RE: Financial Audit of the State Parking Revolving Fund

Dear President Kouchi and Speaker Saiki:

The financial audit of the State Parking Revolving Fund for the fiscal year ended June 30, 2018, was issued on February 15, 2019. The Office of the Auditor retained KPMG LLP to perform the financial audit. For your information, we are attaching a copy of the two-page Auditor’s Summary of the financial audit report.

You may view the financial audit and Auditor’s Summary on our website at:

http://files.hawaii.gov/auditor/Reports/2018_Audit/Parking2018.pdf; and

If you have any questions about the report, please contact me.

Very truly yours,

Leslie H. Kondo
State Auditor

Auditor’s Summary
Financial Audit of the Department of Accounting and General Services, State Parking Revolving Fund
Financial Statements, Fiscal Year Ended June 30, 2018

THE PRIMARY PURPOSE of the audit was to form an opinion on the fairness of the presentation of the financial statements for the Department of Accounting and General Services, State Parking Revolving Fund, as of and for the fiscal year ended June 30, 2018. The audit was conducted by KPMG LLP.

About the Fund
THE STATE PARKING Revolving Fund was established by Act 161, Session Laws of Hawai’i 1963 (codified as Section 107–11, Hawai’i Revised Statutes). The fund is responsible for the assessment and collection of reasonable parking fees, installation of parking meters, and the restriction and control of parking on all State lands within the State Comptroller’s jurisdiction. All fees, charges, and other revenue collected are deposited into this fund. Moneys are expended, as necessary, to defray the cost of paving parking areas as well as the purchase and installation of parking meters on State lands within the State Comptroller’s jurisdiction.

Financial Highlights
FOR THE FISCAL YEAR ended June 30, 2018, the fund reported total revenues of $3.8 million and total expenses of $5.1 million, resulting in a decrease in net position of $1.3 million. Total revenues consisted of parking assessments of $2.6 million, parking meter collections of $1 million, and traffic fines and other income of $200,000. Total expenses consisted of depreciation of $500,000, personnel services of $1.9 million, repairs and maintenance of $500,000, loss on disposition of capital assets of $800,000, and other expenses of $1.4 million.
As of June 30, 2018, total assets and deferred outflows of resources of $17.7 million were comprised of net capital assets of $14.7 million, cash of $2.2 million, and receivables and deferred outflows of resources of $800,000. Total liabilities and deferred inflows of resources of $6.3 million were comprised of pension liability of $2.7 million, net other postemployment benefits other than pensions of $2.8 million, and accrued and deferred inflows of resources of $800,000.

Capital assets are used to provide parking for employees, contractors with State-related business, and the public. Net capital assets of $14.7 million consist of land of $9.3 million, structures and improvements of $5.3 million, and construction in progress of $100,000.

**Auditors’ Opinion**

THE FUND RECEIVED AN UNMODIFIED OPINION that the financial statements were presented fairly, in all material respects, in accordance with generally accepted accounting principles.

**Findings**

THERE WERE NO REPORTED DEFICIENCIES in internal control over financial reporting that were considered to be material weaknesses and no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Independent Auditors’ Report

Office of the Auditor
State of Hawaii:

Report on the Financial Statements
We have audited the accompanying financial statements of the Department of Accounting and General Services, State Parking Revolving Fund, State of Hawaii (the Fund), as of and for the year ended June 30, 2018, and the related notes to the financial statements, as listed in the table of contents.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Department of Accounting and General Services, State Parking Revolving Fund, State of Hawaii, as of June 30, 2018, and the changes in its financial position and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.
Emphasis of Matters

As discussed in note 1, the financial statements present only the Fund and do not purport to, and do not, present fairly the financial position of the State of Hawaii as of June 30, 2018, the changes in its financial position, or, where applicable, its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles. Our opinion is not modified with respect to this matter.

As discussed in note 1, the State of Hawaii, including the Fund, adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions as of July 1, 2017.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management’s discussion and analysis on pages 3 through 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 15, 2019 on our consideration of the Department’s internal control over financial reporting of the Fund and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department’s internal control over financial reporting of the Fund or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Fund’s internal control over financial reporting and compliance.

Honolulu, Hawaii
February 15, 2019
This section of the annual financial report presents an analysis of the Department of Accounting and General Services, State Parking Revolving Fund, State of Hawaii’s (the Fund’s) financial performance during the fiscal year ended June 30, 2018. Please read it in conjunction with the financial statements which follow this section.

2018 Financial Highlights

- The Fund’s net position decreased by $1,857,000 or 14.02%, as compared to 2017, primarily due to increases in operating and non-operating expenses, such as supplies and professional services expenses and loss on disposition of capital assets.
- The Fund’s investment in capital assets was $14,695,000, which decreased by $1,227,000 or 7.71%, as compared to 2017, primarily due to the current year depreciation expense and disposal of capital assets.
- The Fund’s total liabilities were $6,140,000, which decreased by $63,000 or 1.02%, as compared to 2017, primarily due to a decrease in net pension liability.
- The Fund’s operating revenues decreased by $6,000 or 0.16%, as compared to 2017. The decrease is primarily due to decreases in parking meter collections and traffic fines offset by an increase in parking assessments.
- The Fund’s general operating expenses increased by $414,000 or 10.92% in 2018. The increase is primarily due to increases in other expenses, such as supplies and professional services expenses.

