost less than \$150 per day, and a \$5 per day surcharge on visitor accommodations that cost more than \$150 per day to fund public education. Timeshare owners already pay the transient accommodations tax on timeshare, also known as the “transient occupancy tax” or “TOT,” making Hawaii the only state in the nation that taxes owners of timeshares for occupancy of property they already own. Establishing a new, additional surcharge on visitor accommodations would negatively impact an industry that already contributes significantly to the state.

The timeshare industry is a strong and consistent source of economic growth for the state that brings stability to the visitor industry by providing reliable and consistent occupancy. Timeshare owners, which include kama’aina, are loyal and repeat visitors who have made long-term commitments to vacation in the islands. In economic downturns, timeshares stabilize the economy and mitigate potential adverse effects on the community.

Gary M. Slovin
Mihoko E. Ito
R. Brian Tsujimura
C. Mike Kido
Tiffany N. Yajima
Matthew W. Tsujimura

Page 2

While Wyndham appreciates that funding for public school education is important, there is no nexus between increasing taxes on visitors and funding for public schools. Moreover, increasing taxes on the visitor industry could have unintended consequences like reduced visitor spending or decreased visitor arrivals. For these reasons, we respectfully ask this committee to hold this bill.

Thank you for the opportunity to submit testimony on this measure.

TAX FOUNDATION OF HAWAII

126 Queen Street, Suite 304

Honolulu, Hawaii 96813 Tel. 536-4587

SUBJECT: REAL PROPERTY, TRANSIENT ACCOMMODATIONS, Education Surcharge on Residential Investment Properties and Visitor Accommodations

BILL NUMBER: HB 180, HD-1 [Implementing Legislation]; HB 182, HD-1 [Constitutional Amendment]

INTRODUCED BY: House Committee on Education

EXECUTIVE SUMMARY: Proposes a substantial surcharge on real property tax for residences where the home exemption is not claimed, and on transient accommodations. Proposes a constitutional amendment, because the surcharge would not be constitutional now. With a tax increase of this magnitude, economic ripple effects are likely to be enormous. We also question why such a massive increase is being sought given that the Department of Education already has a gargantuan share of the State budget but is still beset with such issues as frustrated teachers and students roasting in our classrooms.

BRIEF SUMMARY: Levies a surcharge on all residential investment property in the State of Hawaii as follows:

Property value	Surcharge per \$1,000 of total property value
Under \$500,000	\$3.50
\$500,000 under \$750,000	\$4.50
\$750,000 under \$1,000,000	\$5.50
\$1,000,000 under \$2,000,000	\$6.50
\$2,000,000 and over	\$7.50

Residential investment property is defined as all realty and all machinery and other mechanical or allied equipment and the foundations thereof, that is dedicated for residential use for which the owner does not qualify for a homeowner's exemption.

Levies a surcharge on visitor accommodations in the State of Hawaii as follows:

Daily price	Surcharge per day
Less than \$150	\$3.00
\$150 or more	\$5.00

Visitor accommodations are defined as all transient accommodations pursuant to section 237D-1, resort time share vacation units pursuant to section 237D-1, and any other dwelling or lodging located in the State and let by an owner or operator for less than one hundred eighty days. Visitor accommodations shall not include any facility owned or used by a government

agency, school or college dormitory, homeless facility pursuant to section 346-361, or tenement home, group home, group residence, group living arrangement, boarding house, certified pursuant to section 445-94.

Obligates the counties to collect the surcharge, but provides that they may retain 5% of the amount collected to reimburse the county for the costs of assessment, collection, and disposition of the education surcharge incurred by the county.

EFFECTIVE DATE: Upon ratification of the constitutional amendment permitting the legislature to establish a surcharge on residential investment properties and visitor accommodations to fund public education.

STAFF COMMENTS: The real property tax increases being proposed are substantial. For a residential property valued at a shade under \$1 million in Honolulu, for example, the real property tax would be \$3,500 and the surcharge would be \$5,500, for a total of \$9,000, nearly tripling the tax bill.

Some have sought to justify the dramatic effects upon the real property tax wrought by this bill by the argument that low property taxes are a bad thing. The preamble in HB 1735 (2016), for example, said:

The legislature finds that Hawaii has the lowest property taxes in the nation. Although this makes sense for low- and middle-income residents who own an average single-family home, this causes the counties to potentially forego additional tax revenue from high-value homes and second homes.

The legislature further finds that many individuals and families who spend time in Hawaii are owners of high-value properties and do not pay state income tax, instead maintaining resident status in another state with a lower income tax rate. However, these individuals still use Hawaii's infrastructure and services, and thus should pay their fair share.

The legislature also finds that low property taxes can incentivize development of high-end, high-value properties, contributing to the high cost of land in Hawaii, driving up the cost of living and exacerbating our affordable housing and homelessness issues.

The conventional wisdom as to why Hawaii has low real property taxes is that most other states provide schools at the city or county level, requiring them to be funded by a municipal funding source like a property tax. Hawaii has a state-run school system, which is funded by state funding sources like the income tax and the GET.

Are the counties suffering because they are forgoing tax revenue? The counties set property tax rates by ordinance and look at rate levels during every budget cycle. Honolulu and Kauai, for example, enacted major changes to their property tax systems in 2013. If the counties are forgoing revenue, they are doing it by their own choice.

Do nonresidents fail to pay their fair share in income tax? Our income tax is like the tax systems in most other states. Nonresidents get taxed on income with its source in Hawaii. Residents get

taxed on income regardless of source BUT get a credit for tax paid to another state or country on income that has its source in that state or country. So, a taxpayer's tax, resident or not, depends on where the income comes from and whether other jurisdictions are also taxing it. This kind of system has been upheld as meeting the requirements in the U.S. Constitution. See, for example, *Comptroller of the Treasury of Maryland v. Wynne*, 575 U.S. ____ (2015). If that system fails to tax people fairly, why do most states with an income tax use it?

Do low property taxes lead to development of high-end properties that then drive up the cost of land and therefore the cost of living? And if so, is the remedy for this higher taxes which can and do drive up the cost of living *by themselves*? We need to remember that even if we ascribe evil motives to a "real estate speculator" who is buying and selling Hawaii real estate, the speculator needs to be buying from, and selling to, other people who are presumably law-abiding citizens.

Land costs more because we're on an island in paradise. Folks are willing to pay decent money to live here part of the time even if they might not want to live here permanently. Indeed, our tourism authority actively encourages potential tourists to come here. The "price of paradise" applies to real property as well. It is going to cost more here than the same square footage in most other places.

A tax increase of any magnitude in Hawaii's fragile economy will, no doubt, have a negative impact as costs soar due to higher taxes. As costs and overhead increase, employers must find ways to stay in business by either increasing prices to their customers or cut back on costs. This may take the form of reducing inventory, shortening business hours, reducing employee hours, or even laying off workers. A tax increase of any magnitude would send many companies, especially smaller ones, out of business taking with them the jobs the community so desperately needs at this time.

While the teachers believe that they have not been given a fair shake at the negotiating table, that is an issue that should be resolved at the table and not by asking for tax increases or an earmarked source of funding. It is up to the teachers to ask for what money is available just like any other collective bargaining units. Although public employee union leaders complain about how the public employees should not be asked to bear the brunt of the downturn in the economy, they seem to ignore the fact that employees in the private sector have taken hits early and often, with many of them either working shorter hours or having taken pay cuts if they are working at all. A recent analysis of Bureau of Economic Analysis data done by the Grassroot Institute of Hawaii,¹ for example, showed that Hawaii teachers make low wages and benefits, 42nd in the nation, but that Hawaii's private sector workers made the lowest wages and benefits nationally when adjusted for cost of living.

Teachers do have a legitimate complaint that should demand the attention of lawmakers and Board of Education members, namely that teachers are being asked to do more and more administrative paperwork and are spending less and less time in the classroom. If nothing else, the funds that are being appropriated to the DOE are failing to reach the classroom because of

¹ <http://www.grassrootinstitute.org/2017/01/islanders-shouldnt-be-taxed-extra-for-teacher-bonuses/>

the top-heavy administrative structure of the department that demands reports and schedules and evaluations to justify the role of administrators. The frustration of classroom teachers is that they spend too much time filling out forms and reports and not enough time in the actual classroom. Unfortunately, with more than \$1.5 billion in its budget and more than 20% of the general fund budget, teachers are frustrated, and kids are roasting in the schools. The department of education still cannot get it right. Until it does, there is little justification for an increase of financial resources let alone a massive tax increase as proposed.

