A BILL FOR AN ACT

RELATING TO THE MINIMUM WAGE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that Hawaii has one of the highest costs of living in the nation. Despite rising prices and rising normal wages for workers, the federal minimum wage has remained unchanged since 2009. Act 82, Session Laws of Hawaii 2014, raised the minimum wage well above the federal minimum wage of seven dollars and twenty-five cents per hour. The current minimum wage of ten dollars and ten cents per hour is the last scheduled increase contemplated by Act 82.

The legislature finds that the wage distribution gap between the bottom and the middle categories of wage-earners is widening. The minimum wage should rise annually to keep up with the rising cost of living and be indexed to a reliable source. Indexing the minimum wage to the median wage links it to overall conditions in the labor market rather than to the general level of prices or inflation. Indexing the minimum wage to the median wage will ensure that the minimum wage keeps pace with the typical worker's wage.
The purpose of this Act is to increase the minimum wage to fifteen dollars per hour by 2022 and index future annual increases to the median wage for all occupations in the State.

SECTION 2. Section 387-2, Hawaii Revised Statutes, is amended to read as follows:

"§387-2 Minimum wages. (a) Except as provided in section 387-9 and this section, every employer shall pay to each employee employed by the employer, wages at the rate of not less than:

(b) [The hourly wage of a tipped employee may be deemed to be increased on account of tips if the employee is paid not less than:

1. 25 cents;
2. 50 cents per hour beginning January 1, 2015; and

below the applicable minimum wage by the employee's employer and the combined amount the employee receives from the employee's employer and in tips is at least 50 cents more than the applicable minimum wage, provided that beginning January 1, 2015, the combined amount the employee receives from the employee's employer and in tips is at least $7.00 more than the applicable minimum wage.]

An employer may reduce or credit an employee's wages on account of tips of a service employee; provided that:
(1) The combined amount the employee receives from the
employer and in tips is at least $5.00 per hour more
than the applicable minimum wage; and

(2) The tipped employee customarily and regularly receives
more than $20.00 per month in tips.

The credit shall be 50 cents per hour for every dollar above the
sum of the applicable minimum wage plus $5.00 per hour in tips.

(c) Every employer that elects to use the tip credit
pursuant to subsection (b) shall inform the employee beforehand
with relevant documentation."

and stricken. New statutory material is underscored.