Required Financial Statements

The financial statements of the fund present information about the Fund as a whole and its activities and uses the accrual basis of accounting. The accrual basis which is similar to the accounting basis used by private sector companies recognizes revenues and expenses regardless of when cash is paid or received.

The Statement of Net Position provides both short-term and long-term information about the Fund’s financial position, which reflects the Fund’s economic condition at the end of the year.

The Statement of Net Position provides, over time, indicators of the Fund’s financial position. The Statement of Net Position includes all the Fund’s assets, deferred outflows of resources, liabilities and deferred inflows of resources, and provides information about the nature and the amounts of investment in resources (assets) and obligations (liabilities) of the Fund.

The Statement of Revenues, Expenses, and Changes in Net Position reflect the Fund’s current year revenues and expenses regardless of when cash is received or paid.

The Statement of Cash Flows reflects the flow of cash of the Fund in four categories or activities: operating, investing, capital and noncapital.
Tables 1 and 2 present a comparative view of net position and revenues, expenses, and changes in net position as of June 30, 2018 and 2017.

<td>12,761,000</td>
</tr>
</tbody>
</table>

Net position of the Fund decreased by $1,857,000 or 14.02% in 2018 primarily due to increases in operating and non-operating expenses of $414,000 and $796,000, respectively.

The net investment in capital assets, net of the related debt used to purchase the assets (i.e. vehicles, shop equipment, furniture and fixtures) represents a large portion of the Fund’s net position, $14,695,000 or 86.51% in 2018 and $15,922,000 or 88.13% in 2017 of total assets. Capital assets are used to provide parking for employees, contractors with state related business, and the public. The Fund’s investment in its capital assets is reported net of debt. The resources needed to repay this debt must be provided by other sources, since the capital assets, mainly the parking structures, cannot be used to liquidate the debt.
The Fund’s long-term liabilities decreased by $43,000 or 0.76% in 2018 primarily due to a decrease in net pension liability of $69,000 or 2.49%.

</tbody>
</table>

The Fund’s parking assessment fees and rates are established by the Comptroller, as Chief of the Department of Accounting and General Services or the Comptroller’s designated representative, the division head of the Automotive Management Division. The decrease in operating revenue of $6,000 or 0.16% in 2018 was due to decreased collections from parking meters and traffic fines offset by increased parking assessments. The increase in operating expenses of $414,000 or 10.89% in 2018 was primarily due to increases in other expenses, such as supplies and professional service expenses. The increase in nonoperating expenses of $796,000 in 2018 was primarily due to an increase in loss on disposition of capital assets.
Capital Asset and Debt Administration

Capital Assets

The Fund’s investment in capital assets amounted to $14,695,000 and $15,922,000, net of accumulated depreciation of $57,803,000 and $57,298,000 in 2018 and 2017, respectively. Capital assets include land, construction in progress, structures and improvements, and equipment, furniture and fixtures.

Net capital assets (rounded to the nearest $1,000) are accounted for as follows:

See accompanying notes to financial statements.
(1) Summary of Significant Accounting Policies

The State Parking Revolving Fund (the Fund) was established by an appropriation of $50,000 from the State's General Fund pursuant to Act 161, Session Laws of Hawaii 1963 (Section 107-11 of the Hawaii Revised Statutes). The Fund is responsible for the assessment and collection of reasonable parking fees, installation of parking meters, and the restriction and control of parking on all State lands within the State Comptroller's jurisdiction. All fees, charges and other revenue collected are deposited into this Fund. The funds are to be expended, as necessary, to defray the cost of paving parking areas as well as the purchase and installation of parking meters on State lands within the State Comptroller’s jurisdiction.

The accompanying financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies established by GAAP and used by the Fund are discussed below.

(a) Basis of Accounting

The Fund is an internal service fund (proprietary fund type) as defined by GASB, which uses the flow of economic resources measurement focus and accrual basis of accounting, as generally applied to commercial enterprises. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund’s principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

(b) Reporting Entity

The financial statements reflect only the Fund’s financial activities. The State Comptroller maintains the central accounts for all State funds and publishes financial statements for the State of Hawaii (State) annually, which include the Fund’s financial activities.

(c) Net Position

Net position is reported into two categories: net investment in capital assets and unrestricted.

(d) Cash and Cash Equivalents

Cash and cash equivalents include all cash, repurchase agreements, U.S. government securities and time certificates of deposits with original maturities of three months or less. For purposes of the statement of cash flows, the Fund has defined cash equivalents to be all highly liquid investments with a maturity of three months or less when purchased.

(e) Inventories

Material and supplies inventories are stated at the lower of cost or market with cost being determined principally using the first-in, first-out method (FIFO).
(f) **Capital Assets**

Capital assets of the Fund include parking structures and improvements, and equipment, furniture and fixtures with estimated useful lives greater than one year and acquisition costs greater than the following amounts:

<table>
<thead>
<tr>
<th>Asset Category</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Buildings and improvements</td>
<td>$100,000</td>
</tr>
<tr>
<td>Equipment, furniture and fixtures</td>
<td>$5,000</td>
</tr>
</tbody>
</table>

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated fair market value at the date of donation. Transfers are recorded at cost, net of the depreciation which would have been charged had the asset been directly acquired by the Fund. Major outlays for capital assets and improvements are capitalized as projects are constructed to the extent the State’s capitalization thresholds are met. Interest incurred during the construction phase of the capital assets is reflected in the capitalized value of the asset constructed, net of interest earned, on the invested proceeds over the same period. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and the related accumulated depreciation, as applicable, are removed from the respective accounts, and any resulting gain or loss is recognized in the statement of revenues, expenses and changes in net position.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<table>

(g) **Transfers**

Transfers between funds at the State occur when a fund receiving revenues transfers resources to a fund where the resources are to be expended or when nonrecurring or nonroutine transfers of equity between funds occur. For the fiscal year ended June 30, 2018, the Fund transferred to the State’s General Fund $86,292.