Digested 2/12/2017

Hawaii State House of Representatives
Committee on Judiciary
Rep. Scott Y. Nishimoto, Chair
Rep. Joy A. San Buenaventura, Vice Chair
State Capitol
415 South Beretania Street
Honolulu, Hawaii 96813

Hearing: February 14, 2017
Time: 2:00 PM.
Subject: HB 180 HD1 Relating to Education Funding

TESTIMONY IN OPPOSITION

Chair Nishimoto, Vice Chair San Buenaventura and members of the Committee:

Thank you for this opportunity to submit testimony on HB 180, HD1 related to Education Funding.

I am Kevin Carney, Vice President of EAH Housing. EAH is a 48 year old non-profit public benefit corporation whose mission is to develop, manage and promote affordable rental housing. We are one of the largest non-profit affordable rental housing developers in the western United States. We have developed over 95 affordable rental properties, manage over 100 rental properties and we serve over 20,000 residents in communities in Northern California and Hawaii. The people we serve are primarily those with incomes at or below 60% of the area median income (AMI).

In order to make our 60% AMI rental projects financially feasible we need free land and large subsidies. Our rents are fixed by the Department of Housing and Urban Development (HUD). Our largest source of equity is the Low Income Housing Tax Credit Program which is explained in IRS Code 42. This equity source is typically supplemented by the State's Rental Housing Revolving Fund (RHRF), HOME Program Funds, Community Development Block Grant Funds and other non-recourse funds that may be available at the county level.

EAH opposes HB 180, HD1 because it will add costs to our already very difficult to develop low income rental housing projects that are subject to regulatory agreements that exempt these projects from county real property and general excise taxes. Given our long standing housing crisis we encourage our state and our counties to focus on the ways and means to produce more affordable rental and affordable for-sale housing rather than imposing additional fees that will make all types of housing development more difficult.

Thank you for allowing us to share our concern on this issue.

Sincerely,

Kevin R. Carney, RB-16444
(PB), NAHP-E
Vice President, Hawaii

Blake Oshiro, Acting Executive Director

RE: House Bill 180 Relating To Education Funding - **Oppose**

House Bill 182 Proposing Amendments To Articles VII And X Of The Constitution Of The State Of Hawaii To Authorize The Legislature To Establish A Surcharge On Residential Investment Property And Visitor Accommodations To Increase Funding For Public Education – **Oppose**

Dear Chair Nishimoto, Vice-Chair San Buenaventura and Members of the Judiciary Committee:

Thank you for the opportunity to testify on the proposed Constitutional Amendment and the statutory counterpart bills. On behalf of the American Resort Development Association (ARDA) Hawaii, the time share association, we respectfully **oppose** these bills.

While the discussion and policy decisions about the proper level of funding for public education is an important one that has been ongoing for several years, the approach taken in these bills seeks to have one sector of the economy bear that burden. This is an unfair targeting of one industry to be taxed. While this does not necessarily mean ARDA-Hawaii supports a large broad-based tax increase, it is much more reasonable for our community to engage in policy discussion on the amount and source of education funding. Moreover, these proposals single-out one area and type of property and property owners/users to have to pay these fees for services and programs which do not have a direct nexus to the surcharge that is sought to be imposed.

Our tourism industry remains state's top economic driver. Unfortunately, our other important economic driver, the military support and spending, is also tenuous and uncertain due to changes at the federal level in the past few years including sequestration, the elimination of earmarked appropriations or "pork-barrel" projects, and loss of congressional seniority. This compounded by an uncertain and yet to be determined approach by the new federal Administration. As such, additional targeted fees or taxes on our visitor accommodations has the potential to drag down our tourism market momentum and inhibit Hawaii's continued cost-competitiveness as a sought-after tropical destination.

It is for these reasons that ARDA-Hawaii must respectfully oppose these bills. Thank you for the opportunity to testify.

Coalition for Equal Taxation

RE: **House Bill 182; Constitutional Amendment**
House Bill 180; Education Funding

Dear Chair Nishimoto and Vice Chair San Buenaventura and Committee Members

On behalf of the Coalition for Equal Taxation, we must **OPPOSE** both these Bills.

We support schools for all Hawaii children, however, we must oppose the proposed method of taxation. Education has been funded through the General Fund for all operations and a special fund for school property maintenance. We believe that education should continue to be funded through these methods as it provides for equal revenue generation from all sources of taxation.

This proposed Bill uniquely selects to impose a surcharge on property taxes to residential properties that cannot claim a homeowners' exemption.

There are a multitude of bills this legislative session the propose to increase property taxes on those who cannot claim the homeowners' exemption or directly on transient accommodation activity. Taken as a whole, they present a very oppressive environment for those who are affected.

The current property tax structure is illustrated below:

	Owner occupied Exemption	Additional Senior Exemption	Owner occupied Tax Rate per \$1,000	Resort Zone
CC Honolulu	\$ 80,000	\$120,000	3.50	12.90
Maui	\$200,000		2.70	8.71
Kauai	\$160,000	\$180,000 - \$200,000	3.05	8.85
Co. Hawaii	\$ 40,000	\$ 80,000 - \$100,000	6.15	10.85

Additionally: Many counties also have further exemptions for disabled and low income owner occupied units.

Thus, it is clear to see that a person who cannot claim the homeowners' exemption is paying, in many situations, as much as 700% higher property taxes relative to owner occupied rates *for the exact same dwelling*. Further, a number of the counties have set 270 days of occupancy to qualify for a homeowners' exemption. Thus a person who lives in their dwelling 73% of the year, still may not use the homeowners' exemption.

It is unclear how it could be perceived as fair and equitable that a person who lives in their home for 73% of the year and pays 700% higher property tax rates, is singularly the one to bear the extra burden of taxation. The extra burden is as follows:

Under \$500,000	\$3.50	= up to \$ 1,750
\$500,000 under \$750,000	\$4.50	= \$ 3,375
\$750,000 under \$1,000,000	\$5.50	= \$ 5,500
\$1,000,000 under \$2,000,000	\$6.50	= \$13,000
\$2,000,000 and over	\$7.50	= \$22,500 (based on 3m)

These additional taxations then bring a current system of charging 700% higher to a level 900% higher and above. While there are provisions under law to allow for homeowners exemptions to "encourage home ownership" it is questionable if a court would find such disparate levels of taxation as a *reasonable* application necessary to encourage home ownership or, alternatively, to find discriminatory practices. Offering homeowners' exemptions from taxation does not turn a blind eye to unequal taxation at discriminatory levels.

The proposed Bill also imposes a further taxation surcharge on the commerce of offering transient accommodations for rent resulting in a significant tax burden, for many, amounting to 4% of their gross, or similar to paying GET twice. Again, this tax is uniquely imposed upon only one sector of the commerce spectrum rather than applied to all economic output. It is unclear what would justify a taxation on only one sector. There is no nexus between education and tourism.

A the purpose for the proposed property tax increase and transient accommodation surcharge is for education that all Hawaii residents benefit from, the revenue to support this, should be sourced by a general taxation as it is currently. To do otherwise, is problematic. I am sure this Committee is well versed in the protections afforded in the U.S. Constitution 14th Amendment which precludes states from treating non-residents any differently than they do their own residents.

This legislative session holds many bills that in one way or another target non-residents. We hope you will examine these Bills in light of Equal Protection.

We urge you to please defer this Bill.

Thank you for the opportunity to testify.

John Chang
Coalition for Equal Taxation

Chamber of Commerce HAWAII

The Voice of Business

**Testimony to the House Committee on Judiciary
Tuesday, February 14, 2017 at 2:00 P.M.
Conference Room 325, State Capitol**

RE: HOUSE BILL 182 HD1 PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION
AND
HOUSE BILL 180 HD1 RELATING TO EDUCATION FUNDING

Chair Nishimoto, Vice Chair San Buenaventura, and Members of the Committee:

The Chamber of Commerce Hawaii ("The Chamber") **strongly opposes** HB 182 HD1, which proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the Legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

The Chamber also **strongly opposes** HB 180 HD1, which establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

The Chamber is Hawaii's leading statewide business advocacy organization, representing about 1,600+ businesses. Approximately 80% of our members are small businesses with less than 20 employees. As the "Voice of Business" in Hawaii, the organization works on behalf of members and the entire business community to improve the state's economic climate and to foster positive action on issues of common concern.

