A BILL FOR AN ACT

RELATING TO TELECOMMUNICATIONS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. Section 269-16.85, Hawaii Revised Statutes, is amended to read as follows:

"§269-16.85 Retail intrastate services; fully competitive. (a) Notwithstanding section 269-16.9 or any other law to the contrary, the public utilities commission shall treat retail intrastate telecommunications services, under the commission's classification of services relating to costs, rates, and pricing, as fully competitive and apply all commission rules in accordance with that designation. In addition, a telecommunications carrier shall not be required to obtain approval or provide any cost support or other information to establish or otherwise modify in any manner its retail intrastate telecommunications service rates, fares, [and] charges, and terms and conditions, or to bundle any service offerings into a single or combined price package[; provided that a telecommunications carrier, except upon receiving the approval of the commission, shall not charge a higher rate for any retail telecommunications basic exchange service than the
rate for the same service included in the telecommunications carrier's filed tariff.] and shall not be subject to sections 269-16 and 269-39; provided that on an annual basis, the monthly rate increase for basic exchange service in any county with a population of less than five hundred thousand shall not exceed $6.50 without the public utilities commission's approval. All rates, fares, charges, [and] bundled service offerings, and service terms and conditions shall be [filed with the public utilities commission for information purposes only.] posted on the local exchange carrier's website.

(b) This section shall apply to retail rates charged for service to end-user consumers only and shall not apply to wholesale rates charged for services provided by a telecommunications carrier to another telecommunications provider, a wireless communications provider, a voice over internet protocol communications provider, or other similar communications provider.

(c) Nothing herein shall modify any requirements of a telecommunications carrier to provide lifeline telephone service, comply with carrier of last resort obligations, or comply with applicable service quality standards.
(d) Notwithstanding section 269-17, any telecommunications service provider providing fully competitive retail services shall not be required to seek commission approval for the issuance of stocks, stock certificates, bonds, notes, and other evidences of indebtedness; provided that the telecommunications service provider notifies the public utilities commission, with a copy to the consumer advocate, of all issuances upon execution of the transaction.

(e) Notwithstanding section 269-19, any telecommunications service provider providing fully competitive retail services shall not be required to seek commission approval for the sale, lease, mortgage, assignment, or other disposition or encumbrance of the whole or any part of its road, line, plant, system, or other property; provided that any telecommunications service provider shall not, directly or indirectly, merge or consolidate with any other public utility without first having secured from the public utilities commission an order authorizing the provider to do so.

(f) Notwithstanding section 269-9, any telecommunications service provider providing fully competitive retail services
shall not be required to file accident reports with the
commission."