(h) **Compensated Absences**

It is the Fund’s policy to permit employees to accumulate earned but unused vacation and sick leave benefits. There is no liability for unpaid accumulated sick leave since sick leave is not convertible to pay upon termination of employment. All vacation pay is accrued when earned.
(i) Deferred Compensation Plan
The Fund offers its employees a deferred compensation plan (Plan) created in accordance with Internal Revenue Code Section 457. The Plan, available to all Fund employees, permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

All Plan assets are held in a trust fund to protect them from claims of general creditors. The Fund has no responsibility for loss due to the investment or failure of investment of funds and assets in the Plan, but does have the duty of due care that would be required of an ordinary prudent investor. Accordingly, the assets and liabilities of the Fund’s deferred compensation plan are not reported in the accompanying basic financial statements.

(j) Traffic Fines
Traffic fines are reported as revenue when received.

(k) Pensions
For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees’ Retirement System (ERS) and additions to/deductions from the ERS’ s fiduciary net position have been determined on the same basis as they are reported by the ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at their fair value.

(l) Use of Estimates
The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

(m) Recently Issued Accounting Standards
Effective July 1, 2017, the State of Hawaii, including the Fund, adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The Statement replaces GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended. The Statement requires governments to report a liability on the face of the financial statements for the other postemployment benefits that they provide.
The adoption of Statement No. 75 resulted in the restatement of the Fund’s fiscal year 2017 financial statements to reflect the reporting of a net OPEB liability and deferred outflows of resources related to OPEB contributions as of June 30, 2017 in accordance with the provisions of Statement No. 75. The following table provides a reconciliation of net position at June 30, 2017, as previously reported, to net position at June 30, 2017, as restated.

<table>

</tr>
</tbody>
</table>

Refer to note 7 for more information regarding the Fund’s OPEB benefits.

(2) **Cash and Cash Equivalents**

The State has an established policy whereby all unrestricted and certain restricted cash is required to be invested in the State’s investment pool. Section 36-21, Hawaii Revised Statutes, authorizes the State to invest in obligation of the State, the U.S. Treasury, agencies and instrumentalities, certificates of deposit, and bank repurchase agreements. At June 30, 2018, the amount reported as cash and cash equivalents in the Statement of Net Position reflects the Fund’s relative position in the State’s investment pool and amounted to $2,177,332.

The Director of Finance is responsible for the safekeeping of all monies deposited into the State Treasury. The Director of Finance pools and invests any monies of the State, which in the Director of Finance’s judgment, are in excess of the amounts necessary for meeting the specific requirements of the State. Investment earnings are allocated to the Fund based on its equity interest in the pooled monies. Legally authorized investments include obligations of or guaranteed by the U.S. government, obligations of the State, federally insured savings and checking accounts, time certificates of deposit, auction rate securities, and repurchase agreements with federally insured financial institutions.

Information relating to individual bank balances, insurance, and collateral of cash deposits is determined on a statewide basis and not for individual departments or divisions. Information regarding the carrying amount and corresponding bank balances of the State’s investment pool and collateralization of those balances in included in the comprehensive annual financial report of the State. A portion of the bank balances is covered by federal deposit insurance, or by collateral held by the State Treasury, or by the State’s fiscal agents in the name of the State. Other bank balances are held by fiscal agents in the State’s name for the purpose of satisfying outstanding bond obligations. Accordingly, these deposits are exposed to custodial credit risk. Custodial credit risk is the risk that, in the event of a bank failure, the State’s deposits may not be returned to it. For demand or checking accounts and certificates of deposit, the State requires that the depository banks pledge collateral based on the daily available bank balances to limit its exposure to custodial credit risk. The use of daily available bank balances to determine collateral requirements results in the available balances being under collateralized at various times during the fiscal year. All securities pledged as collateral are held either by the State Treasury or by the State’s fiscal agents in the name of the
State. The State also requires that no more than 60% of the State’s total funds available for deposit and on deposit in the State Treasury may be deposited in any one financial institution.

(3) Capital Assets

Capital assets activity for the year ended June 30, 2018, was as follows:

</tbody>
</table>

(4) Ceded Land Revenues

In 1898, the former Republic of Hawaii transferred certain lands to the United States. Upon Hawaii’s admission to the Union in 1959, the United States reconveyed title to those lands (collectively, the Ceded Lands) to the State of Hawaii to be held as a public land trust for five purposes: (1) public education; (2) betterment of the conditions of native Hawaiians; (3) development of farm and home ownership; (4) making public improvements; and (5) provision of land for public use. On November 7, 1978, the State Constitution was amended expressly to provide that the Ceded Lands, excluding any “available lands” as defined in the Hawaiian Homes Commission Act of 1920, as amended, were to be held as a public trust for native Hawaiians and the general public, and to establish Office of Hawaiian Affairs (OHA) to administer and manage the proceeds and income derived from a pro rata portion of the Ceded Lands as provided by law, to better the conditions of native Hawaiians. In 1979, the Legislature adopted HRS Chapter 10 (Chapter 10), which, as amended in 1980, specified, among other things, that OHA expend 20% of the funds derived by the State from Ceded Lands for the betterment of native Hawaiians. Since then, the State’s management of the Ceded Lands and its disposition of the proceeds and income from the Ceded Lands have been challenged by OHA, and individual native Hawaiians, Hawaiians and non-Hawaiians. Claims have been made under Article XII, Sections 4 and 6 of the Hawaii Constitution to the effect that the
State has breached the public trust, and OHA has not received from the Ceded Lands all of the income and proceeds that it should be receiving. Except for that claims pending in the OHA v. HHA case discussed below, the Legislature, the state and federal courts, and the State’s governors have acted to address the concerns raised. However, there can be no assurance that in the future there will not be asserted against the State, new claims made under Article XII, Sections 4 and 6 of the Hawaii Constitution that the State has breached the public trust, or the OHA is not receiving from the Ceded Lands all of the income and proceeds that it should be receiving.

In OHA v. HHA filed suits on July 27, 1995 (OHA v. HHA, et al., Civil No. 95-2682-07 (1st Cir.)) against the Hawaii Housing Authority (the HHA, since succeeded by the Hawaii Public Housing Authority, as described below), the executive director of the HHA, the board members of the HHA and the Director of Finance to secure additional compensation and an itemized accounting of the sums previously paid to OHA for five specifically identified parcels of Ceded Lands which were transferred to the HHA for its use to develop, construct and manage additional affordable public rental housing units under HRS Chapter 201G. On January 11, 2000, all proceedings in this suit were stayed pending the Hawaii Supreme Court’s decision in OHA, et al v. State of Hawaii, et al., Civil No. 94-0205-01 (1st Cir.). The September 12, 2000 decision of the Hawaii Supreme Court (OHA v. State of Hawaii, 96 Haw. 399 (2001)) included elements with which OHA disagrees, that would require dismissal of OHA’s claims in OHA v. HHA, and the case remains pending.

The Housing Finance and Development Corporation and the HHA were merged into the Housing and Community Development Corporation of Hawaii, after the above-described suits against them were filed. This corporation subsequently was bifurcated into the Hawaii Housing Finance and Development Corporation and the Hawaii Public Housing Authority.

The State intends to defend vigorously against OHA’s claim in OHA v. HHA. Resolution of all claims in favor of OHA and its beneficiaries could have a material adverse effect on the State’s financial condition.

The Fund has recorded ceded land payments and assessments of $20,426 for 2017 to OHA representing OHA’s entitlement to revenues derived from the Fund’s use of Ceded Lands. All monies due prior to October 1, 2002, were transferred to a trust pending resolution of OHA’s claim against the State. Included in accounts payable is $5,172 for ceded land payments due as of June 30, 2018.
(5) Accrued Liabilities

Accrued liabilities consist of the following:

<table>
<thead>
<tr>

(7) Retirements Benefits

Pension Plan

Employees’ Retirement System

(a) Plan Description

Generally, all full-time employees of the State and counties are required to be members of the ERS, a cost sharing multiple-employer define benefit pension plan administered by the State’s pension benefits program. Benefits, eligibility, and the contribution requirements are governed by HRS Chapter 88 and can be amended through legislation. The ERS issues a publicly available financial report that can be obtained at ERS’s website: http://www.ers.ehawaii.gov/.
(b) Benefits Provided

The ERS Pension Trust is comprised of the three pension classes for membership purposes and considered to be a single plan for accounting purposes since all assets of the ERS may legally be used to pay the benefits of any of the ERS members or beneficiaries. The ERS provides retirement, disability, and death benefits with three membership classes known as the noncontributory, contributory and hybrid retirement classes. The three classes provide a monthly retirement allowance equal to the benefit multiplier (generally 1.25% or 2%) multiplied by the average final compensation multiplied by years of credited service. Average final compensation for members hired prior to July 1, 2012 is an average of the highest salaries during any three years of credited service, excluding any salary paid in lieu of vacation for members hired January 1, 1971 or later and the average of the highest salaries during any five years of credited service including any salary paid lieu of vacation for members hired prior to January 1, 1971. For members hired after June 30, 2012, average final compensation is an average of the highest salaries during any five years of credited service excluding any salary paid in lieu of vacation.

Each retiree's original retirement allowance is increased on each July 1 beginning the calendar year after retirement. Retirees first hired as members prior to July 1, 2012 receive a 2.5% increase each year of their original retirement allowance without a ceiling. Retirees first hired as members after June 30, 2012 receive a 1.5% increase each year of their original retirement allowance without a ceiling. The annual increase is not compounded.

The following summarizes the provisions relevant to the largest employee groups of the respective membership class.

(i) Noncontributory Class

- **Retirements Benefits** – General employees’ retirement benefits are determined as 1.25% of average final compensation multiplied by the years of the credited service. Employees with ten years of credited service are eligible to retire at age 62. Employees with 30 years of credited service are eligible to retire at age 55.

- **Disability Benefits** – Members are eligible for service-related disability benefits regardless of the length of service and receive a lifetime pension of 35% of their average final compensation. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined in the same manner as retirement benefits but are payable immediately, without an actuarial reduction, and at a minimum of 12.5% of average final compensation.