The package of bills proposes to implement a constitutional amendment permitting the legislature to establish a surcharge on visitor accommodations and residential investment properties to fund the department of education, and then a statutory mechanism to implement the program. The statutory bill proposes two new taxes, one on residential investment property and one to assess visitor stay on a per day basis.

While we strongly support the efforts to provide quality public education in our state, we are concerned that there is no clear amount designated as a sufficient amount of funds for education. We are also concerned with the approach to create new assessments, or taxes on activities with no nexus to the end user or, worse, taxes one group of residents and not others. On taxing residential investment property, the resident renter will likely pay the tax. Hawaii has approximately a 55%+ homeowner rate. That would suggest that about 40-45% of all residents

Chamber of Commerce HAWAII

The Voice of Business

living in the state are renting. This would create an unfair tax burden on renters and increase the cost of housing for all residents, which this bill in part tries to address for teachers. As far as we can tell, resident homeowners would not be affected by this tax. This appears to be an unfair targeted tax and could create a further economic divide between homeowners and renters. A renter in a \$400,000 valued residential property could be affected by this tax to the amount of an additional \$1,400 per year. For someone renting the average home value or \$760,000 the tax could be over \$4,100 each year. Even though there are exemptions for certain types of residential units, it could skew the marketplace and adversely affect the rental market. It is also unclear on a practical level how these exemptions will be monitored and enforced. We are not sure the Superintendent is the best lead enforcement person even with the help of the state and county director of finance. In addition, the resources by the state and county to administer and enforce this new law are not addressed in the bill. Furthermore, the new administrative burden by homeowners may again negatively affect the marketplace.

For the tax on tourism, there is already a 13.75% tax rate on transient accommodations. We think the per-day tax could hurt tourism and damage further investment by transient accommodation owners into Hawaii's properties. It will also place an additional and complicated burden on transient accommodation operators as they will have to track and report on two different types of accommodation taxes. Transient accommodation companies already provide huge tax revenues to the state in TAT, GE and the income taxes for the thousands of jobs that they provide in our state.

Lastly, we also have other issues with the bill. It does not guarantee (nor can any language) that the additional tax revenues will be used only for the department of education. Second, the bill does not state what the hundreds of millions of dollars in additional taxes will accomplish. Lastly, we have concerns on the larger issue of raising taxes to fund a program. As we mentioned there are many important programs that the state funds, but doing this could set a dangerous precedent for other programs with constituencies to come in for further tax increases.

We ask these bills be deferred. We appreciate the opportunity to provide our input on this important legislation.

HAWAI'I LODGING & TOURISM
ASSOCIATION

LATE

Testimony of

Mufi Hannemann
President & CEO
Hawai'i Lodging & Tourism Association

House Committee on Judiciary

House Bill 180, House Draft 1: Relating to Education Funding

Chair Nishimoto, Vice Chair San Buenaventura and members of the Committee on Judiciary, mahalo for the opportunity to offer this testimony on behalf of the more than 700 members of the Hawai'i Lodging & Tourism Association.

HLTA opposes House Bill 180 HD1, which proposes to establish a surcharge on residential investment properties and visitor accommodations to help fund our public education system. As much as we support improving upon our state's education system we must take into consideration the tax burden our visitor industry already bears.

Our respectful opposition is based on the following reasons:

Higher Taxes/Fees Hurt our Ability to Compete. In recent years, the state permanently raised the Transient Accommodations Tax, to the point where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O'ahu. Hawai'i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

Tourism Already Is the State's Revenue Producer. In its most recent report, the Hawai'i Tourism Authority stated, "Tourism is the largest single source of private capital for Hawai'i's economy." The HTA went on to note that tourism accounted for 190,000 jobs, that visitor spending last year totaled \$15.6 billion, a new high, and that the state's tax take was \$1.82 billion. Of that sum, TAT revenues alone accounted for nearly \$447 million for the state's coffers last fiscal year.

But the hospitality industry is not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai'i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

TAT Revenue to the General Fund. More than half of Transient Accommodations Tax revenue now goes to the General Fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. We would

HAWAI'I LODGING & TOURISM
A S S O C I A T I O N

surmise that public education may be already receiving a share of TAT revenue through its General Fund budget allocations.

Uncollected Revenue. The state government is not collecting Transient Accommodation and General Excise taxes on transient vacation rentals. The Hawai'i Lodging & Tourism Association has gone on record as supporting legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are an estimated 25,000 alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding our 9.25 percent Transient Accommodations and General Excise taxes. Rather than outlaw these transient vacation units, or raise the TAT, the state government should collect the millions of dollars in taxes now being avoided.

For these reasons, the Hawai'i Lodging & Tourism Association continues to oppose raising taxes and leveraging extra fees on the visitor industry.

Mahalo for the opportunity to testify.

Maui Hotel & Lodging
ASSOCIATION

Testimony of
Lisa H. Paulson
Executive Director
Maui Hotel & Lodging Association
on
HB180 HD1
Relating To Education Funding

COMMITTEE ON JUDICIARY
Tuesday, February 14, 2017, 2pm
Conference Room 325

LATE

Dear Chair Nishimoto, Vice Chair San Buenaventura and Members of the Committee,

The Maui Hotel & Lodging Association (MHLA) is the legislative arm of the visitor industry. Our membership includes over 175 property and allied business members in Maui County – all of whom have an interest in the visitor industry. Collectively, MHLA’s membership employs over 25,000 residents and represents over 19,000 rooms. The visitor industry is the economic driver for Maui County. We are the largest employer of residents on the Island - directly employing approximately 40% of all residents (indirectly, the percentage increases to 75%).

MHLA opposes HB180 HD1, which establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

Keeping our costs level is critical to our ability to compete against other sun destinations, especially now when we are seeing an increased amount of competition with new resort locations and other destinations’ deeply discounted air/hotel packages. The State permanently raised the Transient Accommodations Tax where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O’ahu. Hawai’i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

Last year’s (2107) visitor spending brought in \$15.6 billion to the State, with the state’s tax take equaling \$1.82 billion. Of that sum, TAT revenues alone accounted for nearly \$447 million for the state’s general fund last fiscal year. The hospitality industry should not be seen as an infinitely taxable entity. While the TAT was originally established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended.

Maui Hotel & Lodging Association is opposed to raising taxes and leveraging extra fees on the visitor industry.

Thank you for the opportunity to testify.

**HEARING BEFORE THE HOUSE COMMITTEE ON JUDICIARY
HAWAII STATE CAPITOL, SENATE CONFERENCE ROOM 325
TUESDAY, FEBRUARY 14, 2017 AT 2:00 P.M.**

To The Honorable Scott Y. Nishimoto, Chair;
The Honorable Joy A. San Buenaventura, Vice Chair; and
Members of the Committee on Judiciary

**TESTIMONY IN OPPOSITION OF HB180 TO ESTABLISH A SURCHARGE ON
RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMODATIONS
TO INCREASE FUNDING FOR PUBLIC EDUCATION**

Aloha, my name is Pamela Tumpap and I am the President of the Maui Chamber of Commerce, serving in this role for over a decade. I am writing share our opposition to HB180.

While we strongly support public education, we don't believe adding a tax to residential investment property and visitor accommodations is the answer. One of our concerns with the tax on residential investment property is that it would likely be paid by resident renters. There is already a limited quantity of rental properties and rents are extremely high here. We fear that many local renters would not be able to afford the rent increase that could be caused by this additional tax and recognize that we have to balance solutions for all residents and recognize that renters make up over one-third of all Hawaii residents.

In regards to the tax on visitor accommodations, we believe there should not be another tax in addition to the transient accommodations tax that is already in place and considerable. This could greatly harm our visitor industry that has to compete with locations around the world and could drive Hawaii visitors to other markets. The visitor industry is not only very important to our state economy, it is critical to Maui's economy, especially with the recent closing of HC&S.

We appreciate the opportunity to testify on this matter and therefore ask that this bill be deferred.

Mahalo for your consideration of our testimony and we hope you will support a deferral.

Sincerely,

Pamela Tumpap

Testimony to the House Committee on J
Tuesday, February 14, 2017
2:00 p.m.
Conference Room 325

LATE

**RE: HB 180 HD1, RELATING TO EDUCATION FUNDING, AND
HB 182 HD1, PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE
CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE
LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL
INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO
INCREASE FUNDING FOR PUBLIC EDUCATION**

Chair Nishimoto, Vice Chair San Buenaventura, and members of the committee:

My name is Gladys Quinto Marrone, CEO of the Building Industry Association of Hawaii (BIA-Hawaii). Chartered in 1955, the Building Industry Association of Hawaii is a professional trade organization affiliated with the National Association of Home Builders, representing the building industry and its associates. BIA-Hawaii takes a leadership role in unifying and promoting the interests of the industry to enhance the quality of life for the people of Hawaii.

