January 9, 2019

The Honorable Ronald D. Kouchi  
President and Members of the Senate  
Thirtieth State Legislature  
State Capitol, Room 409  
Honolulu, Hawaii 96813

The Honorable Scott K. Saiki, Speaker  
and Members of the House of Representatives  
Thirtieth State Legislature  
State Capitol, Room 431  
Honolulu, Hawaii 96813

Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

For your information and consideration, I am transmitting a copy of the annual report on the State’s public charter schools as required by Section 302D-21, Hawaii Revised Statutes. In accordance with Section 93-16, Hawaii Revised Statutes, I am also informing you that the report may be viewed electronically at:  
http://boe.hawaii.gov/policies/Pages/Reports.aspx.

Sincerely,

Catherine Payne  
Chairperson

Enclosures
LEGISLATIVE REPORT

SUBJECT: Requesting the Board of Education (the “Board”) provide the Governor, Legislature and the public an annual report on the State’s public charter schools, drawing from the annual reports submitted by every authorizer as well as any additional relevant data compiled by the Board, for the school year ending in 2018. The annual report shall include:

(1) The Board’s assessment of the successes, challenges, and areas for improvement in meeting the purposes of Hawaii Revised Statutes (“HRS”) Chapter 302D, including the Board’s assessment of the sufficiency of funding for public charter schools, and any suggested changes in state law or policy necessary to strengthen the State’s public charter schools;

(2) A line-item breakdown of all federal funds received by the Department of Education (the “Department”) and distributed to authorizers;

(3) Any concerns regarding equity and recommendations to improve access to and distribution of federal funds to public charter schools;

(4) A summary of the criteria used by the charter school facilities funding working group, established pursuant to HRS §302D-29.5, in allocating facilities funding;

(5) A detailed breakdown of the allocation of funding through general funds and bond funds;

(6) A detailed list of the projects funded by general funds and bond funds;

(7) The status of funding for projects previously awarded; and

(8) A discussion of all Board policies adopted in the previous year, including a detailed explanation as to whether each policy is or is not applicable to charter schools.

REFERENCE: HRS §302D-21

ACTION REQUESTED: Report to the 2019 Legislature.

DOE REPORT: This is the seventh annual report provided by the Board pursuant to Act 130, Session Laws of Hawaii (“SLH”) 2012, codified as HRS Chapter 302D and subsequently amended. The goal of Act 130, SLH 2012, was to strengthen the Hawaii charter school governance structure by establishing clear lines of authority that ensures accountability of the charter school system. A key aspect of HRS Chapter 302D is increased oversight and accountability of charter schools. Measures related to
academic performance, financial performance and sustainability, and operational viability are a focus of the law.

The annual report required by HRS §302D-21 is designed to meaningfully assess and support the provisions of the law. Since the first report in 2012, each subsequent report has built upon previous years’ reports. These annual reports have provided information on the status of the charter schools, the implementation of accountability measures needed to fulfill the purposes of the law, and the status of charter school facilities funding and the implementation of Act 234, SLH 2015.1 Last year’s report included more information on the Board’s efforts to implement charter school law and improve the charter school system. This year’s report builds on last year’s report.

FINDINGS

(1) The Board’s assessment of the successes, challenges, and areas for improvement in meeting the purposes of this chapter, including the Board’s assessment of the sufficiency of funding for public charter schools, and any suggested changes in state law or policy necessary to strengthen the State’s public charter schools.

SUCCESSES

Addressing special review deficiencies. As explained in last year’s report, the Board conducted a special review of the State Public Charter School Commission (the “Commission”) and issued a report on February 21, 2017, which found several deficiencies in the Commission’s ability to meet statutory requirements and national standards for quality charter authorizing.2 As required by the Board, the Commission, through its report from last year, provided corrective action plans to address deficiencies relating to strategic vision and organizational goals, operational conflicts of interest, and self-evaluation of capacity, infrastructure, and practices.3 The Board also required the Commission to report quarterly on, as well as include in the Commission’s annual report, the corrective actions taken to address the deficiencies found in the special review report until the Board determines sufficient progress. Since delivering its last annual report to the Board in 2017, the Commission has provided quarterly reports to the Board on March 1 and June 7, 2018. The

---

1 Act 234, SLH 2015, section 1 states that the purpose of the Act is “to provide: (1) A framework for providing facilities funding and support for public charter school facilities with adequate prioritization, oversight, and accountability; and (2) Public charter schools and early learning programs that are affiliated with a public charter school with the opportunity to secure the use of additional state facilities deemed vacant and appropriate for use.”

Commission also included in its report this year some of its corrective actions to date. A separate memorandum to the Board reports the rest of its corrective actions. The Board is pleased with the Commission’s work to address previously identified deficiencies, and the Board has determined that the Commission has made sufficient progress and is no longer required to report on corrective actions.