- **Death Benefits** – For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a monthly benefit of 30% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. Additional benefits are payable to surviving dependent children up to age 18. If there is no spouse/reciprocal beneficiary of dependent children, no benefit is payable.
Ordinary death benefits are available to employees who were active at time of death with at least ten years of credited service. The surviving spouse/reciprocal beneficiary (until remarriage/reentry into anew reciprocal beneficiary relationship) and dependent children (up to age 18) receive a benefit equal to a percentage of member’s accrued maximum allowance unreduced for age or, if the member was eligible for retirement at the time of death, the surviving spouse/reciprocal beneficiary receives 100% joint and survivor lifetime pension and the dependent children receive a percentage of the member’s accrued maximum allowance unreduced for age.

(ii) **Contributory Class for Members Hired prior to July 1, 2012**

- **Retirements Benefits** – General employees’ retirement benefits are determined as 2% of average final compensation multiplied by the years of the credited service. General employees with five years of credited service are eligible to retire at age 55.

- **Disability Benefits** – Members are eligible for service-related disability benefits regardless of the length of service and receive a one-time payment of the member’s contributions and accrued interest plus a lifetime pension of 50% of their average final compensation. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined as 1.75% of average final compensation multiplied by the years of credited service but are payable immediately, without an actuarial reduction, and at a minimum of 30% of average final compensation.

- **Death Benefits** – For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a lump sum payment of the member’s contribution and accrued interest plus a monthly benefit of 50% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. If there is no spouse/reciprocal beneficiary of dependent children, surviving children (up to age 18) or dependent parents are eligible for the monthly benefit. If there is no spouse/reciprocal beneficiary or dependent children/parents, the ordinary death benefit is payable to designated beneficiary.

Ordinary death benefits are available to employees who were active at time of death with at least one year of service. Ordinary death benefits consist of a lump sum payment of the member’s contributions and accrued interest plus a percentage of the salary earned in the 12 months preceding death, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least ten years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

(iii) **Contributory Class for Members Hired After June 30, 2012**

- **Retirements Benefits** – General employees’ retirement benefits are determined as 1.75% of average final compensation multiplied by the years of the credited service. General employees with ten years of credited service are eligible to retire at age 60.
• **Disability and Death Benefits** – Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 50% of their average final compensation plus refund of contributions and accrued interest. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are 3.0% of average final compensation for each year of service for judges and elected officers and 1.75% of average final compensation for each year of service for police and firefighters and are payable immediately, without an actuarial reduction, at a minimum of 30% of average final compensation.

Death benefits for contributory plan members hired after June 30, 2012 are generally the same as those for contributory plan members hired June 30, 2012, prior.

(iv) **Hybrid Class for Members Hired Prior to July 1, 2012**

• **Retirements Benefits** – General employees’ retirement benefits are determined as 2% of average final compensation multiplied by the years of credited service. General employees with five years of credited service are eligible to retire at age 62. General employees with 30 years of credited service are eligible to retire at age 55.

• **Disability Benefits** – Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 35% of their average final compensation plus refund of their contributions and accrued interest. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined in the same manner as retirement benefits but are payable immediately, without an actuarial reduction, and at a minimum of 25% of average final compensation.

• **Death Benefits** – For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a lump sum payment of the member’s contributions and accrued interest plus a monthly benefit of 50% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. If there is no surviving spouse/reciprocal beneficiary, surviving children (up to age 18) or dependent parents are eligible for the monthly benefit. If there is no spouse/reciprocal beneficiary or dependent children/parents, the death benefit is payable to the designated beneficiary.

Ordinary death benefits are available to employees who were active at time of death with at least five years of service. Ordinary death benefits consist of a lump sum payment of the member’s contributions and accrued interest plus a percentage multiplied by 150%, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least ten years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

(v) **Hybrid Class for Members Hired After June 30, 2012**

• **Retirement Benefits** – General employees’ retirement benefits are determined as 1.75% of average final compensation multiplied by the years of credited service. General employees with ten years of credited service are eligible to retire at age 65. Employees with 30 years of credited service are eligible to retire at age 60.
Disability and Death Benefits – Provisions for disability and death benefits generally remain the same except for ordinary death benefits. Ordinary death benefits are available to employees who were active at time of death with at least ten years of service. Ordinary death benefits consist of a lump sum payment of the member’s contributions and accrued interest, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least ten years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

(c) Contributions
Contributions are governed by HRS Chapter 88 and may be amended through legislation. The employer rate is set by statute based on the recommendations of the ERS actuary resulting from an experience study conducted every five years. Since July 1, 2005, the employer contribution rate is a fixed percentage of compensation, including the normal cost plus amounts required to pay for the unfunded actuarial accrued liabilities. The contribution rates for fiscal year 2017 were 17%. Contributions to the pension plan from the State were approximately $470,548,000 for the fiscal year ended June 30, 2018, of which the Fund’s share was $173,686.

On May 18, 2017, the Governor of the State of Hawaii signed into law Act 17 SLH 2017. Per Act 17, future employer contributions from the State and counties are expected to increase pursuant to a phased-in contribution rate increase over four years beginning July 1, 2017. The rate for all employees increases to 18% on July 1, 2017; 19% on July 1, 2018; 22% on July 1, 2019; and 24% on July 1, 2020.