BIA-HAWAII is in opposition to HB 180 HD1 which would establish an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education. BIA-Hawaii is also in opposition to HB 182 HD1 which proposes to amend the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

The purpose of these bills is to address the chronic underfunding of public schools undermines the state's goal of providing a quality education to all of Hawaii's children. Insufficient education funding results in delayed repairs to school facilities, overheated classrooms, higher class sizes, a lack of adequate classroom supplies, elimination of arts and career and technical education courses, budget cuts for special education and English language learner programs, and an increasing number of vacant teacher positions statewide. It is necessary to develop a new means of funding Hawaii's public education system to ensure that the State will be able to prepare children to meet the social and economic demands of the twenty first century.

The bills propose to implement a constitutional amendment permitting the legislature to establish a surcharge on visitor accommodations and residential investment properties to fund the most urgent needs of the department of education, including recruiting and retaining highly qualified teachers, lowering class sizes, improving special education staffing and resources, and growing the number of career and technical education and arts courses offered statewide.

According to information from the Department of Education's website, the Department of Education operates Hawaii's public schools on a \$1.9 billion budget comprised primarily of state funds (81 percent), as well as federal, special and trust funds. Hawaii is 17th in the nation for per-pupil spending.

The bill proposes to create a revenue stream for the DOE based on assessing residential units used for rentals. The bill also proposes to assess visitors on a per-person basis. The bill does not state an amount necessary to address the current needs of the DOE but merely creates a revenue source for funding existing and future programs.

While we strongly support the efforts to provide quality public education in our state, we are concerned that the responsibility to fund this effort will be shifting from the overall general tax paying public to renters of residential units in Hawaii and visitors to our state. We are also concerned with the cavalier approach to create new assessments, or taxes on activities with no nexus to the end-user.

If public education is a priority in our state, then it should be funded by the general tax payers through appropriations from the legislature. Based on these concerns, BIA Hawaii is not in support of HB 180 HD1 and HB 182 HD1.

We appreciate the opportunity to provide our input on this important legislation.

LATE

TO:

SEN. Mike Cabbard

REP. Sharon E. Har

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools. by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: ""Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

February 14, 2017

Testimony in Opposition to HB180

Members of the Hawaii State Legislature:

The Kohala Coast Resort Association (KCRA) is opposed to amending the State Constitution to add a surcharge to residential investment property and visitor accommodations. We believe that the goal of this measure, to support the state's educational objectives is worthy, but feel it can already be achieved by allocating a percentage of the transient accommodations taxes from the state's general fund revenues.

KCRA is a collection of master-planned resorts and hotels situated north of the airport which represents more than 3,500 hotel accommodations and an equal number of resort residential units. This is approximately 35 percent of the accommodations available on the Island of Hawai'i. KCRA member properties annually pay more than \$20 million in TAT and \$20 million in GET.

Sincerely,

Stephanie Donoho
Administrative Director

Patrick Fitzgerald, Hualalai Resort
Kelley Cosgrove, Fairmont Orchid, Hawai'i
David Givens, Hilton Waikoloa Village
Steve Yannarell, Waikoloa Beach Marriott Resort & Spa

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

DRAFT

February 14, 2017

Testimony in Opposition to HB180

Members of the Hawaii State Legislature:

The Kohala Coast Resort Association (KCRA) is opposed to amending the State Constitution to add a surcharge to residential investment property and visitor accommodations. We believe that the goal of this measure, to support the state's educational objectives is worthy, but feel it can already be achieved by allocating a percentage of the transient accommodations taxes from the state's general fund revenues.

KCRA is a collection of master-planned resorts and hotels situated north of the airport which represents more than 3,500 hotel accommodations and an equal number of resort residential units. This is approximately 35 percent of the accommodations available on the Island of Hawai'i. KCRA member properties annually pay more than \$20 million in TAT and \$20 million in GET.

Sincerely,

Stephanie Donoho
Administrative Director

Patrick Fitzgerald, Hualalai Resort
Kelley Cosgrove, Fairmont Orchid, Hawai'i

Hawaii Children's Action Network

Re: **HB 180 HD1 – Relating to Education Funding**
Hawaii State Capitol, Room 325, February 14, 2017, 2:00 PM

On behalf of Hawaii Children's Action Network (HCAN), we are writing to support HB 180 HD1 – Relating to Education Funding.

As one of the lowest rated school districts for spending per student, Hawaii needs to find new ways to increase funding for education. This bill provides an option to increase funding without increasing the tax burden on Hawaii residents. This additional funding for education can lead to better results in test scores, school completion, college attendance, and job opportunities for students.

For these reasons, HCAN respectfully requests that the committee pass this bill.

HCAN is committed to building a unified voice advocating for Hawaii's children by improving their safety, health, and education. Last fall, HCAN convened input in person and online from more than 50 organizations and individuals that came forward to support or express interest for a number of issues affecting children and families in our state that resulted in the compilation of 2017 Hawai'i Children's Policy Agenda, which can be accessed at <http://www.hawaii-can.org/2017policyagenda>.

HEARING: 2 p.m. Tuesday, February 14, 2017

SUBJECT: HB 180, HD1, Real Property Tax Surcharge and Related Special Fund -
OPPOSED

Aloha Chair and Committee Members,

Thank you for allowing me the opportunity to provide testimony on HB 180, HD1, which would create a real property tax surcharge as well as a special fund for education. I oppose this bill and urge you to vote “no.”

The bill defines “residential investment property” as all land and buildings dedicated for residential use for which the owner does not qualify for a homeowner’s exemption. “Investment” has come to be a dirty word in Hawaii, and the use of that word belies the fact that those properties are home to more than 40% of residents on Oahu who rent.

The amount of surcharge starts out at \$3.50/\$1,000 of assessed value. This is the current rate of real property tax charged to homeowners on Oahu (on properties up to \$1 million in assessed value). **The surcharge would double the real property taxes on rental properties** not in the Residential A classification. This additional tax would very likely be passed on to tenants and put more pressure on the lower end of the rental market.

The bill does include certain exemptions, but they are intrusive and would require significant resources to verify. For example, the exemption for property rented to a resident 65 or older who makes less than \$75,000 per year would require the disclosure of the tenant’s birth date and income. **Tenants should not be put in the position of having to release this information or face higher rents.**

This bill also calls for the creation of yet another special fund. Please – no more special funds.

I urge you to vote “**no**” on this bill.

Date: February 2, 2017

To: The Honorable Chair Michelle Kidani and Members of the Education Committee:

From: Beatrice DeRego, Teacher
Hawaii Dept. Of Education

Re: SB 683 & SB 686– Relating to Education - Dedicated Funding Source for Public Schools

On behalf of the faculty and students at my school, I strongly support S.B. 683 and S.B. 686.

I am Beatrice DeRego, a teacher at Kahuku High & Intermediate School on the North Shore of Oahu. I have been a teacher for 20 years at Kahuku, and have never had adequate resources to fulfill my roles as an educator. Please pass **SB683** and **SB686** to increase funding for public schools to provide an adequate educational opportunity for all students.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations and for the state. Every dollar invested in our communities' public schools yields exponential returns, not just for our economy, but for the promise of a more open, informed, and democratic society.

Supporting these proposals will help lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to build relationships with their students, a key component of student success. It will provide the opportunity to truly engage the whole child in areas that include the humanities, the arts and Hawaiian studies, resources for special needs and language learner students, and professional pay that reflects the value of both our hardworking teachers and our public schools as the hubs of community prosperity.

I need additional funding for my school, including professional pay, because I don't want to have to leave the islands. I grew up on Oahu and returned here after military service and a career as a conference center comptroller to invest in our children's futures. I have watched as inappropriate mandates and lack of resources have stripped the joy from my students' eyes. I have watched students pass out from the heat without even a chilled water fountain to drink from. I have watched students without proper learning resources attempt to fulfill testing mandates – day after day – always asking if they are failures since they just can't get it – and trying to explain that it is our lack of funding for the right tools and additional teachers that makes it seem so difficult. Always encouraging each to believe that some one will care enough about their education to make the funding choices they need.

To deliver the schools our keiki deserve, please support these bills. Be someone I can point to and let my students know, that someone – a caring legislator - “get's it” and is finally going to walk the walk of so many others' empty words.