Improving communication and relationships. As reported last year, in addition to the required outcomes of the special review, the Board requested that the Commission provide a plan to the Board for improving communication and relationships with the charter schools. Although the Commission did not include a plan specifically to improve communication and relationships with the charter schools in its report last year, the Commission prioritized increasing direct communication with governing boards and participating in governing board meetings for the 2017-2018 school year. While the Commission did not include information about how it has been engaging directly with governing boards in its report this year, the Commission informed the Board that it changed its intervention protocol, which it uses to notify schools about performance or compliance concerns and provide reasonable opportunity to remedy such problems. The Commission changed the intervention protocol to directly notify the governing board of concerns and require an action plan approved by the governing board. The Commission also informed the Board that Commission staff attended governing board meetings to present on its performance frameworks.

School-specific measures and value-added measures. As reported last year, in addition to the required outcomes of the special review, the Board requested that the Commission provide a plan to the Board for reducing the time and resources spent by charter schools in selecting and developing acceptable school-specific measures. Last year the Commission reported that it discontinued school-specific measures as of June 30, 2016 in favor of value-added measures, which it described as mission-aligned measures co-created by charter schools and Commission staff, effective beginning in school year 2017-2018. The Commission’s report this year further explains that a key difference between the two types of measures is that school-specific measures were optional whereas value-added measures are required and counted in the academic performance for all charter schools.

---

5 For the complete list of the Commission’s corrective actions, see the memorandum from Sione Thompson, dated November 27, 2018, available here: http://boe.hawaii.gov/Meetings/Notices/Meeting%20Material%20Library/GBM_12062018_Action%20on%20Commission%20reporting%202017%20special%20review.pdf.
7 Commission 2017-2018 annual report, pages 32-34.
Charter school performance. As noted in previous years’ reports, the Commission’s report contains information on the cumulative and individual academic, organizational, and financial performance of all charter schools, including a comparison of the performance of charter school students with all public school students.8

Sufficiency of funding. For the 2017-2018 fiscal year, the Commission assessed the financial performance of charter schools with a financial performance framework that examines the potential risk of fiscal insolvency. Based on the results of this new financial performance framework, only three charter schools out of the 33 assessed received risk ratings lower than “acceptable,” illustrating that the majority of charter schools remain fiscally sound.9 The results also suggests that the financial status of charter schools, as a group, continues to be relatively stable. However, as described below, facilities funding continues to be an ongoing challenge.

CHALLENGES

Facilities funding. As noted in previous reports, a major and ongoing challenge is the lack of funding for charter school facilities. Act 234, SLH 2015, took a step toward addressing this perennial problem. This report addresses the reporting requirements of Act 234, but the Legislature has not appropriated general funds or authorized bonds for charter school facilities to date. In addition, the Charter School Facilities Funding Working Group, established pursuant to HRS §302D-29.5, has not met since June 2017 nor has the Commission adopted finalized criteria to determine the distribution of facilities funds, as required by law. Encouragingly, however, the Commission informed the Board that the Charter School Facilities Funding Working Group is scheduled to meet again in January 2019 to finalize recommended criteria. The Board recommends that the Legislature provide some form of facilities funding to charter schools to address this unmet need, urges the Commission to complete and adopt the facilities funding criteria, and recommends the reconvening of the Charter School Facilities Funding Working Group to create a priority list for the allocation of facilities funds.

Centralized support. As reported last year, another major challenge is the lack of a system of support for charter schools. Unlike Department schools, charter schools do not have a centralized department or agency that allows them to take advantage of economies of scale and maximize their financial resources. The Commission attempts to fill this void by providing some limited supports, but its statutory role as an authorizer conflicts with the role of a true support organization. Statute acknowledges this and restricts the level and type of support the Commission can provide. In addition, the approval of another authorizer without a non-authorizer centralized support agency would add

complexity to the charter school system and expose it to potential conflicts of interests, fairness and equity issues, and unnecessary inefficiencies. The Board’s Student Achievement Committee tasked the Board’s staff with researching solutions to this issue. Until Board staff complete their research, the Board does not have a specific recommendation, but it urges the Legislature to consider changing statute to include some kind of centralized support for charter schools.

AREAS FOR IMPROVEMENT

Charter school purpose policy. As reported last year, in addition to the required outcomes of the special review, the Board requested that the Commission work with the charter school community to develop a purpose of charter schools and propose a Board policy codifying the purpose. At the Board’s March 1, 2018 general business meeting, Sione Thompson, the Executive Director of the Commission, requested that the Board provide guidance regarding the development of a Board policy on the purpose of charter schools. In response, then-Board Chairperson Lance Mizumoto directed Board staff to work with and provide support and guidance to the Commission as to the development of the Board policy and to coordinate efforts with the Superintendent and the Department. Board staff developed and released a survey on April 27, 2018, left it open through May 18, 2018, and received 2,639 responses from various education community members.