The employer is required to make all contributions for noncontributory members. Contributory members hired prior to July 1, 2012 are required to contribute 7.8% of their salary. Contributory members hired after June 30, 2012 are required to contribute 9.8% of their salary. Hybrid members hired prior July 1, 2012 are required to contribute 6.0% of their salary. Hybrid members hired after June 30, 2012 are required to contribute 8.0% of their salary.

(d) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions
At June 30, 2018, the State reported a liability of approximately $6.7 billion for its proportionate share of net pension liability, of which the Fund’s share was $2,697,956. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State’s proportion of the net pension liability was based on the State’s share of contributions to the pension plan. At June 30, 2017, the State’s proportion was 56.6073% which was an increase of 0.0076% from its proportion measured as of June 30, 2016. At June 30, 2017, the Fund’s proportion was 0.05% which was an increase of 0.02% from its proportion measured as of June 30, 2016.

There was no change in actuarial assumptions as of June 30, 2016 to June 30, 2017. There were no changes between the measurement date, June 30, 2017, and the reporting date, June 30, 2018, that are expected to have a significant effect on the proportionate share of the net pension liability.
For the year ended June 30, 2018, the State recognized pension expense of approximately $902,844,000, of which the Fund’s proportionate share was $492,174. At June 30, 2018, the Fund reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<table>
<thead>
<tr>
<th>Description</th>
<th>Deferred outflows of resources</th>
<th>Deferred inflows of resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>Differences between expected actual experience</td>
<td>$ 35,087</td>
<td>(31,157)</td>
</tr>
<tr>
<td>Changes of assumptions</td>
<td>287,780</td>
<td>—</td>
</tr>
<tr>
<td>Net difference between projected and actual earnings on pension plan investments</td>
<td>—</td>
<td>(120,778)</td>
</tr>
<tr>
<td>Changes in proportion and differences between Fund contributions and proportionate share of contributions</td>
<td>11,537</td>
<td>(6,905)</td>
</tr>
<tr>
<td>Fund contributions subsequent to the measurement date</td>
<td>173,686</td>
<td>—</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>$ 508,090</td>
<td>(158,840)</td>
</tr>
</tbody>
</table>

The $173,686 reported as deferred outflows of resources related to pensions resulting from the Fund’s contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<table>
<thead>
<tr>
<th>Year ended June 30:</th>
<th>Deferred outflows of resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>2019</td>
<td>$ 41,414</td>
</tr>
<tr>

<td>20,288</td>
</tr>
<tr>
<td>2023</td>
<td>387</td>
</tr>
</tbody>
</table>

**Total** $175,564
(e) Actuarial Assumptions

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, adopted by the Board of Trustees of the Employees’ Retirement System of the State of Hawaii, on December 12, 2016, based on the most recent experience study dated July 5, 2016:

- Inflation: 2.50%
- Investment rate return: 7.00% per year, compounded annual including inflation
- General wage inflation: 3.50%
- Salary increases: 3.50% to 7.00%, including inflation

Post-retirement mortality rates are based on the 2016 Public Retirees of Hawaii mortality table with adjustments based on generational projections of the BB projection table for 2016 and full generational projections in future years. Pre-retirement mortality rates are based on multiples of RP-2014 mortality table based on the occupation of the member.

The long-term expected rate of return on pension plan investments was determined using a “top down approach” of the Bespoke Client-Constrained Simulation-based Optimization Model (a statistical technique known as “re-sampling with replacement” that directly keys in on specific plan-level risk factors as stipulated by the ERS Board) in which best-estimate ranges of expected future real rates of return (expected returns, net of the pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<table>
<thead>
<tr>
<th>Target allocation</th>
<th>Expected long-term geometric average return</th>
<th>Expected long-term real rate of return*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strategic allocation (risk based classes)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Broad growth</td>
<td>63.0 %</td>
<td>8.05 %</td>
</tr>
<tr>
<td>Principal protection</td>
<td>7.0</td>
<td>2.45</td>
</tr>
<tr>
<td>Real return</td>
<td>10.0</td>
<td>5.80</td>
</tr>
<tr>
<td>Crisis risk offset</td>
<td>20.0</td>
<td>5.35</td>
</tr>
<tr>
<td>Total investments</td>
<td>100.0 %</td>
<td></td>
</tr>
</tbody>
</table>

* Uses an expected inflation of 2.25%.
(f) **Discount Rate**

The discount rate used to measure the net pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that the employee contributions will be made at the current contribution rate and that contributions from the State will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

(g) **Sensitivity of the Fund’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the Fund’s proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the Fund’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

<table>
<thead>
<tr>
<th>Decrease (6.00%)</th>
<th>Rate (7.00%)</th>
<th>Increase (8.00%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fund’s proportionate share of the net pension liability</td>
<td>$3,497,377</td>
<td>2,697,956</td>
</tr>
</tbody>
</table>

(h) **Pension Plan Fiduciary Net Pension**

The pension plan’s fiduciary net position is determined on the same basis used by the pension plan. The ERS financial statements are prepared using the accrual basis of accounting under which expenses are recorded when the liability is incurred, and revenues are recorded in the accounting period in which they are earned and become measurable. Employer and member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investment purchases and sales are recorded as of their trade date. Administrative expenses are financed exclusively with investment income.