Mahalo for considering our future,

Beatrice DeRego
Kahuku High & Intermediate School

Comments: I fully support raising property tax on vacation rentals, vacation homes, and investment properties beyond 1 per household since many Hawaii residents rent portions of their primary residence and/or own one investment property for supplemental income. This bill should target those who cannot prove their primary residence is in Hawaii, those who own more than 1 investment property, and those who target tourists for their rental property. There need to be safeguards in place that protect renters if this bill passes. The United States Government recognizes the high cost of living, hence the Cost of Living Allowance (COLA) and Basic Allowance for Housing (BAH) for military members who live in Hawaii. Teachers do not receive COLA or BAH and are required to pay the same rental costs (\$1,100 studio - \$4,000 3 br house) solely with their DOE salary which is significantly less than other high cost of living areas across the nation. What safeguard will be put in place to prohibit investment property owners from raising their rent to cover higher property tax rates, which without a pay raise, will hurt teacher retention. Each year, I have picked up additional jobs to pay my monthly bills that include: rent for a studio (\$1,550), internet only (\$35), student loans (\$250), car payment (\$205), food/household items (\$600), gas (\$100). The total of these bare minimum expenses comes to \$2,740. I do without cable. I rarely buy clothes because I cannot afford them after my monthly expenses and rely on friends and family for hand-me-downs and gifts. My net pay each month after paying taxes and medical/dental/vision insurance is only \$2,548, which is more than most new teachers with only a bachelor's degree earn. This is a difference of -\$192 every month not including any medical expenses if I get sick, or vehicle repair/maintenance costs. This speaks for itself about why there are problems in Hawaii with teacher retention. This bill must pass to support the children of Hawaii, and the teachers who educate and mentor them K-12, while having amendments that protect renters from being subject to increasing rental prices.

Chair Nishimoto and Members of the Committee:

My Name is Ken Farm and I stand in support of HB180 to increase funding for public schools. And subsequent Enabling Bill HB182.

Our children are our future and education is our societies great equalizer. Quality education leads to better outcomes and less reliance on government assistance and other social safety net programs. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for the lower and working class of Hawai'i, it allows for smaller sizes classes which allow teachers to connect with their students and, because of smaller classes sizes teachers can focus a child's whole education. In addition, voting yes will help Hawai'i students become more adept with STEM classes. However, must never forget the importance of the arts and Hawaiian studies. All integral in creating a whole person, traits such as, critical thinking skills and, creativity beyond classroom academics.

Furthermore, this bill will increase available monetary resources for special needs students that are under the protections of the federal IDEA law or any other type of designation. Finally, the following bills will address the issue of professional pay that reflects the value of our hardworking teachers and educational support staff but also address the issue of personnel retention particularly with teachers.

Our keiki deserve the best we can provide and by voting in support you are fulfilling the promise of the social contract Mahalo.

Ken Farm , Oahu

RE: HB 180 and HB 182 - Relating to Education

Tuesday, February 14, 2017

Chair Nishimoto and Members of the Committee:

I am David Negaard, an English teacher at H.P. Baldwin High School on Maui. I have been teaching in public schools for 19 years. I strongly urge you to pass HB 180 and HB 182 to provide desperately needed additional funding for public schools.

Children are our greatest treasure. When we teachers instruct our students, we build the foundation for equality and prosperity for future generations. Every dollar invested in our community's public schools yields exponential returns not just for our economy, but for the promise of a more open and democratic society. And while future returns are important, we also enrich the current lives of our students—education is not just an investment in the future; it is also an investment in the present lives of precious children.

I teach up to 34 students at a time in a 25x30' classroom. Even with minimal furniture and equipment (no computer cart, no storage, no bookshelves or file cabinets), my classroom is *crowded*. With so many students, it is difficult to forge the relationships that can make a real difference in their lives. With so many students, it is impossible to individualize instruction for maximum effect. With so many students in so crowded an environment, they inevitably distract one another from the task at hand. With so many students, some students may slip through the cracks despite my best efforts. Class size *matters*, and it cannot help but be linked to staffing—to teacher recruitment and retention—when we don't have enough teachers, class sizes must rise.

If we are to teach the whole child and not just the reading or writing or calculating child, our course offerings must include breadth as well as depth. My students benefit socially, emotionally, and intellectually when offered the opportunity to follow their interests and passions through the enriching courses sometimes dismissively called “electives.” We must expand our offerings in the arts, culture-based education (including Hawaiian language instruction and Hawaiian Studies), and vocational and career technical education in order to meet

the unique needs of Hawai‘i students, but it is difficult to add offerings to the master schedule when the same staffing shortages that impact class size also limit course offerings.

It has been said that one definition of insanity is doing the same thing you have always done and expecting different results. If we keep doing what we have been doing with respect to investments in education—funding that is inconsistent, capricious, and precarious—we will keep getting what we have been getting: rising teacher shortages coupled with increasing class sizes, reduced course offerings, reduced special education services, and deteriorating facilities. Our keiki deserve a world class education and we can provide one *if* we have the will to make modest changes in how we fund schools that will have major impact on what schools can offer students and families.

Supporting these bills will begin to lift Hawai‘i schools into the 21st century. A vote for these bills is a vote for lower class sizes that allow teachers to connect with their students. A vote for these bills is a vote for whole child education that includes the arts, Hawaiian Language, and Hawaiian Studies. A vote for these bills is a vote for resources for special needs students. A vote for these bills is a vote for professional pay that reflects the value of hard-working teachers.

The budget “pie” can only be sliced so fine. Until we find the will to provide a consistent additional funding stream for public education, a sliver is the best our keiki can hope for. These bills would put a sizable additional pie on the table, so our students (and their teachers) could have more than the mere sliver possible under current circumstances.

To help deliver on the promise we should be making to provide the schools our keiki deserve, please support these bills. Mahalo.

David Negaard, H.P. Baldwin High School, Maui

Subject: RE: HB 180 and HB 182 RELATING TO EDUCATION.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

TUESDAY, FEBRUARY 14, 2017
2:00pm

Aloha Chair Nishimoto and esteemed members of the Judiciary committee:

My name is Justin Hughey. I am a second grade Special Education Teacher at King Kamehameha III Elementary on Maui.

I am testifying in strong support of HB180 & HB182.

I want to address the problem of approximately 1,600 teacher vacancies that was projected at the start of this current school year.

In 2005 I was finishing up my Masters in Special Education while working as a server at an Italian Steakhouse Restaurant in Batavia, Illinois. A man sitting in my section said, "If you want to be a teacher, you can do that anywhere. You have to move to Maui. It is a progressive state, Hawaii, a place where kids still respect their elders, and it is paradise." Nice story.

I moved here with about 40,000 dollars in student loan debt for my two degrees. I never put a penny on a credit card because I didn't believe in having one. My rent was 1,200 dollars a month and I was being paid about 1,100 every two weeks after taxes. Immediately I had to put 5,000 dollars on a credit card in the first six months to just purchase groceries.

Six months later I obtained a second job at a fine dining restaurant in Kapalua, Maui. General Manager said we will give you three shifts and you let us know if it is too much or too little. We respect teachers. That General Manager left and the new one told me I had to be available every day of the week and we could care less that you are a teacher. It's about the corporation.

That GM had me working upwards of five days a week, 19 hour Fridays. I was dependent on the second job like 40% of all teachers in Hawaii. This meant that I could not take courses to move myself up the payroll.

First, the DOE does not pay teachers enough to fulfill the job requirements during contractual hours and teachers are exempt from obtaining overtime. No teacher can do a great job when they leave at three, work another job till eleven, get home [at midnight](#), only obtaining six hours or less of sleep, and wake up the next day and do it all over again.

I can't express what it feels like to wake up, sore, tired, and just try to make it through another day.

I don't think it is a coincidence that my body is currently giving out. Last August I picked up a case of paper and it gave me a severe bulging disc. I am only forty years old and I may never be able to go for a jog again. I am still receiving therapy for my injury. If I didn't share the bills with my fiancée I would have had to move.

Teachers don't want to teach here because when the cost of living is factored in, they are paid one of the worst salaries in the country. Whenever I have lobbied legislators they have always agreed more money needs to go to education so where would you take from, the kapuna? So last year HSTA proposed a raise in the GET. That was unsuccessful. This year we proposed raising taxes primarily on non residents. We are not asking you to raise taxes, just please let the people decide by voting on a constitutional amendment by passing this proposal.

