A BILL FOR AN ACT

RELATING TO DELAY IN PRIOR APPROVAL FOR MEDICAL SERVICES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. Prior approval for medical services, also known
as precertification or preauthorization, refers to health
insurer requirements that certain physician-ordered treatments
or services must be approved in advance by the insurer or by a
medical review service contracted by the insurer before the
insurer will provide final reimbursement or payment. The
process of obtaining preauthorization for medical services may
hamper the ability of health care providers to provide the
necessary treatments to their patients and may also be one of
the factors in the shortage of doctors in the State.

The legislature finds that it is in the best interest of
the State to ensure that preauthorization requirements do not
negatively impact the health of Hawaii residents.

The purpose of this Act is to exempt health care providers
from civil liability in the case of the provider's patient
receiving any injury or worsening of a health condition while
awaiting preauthorization for medical services or treatment.
SECTION 2. Chapter 671, Hawaii Revised Statutes, is amended by adding a new section to part I to be appropriately designated and to read as follows:

"§671- Preauthorization; civil liability; exemption.
Notwithstanding any provision of the law to the contrary, a licensed healthcare provider shall not be subject to any civil liability for any injury to or for the exacerbation or worsening of a health condition of a patient under the provider's care while obtaining authorization from an insurer to provide medical services or treatment for that patient."

SECTION 3. New statutory material is underscored.

SECTION 4. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

SECTION 5. This Act shall take effect upon its approval.