There were no significant changes after the report measurement date. Detailed information about the pension plan’s fiduciary net position is available in the separately issued ERS financial report. ERS’s complete financial statements are available at http://www.ers.ehawaii.gov.
Post Health Retirement Health Care and Life Insurance Benefits

(i) Plan Description

The State provides certain health care and life insurance benefits to all qualified employees. Pursuant to Act 88, SLH of 2001, the State contributes to the EUTF, agent multiple-employer defined benefit plan that replaced the Hawaii Public Employees Health Fund effective July 1, 2003. The EUTF was established to provide a single delivery system of health benefits for state and county workers, retirees, and their dependents. The EUTF issues an annual financial report that is available to the public. That report may be obtained by writing to the EUTF at PO Box 2121, Honolulu, Hawaii 96805-2121.

For employees hired before July 1, 1996, the State pays the entire monthly contribution for employees retiring with ten years or more of credited service, and 50% of the base monthly contribution for employees retiring with fewer than ten years of credited service. A retiree can elect a family plan to cover dependents.

For employees hired after June 30, 1996 but before July 1, 2001, and who retire with less than ten years of service, the State makes no contributions. For those retiring with at least ten years but fewer than 15 years of service, the State pays 50% of the base monthly contribution. For those retiring with at least 15 years but fewer than 25 years of service, the State pays 75% of the base monthly contribution. For those retiring with at least 25 years of service, the State pays 100% of the base monthly contribution. Retirees in this category can elect a family plan to cover dependents.

For employees hired on or after July 1, 2001, and who retire with less than ten years of service, the State makes no contributions. For those retiring with at least ten years but fewer than 15 years of service, the State pays 50% of the base monthly contribution. For those retiring with at least 15 years but fewer than 25 years of service, the State pays 75% of the base monthly contribution. For those retiring with at least 25 years of service, the State pays 100% of the base monthly contribution. Only single plan coverage is provided for retirees in this category. Retirees can elect family coverage but must pay the difference.

At July 1, 2017, the State’s plan members covered by benefit terms consisted of the following:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inactive plan members or beneficiaries currently receiving benefits</td>
<td>$35,374</td>
</tr>
<tr>
<td>Inactive plan members entitled to but not yet receiving benefits</td>
<td>$8,124</td>
</tr>
<tr>
<td>Active plan members</td>
<td>$50,101</td>
</tr>
<tr>
<td>Total plan members</td>
<td>$93,599</td>
</tr>
</tbody>
</table>

(j) Contributions

Contributions are governed by HRS Chapter 87A and may be amended through legislation. Contributions to the OPEB plan from the State were approximately $516,850,000 for the fiscal year ended June 30, 2018, of which the Fund’s proportionate share was $161,562.
(k) OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the State reported a net OPEB liability of approximately $6.9 billion, of which the Fund’s share was $2,785,559. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

There were no changes between the measurement date, July 1, 2017, and the reporting date, June 30, 2018, that are expected to have a significant effect on the net OPEB liability.

For the year ended June 30, 2018, the State recognized OPEB expense of approximately $656,020,000, of which the Fund’s proportionate share was $205,065. At June 30, 2018, the Fund reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<table>
<thead>
<tr>
<th>Deferred outflows of resources</th>
<th>Deferred inflows of resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>Net difference between projected and actual earnings on OPEB plan investments</td>
<td>$ (4,061)</td>
</tr>
<tr>
<td>Fund contributions subsequent to the measurement date</td>
<td>$ 195,459</td>
</tr>
<tr>
<td>Total</td>
<td>$ 195,459</td>
</tr>
</tbody>
</table>

The $195,459 reported as deferred outflows of resources related to OPEB resulting from the Fund’s contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<table>
<thead>
<tr>
<th>Year ended June 30:</th>
<th>Deferred outflows of resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>2019</td>
<td>$ (1,015)</td>
</tr>
<tr>
<td>2020</td>
<td>$ (1,015)</td>
</tr>
<tr>
<td>2021</td>
<td>$ (1,015)</td>
</tr>
<tr>
<td>2022</td>
<td>$ (1,016)</td>
</tr>
<tr>
<td>2023</td>
<td>$ —</td>
</tr>
<tr>
<td>Total</td>
<td>$ (4,061)</td>
</tr>
</tbody>
</table>
(l) **Actuarial Assumptions**

The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions adopted by the Board of Trustees of the Hawaii Employer-Union Health Benefits Trust Fund of the State of Hawaii, on January 8, 2018, based on the experience study covering the five year period ended June 30, 2015:

- **Inflation** 2.50%
- **Salary increases** 3.50% to 7.00% including inflation
- **Discount rate** 7.00%
- **Investment rate of return** 7.00%

**Healthcare cost trend rates:**
- **PPO*** Initial rates of 6.60%, 6.60% and 9.00%; declining to a rate of 4.86% after 14 years
- **HMO*** Initial rate of 9.00%; declining to a rate of 4.86% after 14 years
- **Part B & Base Monthly Contribution (BMC)** Initial rate of 2.00% and 5.00%; declining to a rate of 4.70% after 14 years
- **Dental** 3.50%
- **Vision** 2.50%
- **Life insurance** —

*Blended rates for medical and prescription drug.