Until this state finds a significant increase in a dedicated educational funding stream you will continue to start the school year with more than 1,600 vacancies, hoping enough high school graduates can fill the positions. The teaching profession is a career not a second job. If this state offered competitive salaries, teachers would be coming in droves from the mainland and better yet more of our own members in our community would have the desire to become a teacher.

I never gave up hope. Teachers educate all other professions. The economy suffers when we do not offer a quality public education to every child. All I ask is if you vote against this proposed funding mechanism, that you will come up with a better way to add 500 million more dollars annually, for education, so that this state can one day offer a quality public education, an education the keiki deserve.

Mahalo for your consideration.
Justin Hughey
2nd Grade Special Education Teacher
HSTA Vice President

Testimony for: House Education Committee
HB180 and HB182 - RELATING TO EDUCATION
Hearing on Friday, February 3, 2017
2 p.m.

Chair Takumi and Members of the Committee:

I am Laura Proctor, a teacher at Pauoa Elementary School and Oahu. I have been a teacher in Hawai'i for 5 years, at 3 different schools. Please pass HB180 and HB182 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because when teachers are absent, substitute teachers are unavailable. Schools cannot afford enough subs to cover every class. In my experience, office staff and administration need to fill in for teachers. While teachers have the right to take the days off, they feel instantly guilty because they know the students are not getting as quality an education as they would if their regular teacher was there. Students are not learning sciences and social studies in the elementary school level from what I have noticed in my past 5 years teacher. This is due to lack of time given to plan with the grade level. Students do not get the quality education they deserve and will therefore suffer when they get to middle and high school because they have no background knowledge on the subjects. In order for teachers to have collaboration time, they need to take time out of their own lives (either before eight a.m. or after three-fifteen p.m.) to plan. Teachers do not get paid enough for this, yet many teachers including myself donate their time outside of work hours to furthering our students education. IEP meetings, BSP/FBA meetings, and parent conferences all take up time outside of work hours.

With the high cost of living in Hawai'i, it is very difficult to stay on our salary. I am currently filling out my separation of service

form because I am moving back to New York to teach at the end of this school year due to the inability to save money. The cost of rent and loans I owe to my college education masters degree are outrageous and my salary just doesn't allow me to pay both. Special education teachers are especially at a disadvantage because the work is so exhausting and patience-demanding. I am getting burnt out of teaching special education because of the lack of resources for educational assistants (EA) and behavior intervention support specialists (BISS). Students suffer as a result because I am too busy working with certain students (mostly those who are behavior problems or very low academically) to pay attention to others.

These problems have been the same at all three schools I have worked at over the span of five years. The DOE system makes it increasingly difficult for teachers to move to another school or to stay at the school we are at. I have moved schools three times because I have always been a displaced teacher. Although the special education positions have usually been returned to the school, it is too late and I have already been placed elsewhere. It is unfair to us because we need to form new relationships with fellow colleagues to collaborate more effectively. Also, I have always taught two to four grade levels at once (currently kindergarten through third grade) which is unfair to the students. While I do differentiate instruction to the best of my ability, students lose out on material because I am busy reading at a certain level for one child than another. Schools need funding to hire more special educators so class sizes do not get out of control. Seventeen special education students at one time is unacceptable.

In conclusion, funding is necessary for public schools in Hawai'i to succeed. We need substitute teachers, time to prepare lessons, time for meetings, increased salary, additional resources for EA's and BISS, smaller class sizes, and the ability to teach where we please. To deliver the schools our keiki deserve, please support these bills. Mahalo.

Thank you for your time,
Laura Proctor, Pauoa Elementary School, Oahu

Regarding HB180

RELATING TO EDUCATION FUNDING.

Report Title:

Education Surcharge; Residential Investment Properties; Visitor Accommodations

Description:

Establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

I am in strong opposition to HB180.

If it was to pass, this bill will take Hawaii's affordable housing crisis and amplify it significantly.

My husband and I live in a rental property valued at approximately \$770,000 and pay \$2,400 per month in rent. We cannot afford a home and therefore are forced to rent. Under this bill, the owner of our property would be assessed additional property tax of approximately \$4,235 and would likely increase our rent to offset the additional cost. That would increase our rent by \$352.92 per month. We cannot afford this increase.

Here is a breakdown of my calculations:

Home Value	For every \$1,000 tax is assessed	# of 1,000s in Column A	Property tax per \$1000 of home value	Increase Property Tax Annual	Months	Monthly Rent Increase
\$ 770,000.00	\$ 1,000.00	770	\$ 5.50	\$ 4,235.00		
\$ 770,000.00				\$ 4,235.00	12	\$ 352.92

My husband is a Certified Public Accountant and have a degree in Finance, so I understand full well how this will affect renters like us. However, most people without a complete understanding of the bill might read the headlines or read the ballot summary of the amendment and assume "investment property owners" are wealthy non-residents, especially since it is grouped with the visitor accommodations surcharge, and not read the "fine print" or do the math and realize that it has the potential to hurt some of the very people (educators) who it is intended to help.

As a current administrator, and as a former teacher for the DOE, I agree that the conditions teachers work in and students must learn in are subpar. We need teachers to be paid a living wage before we can expect any sort of improvement in our public schools. Most of the teachers I work with and have worked with have a second or even third job to be able to make ends meet. However, I don't agree that this increase in property tax on investment properties is the way to fix the issue since many teachers, especially young teachers who are starting their careers, are renters, and this bill would hurt them tremendously. Moreover, increase would likely impact half of all renters in Hawaii, as half of properties in Hawaii rent for over \$1,500 per month and are valued at over \$500,000, the current exemption amounts.

Please vote no on this measure and don't let it even become a possibility on the ballot.

Respectfully submitted,

Cherilyn Inouye

HOUSE COMMITTEE ON JUDICIARY TUESDAY, FEBRUARY 14, 2017 2:00pm

Chair Nishimoto and Members of the Committee:

My name is Debbie Anderson. I am an educator of over a quarter century, now at Waiakea Intermediate School. Please pass HB 180 and HB 182 to increase funding for public schools.

After intense [criticism](#) that his proposed two-year, \$28.5 billion budget plan was unrealistic, Gov. David Ige submitted to a revised public school budget to lawmakers in a 26-page memorandum. More than \$21 million, mostly in per-pupil funds, has been trimmed from his proposed budget for the Department of Education. The executive budget zeroes out funding for some of the core functions of the Department of Education, including funding for Title IX and civil rights compliance and liaisons to support families of homeless students. Given the federal Administrative changes, our state needs to prepare to shoulder the local burden to ensure equitable educational opportunities, especially for our neediest populations.

Continuing to chronically underfund public schools is an unacceptable choice in our current economy. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers. Supporting these proposals will lift Hawai'i's schools into the 21st Century.

As the ONLY state in the United States not using property taxes as a funding base for education, our statewide system should be able to implement this equitable funding plan as a model for the other states. Investors who choose to own Hawaii real estate should be able to afford property taxes for education, as they would benefit both from better educated employees and hopefully a decrease in criminal activities from a less literate population. Help us end the school-to-prison pipeline and improve learning opportunities for Hawaii's keiki.

As my colleague and I promoted the Schools Our Keiki Deserve after our Kona community's "Women's March On Washington," we heard quite a few resident landowners say that they'd be willing to pay increased property taxes for education. This investment could increase their land value proportionally.

Our children are our future. When teachers instruct their students, we build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

To deliver the Schools Our Keiki Deserve, please support these bills. Mahalo.

Sincerely,

Deborah V. Anderson,
M.Ed., M.L.I.S., NBCT

Regarding HB180

RELATING TO EDUCATION
FUNDING.

Report Title:

Education Surcharge; Residential Investment Properties; Visitor Accommodations

Description:

Establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

I am in strong opposition to HB180.

If it was to pass, this bill will take Hawaii’s affordable housing crisis and amplify it significantly.

My wife and I live in a rental property valued at approximately \$770,000 and pay \$2,400 per month in rent. We cannot afford a home and therefore are forced to rent. Under this bill, the owner of our property would be assessed additional property tax of approximately \$4,235 and would likely increase our rent to offset the additional cost. That would increase our rent by \$352.92 per month. We cannot afford this increase.

Here is a breakdown of my calculations:

Home Value	For every \$1,000 tax is assessed	# of 1,000s in Column A	Property tax per \$1000 of home value	Increase Property Tax Annual	Months	Monthly Rent Increase

Sent: Saturday, February 11, 2017 7:12 PM
To: JUDtestimony
Subject: HB 180 and 182

Chair Nishimoto and Members of the Committee:

My name is Jamie Stidger, and I have been a teacher at Castle High School for 15 years.

