July 2, 2019

The Honorable Ronald D. Kouchi,
President
and Members of the Senate
Thirtieth State Legislature
State Capitol, Room 409
Honolulu, Hawai’i 96813

The Honorable Scott K. Saiki,
Speaker and Members of the
House of Representatives
Thirtieth State Legislature
State Capitol, Room 431
Honolulu, Hawai’i 96813

Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

This is to inform you that on July 2, 2019, the following bill was signed into law:

HB531 HD1 SD1 RELATING TO ENTERPRISE TECHNOLOGY SERVICES.
ACT 238 (19)

Sincerely,

DAVID Y. IGE
Governor, State of Hawai’i
BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that periodic updates to the state information technology strategic plan are vital both to stay current with constantly evolving technology and to fully maximize available modern resources for increased effectiveness, efficiency, and transparency in state government. The legislature also finds that regularly updating the state information technology strategic plan will promote continuity of services irrespective of the State's governing administration.

The purpose of this Act is to require the chief information officer of the office of enterprise technology services to update the state information technology strategic plan every four years and to submit the updated plan to the governor and the legislature.

SECTION 2. Section 27-43, Hawaii Revised Statutes, is amended to read as follows:

"§27-43 Office of enterprise technology services; chief information officer; information technology steering committee;
establishment; responsibilities. (a) There is established
within the department of accounting and general services the
office of enterprise technology services, which shall be headed
by a full-time chief information officer to organize, manage,
and oversee statewide information technology governance. The
chief information officer shall be appointed by the governor as
provided in section 26-34. The chief information officer shall
report directly to the governor and [in conjunction with the
information technology steering committee,] shall:

(1) Develop, implement, and manage statewide information
technology governance;

(2) Develop, implement, and manage the state information
technology strategic plans;

(3) Develop and implement statewide technology standards;

(4) Work with each executive branch department and agency
to develop and maintain its respective multi-year
information technology strategic and tactical plans
and road maps that are part of the State's overall
information technology strategic plans, road maps, and
directions;
(5) Coordinate each executive branch department and agency's information technology budget request, forecast, and procurement purchase to ensure compliance with the department or agency's strategic plan and road map and with the office of enterprise technology services' information technology governance processes and enterprise architecture policies and standards, including policies and standards for systems, services, hardware, software, and security management;

(6) Report annually to the governor and the legislature on the status and implementation of the state information technology strategic plan;

(7) Update the state information technology strategic plan every four years;

(8) Perform other necessary or desirable functions to facilitate the intent of this section;

(9) Employ persons exempt from chapters 76 and 89;

(10) Provide centralized computer information management and processing services, coordination in the use of all information processing equipment,
software, facilities, and services in the executive branch of the State, and consultation and support services in the use of information processing and management technologies to improve the efficiency, effectiveness, and productivity of state government programs;

[11] Establish, coordinate, and manage a program to provide a means for public access to public information and develop and operate an information network in conjunction with overall plans for establishing a communication backbone for state government; and

[12] Adopt rules, pursuant to chapter 91, necessary for the purposes of this part.

(b) There is established an information technology steering committee to assist the chief information officer in developing the State's information technology standards and policies, including but not limited to:

(1) Assisting the chief information officer in developing and implementing the state information technology strategic plans;
(2) Assessing executive branch departments' progress in meeting the objectives defined in the state information technology strategic plans and identifying best practices for shared or consolidated services;

(3) Ensuring technology projects are selected based on their potential impact and risk to the State, as well as their strategic value;

(4) Ensuring that executive branch departments maintain sufficient tools to assess the value and benefits of technology initiatives;

(5) Assisting the chief information officer in developing state information technology standards and policies;

and

(6) Clarifying the roles, responsibilities, and authority of the office of enterprise technology services, specifically as it relates to its statewide duties.

The information technology steering committee shall consist of eleven members, with four members to be appointed by the senate president, four members to be appointed by the speaker of the house of representatives, one member to be appointed by the chief justice, and one member to be appointed by the governor,
and shall include representatives from executive branch departments, including large user agencies such as the department of education and the University of Hawaii; the judiciary; the legislature; and private individuals. The chief information officer shall serve as the chair of the committee and shall ensure that the committee is evaluated periodically.

(c) There is established within the department of accounting and general services a special fund to be known as the shared services technology special fund to be administered and expended by the chief information officer for the purposes of this subsection. Three per cent of the receipts collected from special funds pursuant to section 36-27 shall be deposited into the shared services technology special fund. Any law to the contrary notwithstanding, the moneys in the fund shall be used to fund the operations of the chief information officer and the information technology steering committee, including the employment and training of staff and any other activities deemed necessary by the chief information officer to carry out the purposes of this section.

(d) The chief information officer and the comptroller may raise funds to defray administrative costs and may accept
donations of money and personal property on behalf of the information technology steering committee; provided that all donations accepted from private sources shall be expended in the manner prescribed by the contributor, and all moneys received shall be deposited into the information technology trust account. The chief information officer may also directly receive donated personal services and personal property for which funding is not required.

(e) The chief information officer shall submit an annual report to the governor and the legislature no later than twenty days prior to the convening of each regular session of the legislature on the activities and programs under the authority of the chief information officer and the information technology steering committee, and the expenditures of all moneys received from all sources and deposited into the information technology trust account and the shared services technology special fund.

(f) The chief information officer shall submit the updated state information technology strategic plan, revised pursuant to subsection (a)(7), to the governor and the legislature no later than twenty days prior to the convening of every fourth regular session of the legislature; provided that the chief information
officer shall submit the first updated state information technology strategic plan to the governor and the legislature no later than twenty days prior to the convening of the regular session of 2021."

SECTION 3. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 4. This Act shall take effect upon its approval.

APPROVED this 02 day of JUL, 2019

GOVERNOR OF THE STATE OF HAWAII
HB No. 531, HD 1, SD 1

THE HOUSE OF REPRESENTATIVES OF THE STATE OF HAWAI'I

Date: May 2, 2019