Mortality rates are based on system-specific mortality tables utilizing scale BB to project generational morality improvement.
The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each asset class are summarized in the following table:

<table>
<thead>
<tr>
<th>Asset class</th>
<th>Target allocation</th>
<th>Long-term expected real rate of return</th>
</tr>
</thead>
<tbody>
<tr>
<td>U.S. Equity</td>
<td>19.0 %</td>

<td>0.50 %</td>
</tr>
<tr>
<td><strong>Total investments</strong></td>
<td><strong>100.0 %</strong></td>
<td></td>
</tr>
</tbody>
</table>

**(m) Single Discount Rate**

The discount rate used to measure the net OPEB liability was 7.00%, based on the expected rate of return on OPEB plan investments of 7.00% and the municipal bond rate of 3.56% (based on the daily rate closest to but not later than the measurement date of the Fidelity “20-year Municipal GO AA index”) to the extent that the contributions for use with the long-term expected rate of return are not met. Beginning with the fiscal year 2019 contribution, the State’s funding policy is to pay the recommended actuarially determined contribution, which is based on layered, closed amortization periods. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.
(n) OPEB Plan Fiduciary Net Position

The OPEB plan's fiduciary net position has been determined on the same basis used by the OPEB plan. The EUTF’s financial statements are prepared using the accrual basis of accounting under which revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of the cash flows. Employer contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investment purchases and sales are recorded on a trade-date basis. Administrative expenses are financed exclusively with investment income.

There were no significant changes after the report measurement date. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued EUTF financial report. EUTF’s complete financial statements are available at http://eutf.hawaii.gov.

(o) Sensitivity of the Net OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rates

The following table presents the Fund's net OPEB liability calculated using the discount rate of 7.00%, as well as what the Fund’s net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current discount rate:

<table>
<thead>
<tr>
<th>Decrease (6.00%)</th>
<th>Discount rate (7.00%)</th>
<th>Increase (8.00%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fund’s proportionate share of the net pension liability</td>
<td>$3,269,362</td>
<td>$2,785,559</td>
</tr>
</tbody>
</table>

The following table presents the Fund’s net OPEB liability calculated using the assumed healthcare cost trend rate, as well as what the Fund’s net OPEB liability would be if it were calculated using the trend rate that is one percentage point lower or one percentage point higher than the current healthcare cost trend rate:

<table>
<thead>
<tr>
<th>1% Decrease</th>
<th>Healthcare Trend Rate</th>
<th>1% Increase</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fund’s proportionate share of the net pension liability</td>
<td>$2,371,519</td>
<td>$2,785,559</td>
</tr>
</tbody>
</table>
(8) Commitments and Contingencies

Accumulated Sick Leave

Sick leave accumulates at the rate of one and three-quarters working days for each month of service without limit, but may be taken only in the event of illness and is not convertible to pay upon termination of employment. However, an employee who retires or leaves government service in good standing with 60 days or more of unused sick leave is entitled to additional service credit in the ERS. As of June 30, 2018, accumulated sick leave was approximately $578,000.

Litigation

The Fund is a party to various legal proceedings, the outcome of which, in the opinion of management, will not have a material adverse effect on the Fund’s financial position. Losses, if any, will either be covered by insurance or paid from legislative appropriations of the State’s General Fund.

(9) Risk Management

The Fund is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; and workers’ compensation.

(a) Property and Liability Insurance

As part of the State Department of Accounting and General Services, the Fund is insured under the State of Hawaii (the State) as follows: The State generally retains the first $1,000,000 per occurrence of property losses, the first $4,000,000 with respect to general liability claims, and the first $500,000 of losses due to crime. Losses in excess of those retention amounts are insured with commercial insurance carriers. The limit per occurrence for property losses is $200,000,000, except for terrorism, which is $50,000,000 per occurrence. The annual aggregate for general liability losses is $5,000,000 per occurrence and for crime losses, the limit per occurrence is $10,000,000 with no aggregate limit. The State also has an insurance policy to cover medical malpractice risk in the amount of $35,000,000 per occurrence and $39,000,000 in the aggregate. The State is generally self-insured for workers’ compensation and automobile claims.

The estimated reserve for losses and loss adjustment costs includes the accumulation of estimates for losses and claims reported prior to fiscal year-end, nonincremental estimates (based on projections of historical developments) of claims incurred but not reported, and nonincremental estimates of costs for investigating and adjusting all incurred and unadjusted claims. Amounts reported are subject to the impact of future changes in economic and social conditions. The State believes that, given the inherent variability in any such estimates, the reserves are within a reasonable and acceptable range of adequacy. Reserves are continually monitored and reviewed, and as settlements are made and reserves adjusted, the differences are reported in current operations. A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the basic financial statements and the amount of the loss is reasonably estimable.
(b) **Worker’s Compensation Reserve**

The fund is fully self-insured for workers’ compensation and disability claims which are expensed when incurred. The Fund pays a portion of wages, medical bills, and judgments as stipulated by the Department of Labor and Industrial Relations, and the other costs for injured workers. During the year ended June 30, 2018, there were no payments for workers’ compensation claims and disability expenses.
Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Auditor
State of Hawaii:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the Department of Accounting and General Services (the Department), State Parking Revolving Fund, State of Hawaii (the Fund), which comprise the statement of financial position as of June 30, 2018, and the related statements of revenues, expenses and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated February 15, 2019. Our report contains an emphasis of matter paragraph that state the Fund’s adoption of Government Accounting Standards Board Statement (GASB) No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions as of July 1, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Department’s internal control over financial reporting of the Fund (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Department’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fund’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including applicable provisions of the Hawaii Public Procurement Code (Chapter 103D, Hawaii Revised Statutes) and procurement rules, directives, and circulars, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Department’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Honolulu, Hawaii
February 15, 2019