Please pass HB 180 and HB 182 to increase funding for public schools.

Teachers here have struggled with low pay, paycuts, furloughs, etc., since before I started teaching, and we continue to have to beg for so-called "raises" every 2-4 years that do not even keep up with inflation. I clearly did not enter teaching to get rich, but I surely thought that my dedication and skills would put me in a comfortable middle-class situation. It has not.

This bill provides a SUSTAINABLE FUNDING SOURCE.

Please, support teachers. We are THE most important element in the classroom, and our keiki cannot afford the continued turn-over of teachers. Let us keep and RETAIN the best and brightest, for the sake of our keiki.

Sincerely,

Jamie Stidger

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

RE: HB 180 and HB 182 RELATING TO EDUCATION.

TUESDAY, FEBRUARY 14, 2017
2:00pm

Chair Nishimoto and Members of the Committee:

My name is Shirley Yamauchi. I am a sixteen year teacher at Kapolei Middle, Leeward Oahu. Please pass HB 180 and HB 182 to increase funding for public schools.

Kapolei Middle is the second largest middle school in the State of Hawaii, with recent enrollments as high as 1451 students, on a four track multi track calendar schedule. We are one of three multi track schools in the whole State of Hawaii, as well as Oahu. I am a green track elective wheel teacher, teaching grade seven students. My largest class last school year was 32 students, in a portable, wooden classroom. While teaching yoga during my health elective class, we had to flip the desks over, on top of each other or onto the bookshelves. There was no room for the students' shoes, when removed. All shoes had to be left outside. This became a problem when it rained, shoes left outside on the wooden walkway would then become wet.

Being an elective wheel teacher for the first time, I was given the opportunity to teach lessons outside out of the core subject areas. As exciting as this may sound, I was given only a \$150 purchase order by my school's Principal. This \$150 was to last me for four school quarters. I went to my department head, requesting more funds. I was turned down. The purchase order that I was given would come out to \$37.50 per school quarter. After being an English language arts teacher for thirteen years, I moved into a bare portable classroom, not even a set of textbooks was available. I spoke with a curriculum coordinator from a nearby school in the Leeward district, and she agreed that a \$150 purchase order would not buy me a set of textbooks. Through parent, student, and community donations, I was able to pull together my first quarter health elective wheel class, as mentioned in the previous paragraph. Second semester, I was able to order free economic workbooks for all of my students online as well as earn the 2016 **ECONOMICS TEACHER OF THE YEAR AWARD, For Excellence in Economic Education.**

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

To deliver the schools our keiki deserve, please support these bills. Mahalo.

TESTIMONY BEFORE THE HOUSE JUDICIARY COMMITTEE

February 14, 2017

RE: HB 180 & HB 182: RELATED TO EDUCATION FUNDING

Aloha Chair Nishimoto and Committee Members:

Despite aggressive recruitment efforts on the continent, the teacher shortfall in the Hawaii public school system emerges in more vicious manifestations each year. Our tragically shortsighted response is to fill otherwise teacher-less classrooms with emergency hires, or “pretend teachers,” as Corey Rosenlee has called them. These hires have bachelor’s degrees, and have not completed or even necessarily started a teacher certification program. Increasing difficulties with recruitment and retention stem fundamentally from relatively low salaries received by Hawai‘i public school teachers.

In 2016, Hawai‘i was fifty-first or last in the nation as the “worst state” for teachers based on a number of factors, including average starting salary for teachers adjusted for cost of living, in which Hawai‘i ranked last (Wallethub). Hawai‘i also had the lowest median annual salary for teachers, again adjusted for cost of living. This is the worst state in the country for teachers – and this translates into desperate learning conditions for our students, as the schools are characterized by a highly destabilized teaching workforce, the majority of which must work a second and often a third job simply to survive.

This consequences of our collective failure to address this problem are borne by our children, especially who already struggle to find ‘equal opportunity.’ A recent study by Professor Jonathan Okamura, entitled “Unequal Opportunity,” lays out how chronic inadequate funding of the public schools especially disadvantages our “majority clientele of minority students,” by which he means our Native Hawaiian, Filipino and Pacific Islander students.

Underfunding of public education, particularly in terms of low teacher salaries, not only reflects some troubling implications of this state’s racial history but also bodes ill for any realization of increased ‘equal opportunity’ through public education. Public education is supposed to play a key role in the opportunity for social mobility for ethnic minorities. But the tens of thousands of students who are not being provided with an education because they lack a qualified teacher in their classroom, or who suffer from highly unstable learning environments with high faculty turnover every year, consist primarily of Native Hawaiian, Filipino and Pacific Islander students who are living in or close to poverty in Hawaii.

Legal cases concerning the financing of public education have emerged recently in Kansas, New Mexico, Pennsylvania, South Carolina and Washington. In September 2016, for example, a Connecticut Superior Court judge ruled that the state was “defaulting on its constitutional duty” to give all children a fair opportunity for an

elementary and secondary school education. Across the country, the starvation of our public education system is rejected as the normal state of affairs. Parents and their children in Hawai'i, led by the state Board of Education and the teachers' union, should likewise insist that legislators provide our young people in Hawaii with equal educational opportunity, which begins with adequate funding and decent salaries for teachers.

If we are really interested in 'equal opportunity,' we should not be focusing on outcomes, or test scores, which studies have shown primarily capture differences in students' socio-economic status. We should be keenly focused on measuring our supports for those students with the highest needs. One critical support is a qualified, committed and experienced teacher. If that was a clear objective in the state's accountability system, principals would not be forced to hire short-term, uncommitted people who simply contribute to the instability of the public schools, and there would be more concerted attention to the dire teacher recruitment and retention crisis. Please consider how we can devise an accountability system that actually enables us to address some of the systemic problems facing our education system.

Very truly yours,

Amy Perruso
Mililani High School

February 12, 2017

Representative Scott Y. Nishimoto, Chair
Representative Joy A. San Buenaventura, Vice Chair
Committee Members
House Committee on Judiciary

From: Kinsley Fujitani,
Honolulu, Hawaii

RE: HB 180 and HB 182 Relating to Public Education Funding

Hearing Scheduled: Tuesday, February 14, 2017, at 2:00PM

Chair Nishimoto, Vice Chair Joy A. Buenaventura, and Members of the Committee.

My name is Kinsley Fujitani, a retiree and, also, a landlord on Oahu for over 43 years. I fully support providing our public schools with the funding they need to provide a quality education for our children; however, I oppose House Bills 180 and 182 for the following reasons..

1. As a landlord, I have seen first hand the challenges many Hawaii families face in attempting to find affordable rental housing. There is simply not enough affordable housing. Even when housing is available for rent, there are often multiple applicants. As a child, I experienced what it is like to face economic challenges so I can empathize with renters and have maintained rents on the lower end of the rental market. I have been able to keep rents low by doing most of the repairs, maintenance and improvements myself. I also act as my own rental agent. The proposed property tax surcharge is of such significant magnitude; however, that if it becomes law, it will leave me little choice but to sadly pass most of the approximately \$400 per month additional property tax surcharge cost on to tenants in the form of rent increases. I believe other landlords or rental agents will do the same, resulting in greater hardship for renters.

2. If successful, the above legislation will be especially bad for renters of properties assessed at one million dollars or more. Renters of these properties could be forced to pay at least \$750 per month more than they pay today. The City and County of Honolulu classifies rental properties as Residential A properties. They are taxed at the ordinary rate of \$3.50 per \$1,000 of assessed value, but upon reaching one million dollars valuation, the tax rate increases to \$6.00 per \$1,000 of assessed value.

Under House Bills 180 and 182, the proposed \$6.50 surcharge for rental properties valued at one million dollars will result in a total tax rate of \$12.50 (\$6.00 + \$6.50) per \$1,000 of valuation. This means an increase of property taxes from \$3,500 today to \$12,500 once the property becomes assessed at one million dollars.

This \$9000 annual increase equals \$750 per month that likely will be passed on to the renter in whole or in part. We cannot discount all of these properties as "high end" properties, either. Many are aging properties that require higher maintenance costs. They just happen to be located in highly desirable areas of Oahu and their values are just swept along with the overall record breaking increases in property values caused in part by so called "speculators". They provide housing for working people and their families who already face many challenges with Hawaii's high cost of living and the pending legislation could place them in a very precarious financial position.