As of this writing, a panel of education policy and data experts are reviewing the data analysis, findings, and policy proposal. After this review, the Board Chairperson will send the analysis and policy proposal to the Commission for review. The Commission will then consider the Board Chairperson’s proposal and make a recommendation for a Board policy to the full Board. The Board hopes to receive a recommendation from the Commission before the end of the 2018-2019 school year.

Implementation of multiple charter school authorizer system. Last year’s report noted that the Board still had several tasks to complete to implement Chapter 8-515, Hawaii Administrative Rules (“HAR”), entitled “Establishment and Oversight of Charter School Authorizers,” and Chapter 8-517, HAR, entitled “Charter Contract Transfers.” The outstanding tasks included developing an application and process for eligible entities to apply to become authorizers and an authorizer performance evaluation system. Unfortunately, the Board has not made much progress on the development the key documents due to other Board priorities taking precedent. However, the Board’s Student Achievement Committee released a request for information in April 2018 to gauge which parties are interested in becoming new charter school

10 More information about how the centralized support issue relates to a multiple charter school authorizer system is contained in Student Achievement Committee Chairperson Margaret Cox’s memorandum dated April 5, 2018 here: http://boe.hawaii.gov/Meetings/Notices/Meeting%20Material%20Library/SAC_20180405_Action%20on%20charter%20school%20support%20structure.pdf.
authorizers. Five interested parties, three nonprofit organizations and two postsecondary institutions, submitted responses to the request for information. In addition, both the charter school purpose policy and centralized charter school support initiatives are necessary to create a charter school system that supports multiple authorizers. The Board hopes to report more progress next year.

(2) A line-item breakdown of all federal funds received by the Department and distributed to authorizers.

Please see attached, Exhibit A.

(3) Any concerns regarding equity and recommendations to improve access to and distribution of federal funds to public charter schools.

Previous reports from the Commission noted a perceived lack of transparency regarding the availability of certain federal funds, including those used for special education, and a Department-Commission-charter school working group had been updating informational guidance and resources on special education in charter schools. Last year the Commission reported that it anticipated the guidelines for the delivery of special education to be in place no later than the start of the 2018-2019 school year.11 The report from the Commission this year does not discuss these guidelines, but the Commission informed the Board that it is waiting on the Department of Education and Department of the Attorney General to finalize the guidelines. The Board looks forward to an update on the guidelines next year.

Last year, the Commission reported that would “develop communication and information strategies in collaboration with charter schools, the [Department], and other stakeholders to answer and/or clarify issues surrounding resource allocation, support systems, and programs.”12 In its report this year, the Commission notes that it continues to work with various state agencies and stakeholders to “increase efficiency in the release and distribution of funds to charter schools,” particularly in the federal Title I program.13 The Commission further notes that it will “work with charter schools and affected stakeholders on alternative methodologies for fund allocation and distribution” as it achieves “gains in efficiency.” The Board will review the details of the Commission’s efforts and results next year and again requests that the Commission provide recommendations to improve access and distribution of federal funds to charter schools.

(4) A summary of the criteria used by the charter school facilities funding working group, established pursuant to HRS §302D-29.5, in allocating facilities funding.

---

As noted above, the Commission has not yet developed criteria to allocate facilities funding, and the Charter School Facilities Funding Working Group has not met since the Commission’s last annual report.

(5) A detailed breakdown of the allocation of funding through general funds and bond funds.

The Legislature has not yet appropriated general funds or issued bond authorization to charter schools for facilities.

(6) A detailed list of the projects funded by general funds and bond funds.

There are currently no charter school facilities projects being funded by general funds or bond funds.

(7) The status of funding for projects previously awarded.

No charter school facilities projects have been awarded general funds or bond funds.

(8) A discussion of all board policies adopted in the previous year, including a detailed explanation as to whether each policy is or is not applicable to charter schools.

As it has done in past reports, the Board is again providing a full list of all current policies, attached as Exhibit B, indicating whether each policy is applicable to charter schools.

The only policy changes that occurred since the Board’s last report were amendments to Board Policy 301-2, entitled “Creating Communities of Learners,” which does not apply to charter schools.

**FUTURE ACTIONS**

The Commission has adequately addressed deficiencies from the Board’s special review, and the Board believes that the Commission is implementing a strong accountability system. The Board is also encouraged by the steps the Commission has taken to improve communication and relationships with the charter schools. However, the Board would like to see more progress on the criteria to determine the distribution of facilities funds. The Board would also like the Commission to continue collaborating with the Board on development of the Board policy on the purpose of charter schools and finding solutions to the centralized support issue. The Board will continue to develop the other pieces of the multiple authorizer system. Finally, yet importantly, the Board encourages the Legislature to provide facilities funding to address the issue of long-term financial stability and equity, which has been a clear issue in all of these reports, and to consider other supports for charter schools, especially some kind of centralized support system or structure.
## Exhibit A – Summary of FY2017-18 Federal Fund Allocations to Charter Schools
