A BILL FOR AN ACT

RELATING TO PEDESTRIAN SAFETY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. In 2018, more pedestrians than occupants in
motor vehicles were killed in motor-vehicle incidents in Hawaii-
something that has not occurred in at least fifteen years. Last
year, forty-three pedestrians and thirty-eight occupants of
motor vehicles died in collisions statewide, according to
preliminary figures from the department of transportation. In
2017, by contrast, fifteen pedestrians and sixty occupants of
motor vehicles died in motor-vehicle incidents in the State.

The legislature finds that teaching children from a very
eyear age about the importance of pedestrian safety will help to
reduce the number of pedestrian fatalities. Thus, the purpose
of this Act is to require each public-school student to attend a
pedestrian-safety course annually.

SECTION 2. Chapter 302A, Hawaii Revised Statutes, is
amended by adding a new section to part II to be appropriately
designated and to read as follows:
"§302A— Pedestrian-safety course. (a) The department of education shall require each student in public school from kindergarten through grade twelve to attend a pedestrian-safety course annually.

(b) Each pedestrian-safety course shall last a minimum of one hour."

SECTION 3. New statutory material is underscored.

SECTION 4. This Act shall take effect upon its approval.