3. House Bills 180 and 182 is not the best way to raise additional funds for education. As our leaders, I encourage you to look at all sides of the issue concerning these bills. There is no easy answer but there are "too easy" answers that we need to guard against. These bills place an unnecessary burden on renters and, also, on landlords who can only pass on only a portion of the property tax increase to their tenants.

Instead of singling out landlords and renters, all stakeholders in our community should contribute so that the load will be lighter for everyone. If a property tax surcharge is the only answer, then ALL properties should be subject to the tax. Don't use the shotgun approach by placing landlords in the same group as "speculators." Landlords like myself don't like what "speculators" are doing, either. If a small increase in our general excise tax is the only way, then so be it. It may not be politically expedient, but it would achieve the same results with less negative impact for renters. Another way of raising funds for education is for the State to get serious and make a commitment to collecting taxes owed on Internet transactions, collecting the TAT and Excise taxes owed by illegal vacation rentals and earmarking the revenues collected to our public schools. Go after people who are not paying their share, not those who already pay.

4. A citizen vote on an issue such as this can have a divisive impact on groups within our community. We should not ask people to vote on an Amendment to the Constitution that could cause hardship for others. Also, renters with children in public schools will need to decide between the prospects of a better educational for their children and increased rents for housing. It is simply not right to ask them to make such a decision. Our elected leaders need to find a better way.

6. If successful, House Bills 180 and 182 sets a bad precedence as other employee organizations use the same approach for their members and programs.

For the above reasons, I respectfully ask this committee to vote no or to defer action on House Bills 180 and 182. Mahalo for the opportunity to submit written testimony against this pending legislation.

Comments: Dear Judiciary committee, There is no reason that the State of Hawaii has not adequately budgeted for our public school students. Students should not have substitutes as teachers for an entire school year (many subs are not certified teachers), students and teachers should not be learning in buildings that are unsafe. Public school students need access to technology. The measure is a bill that creates sustainable (continual) funding. Since we are one of the only states that does not use property tax to fund our public schools, we have to come up with possible solutions.

Chair Nishimoto and Members of the Committee:

I am Catherine Caine and I teach at Waikiki School. I have been a teacher for over 26 years and as you can imagine I have seen many contracts come and go. Please pass HB 180 and HB 182 to increase funding for public schools.

Please note that there is research that connects public school spending directly to the health of the states' economy. Truly, every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals has the potential to move us to a world-class economy and our schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we need to retain teachers. The cycle of recruiting teachers from the mainland and having them leave within the five years is probably costing more than any pay raise. As we hire new teachers we invest in their professional development and if they leave, which they may, due to our very expensive economy, they take the expertise we paid for with them. It is the worst kind of brain drain cycle.

Sincerely,

Catherine Caine

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

LATE

RE: HB 180 and HB 182 RELATING TO EDUCATION.

TUESDAY, FEBRUARY 14, 2017

2:00 p.m.

Chair Nishimoto and Members of the Committee:

I am Marybeth Baldwin at University Laboratory School, a Charter School in Honolulu. I have been a teacher for 15 years. Please pass HB 180 and HB 182 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

In addition to being a teacher, I am also a parent. My first child will begin Kindergarten at Hahaione School in August. I've always felt strongly that our state needs to better fund our schools and teachers. Now that my own child will be entering the system, while I intend to do my part to contribute to the school and my son's education, I hope the state will do its part to support my child since I know my child, as well as all my students, will positively contribute to our state when their time comes.

To deliver the schools our keiki deserve, please support these bills. Mahalo.

Written Statement of:
Rodrigo F.V. Romo, Private Citizen

LATE

Before the:
Committee on Judiciary
February 14th, 2017
14:00
State Capitol, Room 325

In Support of:
HB180-HD1 Relating to Education Funding.

Dear Members of the Committee:

I am writing to express strong support for this Bill. Education is by far, the most important aspect of our society in which we must invest. Having a properly funded education is crucial for the success not only of our State, but our Country.

Teachers deserve to receive not only the proper compensation that their critical jobs require, but also the support they need in order to properly perform their job.

My wife is a Middle School Science Teacher for a small school on the Hamakua Coast on the Big Island. Because of limited resources, she teaches 6th, 7th and 8th grade. Her school does not have the budget to adequately fund her science classroom, so she ends spending upward of \$800 - \$1,000 out of pocket every year to provide supplies, of which only \$250 can be deducted from our taxes. Teaching seems to be the only job in which the employees have to pay out of pocket to provide the adequate supplies to perform their tasks.

It is time "We The People" recognize the importance and the value that our Teachers have towards the future of our country, and I strongly ask for your support of this Bill.

Mahalo nui,

Rodrigo Romo

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

RE: HB 180 and HB 182 RELATING TO EDUCATION

TUESDAY, FEBRUARY 14, 2017
2:00 p.m.

LATE

Chair Nishimoto and Members of the Committee:

I am Desiré De Soto, a counselor and teacher for 20 years at Wai'anae High School. Please pass HB 180 and HB 182 to increase funding for public schools.

A quality education brings hope to hopeless and can be the great equalizer in empowering those less fortunate. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century and better prepare our keiki to thrive in that market. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because I have witnessed a mass exodus of great teachers from the profession. Meanwhile, there is a large influx of unqualified emergency hires being recruited to fill vacancies. Furthermore, universities are reporting significant decreases in students with a desire to become a teacher. The profession is experiencing a teacher shortage crisis and Hawai'i must make attracting the BEST and BRIGHTEST teachers a priority. A salary commiserate to the cost of living in Hawai'i would be a move in the right direction to recruit and retain the most qualified teachers for our keiki.

To deliver the schools our children deserve, please support these bills. Mahalo.

Desiré DeSoto, MSCP, Wai'anae High School

Lawrence Denis III	Individual	Support	No

Comments: My name is Lawrence Denis and I am a teacher at Waikoloa Elementary School. I have been a teacher for 13 years. Please pass HB 180 and HB 182 to increase funding for public schools. We desperately need more funds to give our students the education they deserve. On Monday, February 13, 2017 - you saw how powerful teachers can be when we stand united. About 6,000 of our teachers showed up at the State Capitol. We can do anything when we put our minds together, so I ask you for your support so together we can give our keiki the schools they deserve.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON JUDICIARY

RE: HB 180 and HB 182 RELATING TO EDUCATION.

TUESDAY, FEBRUARY 14, 2017
2:00 p.m.

Chair Nishimoto and Members of the Committee:

I am Roberta Yamamoto at Castle High School. I have been a teacher for 26 years. Please pass HB 180 and HB 182 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawaii's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because...we cannot depend on the state budget to be the sole source of funding for education. We need to generate another means of revenue to ensure we have enough money to staff and maintain our public schools. We have students in our school who have had different substitute teachers all year long. We've had teachers who quit after two-three months because they can't afford to pay rent anymore. What is heart-breaking to me is to see how devastating it is for these teachers to make the decision to quit. It's not just because they have to leave Hawaii, but because they have to leave their students.

To deliver the schools our keiki deserve, please support these bills. Mahalo.

RE: HB 180 and HB 182 RELATING TO EDUCATION.

TUESDAY, FEBRUARY 14, 22:00 p.m.

Chair Nishimoto and Members of the Committee:

I am Jennie Yee, teacher at Castle High School for the past 10 years. Please pass HB 180 and HB 182 to give voters a voice in providing sorely needed funds for our public school system.

Members of the public need a chance to show support for their public education system, one that has been historically under-funded in recent times.

Thank you for your kind consideration in favor of these bills.

Jennie Yee

JUDtestimony

From: Stephen Majzun <smajzun@gmail.com>
Sent: Tuesday, February 14, 2017 12:05 AM
To: sanbuenaventura2 - Allison
Subject: Oppose HB180

Aloha Chair Nishimoto, Vice Chair San Buenaventura and Committee Members:

My name is Stephen Majzun and I am a Social Studies Teacher at Kaimuki Middle School and I am writing to oppose HB180.

While I fully support increased funding for public schools, I am concerned that the surcharge on landlords will simply be passed on to renters in the form of a rent increase. This would negatively impact many teachers and school personnel who cannot afford to purchase a home and are currently renting.

I am one of those renters who happens to be a teacher who would be adversely impacted by the rental increase. And it would not only impact teachers and school staff, but every other long term renter in Hawai'i. While I love living in Hawai'i, the rising costs and stagnant teacher salaries are conspiring to maximize the teacher shortage. Please find a solution that works for all of Hawai'i.

Mahalo for your consideration,
Steve Majzun
